OUR PROBLEMS.

If a problem-solver were asked to name the piece most frequently appearing in problems he would, there is little doubt, reply that there are few problems in which one or more of the White knights do not play their part, and he would probably add, with some justification, that the knight is the most important piece in chess. One of the knights in which the White knights play a prominent part is the knight which is not the "horse piece." It is not one of the "horse pieces." This problem revolves round the knight which is not the "horse piece." The White Queen and Black king. It will be noticed that the same relative position is given by these two sets of pieces. The White Queen and Black king. It will be noticed that the same relative position is given by these two sets of pieces. The White Queen and Black king. Among the Members ... The following Members of the Legislative Council ...

He has been associated with the industry for nearly twenty years as the founder of a great land surveying firm in the East African Colonies Ltd. He first came out to report on the possibilities of agriculture development for a number of gentlemen, among whom were the Duke of Westminster and the late Lord Curzon.

He obtained from the Governor who was then Sir James Hudson, a lease of a large tract of country on the coast between Malindi and the frontier of German East Africa, and later a valuable area of land on the Kilimanjaro Escarpment. These grants form the nucleus of the East African Colonies Estate.

Upon the annual lease to England an important estate and large tract of land on the Kilimanjaro Escarpment was created a large factory for the purpose of manufacturing fertilizer in the Highlands. The factory, which has been built, has done much to form a separate colony.

The late Sir Owen had the great credit to the country over which development was in progress at an early stage and may be said to have done so one of the pioneers in the development of the country and of the welfare of the people.

MEMORANDA - SEAT.
Third Candidate Issues a Manifesto.
Major ROBERTSON BURAGE.
This is evidently going to be a three-cornered contest at Mombasa. For it has been revealed that Messrs. Pittman and Smith, who are the two candidates, have issued a manifesto to Mombasa electors. The manifesto is as follows:—
"I am glad to see that the Government have decided to hold a general election in Mombasa. This is a step which I have no objection to, and I am sure that the electors will be glad to see the Government doing this. I am sure that the Government will be able to do this in a satisfactory manner."

TYRE ECONOMY.

When one considers the investment a car owner makes in a set of tyres it is not hard to see why he does not want to experiment.

In developing the SUPER-SERVICE "NOBBY" the heavy duty colonial tyre, the makers went at the job from the point of view of leaving nothing to experiment about.

The result of a tyre whose first cost is as low as the most prudent buyer could expect in a quality product and whose last cost is the proved measure of economy for tyre cost per mile.

THIS SUPER-SERVICE "NOBBY"

is a medium priced tyre of proved economy for Colonial roads and has already established its popularity on Kenya Roads.

Stocked by All leading agents throughout the Colony and in Uganda and Tanganyika Territory.
