MANY MILLIONS

Dunlop Cord Tyres.

have proved their worth on the highways and byways of the world

The rapid rate of popularity of Dunlop Cord Tyres in all parts of the world has been matched with a growing and increasing popularity greater than has ever been known in any other type of tyre

Its popularity and worth under most existing conditions is now established beyond any question

The advantages of DUNLOP GOOD construction are open to every motorist even though first cost be a primary consideration.

THE DUNLOP "CLIFFER" CORD is a first grade tyre, costing little or more than other types of any other available make

THE DUNLOP CORD is the world's best tyre, its reliability is a revelation to those without previous experience of its qualities and its price compares favorably with all other makes

English Manufactured.

DUNLOP CORDS & CLIFFER CORDS are now stocked by

RINDERPEST OVERSEAS.

Veterinary Science Advances in Belgium.

"SILENT" VACCINATION.

The Standard of Buren has the following article on vaccination against rinderpest as stated by a commission not long ago in Belgium which has now been approved at the Grand Duchy.

Vaccination of Cattle Against Rinderpest.

In countries where rinderpest has become endemic (India, Europe, Asia and Africa) cattle are vaccinated against the fatal disease according to Kuhn and Turner's method, but has never been successful. The method consists of injecting, at the same time and into two different places, a small quantity of virulent fluid, 0.2 cc. to 1 cc., or more (taken from an animal suffering from rinderpest), and the same quantity of a vaccine containing serum in proportion varying according to the virulence of the animal, to be vaccinated. The vaccine is made by a method of immunisation which is a refinement of the method of Kuhn and Turner, and is as follows:—

It is to be injected into the neck of the animal, and is made up of a mixture of equal parts of virulent fluid, 0.2 cc. to 1 cc., or more (taken from an animal suffering from rinderpest), and the same quantity of a vaccine containing serum in proportion varying according to the virulence of the animal, to be vaccinated. The vaccine is made by a method of immunisation which is a refinement of the method of Kuhn and Turner, and is as follows:—

QUICK-GROWING CATTLE.

A KENYA cow grows twice as fast as a cow of the same breed in the States of America, which was established in an early year and sugar as reported in the report.

The Agricultural Office at Freetown, Mr. W. Robertson Howes, has recently received the following report regarding the rinderpest epidemic in the States of America.

In 1914 I found a case of rinderpest in one of my sugar plantations situated in Florida. Since that time the variety has been traced and propagated at Freetown. In my opinion, freedom from disease and the lower this disease rate is the better stock property and therefore will bear water than any other stock property in the States.

From the fact that Freetown grows twice as fast as a cow of the same breed in the States of America, which was established in an early year and sugar as reported in the report.

The Agricultural Office at Freetown, Mr. W. Robertson Howes, has recently received the following report regarding the rinderpest epidemic in the States of America.

In 1914 I found a case of rinderpest in one of my sugar plantations situated in Florida. Since that time the variety has been traced and propagated at Freetown. In my opinion, freedom from disease and the lower this disease rate is the better stock property and therefore will bear water than any other stock property in the States.

100 YEARS AGO.

And it might Refer to Abyssinia Today.

Public attention appears at length to be attracted to the consideration of a subject of the most vital national importance. British knowledge of our own country has been growing since the allied forces of Africa. This knowledge has been slowly but surely being built up in the British dominions, and is now being applied to the most important of our own country. It is the knowledge of our own country, and it is the knowledge of our own country, and it is the knowledge of our own country.

TYRE ECONOMY.

When one considers the investment a car owner makes in a set of tyres it is not hard to see why he does not want to experiment.

In developing the SUPER-SERVICE "NOBBY" the heavy duty colonial tyre, the makers went at the job from the point of view of leaving nothing to experiment about.

The result of a tyre whose first cost is as low as the most practical buyer could expect in a quality product and whose last cost is the proved measure of economy for tyre cost per mile.

THE SUPER-SERVICE "NOBBY"

is a medium priced tyre of proved economy for Colonial roads, and has already established its popularity on Kenya Roads.

Stocked by

All leading garages throughout the Colony and in Uganda and Tanganyika Territory.

Permitted Way Branched in Three Places.

PARAGUAY RAILWAY TRANSFERRED. Large Gangs Hunted in the Bush.

Owing to a series of heavy rain storms on Friday night a wondrously high flood on the Upper Paraguay River...

It was discovered that the passenger way was laid in three distinct ways...

The railway authorities have decided, however, that the passenger train run as usual...

KENYA'S CHIEF RESEARCH OFFICER LEADS UPON PLEURO-PNEUMONIA.

Preventive Work in the Colony. Infection Traced to Cattle Movement from Masai Reserve.

Upon the conclusion of the exhaustive debate on rinderpest at the 10th African Veterinary Conference in Nairobi the delegates turned to the discussion of bovine pleuro-pneumonia.

Mr. J. Walker (Chief Veterinary Officer, Kenya Colony) opened the discussion...

It was suggested that the preventive work was undertaken in the Masai Reserve...

It was pointed out that the preventive work was undertaken in the Masai Reserve...

TYRE ECONOMY. When one considers the investment a car owner makes in a set of tyres it is not hard to see why he does not want to experiment. In developing the SUPER-SERVICE "NOBBY" the heavy duty colonial tyre, the makers went at the job from the point of view of leaving nothing to experiment about. The result of a tyre whose first cost is as low as the most prudent buyer could expect in a quality product and whose last cost is the proved measure of economy for tyre cost per mile.

THE ASIATIC MENACE. Resolution by Transvaal Council. Gravity of Situation. Deposition to Inverry the Government.
