MINISTRY OF PENSIONS NOTICE

The Ministry of Pensions, London, desires to bring the following amendments to the notice of His Officers, Pension, Non-Commencement Officers and Mess of the Inspector, Military and Air Force who have been readjusted continuously overseas...

The British War Pensions Act, 1918, (Section 4) declares certain awards made between the 19th August, 1914 to 1st August, 1915 in respect of the disallowance due to Great War...

The awards now declared to be liable to be found are of the following classes: (1) Awards of permanent retired pay or pensions, (2) Awards of "all disallowance."

- (3) Awards where the date of disallowance is certified to be less than 1 year prior. (4) Final weekly allowances and gratuity (awarded before the 1st April, 1919).

In the case of awards falling within classes (1), (2), (3) and (4) above, the latest date on which claims of appeal can be made by officers and men overseas is 30th June, 1922, in the case of awards in time (1) to which the date of disallowance was under 12 months or less on 30th February, 1922.

All communications relating to appeals should be addressed by letter to the following:

WARNING

It is reported to us that certain individuals, who are determined to maintain the sale of imported flour, are in the habit of showing false income tax and stamping it as correct. Even the expert revenue officers, by mere examination of the slightest difference between our bagged flour and the local imported flour, will be able to trace the other grade.

Should any flour be offered to you which in appearance shows the slightest alteration to the corresponding grade of imported flour with you please communicate with us. Our flour is different. We and a great many other people think it is better—this is a matter of opinion. However, there is absolutely no difference in the appearance—this is a matter of fact.

THE MODERN HERRY OFF.

(From Our Own Correspondent.)

London, April 11.

The Entertainment World, from its almost complete stagnation in London, is now being revived by the new method of advertising, the radio broadcast.

It is a fact of considerable importance that the public have now an idea of the value of the new up-to-date theatre, these very early ones, people in the front row of the pit the other night and there was probably only £100 in the house. These cases are typical; the public have an idea of the value of the theatre, that they want to spend, that they want to spend, that they want to spend, that they want to spend.
