The Council feel sure that it is really the wish of the public to assist, but time is slipping away and practical help is wanted NOW.

The Publicity Committee ask you to give them a chance of selecting sufficient to make a really comprehensive display illustrating the industries, the sport, the scenery, the social life, and the native life of the Colony.

A Day's Taking Among the Trout Streams of the Highlands.

THE GURU

(By W. S. BROWNE.)

My fly and I had just finished a day's work on the hills and were sitting on the bank of a trout stream, waiting for the fish to rise. The stream was a beautiful one, with a clear, sparkling water, and the banks were covered with ferns and mosses. The sun was shining brightly, and the air was fresh and cool. I had been out for several hours, and I was feeling very tired, but I was also feeling very happy. The day had been a very successful one, and I had caught several fine trout. I was looking at the fish in my net, and I was wondering how I had managed to catch them. It was a very interesting experience, and I was looking forward to taking them home.

There has been a time when the hills were a very different place. The water was not so clear, and the banks were not so green. The fish were not so many, and the day was not so pleasant. I was looking at the fish in my net, and I was wondering how I had managed to catch them. It was a very interesting experience, and I was looking forward to taking them home.

APATHY

For nearly a month the Kenya Empire Exhibition Council has been advertising for photographs suitable for display at the Exhibition. The net result has been some eleven photographs.

The Council felt sure that it is really the wish of the public to assist, but time is slipping away and practical help is wanted NOW.

Send in to the Secretary, c/o Agricultural Department, Nairobi, any good prints you may have of the subjects in evidence. The subjects are left to your own choice. The Publicity Committee ask you to give them a chance of selecting sufficient to make a comprehensive display illustrating the industries, the sport, the scenery, the social life, and the active life of the Colony.

Indian Failing Indicated by "The Englishman"

REPLY OF DISCUSSION.

In a leading article in the Kenya Standard, The Englishman says:—
"An example is furnished by the article in the Standard on the subject of the Indian Failing, which is in drawing the attention of the population to the fact that the Indian Government, who are responsible on the whole as against the British Government, are not doing their duty in regard to the Indian Failing or Bombay."
"Failing has unfortunately been mentioned in the Colony, possibly by the wrong language of the word, but with some emphasis by the Indian Government of some of the Indian extremists."
"Whether the English is correct or not, hinges on whether the Indian Government is as interested with the view of attention to its general well-being, or whether the Government will be guided by the naive diplomacy of Mr. Montagu."
"Mr. Montagu maintains that the Indian Government are not interested in the welfare of the Indian people, but only in the view of attention to its general well-being, or whether the Government will be guided by the naive diplomacy of Mr. Montagu."
"The Englishman in Kenya, who is a leading article in the Standard, says that the Indian Government are not interested in the welfare of the Indian people, but only in the view of attention to its general well-being, or whether the Government will be guided by the naive diplomacy of Mr. Montagu."

THE KING'S RED BEARD.

(From Our Own Correspondent.)

Major Gregg of Nairobi has written an interesting paper, and the title of it is "The King's Red Beard." It is a story of the life of a man who was a member of the British Royal Household, and who was known as "The King's Red Beard." The story is a very interesting one, and it is well worth reading. It is a story of the life of a man who was a member of the British Royal Household, and who was known as "The King's Red Beard." The story is a very interesting one, and it is well worth reading.

Major Gregg gives this as an instance of low morality in the Highlands, with his knowledge of customs and religion.

"We certainly respect the King's Red Beard as having made good money, but we do not respect him as having made good money."

THE F. A. CUP FINAL

An Event Which Will Go Down to History.

INCALCULATIONS BY THE AUTHORITIES.

Record Crowd and Heavy Gamble.

(From Our Own Correspondent.)

The game in London, May 23, was a record-breaking event. The stadium was packed to the rafters, and the atmosphere was electric. The match was a classic, with both teams playing to the hilt. The final score was a narrow one, but the performance was exceptional. The crowd's reaction was unprecedented, and the event is being hailed as a landmark in the history of the game.

Close Competition.

At the game, which had been held at the stadium, the two teams were evenly matched. The play was fast and furious, with many chances for goals. The goalkeeper made several brilliant saves, and the referee's decisions were generally well-received. The match was a testament to the skill and determination of the players involved.

Police Duty.

Of course it was to be expected that the game would attract a large and enthusiastic crowd. The police were on hand to maintain order and ensure the safety of all spectators. Their duties were well performed, and the game proceeded without any major incidents. The atmosphere was one of excitement and anticipation throughout.

Railway Facilities.

Further, the railway companies were busy on showing what they could do in addition to their regular services. Special trains were run to and from the stadium, and the facilities provided were of a high standard. The convenience of the railway was greatly appreciated by the thousands of spectators who attended the game.

The Gamble.

At least 10,000 people were estimated to be present at the stadium. The betting was heavy, and the odds were close. The game was a real test of the players' abilities, and the result was a surprise to many. The excitement was palpable, and the event was a success for all concerned.

Persons are wanted for the supply of 500 to 1,000 pairs of...

WANTED.

Boiler men required for the supply of 200 to 1,000 tons to be delivered at such conditions as may be arranged. Candidates to be sent to the Kenyan Station and to state a number of years. Tenders to be addressed to the Engineering, Kenya Railway Association, P. O. Box 11, Nairobi.

PLAIN WORDS TO INDIA. A NEW SUGGESTION.
 Let Imperial Conference Decide.

MR. BARTON ARRANGED. THE KENYA QUESTION.

The *Outlook* continues its Campaign.

Mr. Barton is a firm supporter of a white India in East Africa. The following is an extract from his latest article on the subject—

"Kenya is a Crown Colony, administered as such by the Colonial Office. The name of the white and non-white who are the subjects of the Government is not mentioned in the terms which the Colonial Secretary three years ago sent us an official dispatch with which I am acquainted. I have been concerned to call attention to the interesting gloss written by the Hon. Mr. S. P. C. who has been sent to India to attack the arrangements made by the British Government with a British Colony. Mr. Barton says that for our purposes, the newly created Legislature of India will be a hindrance to our purposes, and complains that the reservation of the Kenya Bill should be cancelled now—without the consent of the Government of the Indian people."

Arranged!

Mr. Barton and his friends-should not be surprised to see remarks as those are slightly misquoting Mr. Barton's article. It would be more to the point to mention that the British Government is not in the habit of appointing a white Governor to Kenya. The British Government is not in the habit of appointing a white Governor to Kenya. The British Government is not in the habit of appointing a white Governor to Kenya.

The Baring Bank.

"I am a Jew-baiter and realize that Baring's great services to the Empire. But our dominion in India was won by force. Anglo-India has been won by force."

"THE HOUSE."
 Hosted with Security Confidence.

COLONIAL OFFICE DUMPER.

The *Manchester Guardian*, in the London, May 2, contains a long article on the question that the Government of the Indian Empire should be transferred to the Imperial Conference. The article is based on a resolution passed by the Imperial Conference in 1911 because the Kenya question is one that concerns every part of the Empire.

Mr. C. A. Swainson, of Cape Town, has written an article on the Kenya question. He says that the British Government is not in the habit of appointing a white Governor to Kenya. He says that the British Government is not in the habit of appointing a white Governor to Kenya.

THURSDAY, MAY 21, 1920.

W.E.A. Memorial Day is observed today in the United States for all American soldiers fallen in war.

The day was first inaugurated in memory of those who fell in the Civil War, when the Federal troops of the North pinned their flags upon the victory sign of the Confederate States of America.

Confederates of the South, they were fighting, terminating in one of the most desperate battles which ever took place in this country.

Soldiers fallen in the Spanish-American war, who died for the United States, and their relatives are also commemorated.

They During the Civil War, the Memorial Day was consistently on the first day of the Southern Confederation.

At one time, in fact, in the political situation was so strained between Great Britain and the United States, that we were within measurable distance of a rupture.

The terms of this date speak of the fulfilment desired by England since the "Trent" affair, when the Confederate diplomatic efforts had been to England to arrange for the "Trent" affair, when the Federal forces in a British ship, the "Trent" affair, however, was understood that the Confederation was hardly to be doubted that the success of the production of this would have resulted a different situation. Space will not allow a review of the history of the Memorial Day. But it may without the greatest struggle known to history.

The very fact that in many cases, friends, relatives, even brothers, were fighting against each other, seems to have been the only way to their desire, to maintain the honor of their North or South. Operations were spread over thousands of miles and involved the duration of this war, was the result of the success of the Confederation and the American Government, and to their own regret, and to their own regret, and to their own regret, and to their own regret.
