DODGE BROTHERS' MOTOR CARS

The following is a copy of a letter received from a client, the original of which can be inspected in our office:

"You will be glad to know that my new Dodge Brothers Touring Car, purchased from you in December last, is giving me even more satisfaction than my previous Dodge. Increasing the weight of the rear axle has improved the riding qualities of the car considerably, and the general finish is excellent. My farm is 30 miles from Nyeri, and on the last trip to Nairobi, I very carefully measured the petrol used and over the 126 miles of hilly and dusty road, the car consumed exactly five gallons of petrol, averaging nearly 26 miles per gallon. The oil consumption is between 720 and 1,000 miles per gallon, and the 32 x 4 Cord Tyres show no sign of wear. I have no objection to you using this letter if you wish."

AFRICAN TRADE ORGANIZATION.

The closing date of the 2nd Annual Standard Building Fund is announced as being the 15th of this month. When the Standard opened its columns to the public for the first time, containing the names of those who had contributed to the fund, it was thought that a somewhat nominal sum would be raised. It was with no idea of self advertisement or glorification. The leading spirit in the movement in our mind was "What a simply splendid idea this is of giving children the chance of a holiday by the seaside at Mombasa. But surely, a little something extra for side shows, or brightening up the grounds, will not do any harm." So the fund was started, and very quickly it was "touching the spot," so far as the public was concerned. Contributions have come from far and near, and this notwithstanding the fact that there has been no attempt to press people to give. It was a mere suggestion that if anybody sympathized, the help would be gratefully accepted. It has been found that these people have been very generous of helping, and that no doubt is the truth. It is probable that our fund will reach the two hundred pound mark before the closing date, and several of our men have been very generous with larger gifts, or paid for their own shares. In view of the small amount of advertising placed against the matter, it is surprising that the public has responded so liberally.

Kenya by our detectors at home, is a charitable contribution on the part of the Kenya Colonists that has not found time from his busy duties, and permits, to develop thought and leads to a giving pleasure to children on such a generous scale. In the hands of the very noble committee which will attend to the allocation of our funds, we may be sure that the money will be well spent, and that it will go towards the pleasure and enjoyment of the people who have so kindly and so liberally responded to the call. We should be careful to have good fruit. When we follow the path, we will be sure to find it. We should be careful to have good fruit. When we follow the path, we will be sure to find it.

General News.

A Government public relations committee is to be constituted to give publicity to the work of the various departments of the Government. The committee will be headed by the Minister of Information, and will be composed of representatives of the various departments.

Ami, D.C. Marok.

Mr. Robert Bernard Marok, a well-known and successful business man, has been elected to the office of Member of Parliament for the constituency of Nairobi. He was elected on July 1, 1939, and will take office on July 16, 1939.

Infected Areas.

The Government has issued orders for the disinfection of certain areas in Nairobi, which have been found to be infected with the disease of the East African trypanosome. The areas are the grounds of the Kenya Club, the grounds of the Kenya Club, and the grounds of the Kenya Club.

Stamp Ordinance.

The Stamp Ordinance, 1939, has been passed by the Legislative Council. It provides for the issue of stamps of various denominations, and for the collection of stamp duty on certain documents.

SPECIALLY TEMPERED 3 1/2" STEEL AXES FOR CUTTING HARD WOODS.

The following is an extract of a letter received from a client.
"With reference to the Axes I have purchased from you I have to say they are the best I have handled and are the only ones I have used that had almost given up hope of getting an Axe to stand up to the work. I may say that those I still have of the first engagement I bought over a year ago (the balance value) are as good as when I purchased them, though in use daily."

OFFER HOLDING IMPLEMENTS
(as used and carried by the Coast Range.)

The following is an extract of a letter received from a client.
"I cannot speak too highly of the Coast Range Holes. They leave the Panga a long way behind in hole digging. The usual holes deep with those holes. I have also found them very use-ful in hollow trees for cutting away the small roots underneath."

CHIEFS' APOLOGIES.

Amongst those charged with murder was an old assistant who, strange to relate, was not a Masai but a Kikuyu.

Overruled.

After a lengthy hearing, seven, including the middle man, were convicted of murder or abettment to death.

Obtained From All Dealers.

As the conclusion of the hearing a number of the chiefs of the Masai, spontaneously and in unison, expressed their regret for the outbreak.

Various other matters also appeared in the news, amongst them, and instigated by the medical staff, they got out of the control of the blades.

The effect of the medicine man on his followers is believed to have very great indeed, and after the outbreak had commenced he told some of the rebels to go in for the Government but to kill some persons there and bring them back from which he would make a wonderful medicine.

This order was not carried out although an attempt was made.

DODGE BROTHERS MOTOR CARS

The following is a copy of a letter received from a client, the original of which can be inspected in our office:

"You will be glad to know that my new Dodge Brothers Touring Car, purchased from you in December last, is giving me even more satisfaction than my previous Dodge. Increasing the weight of the rear axle has improved the riding qualities of the car considerably, and the general finish is excellent. My farm is 30 miles from Nyeri, and on the last trip to Nairobi, I very carefully measured the petrol used and over the 126 miles of hilly and dusty road, the car consumed exactly five gallons and dusty road, averaging nearly 26 miles per gallon. The oil consumption is between 750 and 1,000 miles per gallon, and the 32 x 4 Cord Tyres show no sign of wear. I have no objection to you using this letter if you wish."
