DODGE BROTHERS MOTOR CARS

They Now Have Heavier Sidewalls

The new Goodyear Tyres have been still further improved by making the sidewalls thicker and tougher. Ruts and Stones need not be feared if your car is tyred with Goodyears.

And the new rubber compound recently discovered by Goodyear Chemists is so tough that its resistance to rough road wear is nothing short of phenomenal.

Fit them to your car and see for yourself how they outperform any tyre you have ever tried before.
