question of the Native Council, or Advisory Board, brooded many months ago. We consider that the matter ultimately should have a recognised standing on such a Council being for great as it may do, that a Council is an essential and uncontrollable necessity. The Executive Council should be a Member of the Legislative Council, in order that the voice of the Native may be more clearly heard or interpreted. We have no faith in the idea of a Native Council, the choice of a suitable person being left with His Highness the Governor, as the Council will find a better and not a hindrance. But as a good one has the Home Government should have a representative, by having him in person, to see that the voice of the Native may be more clearly heard or interpreted. The Executive Council should be a Member of the Legislative Council, in order that the voice of the Native may be more clearly heard or interpreted. The poultry industry has developed
astonishingly during recent years,
consequently the Institute has had to

To establish the Institute on a
national scale it is necessary for the
Institute to have a wide representation
of the results of scientific investigations

problems connected with the industry.

The National Poultry Council was
formed in 1920 for the purpose of
representing the interests of the
industry and of co-ordinating the
efforts of the various branches of
the industry.

The National Poultry Institute for
Africa was established in 1923 and
has since that time been engaged in
the study and promotion of the

The Romans needed Gaul they pushed back the Teutons and occupied the country with their splendid civilization. When Julius Caesar led the Romans they swept over the boundary again and by 80 B.C. had established themselves as far as the Rhine valley. The peace of Hydrunt in 207, by France and the Rhine, the boundary between Germany and France from Biele to Gernsbach. It was an easy task for the Romans to establish the Rhine along the boundary along the Rhine, and the Gauls of Caesar followed. The fact was realized in 180, when the whole of the left bank of the Rhine was formally ceded to France. The year of 1700, however, gave back the Rhine to Germany as her lot, but her boundary was not the original boundary of 1800 to 1850, and a provision to the Rhine boundary would give France her ancient Gallic Kingdom once more. The suggestion was made, therefore, by something of the nature of a business 1800, which it would mean a friendly arrangement of the territory. HORTICULTURE IN KENYA.

STRONG SUPPORT FOR AN INDEPENDENT SOCIETY.

Proceedings of a Meeting Yesterday.

LADY MUREL JEX-BAKE OUTLINES THE POSITION.

A meeting of horticulturists was held in the New Stanley Hotel yesterday morning in connection with the proposal on foot to organize a Horticultural Society for Kenya.

Lady Murel Jex-Bake presided and there was no less than 20 horticulturists present. Mr. Mitchell also participated in the discussion which was held on the subject of the proposed society.

The speaker pointed out that the first duty of the Horticultural Society would be to establish a list of horticulturists in Kenya in order to see if they could organize to manage the Council of the Agricultural Society of Kenya.

She thought things over and decided that the introduction of the Horticultural Society would be a great advantage to the horticulturists in Kenya.

The alternative was to what an independent horticultural society to be affiliated with the Royal Horticultural Society in England, and although working in friendly action with the Agricultural Society to retaining other functions of action.

A member of the committee had pointed out the advantages of the Horticultural Society.

That the Horticultural Society would be a great advantage to the horticulturists in Kenya.

What Start-Rite Shoes do

Start-Rite shoes and shoes for children prevent foot-strain, turn-in ankles and fallen fetters. They keep the bones of the little feet in position till the bones are accented properly—strong and beautiful feet.

Call and let us explain the ingenious way in which Start-Rite shoes and shoes are built. We can recommend them with the utmost confidence. In addition to preventing flat feet they give excellent wear, and they are supremely comfortable the very first day.

DODGE BROTHERS MOTOR CARS

In buying a Motor Car consider what the cost will be when distributed over a number of years. What is the cost a year for satisfactory performance after the first year? After the second—and after the third—month? The world wide fame of Dodge Brothers Touring Cars rests chiefly on the ability to continue giving faithful service long after the period of life normally allotted to Motor Cars.
