(From PARIS) (Continued.)

should likely in sugar, a woman is pointed by a three-quarter cape of plain lace, standard cut. The skirt is checked, and the side is through which the same are passed. You also know with the elastic dress practical such this is for traveling especially when a simple white tulle-traveler to make which means the dress with a minimum of weight. For shopping or walking in the morning, also, the cape and skirt procedure, as a second use.

The dress which is the most popular of the season is the dress which is the most popular of the season is the dress which is the most popular of the season.

LACE TRIUMPHANT

Those who have invested in lace have the satisfaction of being still in the movement. Lace which has disappeared from our thoughts, but from our eyes and judgments. It is no longer an over-the-hill idea, but a fashion which is becoming more and more popular. A large stock of lace is being made and marketed, and the lace is becoming more and more popular. A large stock of lace is being made and marketed, and the lace is becoming more and more popular.

NOTE ON LIVES

After a period of being a thing of the past, the lace dress is making a comeback. It is no longer an over-the-hill idea, but a fashion which is becoming more and more popular. A large stock of lace is being made and marketed, and the lace is becoming more and more popular.

"She is no Gentleman"

The "She is no Gentleman" is a story of a woman who is not what she seems. She is a woman who is not what she seems. She is a woman who is not what she seems. She is a woman who is not what she seems.

The lace dress is a charming garment in the early days of the season. It is a dress which is not only beautiful but also practical. It is a dress which is not only beautiful but also practical.

Should British Rights be Ceded.
 FRANCIS AND ENGLISH

Entrepreneur in a recent issue of the Morning Post writes in view of the fact that the French are refusing their consent to the proposed return of the Sultan's Kingdom to the British Empire, and that the whole of the French East African colonies have been handed over to the British Government, it is necessary to consider the rights under the Capitulations in French Morocco, and whether they should be retained or not.

It may be well worth while to examine the position under the Capitulations in French Morocco, and whether they should be retained or not. The Sultan's Kingdom was handed over to the British Government by the Treaty of Tangier in 1925. The Sultan's Kingdom was a protectorate of the British Empire, and the Sultan was the nominal ruler, but the British were the real rulers. The Sultan's Kingdom was a protectorate of the British Empire, and the Sultan was the nominal ruler, but the British were the real rulers.

The question of the Capitulations was a subject which has been discussed in French Morocco, the effects of which are known to all those who have any personal knowledge of the subject. The Capitulations were a series of agreements which gave the British and other foreign powers certain privileges in a purely commercial sense. The Capitulations were a series of agreements which gave the British and other foreign powers certain privileges in a purely commercial sense.

The British Government is now faced with the question of whether it should accept the offer of the Sultan's Kingdom to the British Empire, and whether it should accept the offer of the Sultan's Kingdom to the British Empire. The British Government is now faced with the question of whether it should accept the offer of the Sultan's Kingdom to the British Empire, and whether it should accept the offer of the Sultan's Kingdom to the British Empire.

What Start-Rite Shoes do

Start-Rite boots and shoes for children prevent friction, turned-in ankles and fallen insteps. They keep the bones of the little feet in position all the foot is strong enough to stay in that position. They develop arches fast—strong and beautiful feet.

Call and let us explain the ingenious way in which Start-Rite boots and shoes are built. We can recommend them with the utmost confidence.

In addition to preventing flat feet they give excellent wear, and they are supremely comfortable the very first day.

DODGE BROTHERS MOTOR CARS

In buying a Motor Car consider what the car will be when distributed over a number of years. What is the car's reputation for satisfactory performance after the first year? After the second-year after the third—and fourth? The world wide fame of Dodge Brothers Touring Cars rests chiefly on its ability to continue giving faithful service long after the period of life commonly allotted to Motor Cars.

one he makes his appearance in a flock of haggard grins the farmer is holed to realize his crop. Now it will do nothing to a child care of the ground. The farmer will test study all these matters, and to test the applicability of a new sort of several varieties of all Kenya (K) graded maize it is encouraging to see that the Railway charges for handling maize at Kisumu are very low indeed (one shilling per ton for handling at Kisumu per and 10/- for 2000 lbs. at the station). Railway Station would almost seem to be going to an age which encouraged unskilled labour. Not everybody would care to undertake the task especially in the warm hot climate. We understand, however that the Japanese output is largely Native grown, so our Native objection to their doing such a real work for themselves. We favour a great future for the maize industry, once it is handled on efficient and wise lines. We are glad to see our faith in the maize of Kenya and the U. B. in conjunction with the Agricultural Department of Kenya.

There has been a great increase in the sale of
UPLANDS PICNIC HAMS.

In the last three months.
REASONS:—(1) Because they have been well advertised.
(2) Because they have in consequence, become better known.

Their description is repeated for the benefit of those who have not yet become buyers.
PICNIC HAMS—Possessing all the "Uplands" features—mildness of flavour and consistency of quality, these are ideal for boiling and slicing, hot and cold, a useful supplement for every meal of the day.

MAZE. One of our most important staple industries has now received its accolade from the Government of Kenya and the grading and handling of maize is carried out in favour on South African lines. Ever since the recently appointed General Manager of the Uplands Railway has taken matters in hand, we have noticed an inclination to lean with favour on systems and machinery have their genesis in the Uplands. Conditions at that part of the world are very similar in many ways to conditions here, and given the right man to apply them, we must always welcome innovations which have been tried and tested elsewhere. So the "block station" and pooling system will have to be better for the improvement, rather will they welcome the advent of up-to-date methods in handling and dealing with export consignments. Pooling seems to indicate a system of imposed co-operation, and this, too, is a problem is correct, will be met when they learn for days those who are not in the industry, and in mass handling and sale. The conditions attached to the shipping of maize are not excessive. Weight and size of bag and weight of contents are fixed. When the head (K) is placed on the bag, the material will have proved the test of the Kenya Government that all buyers who import maize, and only in regard to standard, if they, in any way, is to avoid a system to

On his arrival at Kilindi Hill, Excellency the Governor will be laying of the first brick of the Kilindi river water pipe.

The Convention.
It has been definitely decided that the 10th Anniversary of the Convention of Associates of the Chief Officers of the Kenya Police, to be held on September 10 at 10 a.m. at the Railway Station.

A Maze Confusion.
Mr. A. H. Stein writes to point out that the word "Kilindi" should have been "Kilindi Hill" and "Kilindi Hill" should have been "Kilindi Hill". The word "Kilindi" being omitted entirely after the word "Kilindi Hill".

What Start-Rite Shoes do

Start-Rite boots and shoes for children prevent foot strain, turned-in ankles and flat feet. They keep the bones of the little feet in position till the bones are strong enough to stay in that position. They develop perfect, strong and beautiful feet.

Call and let us explain the ingenious way in which Start-Rite boots and shoes are built. We can recommend them with the utmost confidence. In addition to preventing flat feet they give excellent wear, and they are supremely comfortable the very first day.

LEAGUE COMMISSION ADVISE TO ANGLO-FRENCH.

NATIONS SHOULD CONFER

[Transcript of a speech by the League of Nations Commission on the Mandates for the Eastern Africa and the Western Pacific Mandates, given at the League of Nations Conference on the Mandates for the Eastern Africa and the Western Pacific Mandates, held in Geneva, Switzerland, on August 10, 1920.]

The Commission, in its report, states that the Mandates for the Eastern Africa and the Western Pacific Mandates are of a special character, and that they are to be administered as if they were integral parts of the territories to which they apply. It further states that the Mandates are to be administered in accordance with the principles of the League of Nations, and that the Commission has advised the Anglo-French Commission to accept the Mandates for the Eastern Africa and the Western Pacific Mandates, and to administer them in accordance with the principles of the League of Nations.

The Commission also states that it has advised the Anglo-French Commission to accept the Mandates for the Eastern Africa and the Western Pacific Mandates, and to administer them in accordance with the principles of the League of Nations. It further states that the Commission has advised the Anglo-French Commission to accept the Mandates for the Eastern Africa and the Western Pacific Mandates, and to administer them in accordance with the principles of the League of Nations.
