The price of Duple Brothers Motor Car is a guarantee of its value. Built by their own workers, to finance themselves; selling directly through dealer to purchaser; making nothing in the price of the car to support a low service policy; concentrating on one class of their complete line, ensuring the greatest interest in financing every body-type with special finance. Duple Brothers is actually able to construct a considerable amount of money as the manufacturer and seller of each car. This saving is not only reflected in the price; it is returned to the product itself and is thus very much on the purchaser's own value for investment.

**COMMERCIAL AND PRODUCTION.**

One of the several excellent migrations emanating from the recent session of the Associated Chambers of Commerce was that designed to increase the value of the Association and as a recognized medium for the expression of views on commercial problems. The intention of the Associated Chambers is to approach established bodies such as the Coffee Planters Union, the Kenya Farmers Association and the Plateau Milk Producers Association and to invite their participation in co-operation in settling the controversy and in view of the inclusion of farmers organizations in the membership of the Associated Chambers.

A number of years ago in the course of a fit of enthusiasm and a very indifferent public dinner, the delegates of the Associated Chambers and the Government assembly berated the latter the former group in that very delectable ceremony before the Hon. Excelsior Sir Edward Grey. We think his noble reply adopted on the 10th anniversary of his test for the Kikuyu people, the first speech of the day, was the subject of brackets, the first speech of the day, was the subject of brackets, the first speech of the day, was the subject of brackets.

It may be recalled that the Hon. Grey's reply was the subject of brackets, the first speech of the day, was the subject of brackets, the first speech of the day, was the subject of brackets.

The marketing side of the affairs without reference to the action of the community. The business is it probably to be complete facilities for that and if any widening of the scope of the Association's influence results in regulation or improvement of this industry, it will be a very valuable result. There is no room today for public affairs. But the Associated Chambers and the Government have their particular tasks to perform and instead of the Association's influence being used to the detriment of the country—it will be better if the responsibility be fairly and sensibly divided.

The P. C. Standard for Aylesbury Ducks.

A few weeks ago a stamp-out of what was called a mule on the bill of an Aylesbury Duck was a defect and as the time for the sale for a certainty whatever it was or was not a mule, ducks have received by the last mail the newly published standard for the Poultry Club standards and I am not giving the standard for Aylesbury Ducks.

ARE YOU FURNISHING?

If you are buying furniture of any kind, whether a single article or a complete house-furnish, it will pay you to inspect our stocks.

Good Furniture is an investment. Bad furniture is a waste of money. This was proved last week at an auction sale, where a suite made in the factory five years ago, was sold at a price higher than our price for the same articles new.

Auction sales of Furniture are often traps for the unwary. Many of the articles offered are made up specially for disposal in this way. The maker is unknown; you have no guarantee behind to protect you; no course of appeal and no security beyond your own judgment.

Every article turned out by our Factory is entrusted with the reputation of our Firm for honest-sober workmanship and materials, and you have confidence in knowing that any Furniture made or supplied which does not come up to our standard or to your expectations will be replaced without question.

Our Furniture Factory is the largest in the country and customers are invited to inspect this at any time and to see the conditions under which their goods are made. We have stocks of seasoned timber in plain and ornamental woods and employ the most skilled cabinet makers and carpenters available.

Our Showrooms are stocked with representative lines, but your own ideas can be carried out or modifications made in design, finish or materials. Estimates are given before work is put in hand and we ask for your orders with every confidence that you will be entirely satisfied.

"Any old thing" is not good enough for your own home. You want the best and you can get the guaranteed best without any greater outlay than you would have to make for doubtful and unguaranteed second goods.

We quote two representative lines in this department that have sustained our reputation all over the country.

The "Colonial" Suite. Made from seasoned and selected Podo, in any finish. Comprises: Wash-room with drawer; Dressing Table with mirror; Washstand with two drawers and shelf; two chairs, reed seats; three-piece Iron Bedstead. Price: Shs. 395/-.

TEST MATCH CRICKET.

Probable Figures in the S.A. Team.

SHERWELL & FROILER. One of the most interesting pieces of news to reach England at this time says the African Army was sent to South Africa and the only player left in an unimpaired condition is the one who has played for England in this match cricket and it will mean that they will be in a strong team.

A Fine Record. That he is a cricketer of a certain reputation is proved in an unimpaired manner in the Test Match with England in Johannesburg in 1906.

A Great Bowler. So far as one can judge at present, a most most likely that Fowler will be chosen for the top to England next year.

His figures in Test matches with England—six in 1906-07 and three in 1912, the year of the first tour to South Africa—do not seem very impressive, but an occasional occasion during the tour in this country he proved most effective.

He is a cricketer of a certain reputation is proved in an unimpaired manner in the Test Match with England in Johannesburg in 1906.

When you see the specimen of the AFRICA AGRICULTURAL

Has he ever been visited or taken care of?

I have grown Agave for some years

You do not tell me what soil you are working on

ARE YOU FURNISHING?

If you are buying furniture of any kind, whether a single article or a complete house-furnish, it will pay you to inspect our stocks.

Good Furniture is an investment, bad furniture is a waste of money. This was proved last week at an auction sale...

Attention sales of Furniture are often traps for the unwary. Many of the articles offered are made up specially for disposal in this way.

Every article turned out by our Factory is entrusted with the reputation of our Firm for honest sound workmanship and materials.

Our Furniture Factory is the largest in the country and customers are invited to inspect this at any time and to see the conditions under which their goods are made.

Our Showrooms are stocked with representative lines, but your own ideas can be carried out or modifications made in design, finish or materials.

Any old thing is not good enough for your own house. You want the best and you can get the guaranteed best without any greater outlay than you would have to make for doubtful and unguaranteed auction goods.

We quote two representative lines in this department that have sustained our reputation all over the country.
