BARRISTER SUSPENDED.

Judgment in Nairobi Case of K. S. Chowdhury.

In the Supreme Court Nairobi, on Thursday, His Honour the Chief Justice delivered judgment in the matter of K. S. Chowdhury, barister-at-law.

The Chief Justice said he received a communication dated October 8, 1922 from the Law Society which was forwarded to the Attorney-General to whom it should have been sent in the first place.

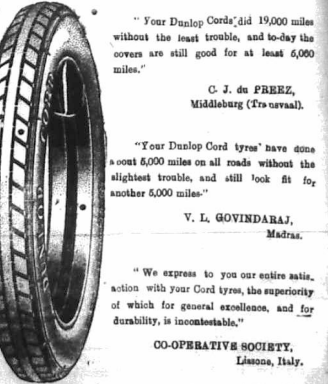

The communication was that supported by an affidavit which he did not wish the absence of an affidavit affected the respondent's suspension.

The respondent admitted receiving Shs. 1,400 as a bribe...

He could not believe that Mr. Schwartz was more credulous than that of the respondent...

Mr. Chowdhury then asked His Honour the Attorney-General whether he was prepared to support the suspension of Mr. Chowdhury...

DUNLOP COR TYRES made in England are giving satisfactory service all over the world.

"Your Dunlop Coras did 19,000 miles without the least trouble, and to-day the covers are still good for at least 4,000 miles."

C. J. du PREEZ, Middleburg (Transvaal).

"Four Dunlop Cor tyre" have done about 6,000 miles on all roads with the slightest trouble, and still look fit for another 6,000 miles."

V. L. GOVINDARAJ, Madras.

"We express to you our entire satisfaction with your Cord Tyres, the superiority of which for general excellence, and for durability, is incontestable."

BRITISH EMPIRE EXHIBITION 1924.

Accommodation is offered in the Kenya Section of the East African Pavilion for those firms or individuals desirous of displaying approved exhibits of their own growth or manufacture.

The cost will be approximately Shs. 25 per square foot of floor space occupied, plus share of cleaning, lighting, etc.

Plan of Pavilion may be seen with, and applications stating space required and particulars of exhibits should be furnished to, the Secretary, Kenya Empire Exhibition, Council, c/o Department of Agriculture, Nairobi, before 30th June, 1926.

APHATHY.

FOR NEARLY A MONTH THE KENYA EMPIRE EXHIBITION COMBINE HAS BEEN APPEARING AT PHOTOGRAPHIC EXHIBITION AT THE Exhibition. The net result has been first class!

The Council feel sure that it is really the work of the public to note, but time is slipping away and protest will be wanted soon.

Send in this protest now! you may have of which the nature is indicated in the enclosed. The Public Council will give these a chance of being displayed in a really complete display illustrating the exhibition, to meet the sympathy, the social life and the welfare of the Colony.

Justice Bannister deprecates the practice of legislating by Order in Council. He says that the practice is a dangerous one and that it is a violation of the principle of the separation of powers.

The Government will appeal to the public to support the exhibition.

U. S. RUBBER BELTING

The Good Belting You Want

It is good because its construction makes poor production impossible.

The inner layers of duck are seamless—a tough enduring compound. Between those layers are coats of rubber fabric. The whole is vulcanized at high pressure, so that the rubber is impregnated from top to bottom.

This means that U.S. Rubber Belting will stand hard wear for years. It is made by the oldest and largest firm of Rubber Manufacturers in the World.

CURRENT TOPICS.

In years gone by there have been many Associations for the furtherance of East African interests in London. They have had various titles. Now we have the East African Chamber of Commerce, the Manchester, Liverpool, Birmingham and Belfast Chambers of Commerce, the Associated Publishers, the Committee, the Associated Chambers of Commerce of Kenya and representatives of the leading East African producer industries. The number is growing.

The fact of the matter is that there are only one or two real ways by which real production in Kenya, Home politics and commercial life. The first and most obvious is by having an official representative in London, paid by Government, like the Agent-General of the self-governing colonies, who would take his own office from that country and reside permanently on his own initiative in London, or failing this in some of the Colonies and Associated Chambers of Commerce paid jointly by these bodies. We want in short, a gentleman or authority representing Kenya interests and in touch with local movement here, and an authority representing the other side. The interests of the local agribusiness and producer are not always identical with Home interests. We want a man, not a committee.

A group in Nyasaland has just established a Home agency office in the Barkley Road, London, styling themselves "The Nyasaland General Agency and Information Bureau." But this seems to be a personal enterprise and not a public or official one. It has sent a most attractive illustrated pamphlet, beautifully printed, on art paper. It claims to be representing the producer, the opportunist, the investor and producer. It acts as agent and is prepared to float companies. As a private business...

deal enterprise like this may or may not succeed; but it is not precisely the kind of thing that we would like to see a Col. Pennell representing Kenya in London.

Of all the "fish" stirred on public matters the preponderant view is generally the most healthy. But when this academic authority is superadded to such a Colonial Field Officer, as in the case of experience, as in the case of Arthur Berridge Kitch, whom we honor before giving him the honor of a knighthood for a political honor, then this British Professor of Statistics at Edinburgh "All experience, notably in British Africa, establishes the fact that the creation of a dominant white population is inconsistent with normal development. It is a singular instance, postulates two kinds of unfair falling and oppression arms.

In the first place it has been actively by means of a white man that the tribal savage has emerged from abject and predatory life to settled industrial and civilized conditions. One recalls the conditions of the kingdom of Chaka and Cetshwayo in the present of the late King Zulu. In the former state he was a magnificent ruler, but not a man on slaughter. In his present state he is a feeble, effeminate ruler, doing police work splendidly, and has developed into a settled industrial worker and artisan. Then what is the "normal native development" that the Professor means to give? We know it, if by the professor's own admission.

In a book for thousands of years—long enough for any "normal development." In short, if the white man led not some to South Africa the native would have been precisely the same today. Between various white men there comes a little more and certainly less in some regions would be more devastated periodically as in the past. The Professor cannot be the house for the tropic. What is the matter with Sanditch?

Thinking of logic, a correspondent in the Uganda Field recently discovered the effect of a picture on a

NERVOUS DEBILITY

Miss Elizabeth Hyde (Mrs. F. S. Hyde) writes: 'Some three months ago I had a severe attack of Nervous Debility. A friend suggested I should try a course of Phosferine. I accepted this advice, and after a few days had considerably better, and the end of a fortnight had recovered my usual knowledge. I am very pleased that during the recent influenza epidemic my immunity from that disease was due entirely to Phosferine. I find that Phosferine is excellent both for the adult and for the child with convulsions or children. When my little son is laid up, he can take Phosferine for the same purpose. I have used it many times, and it has always proved to be a very valuable remedy. I have used it many times, and it has always proved to be a very valuable remedy.  The first returned to this coast and to this address in the morning. The Mission Hospital at Kisumu had been notified of the death of a young man who had been admitted to the hospital on the 15th inst. It was found that he had died of a fever which had been contracted in the bush. The patient was a young man of about 20 years of age and had been in the hospital for about a week. He had been suffering from a fever which had been accompanied by delirium and had died on the 18th inst. The cause of the fever was not ascertained but it is believed to have been contracted in the bush.

LYMPHANGITIS IN HORSES. Curative Treatment.

PAPER BY MAJOR TREHILL, MADAGASCAR.

Ulcerative lymphangitis, a serious equine disease in Kenya...

TWICE A DAY TAKE SANATOGEN (The True Tonic Food)

It will increase your vitality—tone up your nerves—and invigorate your whole system.

Sanatogen twice a day means a better day's work—means greater energy and staying-power—means that you feel brighter, fresher and keener all day, in spite of this depressing climate. Try it!

A famous French Physiologist has demonstrated in the "Lancet" the increased vitality in the blood and nervous system...

Sanatogen is as natural as that of ordinary food. It is made of wheat and barley. It gives it more to eat and more to drink. It is as natural as that of ordinary food...

Start taking Sanatogen to-day and buy a bottle at the nearest chemist or store.
