GOVERNMENT WINS ON SINGAPORE DEBATE.

Conservative Motion Defeated.

GENERAL SMITH WHOLEHEARTEDLY SUPPORTS ABANDONMENT.

Labour's "Moral Centre."

STRENGTHENING LABOUR OF NATIONS BETTER THAN NEW DOCK.

The Government has scored a victory over the abandonment of the Singapore Dock.

General Smith supports the Government as he believes a new base to be out of keeping with the spirit of Wellington.

Labour's "Moral Centre" is the only one that has not abandoned the Government.

BUSINESS STRIKES TO CONTINUE.

Deadlock in the Negotiations.

EMPLOYERS' OFFER REJECTED.

London, March 25. A deadlock now exists in today's railway negotiations and the strike will continue.

The breakdown in the negotiations in the railway industry has led to an increase of the striking weekly provision of the remaining three shillings to go to arbitration.

Both sides have agreed to attend a Conference if called by the Minister of Labour when the Government thinks the time opportune.

[It was announced by the Minister of Labour in the House of Commons on Monday that the Government will not attend a Conference to settle the dispute, including the formation of legislation to provide for the re-education and control of London traffic as recommended by the Court of Enquiry.]

CLASS AREAS BILL.

Consents by South African Press.

REPARATION.

[UNDER OUR CORRESPONDENT.] The Johannesburg Mail, newspaper, has been sent to the Indian Department, and it is stated that it would have been sent to the Indian Department before the bill was published. The paper was sent to the Indian Department by the Indian people as a protest to the Government, and in view of the considerable strained relations between India and South Africa, there was special obligation to proceed very carefully in a matter of this kind. The Mail advises Indians to be moderate and prudent in their attitude, and to avoid any...

The chief doubt we have in regard to the bill is whether it will not be too far-reaching. It goes far beyond the ordinary provisions of the bill in that it provides for the appointment of a committee to investigate the reasons against the bill, and it does not do so through the ordinary channels of the Government, but through a special committee. The only hope is that the bill will be amended so as to remove the objectionable provisions, and to leave the bill in its original form. The bill is a very important one, and it is to be hoped that it will be passed in its original form.

Mr. Duncan's able and thoughtful analysis of the bill is a most valuable contribution to the discussion of the bill. He points out the many defects of the bill, and he suggests many amendments which would make the bill more acceptable to the Indian people. His suggestions are very reasonable, and they should be taken into consideration by the Government. The bill is a very important one, and it is to be hoped that it will be passed in its original form.

A trump card is something to be prized about only if circumstances permit the playing of it. The high quality of Brooke Bond tea is one trump card, and the vacuum in which we pack it, enables us to "play" it over you.

There is no fear of Brooke Bond tea deteriorating before you get it. The tin harbours no ten-detracting tropical air. What a treat it is to get good tea as fresh as Brooke Bond in a tropical country like this!

The Class Area Bill is, undoubtedly, class legislation, but the question is whether the present position is not a more serious and avoidable hardship than that point and it should be emphasized that the bill does not seriously infringe upon existing rights. Whether it will furnish a permanent solution of the problem is open to doubt.

Even if full advantage is taken of the bill it does not follow that the Indian population will be reduced. It may indeed be increased. It is to be hoped that the bill will be passed in its original form.

It would be a wise policy to adopt greater precautions in the future. It is to be hoped that the bill will be passed in its original form.

No responsible politician who supports the Class Area Bill, in the hope of all, we are sure, General Curzon's support, should not be surprised if he is surprised that it is not passed in its original form.

Profiteers Whom the Authorities Are Discovering.

INCREASED TAXATION.

Anglo-French Relations Take on a New Aspect.

(From Our Own Correspondent - Germany.)

Paris, February 22. Doubtless the cabinet your government with a lack of vigour.

Some little time ago our friends the water rickshaw, an invention which will not let you down however many hours each day you are called upon to have to make it in use.

Profiteers Whom the Authorities Are Discovering. In these times of general demoralization that their employers should add to the list of their duties the tax on profit was defined by the law of 1901, which established it in principle.

Profiteers Whom the Authorities Are Discovering. The imperial order, which, with the aid of the Ministry and the Ministry of Finance, has been issued, is not so much a new law as a new interpretation of the law.
