The 1924 Hudson with the new 6 Cylinder Motor, built on the solid Super-Six platform gives smoothness exclusive to Hudson.

Also will mention you that in performance, and comfort, the new Hudson Super-Six provides "ideal transportation" at a price which never before has produced such distinction.

PULIT POLITICS.

that the Hon. A. O. Fraser is hopelessly out of touch with East African affairs and out of date in his general knowledge. Had we had any doubt that there was any discontent in Ceylon on the subject of the Indian election in Kenya we would have had no hesitation in asserting that the use of the pulpit in Westminster Abbey was a deliberate movement in furtherance of definite political aims, but being assured of any expressed intention by the people of Ceylon, we can only assume that the diatribe on human greed as exemplified in the mind of the speaker by the acts and aspirations of the people of Kenya was selected as a very apt, but popular illustration of a theme which has been very thoroughly repeated. It seems almost as if every prominent public man who has been the most resolute connection with the Government of the Principality of Ceylon who has been entrusted with his fellow man in this settlement and Independence Colony. We do not enter the strongest protest against the use of the pulpit in political matters to the elevated pulpit of Westminster Abbey for the chosen gentleman's only claim to local knowledge is three years' experience as a missionary in Uganda in 1920 when he was an immature young man of 27. The views expressed today, quite in keeping with the tendency of local politicians a quarter of a century before, were those of the day and public opinion uttered in today's age are entirely out of date. There is no intention on the part of the people of Kenya to deprive the Indians in East Africa of a just share in the responsibility of administering the country and their own interests, but our general opinion is that, as we have western civilization to be looked for in the African, we object to any perpetuation of Indian representation which may lead to the domination of the Indian in East Africa, and which has already been done in the British India and the East of the Indian Empire. We are not in favour of any perpetuation of the Indian in East Africa, and which has already been done in the British India and the East of the Indian Empire. We are not in favour of any perpetuation of the Indian in East Africa, and which has already been done in the British India and the East of the Indian Empire.

concludes in Kenya tonight and will step to advise responsible persons concerned with the future of the state of affairs in the country. It is the opinion of the Government that the people of Kenya will be prepared to accept a new constitution for Kenya which will be prepared by the Government of Kenya and will be presented to the Legislative Council on Monday, May 12, 1924.

#### MORE NOTICE OF NAIROBI BOXING.

The *Tuesday Express* gives prominence to the boxing of cats and the local news to Kenyan sports events, including boxing bouts, which are held in Nairobi regularly. The paper says:

The *East African Standard*, which has just received England, contains an interesting account of the success of a local sportsman, Mr. E. R. S. Wilson, son of Mr. and Mrs. C. W. Wilson of "Glengrove," Tuguey, whose ability as an amateur boxer is well-known. Following boxing tournament at Nairobi, Kenya Colony, East Africa, Mr. Wilson of the first round took the place of Ellsford the club leader for the middle-weight championship of East Africa owing to the latter's sudden withdrawal from the fight. His opponent, in a ten round contest.

Although not in strict training, Ellsford performed quite well in a bout for the East African championship, and to the sixth round bout.

**PUBLIC POLITICS.**  
 Kenya will be immensely relieved by the vigorous debate in the Legislative Council prompted by a report in the East African Standard of yesterday of a "manuscript" presented by Mr. G. Fraser to Westminster Abbey. The speech delivered by His Excellency the Governor last week, claiming his assistance in a week-end visit with presentation of a model book and with personal charge against the "manuscript" and his own criticism of the Governor last week, has been a source of relief to the members of the Council, official and unofficial, who are disappointed in the report. The time has arrived when a united front must be assumed to such an end as to secure the withdrawal of the "manuscript" from the public eye.
