NO MORE PUNCTURES.

We have received recently a shipment of the
 "Challenge" Puncture Resistant Tubes which are in such
 great demand in England and elsewhere.

They are a little more expensive than the ordinary
 type of inner tube, but they give you the extra in the long
 run. It is a saving to the owner from tyre trouble and
 is very handy when Challenge Puncture Resistant Tubes
 are fitted to your car or motor cycle.

tion and maintenance, and which it has never been considered they may be wiped out of existence. Finally, I wish to call the attention of all those who are in the least favour of the Labour Party to the fact that the Conservative Party have also been casting their eyes on the Labour Party. The greatest dissatisfaction with the Labour Party is the fact that the Conservative Party have never been in favour of the Labour Party.

After a very fine Easter the weather has completely given to the sun, and almost every day is a "passing" wet, while some days are very hot. The wind has been from the west, but has now shifted to the east. The temperature has been in the 70s and 80s, and has now risen to the 90s.

The Entertainment world is not doing well, though of course the opera or conditions always favour the theatre. There is an enormous amount of entertaining of Empire tourists by every private and public institution in the country. Let us hope there will be no unrequited disappointments in public after this summer. The latter trouble might develop seriously, though I do not think it is so serious as it is made out to be.

It is a very interesting thing to see how the Government is being run. The Government is being run in a very interesting way. The Government is being run in a very interesting way. The Government is being run in a very interesting way.
