THE IMPERIAL CONFERENCE.

The present Government of Britain takes a peculiar pride in its personal gratification. He remembers all are intended to strengthen the political popularity of his Party. But he remains, throughout, a staunch Imperialist. His appointment was one of the surprises of the Westminster Cabinet and he has risen, by the absence of his character, the common sense of the press, his natural wit and the admiration of his constituents to the second place in the executive of the Labour Government.

the poor. There has been born a new pride in England. Wembley is the outward symbol of that pride and Mr. J. H. Thomas, one of its chief exponents. It is fitting that Mr. Thomas the Cabinet should designate the day of announcing that the Government intends to call an Imperial Conference in October to explore the wider questions of Dominion representation in Foreign and Imperial affairs. It is probable true to say that the proposed Imperial Conference will be a success. Mr. Thomas himself. His speeches during the debate on Empire Preference and the Imperial Conference resolution, indicated his personal distinction with the present system of Imperial Conference and the high-handed decision made by Canada to reduce representation at the London Inter-Allied Conference. It has brought the issue to a head, and the conference of Imperial States was, in effect, a waste of time and of money. Even so, Mr. Thomas was concerned the Dominion results were overturned.

The Duke of Devonshire declared that there was no intention of re-opening the Indian question. Mr. Thomas's first act which followed the close of the Conference was the extension of an invitation to the Indian Dominion Committee to the London Conference and before the Colonial Office their views upon the White Paper? Mr. Thomas' most valuable criticism of the present system of representation. He emphasized the previous deliberations must include upon the subject of the operations in

MOTOR NOTES

by Carburettor

At 10.30 on this morning the President and Vice Presidents of the R.E.A.A. are on the road for the East African Information Handbook cover. Most of the designs, which are now all in view at the R.E.A.A. Information Bureau, are remarkably good and some from all parts of East Africa. Uganda, Tanganyika and Kenya.

The only real motorist arrived that in time was an East African. I do not see the police there, but work as it will be an extraordinary sight to see a motorist in the bush. SATURDAY, AUG. 2, 1924.

PREPARE FOR THE CONGRESS.

Kenya will have an opportunity early in November, to prepare for the arrival of the East African Commission. All anxiety and speculation is all over by the official announcement of the names of the members. There is less doubtfulness about the terms of reference but it may be assumed from the outline given in the prospectus of the Commission that the Commission will have a wide range of powers. It is a pity, in this connection, that they will travel through every part of the E. A. territory during the period of the Commission's work. It is a pity that the Commission will have to travel through every part of the E. A. territory during the period of the Commission's work. It is a pity that the Commission will have to travel through every part of the E. A. territory during the period of the Commission's work.

There is a real anxiety attendant upon this vital inquiry into the relations between Kenya and the rest of the East African territory. The first step, in our mind, is the appointment of a Central Commission to investigate the relations between Kenya and the rest of the East African territory. The Commission will have a wide range of powers. It is a pity, in this connection, that they will travel through every part of the E. A. territory during the period of the Commission's work. It is a pity that the Commission will have to travel through every part of the E. A. territory during the period of the Commission's work.

Associated Chambers of Commerce... will know exactly what political and economic principles they represent and what is to be done in the event of a change of government. It is a pity that the Commission will have to travel through every part of the E. A. territory during the period of the Commission's work.

A Revolution

Has taken place in our business. The Motor is advancing in the Colony and their motor, via the railway, with their progress to other stations, and in a very short time they will have more and more motor vehicles in the field. This change which has brought about a revolution in the country, and in one moment to ADVANCE WITH THE TIMES.

FIRST, LARGEST, BEST

ALWAYS ASK FOR JELLYS' 'It is the best disinfectant in use.'

Certain interesting parties are anticipating the report that our milling plant is 'upgrading'. This is quite untrue. Certainly we have been antedicated for over 125 years but we have done nothing but improve ourselves and our machinery installed by us here from 1850 to 1924, has a longer capacity than that of any other mill now running or being erected in this country. And in planning our new plant we had the advantage of 15 years experience of local conditions and local usage.

THE GARDEN

[Mr. LAWRENCE, F.R.I.E., has just published a book on the subject of the garden, which is a very valuable work.]

Written under the auspices of the KENYA HORTICULTURAL SOCIETY, Southampton, S.A. 20/1, to be sent to the Sec. Secretary, P.O. Box 27, Nairobi.

The most general gardening of the Kenyan Horticultural Society will be held at the Nairobi, Kenya, on the 10th August. It will be held at the Nairobi, Kenya, on the 10th August. It will be held at the Nairobi, Kenya, on the 10th August.

I think it is worth noting that the garden is a very important part of the life of the people of the East. It is a place where they can find peace and quietness, and where they can enjoy the fruits of their labor.
