In Petticoat

"My petticoat is so long and so full of ruffles, that I can't get it on without a great deal of trouble."

IMPORTANCE OF POCKETS. Pockets play quite an important part in the success of a frock. They may be square or round, or most, or a line of decoration round the opening—leading in two or three corners, or subsidiary.

A BLACK TAFFETA MODEL. Black taffeta, in some forms or other, survives each season. A delightfully simple frock in black taffeta, you may have an outside pocket, or a pocket with a little black taffeta, or a pocket with a little black taffeta.

Each style of petticoat is used all the fashioning, and the petticoat is made in a variety of styles, and the petticoat is made in a variety of styles, and the petticoat is made in a variety of styles.

COMMUNIST STORY OF S. A. NATIVES.

Only Waiting Leaders For Class Warfare.

ROSEHEVET HOPER.

According to Mr. Tom Mann, the Communist leader, six million negroes are awaiting the leadership of a Third International to overthrow the white man and to establish a world government against white plantation owners, capitalists, and even their proletarian who brother workers in South Africa.

Mr. Tom Mann, who declares that he is the delegate of the British Communist Party, and a representative British agent at the congress of the International League of Nations now being held in Moscow, addressed the delegates that the revolution in South Africa would be led by the Moscovite negroes under their appropriation by an increase of organizing activities among South African Negroes.

COLONIAL SECRETARY DECLARES LABOUR'S KENYA POLICY.

Answer to Indian Committee.

FIRM ON RETENTION OF THE HIGHLANDS FOR WHITE SETTLEMENT.

Will Stand by Communal Franchise.

IMMIGRATION ORDINANCE TO WAIT THE SOLUTION OF A COMPLEX OF STATISTICS.

Native Opinion Sought on Indians in Lowlands.

[UNKNOWN SOURCE'S AGENCY.]

London, Aug. 7. In the House of Commons to-day Mr. J. M. Hill, British Secretary of State for Africa, declared that the Government was in a position to make a statement by regard to representations recently made to him on certain matters affecting Indians in Kenya by the Indian Committee. Mr. Hill, Chairman, replied: "I will take the subjects in the order raised by the Committee."

"I. IMMIGRATION: My position is that if the danger were serious such as a influx of immigrants, of whatever class or race of nationality or character, as may be likely to be prejudicial to the economic interests of the Native I hold myself entirely free to take any action which may be necessary."

"Consulting statistics which have been sent here do not enable me to reach a definite conclusion in regard to the extent of Indian immigration; accordingly, steps will be taken by means of a Statistical Department to obtain accurate information with regard to persons of all races arriving in Kenya or departing from Kenya. Mr. Hill's immigration estimates will not be repeated."

"II. FRANCHISE: I have given careful consideration to representations in favour of a common roll, but I am not prepared to visit the conclusion arrived at in the Communal Paper 1022 of July 1953, that in the special circumstances of Kenya, four diverse communities each of which will ultimately require different representation, the communal system is the best way to secure the fair representation of each and all these communities."

"III. THE HIGHLANDS: I consider that a Secretary of State for the Colonies has no alternative but to continue the policy, expressed or implied, which has been given in the past, and I can add no hope of the present policy in regard to agricultural land in the Highlands being amended."

"IV. THE LOWLANDS: I was prepared to reserve an area in the Lowlands of Kenya for agricultural immigrants from India and Ceylon, but it appears that it is wrong from any practical opportunity should be taken of sending an officer representative of Indian settlement and agricultural matters to report on these areas."

"At present my consideration of the matter is in progress pending receipt from the Colony of reports from the native and the agricultural points of view on the areas in question."

Travel Dispatch.

Under a new agreement the Government of Uganda has decided that all matters relating to matters relating to immigration or any other matters relating to the Highlands should be dealt with by the British Colonial Secretary, London, instead of the Secretary of State for Africa, London. The new arrangement will be applied to the High Court of Uganda in the near future.

New Guinea Market.

During the year central action was taken by the Government of New Guinea to bring about a more uniform policy in the Highlands. The new arrangement will be applied to the High Court of Uganda in the near future.

GERMANS AID PROGRESS AT CONFERENCE.

Accept Obligations for the Loan.

OPERATION OF DAWES PLAN

[UNKNOWN SOURCE'S AGENCY.]

London, Aug. 7. Considerable progress was made at the conclusion of today's sitting of the Dawes Commission. The Germans agreed to consider the loan as a matter of course, thereby satisfying one of the main conditions for the advancement of the Dawes Plan.

It is also stated that the Dawes Plan, on the request of the German Government, will be put into operation on October 9, instead of October 12. Further progress was made in the discussion of the Dawes and Dawes Commission's report, which an agreement was virtually reached.

Laying a Top.

A special view was laid by Mr. D. M. Hill, Secretary of State for Africa, on the laying of a top on the new road between Nairobi and Mombasa.

At the Oval the visitors were the last of the season. The first match was a test between England and Australia. The second match was a test between England and India.

The Inspector "Lubing" in the Oval test matches were the last of the season. The first match was a test between England and Australia. The second match was a test between England and India.

Making an Example.

The Magistrate said: "This is, on the one hand, a warning to the public, and on the other, a lesson to the public."

It is a deliberate attempt to make an example of the public, and to show that the Government is determined to maintain the law.

It is necessary that a severe punishment should be inflicted on the public, and that the Government should make an example of the public.

The members of the Court in the Oval test matches were the last of the season. The first match was a test between England and Australia. The second match was a test between England and India.

THE SHIPPING COMBINE.
 Master might have deviated, with advantage, a few of the words written to Ireland and Russia to fuller and clearer explanation of the agreement between the shipping companies dealing with Africa ports. According to the version published by the Standard yesterday, British Shipping Lines were Africa have come to an agreement with the Dutch and German companies, which has brought to an end the competition of the elimination of competition, the "scheme of absorption" adopted by the British company on certain ports, carried by the opposition at lower rates now terminated.

Having been under the thumb of the Conference Lines for many years, East Africa is unlikely to view this new arrangement with any feelings other than suspicion and distrust. While it must be admitted that the measure is undoubtedly and entirely from undue consideration, the truth apparently is that the German and Dutch Lines, having established their lines, are unwilling to relinquish their position unless they can be satisfied of the popular comprehension, improved, or even upon some previous agreement and procedure in this region of the Empire. The first step of the arrangement is the level of charges to be made on the shipping interests.

hope of saving a little more for an shareholder.
 Less than two months ago, we published the condensed version given by all the shipping companies in question addressed to them by the Empire Committee set up by the Associated Chambers of Commerce. All the companies, British and foreign, emphasized the small amount of any reduction in the very high passenger rates ruling today, the German version being that with greater stability of Europe regularly, in the same way, lower freight rates would be possible while the Conference Lines claimed the advantage of their opposition for fluctuations in the rates of freight. The completion of the new arrangement suggests that it is fairly likely that the whole regularity of steamer, with better mail service and stable freight. Moreover, there can be no adequate reason for continuation of the main system, introduced by direct steamships to the continent.
