PREVENTION OF EAST COAST FEVER.

Lecture by Sir A. Threlkeld, the Pathologist.

CAN EAST AFRICA BE FREED?

IV. (Continued.)

I shall now refer to the tick fever of the horse. It is known to attack horses, mules and dogs. The symptoms are as follows:—The horse remains in the stable for several days, and the condition of the animal is such that it is unable to work. The animal is usually found dead in the stable. The disease is usually fatal.

We have proved by actual experiment that the disease is a result of the parasite. The disease is not a result of the tick. The disease is not a result of the tick. The disease is not a result of the tick.

I have now demonstrated that the disease is a result of the parasite. The disease is not a result of the tick. The disease is not a result of the tick.

I have now demonstrated that the disease is a result of the parasite. The disease is not a result of the tick. The disease is not a result of the tick.

I have now demonstrated that the disease is a result of the parasite. The disease is not a result of the tick. The disease is not a result of the tick.

I have now demonstrated that the disease is a result of the parasite. The disease is not a result of the tick. The disease is not a result of the tick.

I have now demonstrated that the disease is a result of the parasite. The disease is not a result of the tick. The disease is not a result of the tick.

I have now demonstrated that the disease is a result of the parasite. The disease is not a result of the tick. The disease is not a result of the tick.

NOTES ON CURRENT SPORT.

Rugby and Soccer Rules.

PLACE KICKING

(Dr. M'KENNA)

The alterations in Association football now which are now in this country following on their adoption in America are really very simple and do not make much difference to a goal may now be placed in the center of the field. The remainder of the rule book is almost identical to that which has been in force for many years. The only real effect of the new rule is that the players may be outside the field area and make the field.

A definite ruling also is given regarding fouling play. It is stated that play will be continued unless a player is fouled in the act of kicking. In all cases, the referee must be taken of the field immediately and the game resumed.

It is to be noted that in the case of a foul which is not a foul, the referee has the right to stop the game. It is to be noted that in the case of a foul which is not a foul, the referee has the right to stop the game.

or ten down—they were being and the only thing to be thought of was to get the ball into the hands of the players who really know and can shoot in very small, but otherwise they are very good. They should, in my mind, have gone into the front ranks. Graham is a splendid all-around forward with fairly good center half, being able to play in either the middle or the back and to control the running of the game. The referee is a very good one.

The Rugby match this week rather scrappy and plain. The Northampton score was 10-0. The referee is a very good one. The referee is a very good one. The referee is a very good one.

I was interested in a letter which appeared in the Standard the other day from a reader regarding the interpretation of the new Rugby rules. There had been a certain misunderstanding of the rules in which reference to the referee is made. The referee is a very good one. The referee is a very good one.

The referee is a very good one. The referee is a very good one. The referee is a very good one.
