EXPERTS REPORT UPON GERMANY'S RECAPTULOY TO PAY.

Graded Scale of Yearly Payments. BELGIE SUGGESTION THAT FRANCE MUST ABANDON RUL.

Economic Unity Essential.

PLAN FOR INTERNATIONAL CONTROL OF SALES AND RAILWAYS. Germany to be Subsidized by 1908.

An expert report upon the road to "making Germany" has been written by the Deutscher Committee of experts who have been appointed to study the economic situation of Germany.

The report is a study of the work of business men, lays down a scale of annual payments ranging from £1,000,000 to £30,000,000 for the first five years.

A new bank of issue is one of the features of the report and ample provision is made for international control of German finances.

German railways would be run by an international company and pay their dues.

The expert says that Germany's economic situation will remain in a state of depression for some time.

There is one suggestion. The report suggests that adequate economic unity of Europe requires a common international currency.

[LONDON SPECIAL AGENT.]

FRIDAY, APRIL 10. In order to study of the work of business men, lays down a scale of annual payments ranging from £1,000,000 to £30,000,000 for the first five years.

The report is a study of the work of business men, lays down a scale of annual payments ranging from £1,000,000 to £30,000,000 for the first five years.

The Ford "THE" CAR

FOR Kenya Colony

The Ford is built light but strong with ample engine power that is the secret of its success above all other cars for Kenya Colony conditions—that it will go as far as depended on always—through rough hills and steep down—fast and the wonderful service organization available at surprisingly low cost in all Ford centers throughout the country.

(THE CAR'S RECORD IS NOT IN AN ESTABLISHED OR RECORDED HONORABLE RECORD)

Obtainable at all Garages. Importing Dealers: MOTOR OIL, LTD., WATFORD

CARE OF THE BATTERY.

Its Importance to the Lighting System.

STARTING THE ENGINE ON A COLD MORNING.

Particular Reference to Cars with Battery Ignition.

The average latest light motor car on the market is fitted with an electric lighting system. The generator for the lighting system is driven by the engine and is connected to the battery. The battery is the source of power for the lights and ignition when the engine is stopped. The battery also supplies power to the motor which operates the starter when the engine is started. The battery is a very important part of the car and should be kept in good condition.

The battery should be kept in a cool, dry place and should be protected from vibration. The electrolyte level should be checked regularly and the battery should be cleaned to prevent corrosion. The battery should be tested regularly to ensure it is in good condition.

The battery should be replaced when it is no longer able to hold a charge. The battery should be replaced with a new one of the same type and capacity.

The battery should be replaced with a new one of the same type and capacity. The battery should be replaced with a new one of the same type and capacity.

The battery should be replaced with a new one of the same type and capacity. The battery should be replaced with a new one of the same type and capacity.

CARS FOR DISABLED DRIVERS.

Should drivers be allowed to drive for a long time after they have lost the use of their hands? This is a question which has been asked in the past and the answer is that it should be allowed.

The question is whether a driver who has lost the use of his hands should be allowed to drive a car. The answer is that it should be allowed, provided the car is specially designed for such a driver.

The car should be designed so that it can be operated by the driver's feet. The car should be designed so that it can be operated by the driver's feet.

The car should be designed so that it can be operated by the driver's feet. The car should be designed so that it can be operated by the driver's feet.

THE EAST AFRICAN STANDARD (MAGAZINE SECTION)

TROUT FISHING IN EAST AFRICA

Where to Go and What Outfit to Purchase.

A FEW NOTES FOR BEGINNERS.

Trout fishing in East Africa is a sport which has gained a great popularity in the past few years. The trout of the high mountains is a fish of fine texture and delicate flavor, and is much sought after by those who are fond of fishing. It is a sport which is well adapted to the climate of the high mountains, and is one of the most interesting and enjoyable sports which can be pursued in the region.

When to go.—The best time to go trout fishing in East Africa is during the months of June, July, and August, when the weather is cool and the trout are in season. It is also a good time to go when the water is clear and the trout are easy to catch. The weather should be cool, and the wind should be light. It is also a good time to go when the water is clear and the trout are easy to catch.

Outfit.—The outfit for trout fishing in East Africa should be simple and practical. It should include a good fishing rod, a reel, a waders, a hat, a coat, and a pair of boots. It is also a good idea to have a good fishing bag, a fishing net, and a fishing tackle box. The outfit should be comfortable and durable, and should be suitable for the climate of the high mountains.

Where to go.—The best places to go trout fishing in East Africa are the high mountains, where the trout are in season. The best places are the mountains of the East African Highlands, where the trout are in season. The best places are the mountains of the East African Highlands, where the trout are in season.

How to catch.—Trout fishing in East Africa is a sport which is well adapted to the climate of the high mountains. It is a sport which is well adapted to the climate of the high mountains, and is one of the most interesting and enjoyable sports which can be pursued in the region.

Notes for beginners.—A few notes for beginners: 1. Go to the high mountains. 2. Use a good fishing rod. 3. Use a reel. 4. Use waders. 5. Use a hat. 6. Use a coat. 7. Use a pair of boots. 8. Use a good fishing bag. 9. Use a fishing net. 10. Use a fishing tackle box.

Donations to Free Press.
The Free Press is a newspaper published in East Africa. It is a newspaper which is well adapted to the climate of the high mountains, and is one of the most interesting and enjoyable newspapers which can be read in the region.

World's Record Fish.
The world's record fish is a trout which was caught in the high mountains of East Africa. It is a trout which is well adapted to the climate of the high mountains, and is one of the most interesting and enjoyable fish which can be caught in the region.

Cumulative Success in County Campaign.
The County Campaign is a political campaign which is well adapted to the climate of the high mountains, and is one of the most interesting and enjoyable campaigns which can be pursued in the region.

British Made

A Great Tyre's Greatest Feature

Perhaps the greatest feature of this new type Goodyear[®] Cord is its famous All-Weather Tread

Its sharp edged blocks dig in on slippery surfaces and hold fast to the road.

Against skid, spin or side-slip, they oppose a powerful wedge-like resistance.

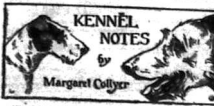

Then too, the extra-ordinarily dense and tough material of which the treads of these new tyres are made assures extremely long wear

The side-walls also are thicker and tougher.

Be certain the tyres you buy are the new type Goodyear[®] Cord

Every Goodyear Motorist Knows The Goodyear Name means that a large shipment of this new Goodyear Cord will arrive in his country shortly. The present Goodyear Cord-treads of various widths and descriptions are fit for use on any type of motor car. They are worth waiting for.

A Great Tyre's Greatest Feature

Perhaps the greatest feature of this new type Goodyear Cord is the famous All-Weather Tread

Its sharp edged blocks dig in on slippery surfaces and hold fast to the road.

Against skid, spin or side-slip, they oppose a powerful wedge-like resistance.

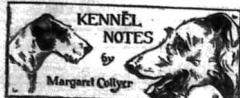

Then too, the extraordinarily dense and tough material of which the treads of these new tyres are made assures extremely long wear

The side-walls also are thicker and tougher.

Be certain the tyres you buy are the new type Goodyear.

Keeps and Travels Mileage Mile. - The Standard Agency announces that a long shipment of these new Goodyear treads will arrive in this country shortly. The previous delivery had been of the type which is still a daily sight on the roads of this country. They are worth waiting for.

GOOD YEAR

Miss Collyer, copies to several of correspondents in connection with several letters about the advertisement. I am naturally responsible for the accuracy of statements made by me in this column, but I am not held responsible for any correspondence.

Another breed that is going down hill is the Irish terrier and I propose to say the Dublin terrier. The latter does not differ so much from the former as you might think. The younger generation of terriers are so much alike that it is difficult to get a good specimen of either. The dog that I have in mind is a very fine specimen of the breed. It is a very fine specimen of the breed. It is a very fine specimen of the breed.

It is very plain that the dog is a very fine specimen of the breed. It is a very fine specimen of the breed. It is a very fine specimen of the breed. It is a very fine specimen of the breed.

A DAY IN THE LIFE OF AN ELEPHANT HUNTER.

Kenya Man's Experiences in Tanganyika.

A DOUBLE CHARGE.

The Tanganyika Government has announced that it proposes to issue a new method of payment for the hunters of elephants. The hunter is allowed to keep the ivory of the first three elephants which he kills in a year, but the ivory of the fourth and subsequent elephants must be under 500 lbs. weight of shagging, one-half less than the hunter's share. A special license is issued to the hunter, which allows him to hunt for elephants in the Tanganyika Territory, but he must not exceed a total of three elephants in any one year. He must also not exceed a total of three elephants in any one year.

An Ancient Blend

PETER DAWSON Scotch Whisky

Peter Dawson was a Scotch Whisky. A pedigree whisky. Scotchmen have distilled it. The passing of years has mellowed it. We could say a lot more but—when your lips touch the glass bring you know the rest. "Here," you say, "is a deeply satisfying blend."
