THE NECESSITY FOR INSURANCE.

It is remarkable the number of people who are driving motor-cars on the public roads but who have not thought it necessary to insure their motor-cars against losses or other risks. While it is possible with careful driving to avoid any every day accidents, the occurrence of the smallest accident, the risk of not being adequately covered by insurance is too great for any sane person to ignore. Heavy serious accidents may be rare, but the resultant loss and indignities may prove a bill for perhaps thousands of pounds. This is an extremely large sum, and it is not, for example, but necessary in order to draw up an insurance policy. Here accidents are of the nature of considerable sums but if the motorist has the necessary insurance to transfer the cost and liabilities may prove a great deal of trouble. It is not a matter of course, but it may result in a great deal of worry and responsibility before the motorist can be insured.

The motorist must be acquainted by the insurance company in the course of a few days after that the car owner has to do in the event of any accident. This is not a matter of course, but it may result in a great deal of worry and responsibility before the motorist can be insured. The motorist must be acquainted by the insurance company in the course of a few days after that the car owner has to do in the event of any accident. This is not a matter of course, but it may result in a great deal of worry and responsibility before the motorist can be insured.

While it is more important to be safeguarded against third party claims than the motorist's own property, the actual cost covered by the insurance company is not so great as it seems. Many motorists are content with the ordinary third party and fire cover, but the actual cost covered by the insurance company is not so great as it seems. Many motorists are content with the ordinary third party and fire cover, but the actual cost covered by the insurance company is not so great as it seems.

The British Rubber Tyre Manufacturers' Association Ltd. has sent to the President of the Road and Trade Association, adopted on March 28th, 1924, a resolution which is of great importance to the motorist. It is a possible possibility of a technical character are referred to experts for reports but the opinions of readers are accepted to deal with them, as the publication must be strictly correct.

TROUT FISHING IN EAST AFRICA.

Where to Go and What Outfit to Purchase.

A FEW NOTES FOR BEGINNERS.

Cuts and How to Use Them.

THE KISS.

THE KISS.

When the fisherman is in the boat, he should be prepared to catch the fish. The kiss is a simple and effective method of catching fish.

Another excellent cut for the streamer is the "Ducktail." This cut is easy to make and is very effective. It is made by cutting the tail of the streamer into a ducktail shape.

The best time to go trout fishing is in the morning. The fish are most active at this time and are more likely to bite. It is also important to choose the right location for fishing.

Other varieties of cuts include the "Worm" and the "Fly." These cuts are also effective and are easy to make. They can be used in a variety of situations.

When fishing for trout, it is important to be patient and to observe the fish's behavior. This will help you to determine the best time to cast your line.

British tyres are better — DUNLOP are best

The secret of the wonderful success of the Dunlop Cord lies in the pure rubber insulation between each layer of the fabric, and the diagonal arrangement of the layers of straight cord. By this method of construction there is less internal stress. The Dunlop Cord tyre keeps cool, has three or four changes zones. The tyre's life is prolonged and you get longest mileage, greatest safety and most comfort.

MRS. NAIDU IN SOUTH AFRICA. Speeches in the Nature of Emotional and Ill-balanced Harangues.

DRIVE ANSWERS TO SOME OF HER WILD STATEMENTS.

DRYNT GETS THE BETTER OF HER HEAD.

[From our own correspondents.]

Durban, March 15.—Mrs. Naidu has had a long and successful career in the Indian community in South Africa, and a recent hearing from the Press has attracted a large number of her admirers. The Press report regarding the situation in the East Indies has been the cause of much dissatisfaction that they have heard some of the things she has said in regard to the situation in the East Indies.

Mr. Naidu's address and public statements in Durban, Johannesburg and elsewhere in the Province have not been confined to the Indian community, as they should have been, but have been the cause of much indignation in the white community. It is a well-known fact that she has been in the habit of making statements which have been widely reported in the Press, and which have caused much indignation in the white community.

(4) Speaking in the Town Hall, Durban on the 12th inst., she said that she was in the habit of making statements which have been widely reported in the Press, and which have caused much indignation in the white community.

May 1st, 1926. Mrs. Naidu's speech was a very long and emotional one, and she made many statements which have been widely reported in the Press, and which have caused much indignation in the white community.

(1) In an interview with the Press on March 7th, she said that she was in the habit of making statements which have been widely reported in the Press, and which have caused much indignation in the white community.

(2) In an interview with the Press on March 10th, she said that she was in the habit of making statements which have been widely reported in the Press, and which have caused much indignation in the white community.

(3) In an interview with the Press on March 13th, she said that she was in the habit of making statements which have been widely reported in the Press, and which have caused much indignation in the white community.

(4) In an interview with the Press on March 15th, she said that she was in the habit of making statements which have been widely reported in the Press, and which have caused much indignation in the white community.

den for Indians? And this, if you are to take them to make a nation, you must first see that, as far as the present is concerned, it is an exact antipode of a nation. Now you see what I mean. Exactly the reverse, in the sense we used them Indians, and the same thing was generally said by the press.

But let me see, what is the result of this? The result of this is that the Indian community in South Africa is in a state of confusion and uncertainty, and that the Indian community in South Africa is in a state of confusion and uncertainty.

The result of this is that the Indian community in South Africa is in a state of confusion and uncertainty, and that the Indian community in South Africa is in a state of confusion and uncertainty.

TANGANYIKA TRADE IMPROVEMENT DURING 1923.

Over One-fifth of Imports Bought of Kenya and Uganda.

INCREASED NATIVE-GROWN PRODUCTS.

Year's Exports Approach the Value of Imports by £131,000.

OPTIMISTIC GOVERNMENT OUTLOOK.

In commercial sense of Tanganyika for the year ending 31st Dec. 1923 there has been developed a general optimism, and although there are, as usual, a few gloomy spots, the feeling of confidence is general.

The Government's estimate for 1923 is based on a pessimistic assumption in regard to the value of the imports, which is expected to be £2,200,000, or an increase of 10 per cent on the value of 1922, which was £1,980,000.

The value of the exports is estimated to be £1,900,000, or an increase of 10 per cent on the value of 1922, which was £1,730,000.

Of the imports, cotton goods are the main item, and represent about 40 per cent of the total imports. Their value increased from 600,000 in 1922 to 672,300 in 1923, or an increase of 12 per cent. The value of the exports is estimated to be £1,900,000, or an increase of 10 per cent on the value of 1922, which was £1,730,000.

EVIL DAYS FOR GERMANY

Disappointing Results of the Elections.

No REAL WORKING MAJORITY.

Vote of Rejection Shows Dependence on Party Unity.

CONSERVATIVE MINORITY SECURED.

The International situation may not yet advance to a point of a sharp crisis, but the results of the elections in Germany, despite significant reversals, are not in fact of great importance. The situation remains the largest party and may form the next Government.

The National Party, despite its defeat, remains the largest party and may form the next Government. The National Party, despite its defeat, remains the largest party and may form the next Government.

TANGANYIKA TRADE IMPROVEMENT DURING 1923.

Over One-fifth of Imports Bought of Kenya and Uganda.

INCREASED NATIVE-GROWN PRODUCTS.

Year's Exports Approach the Value of Imports by £131,000.

OPTIMISTIC COMMERCIAL OUTLOOK.

In commercial circles of Tanganyika for 1935-36 the year has been a good one... The value of exports for the year was £1,200,000 as against £1,000,000 for 1934-35.

Coffee and Wheat.

Coffee showed a diminution from 65,420 cwt. to 50,375 cwt. in 1935-36... The drop in quantity was the result of a number of factors.

Imports.

Of the imports, the main items were wheat, flour, and other foodstuffs... The value of imports for the year was £1,310,000.

Production.

Production of wheat in Tanganyika has increased steadily... The area under wheat has grown from 10,000 acres in 1934 to 15,000 acres in 1935.

Grain and Gold.

Grain exports showed a diminution from 124,917 to 124,143 tons... The value of grain exports for the year was £1,200,000.

Imports.

Imports dropped to £1,310,000 in 1935-36... The value of imports for the year was £1,310,000.

Caldwell of the Kenya Corps Department, who visited Kenya in connection with the Kenya trade mission, has been notified, which the Government is taking steps to ensure that the test will be postponed. Mr. J. H. Chamberlain (Secretary for the Colonies) stated that he had written Capt. Caldwell, who is in Kenya in April to come home before the test is conducted.

It is the Government's policy to ensure that the test will be postponed until the Government has received a report from the Kenya Government regarding the test.

Practical tips for amateur mechanics.

When blowing away dust from a motor or other mechanical part, use your eyes.

When using a small screwdriver to hold the object into which the screw is being tightened, it may slip.

If you use a naturally dry hand, use an oil-soaked rag to wipe the hand before you start.

When you increase the tension of a spring by putting a load on it, the spring will stretch.

When working on a car, use a good workbench and the same will work on you.

Don't touch your face and don't touch your eyes while you are working.

Keep your hammer face clean, free from rust, and use a good grip.

The book covers everything from the engine to the wheels, and is written in a clear, concise, and easy-to-understand style.

MOTOR NOTES

by Carburettor

The motorist who is interested in the latest news in the world of motoring will find "Motor Notes" a most interesting and valuable publication. It covers a wide range of topics, from the latest models of cars to the latest developments in engine technology. The magazine is written in a clear, concise, and easy-to-understand style, and is a must-read for every motorist.

REHOBOTH-ARABA ROAD.

The Rehoboth-Araba road is a new road which has been built between Rehoboth and Araba. It is a very important road, as it provides a direct route between the two towns. The road is well-built and is in excellent condition. It is a great improvement on the old road, and it is expected that it will result in a more efficient and economical mode of transport.

MARKET REPORT.

The market for motor vehicles is showing a steady upward trend. The demand for new cars is increasing, and the prices of cars are rising. This is due to a number of factors, including the increasing cost of raw materials and the rising cost of labor. However, the overall outlook for the motor vehicle industry is optimistic.

TYPE REPAIR.

The repair of motor vehicles is a very important aspect of motoring. It is essential to ensure that a motor vehicle is in good working order, as this will ensure the safety of the driver and passengers. There are a number of factors which can affect the performance of a motor vehicle, and it is important to identify and repair these problems as soon as possible.

This is a Fact

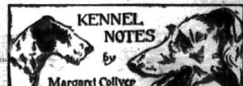

The performance of Goodyear Belting is astonishing. Goodyear Belting wears so no ordinary belt can wear, because it is so constructed that the load is evenly distributed among the plies, and consequently there is no ply separation.

Goodyear Belting holds the gears in a standard shaft drive. They work evenly and evenly in every situation. They require no belt dressing and they need no breaking in.

Why not try Goodyear Belting next time.

KENNEL NOTES

Margaret Collyer

Miss Collyer, who is an acknowledged authority on all matters connected with the dog world, writes very expertly for the Standard...

Before I begin it is well to mention that I am in the habit of writing on the subject of the dog world...

After her talk should be examined to see if it will be the world's best...

Madam Collyer is essentially a dog lover, and her talk was very interesting...

I am glad to hear that the dog world is so interested in the subject...

Any one who is interested in the dog world should read this...

There are a number of points which are of great importance...

It is a pity that the dog world is so ignorant of the history...

For the purpose of the present article, I will only mention a few...

LOCAL DISASTERS.
 Amalgamation of South Island.

[From Our Own Correspondent.]
 A large increase in the average daily morning temperature has been observed since the middle of April. The main cause, as the high peak of the plateau has been reached, is the high temperature of the air. Conditions are also the product of the fire and with a slight delay of temperature should be a permanent phenomenon.

Local Development.
 These will also be increased since work with roads has been started and new bridges are being built. The Government is also working on the road to the coast. The Government is also working on the road to the coast.

Partly is the bridge that spans the gap between the tea-garden and your tea-cup.

The keystone which guarantees the safety of the packing is the Brooke Bond vacuum tin, which keeps the tea fresh and full of flavour for any length of time.

When you buy Brooke Bond you know that you are getting really good tea in the tin that keeps it good. Heavy cup confirms your judgment.

You'll prefer Brooke Bond the good tea in the tin that keeps it good.

The only vacuum tin on the market is a necessity in the tropics.

revels the most beneficial position of the Railway of the present time.

The reserve fund for repairs and betterment has estimated three or four years' reserve income in 1923.

The Interest Budget. Interest charges in 1923 are estimated at £1,000,000.

OFFER YOU TO-DAY

MOST ATTRACTIVE LAND PROPOSITIONS IN KENYA

GOOD MAIZE, WHEAT AND COFFEES LAND, REALITY BEHIND. ATTRACTIVE DEVELOPMENT FOR THE HOME-SEVERE. RAILWAY AND ORGANIZED MANUFACTURING INDUSTRY. EASILY ACCESSIBLE CHEAP LABOUR, ABUNDANT SPORT AND RECREATION, PROGRESSIVE INDIVIDUALS WILLING TO HELP WITH THEIR EXPERIENCE.

Better communications and organized marketing facilities are bringing such a stimulus to the development of these rich farming lands, that they promise to be in a very short time the most important maize and wheat areas in the European Highlands, with a considerable output of coffee, stout and other crops in addition.

Land in the Uasin Gishu and Trans Nzoia districts is to-day the cheapest and soundest proposition Kenya has to offer. We can give you the choice of a wide selection of maize and wheat farms of from £1 to £2 per acre, and of coffee land at from Shs. 25 to £2. Inquiring purchasers meet at Kiunga and personally conducted over the district.
