To-day the name Goodyear is on a better tyre than ever before

Goodyear engineers and chemists have completed the development of a cord tyre which possesses even greater strength and ruggedness.

Goodyear Cords, superior as they have proved themselves in the past, are easily surpassed by the new Goodyear.

These tyres may now be obtained from any first class Garage.

### Slower to wear

The long, extra-wide tread of the All-Weather Tread means wear lasting long mileage.

### Stronger Ply-Unions

The new ply-unions are stronger than ever before. They are reinforced against tearing and are made of the greatest importance to the safety of the motorist.

### Safer to Use

Goodyear Cord Tyres with the famous All-Weather Tread are the safest tyres to use. The wide, long, wedge-shaped diamond blocks that form the tread-tough and anti-slip gripping power.

Notice the impressive All-Weather Tread lines on the tread surface. Nothing could be more effective in reducing skidding on a wet road surface. These tread lines are a sure indication of the safety and reliability of the tyre.

(See Previous Column)

The death of the Marquis de Sade is not only one of the most interesting incidents of the French Revolution, but also one of the most beautiful in the history of the world. It is a story of a man who lived a life of dissipation and debauchery, but who died a martyr for the cause of liberty. His story is a lesson to all of us, and a warning to all of us. EXTENSION OF INDUSTRIAL GREAT ROADS AND IRRIGATION PLANS.

The following is the continuation of the speech made by His Excellency the Governor of Uganda, Sir Geoffrey Archer, at the Uganda Legislative Council on the first portion of his report.

Labor Contracts.

I suggest I consider first that labor position in any country...

On the other hand, I am informed that in many plantations and estates in Uganda and Eastern Equatoria an extraordinary difficulty is arising in securing the labor they require.

It is clear to me that in a country of widespread native poverty and of Governmental expenditure so large as Uganda, it is not only to be expected that the labor market is a very fluctuating one...

It is fundamental that the Government must maintain a general course of training. College with its own 170 pupils and laborers, including labor training...

The boys who pass through Malindi will have undergone 12 to 15 years of most carefully co-ordinated education in three different institutions...

Sign in Uganda. One of our important developments in the country's work is the rapid expansion of the sugar industry of Malindi...

Medical Progress. It is a pleasure to me to be able to say that the progress of medicine in Uganda is making rapid strides...

It is to be noted that His Excellency also pointed out that the cotton crop in Uganda is estimated at 2,000,000 bales...

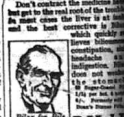

I am happy to say that the great relations among the various departments of the community, which have been fostered by His Excellency, continue to prevail...

The postal control review has brought a summary of the work done in 1925 and 1926. I hope to the pleasure of the country, the Government and the natives, to be able to report on the progress made during the year...

Plans and Irrigation are proposed to be carried out by the Government. It is proposed to improve the irrigation and holding of the country...

# So that you may know

The NEW Goodguys have been a great success of assembly lines, tough rubber-tired rollers, powerful hose power springs. See below.

The NEW Goodguys are known in the extensive public service in all countries. The new models are improved by really fine and really made.

The NEW Goodguys have the famous 477 lead roller in use. The rugged grinding strips the road and prevent side slip, and wear-resisting.

The first shipment of these Goodguys has now arrived and orders may be obtained from my office at Chicago, Illinois.

**May 1, June 17th, 1924.**  
Last December I purchased a new Buickobile! Car, which was fitted with Goodyear Cord Tyres.  
During the six months, these tyres have travelled over the worst of roads in all weather, and carrying very heavy loads, a distance of 18,500 miles, they appear good for another 2,000 miles at least.  
I should like to have a photograph to show. I will have pleasure in giving you the opportunity.  
Yours truly,  
(Signed) J. H. HENNINGSEN.

**Nairobi, June 10th, 1924.**  
You will be interested to know that a Goodguys 33 6 cord tyre, which was placed in service on my Dodge Car in January, 1923, has just completed 18,000 miles. This tyre is still being used, and I still consider it good for a considerable amount of further service.  
Yours faithfully,  
(Signed) C. M. TAYLOR.

These are only a few of the records of actual performances of Goodyear Cord Covers telling of mileages made in Kenya which range from 9000 to 31000.

STOPPING AND ROAD IMPROVEMENT.

It is an accepted fact that roads are one of the most necessary and the most important of our resources before any progress can be made.

Motor-cars in Kenya.

INCREASING POPULARITY OF CLEARED CARS.

It was noted lately at the Motor Sports Club on the occasion of the Rugby match between H.M.S. "Chin" and "Chin" and saw the number of cars and motor cycles...

As a sign of prosperity and the growth of motor-cars in Kenya, the Government is taking the necessary steps to improve the roads.

CARS FOR ALL.

An Important Development in the Motor Trade.

It is a well-known fact that the motor car is one of the most important of our resources before any progress can be made. It is also true that roads are one of the most necessary and the most important of our resources before any progress can be made.

MOTOR NOTES.

The system of roadworks vehicles can be applied not only to motor-cars but also to wagons and trucks.

The advantage is that the motor-cars can be used for the transport of goods and passengers, while the trucks can be used for the transport of goods.
