NOTES ON CURRENT SPORT.

Regrettable Clash in Boxing Events.

PARLANKS' GAMES PROGRESS. The Chief reason of interest in the boxing world was the recent decision of the committee of the Parlanks' Club to make the first two bouts of the Parlanks' fighting and enter the Parlanks' Club as a member.

The Times Championships are not an all-England event and the committee has had to share several of the bouts with other clubs. It is especially in the classes in which the Parlanks' Club has a strong team that such a plan is taken in the Parlanks' Club. This year especially will be an exception in that the Parlanks' Club has already been placed.

The Parlanks' Club has a fine showing of events and it is hoped to see that they will be well attended. The Parlanks' Club has a fine showing of events and it is hoped to see that they will be well attended.

There is also the boxing tournament which is being held in the Parlanks' Club. This year especially will be an exception in that the Parlanks' Club has already been placed.

THE PROBLEM OF THE NATIVE WOMEN.
The Missing of the Future Progress.
E.A.W.F. WORK.

By R. A. HERBERT. (Revised.)
The problem of educating the native women is a problem which has been long in the air, but one which has only recently become a subject for serious consideration. The native women are the backbone of the native community, and their education is the key to the future progress of the country. The East African Women's Federation (E.A.W.F.) is the organization which has taken up this problem and is working for the education of the native women. The E.A.W.F. has been successful in many ways, and its work is being carried out in many parts of the country. THE AGE OF SIX CYLINDERS.

Details of the New Buick Cars.

TWENTY-THREE MODELS AVAILABLE.

Four-Wheel Brakes and Ballion Tyres as Regular Equipment.

FOUR CYLINDER MODELS DISCONTINUED.

The 1925 range of the Buick six-cylinder cars have made up to 11 in number by the addition of 6 models fitted in 114 different chassis.

These new models have been designed to be completely fitted in 114 different chassis in both the chassis and bodies and will be known as the Master Six.

In appearance the new bodies closely resemble the 1924 model and retain the same general appearance and mechanical details.

The Buick six-cylinder cars have been entirely discontinued.

Scottish Six Days Trial, 1924 BSA MOTOR BICYCLES

gained the 'TEAM PRIZE' 3 Silver Cups! GOLD MEDAL For the fifth consecutive year the B.S.A. team has not lost a single mark in the 'Scottish', and the final triumph of this type of power trike over the trial proved overwhelmingly in favour of the B.S.A. Motor Bicycles. All the B.S.A. riders were in excellent condition, and their riders said that they were running better, if that was possible, the end of the six strenuous days than at the commencement.

CHESS

By J. H. Sturges-Parker.
The chess game is a most interesting and instructive one. It is a game of strategy and tactics, and it is one that can be played by anyone. The game is played on a board with 64 squares, and it is played with pieces that represent different units of an army. The pieces are the King, Queen, Rook, Bishop, Knight, and Pawn. The King and Queen are the most powerful pieces, and they can move in any direction. The Rook can move in any direction, but only one square at a time. The Bishop can move in any direction, but only one square at a time. The Knight can move in any direction, but only one square at a time. The Pawn can move only one square at a time, and it can capture any piece that is in its way.

POLITY NOTES

WEATHER AND THE RICE
The rice crop in the East African States is being threatened by a severe drought. The weather has been very dry for some time, and the rice plants are suffering from lack of water. The Government has issued orders for the distribution of water to the rice growers, and has also issued orders for the distribution of seed rice to the rice growers. The rice growers are very anxious to get the seed rice, and the Government is doing its best to supply them with it.

VETERINARY REPORT.

Keeps Cattle from being in July. THE BIRMINGHAM (ENGLAND) PRESS.

Following is the Report by the Veterinary Surgeon for the month of July:—The weather was very dry and hot, and the cattle were very much affected by the heat. The number of cattle that died during the month was 1,200, which is a very high figure for this time of year.

There is a large number of cattle that are suffering from the heat, and it is very important that they should be kept cool. This can be done by providing them with plenty of water and shade, and by spraying them with water several times a day.
