STRANGE TRICALS ON THE Employment Position.

LABOUR CHIEF'S COMMENTS ON THE Employment Position.

NATIVE PRODUCTION COMPETITION.

The Chief Native Commissioner has issued a report on the work of the Native Affairs Department for the year 1923. The report is a valuable document, and it is interesting to note that the Department has been successful in its work in many respects. It has succeeded in bringing about a better understanding between the natives and the Government, and it has succeeded in improving the position of the natives in many respects. The report also contains a number of suggestions for the improvement of the native position in the future.

The View of the East African Commission.

YATTA FIELDS AFFAIR.

The Macharis land committee recently reported to the East African Commission on the Yatta Fields affair. The committee found that the Government had acted in a most unbecoming manner in the matter of the Yatta Fields. It had failed to take proper account of the wishes of the natives, and it had failed to act in a fair and equitable manner. The committee recommended that the Government should take steps to rectify the wrong done to the natives, and it recommended that the Government should pay compensation to the natives for the loss of their land.

NATIVE TRUTHS.

It is not possible to give an accurate account of the native position in Kenya in detail. The native position is a complex one, and it is difficult to give an accurate account of it. However, it is possible to give a general account of the native position in Kenya. The native position is one of poverty and ignorance, and it is one of the most deplorable in the world.

EDUCATIONAL FACILITIES FOR Aborigines will remain poor and inadequate.

EDUCATIONAL FACILITIES FOR Aborigines will remain poor and inadequate. The Government has failed to provide adequate educational facilities for the natives in Kenya. The schools are few and far between, and the quality of the education is poor. The Government should take steps to improve the educational facilities for the natives in Kenya.

NATIVE TRUTHS.

It is not possible to give an accurate account of the native position in Kenya in detail. The native position is a complex one, and it is difficult to give an accurate account of it. However, it is possible to give a general account of the native position in Kenya. The native position is one of poverty and ignorance, and it is one of the most deplorable in the world.

EDUCATIONAL FACILITIES FOR Aborigines will remain poor and inadequate.

EDUCATIONAL FACILITIES FOR Aborigines will remain poor and inadequate. The Government has failed to provide adequate educational facilities for the natives in Kenya. ### SIMPLE EXPLANATION OF TECHNICAL TERMS.

#### Definitions of Misunderstood Words.

### THE DIFFERENCE BETWEEN DENOTATION AND PRE-IGNITION.

### Principles of Supercharging or Forced Induction.

A highly specialized piece of machinery, a motor without pistons would not be a motor, but a piece of iron, indispensable to a clear description of the motor. The term "motor" is, unfortunately, very often misunderstood. The term "motor" is explained in the following paragraphs, which are intended to show those who, perhaps, are not familiar with the motor, the principles of its operation. It is not a motor, but a piece of machinery, which is applied to a body, that is, that is very often misunderstood.

VERMINKOL. SUCCESSFULLY EXTERMINATES MEALYBUG Report by an Expert on E. A. Agriculture.

"The experiments recently conducted with Vermikol, though not extensive, have proved satisfactory. These were chiefly on the lines of soil fumigation. The best results were obtained before or some time after the rains, when the soil was not wet and had a temperature of from 65 to 85 degree Fahr.

The surface soil was levelled round the base of the tree and 2 of an oz. of Vermikol (fully grown coffee tree) was sprinkled round in a continuous band about two inches wide with the inner margin about 4 inches from the bark of the tree; the Vermikol was then covered with soil to the depth of 4 inches and packed well down.

This killed the mealybug on the stem below ground and in some cases kept off the ants completely.

#### NATIVITY AND THE LAW

To the Editor, - E. S. Standford, - Sir, - You suggested recently that the Natives should be allowed to have their own courts to settle their own disputes. This is a very interesting suggestion, but I think it is one that should be considered very carefully. The Natives are not yet ready to take on the responsibility of settling their own disputes, and it is not clear that they are capable of doing so. The courts of the Colony are well equipped to deal with the disputes of the Natives, and it is not necessary to create a separate system for them. The Natives should be encouraged to use the courts of the Colony, and to make use of the services of the Natives' Councils. This will help to bring the Natives into the legal system of the Colony, and will help to ensure that their rights are protected. The Natives should be encouraged to make use of the services of the Natives' Councils, and to make use of the services of the courts of the Colony. This will help to bring the Natives into the legal system of the Colony, and will help to ensure that their rights are protected.

### MR. O'NEILL'S REPORT AND ANOTHER.

Two Reports of Observations in Africa. CONCERNING DIVERGENCE. I am writing to you regarding the report of Mr. O'Neil's observations in Africa. I am interested in the divergence between the two reports. It is interesting to note that the two reports differ in many respects. This divergence may be due to a number of factors, including differences in the methods used, differences in the data collected, and differences in the interpretation of the data. It is important to consider these factors when evaluating the reports. The divergence between the two reports is a reminder that scientific research is often a process of discovery and refinement. It is important to continue to investigate these issues and to seek to resolve the discrepancies between the two reports.

#### BY MAJOR O'BRIEN

With the announcement of the Commission of Enquiry into the activities of the Natives' Councils, it is interesting to note that the Commission has been set up to investigate the activities of the Natives' Councils. This Commission is a significant step in the process of bringing the Natives' Councils under the control of the Government. It is important to ensure that the Commission is able to carry out its duties effectively, and to ensure that the Natives' Councils are brought into the legal system of the Colony. The Commission should be given the necessary powers and resources to carry out its duties, and should be able to report to the Government on its findings. This will help to ensure that the Natives' Councils are brought into the legal system of the Colony, and will help to ensure that their activities are controlled by the Government.

#### LOCAL PRICES

To the Editor, - E. S. Standford, - Sir, - I am writing to you regarding the local prices of various commodities. It is interesting to note that the prices of many commodities have risen significantly in recent months. This rise in prices may be due to a number of factors, including an increase in demand, a decrease in supply, and an increase in the cost of production. It is important to consider these factors when evaluating the rise in prices. The rise in prices is a reminder that the economy is facing a number of challenges, and that it is important to take steps to address these challenges. The Government should be encouraged to take steps to address the rise in prices, and to ensure that the economy remains stable. This will help to ensure that the economy is able to continue to grow, and that the Natives are able to benefit from the growth of the economy.

#### GUANO IN KENYA

To the Editor, - E. S. Standford, - Sir, - I am writing to you regarding the guano in Kenya. It is interesting to note that there is a large amount of guano in Kenya, and that this guano is being used as a fertilizer. This is a significant resource, and it is important to ensure that it is used in a sustainable and effective manner. The guano should be used to fertilize the soil, and to help to increase the productivity of the land. This will help to ensure that the land is able to continue to produce crops, and that the Natives are able to benefit from the productivity of the land. It is important to ensure that the guano is used in a sustainable and effective manner, and that the Natives are able to benefit from the productivity of the land.

#### KNYS TERRE

To the Editor, - E. S. Standford, - Sir, - I am writing to you regarding the Kny's Terre. It is interesting to note that there is a large amount of Kny's Terre in Kenya, and that this Kny's Terre is being used as a fertilizer. This is a significant resource, and it is important to ensure that it is used in a sustainable and effective manner. The Kny's Terre should be used to fertilize the soil, and to help to increase the productivity of the land. It is important to ensure that the Kny's Terre is used in a sustainable and effective manner, and that the Natives are able to benefit from the productivity of the land.

#### MUNICIPAL REORGANIZATION

To the Editor, - E. S. Standford, - Sir, - I am writing to you regarding the municipal reorganization. It is interesting to note that there is a large amount of municipal reorganization in Kenya, and that this reorganization is being carried out in a number of municipalities. This reorganization is a significant step in the process of bringing the municipalities under the control of the Government. It is important to ensure that the reorganization is carried out in a sustainable and effective manner, and that the Natives are able to benefit from the reorganization. The reorganization should be carried out in a sustainable and effective manner, and should be able to report to the Government on its findings. This will help to ensure that the municipalities are brought into the legal system of the Colony, and will help to ensure that their activities are controlled by the Government.

#### THE NAIROBI TRADING COMPANY

To the Editor, - E. S. Standford, - Sir, - I am writing to you regarding the Nairobi Trading Company. It is interesting to note that there is a large amount of trading in Nairobi, and that this trading is being carried out in a number of ways. This trading is a significant resource, and it is important to ensure that it is used in a sustainable and effective manner. The trading should be carried out in a sustainable and effective manner, and should be able to report to the Government on its findings. This will help to ensure that the trading is brought into the legal system of the Colony, and will help to ensure that its activities are controlled by the Government.

This Commission is a significant step in the process of bringing the Natives' Councils under the control of the Government. It is important to ensure that the Commission is able to carry out its duties effectively, and to ensure that the Natives' Councils are brought into the legal system of the Colony. The Commission should be given the necessary powers and resources to carry out its duties, and should be able to report to the Government on its findings. This will help to ensure that the Natives' Councils are brought into the legal system of the Colony, and will help to ensure that their activities are controlled by the Government.
