Ford Economy.

Low initial cost is an important point to the majority when considering the purchase of a Motor Car—

Low cost of up-keep and operating expenses is perhaps even more important to the car owner whose car is constantly in use—

Cheap replacement parts and ample stocks always available imparts and encourages in the purchaser in the possibility of the maintenance—

Standardized fixed rates for labour charges when repairs or maintenance are necessary enables the Owner to know just what his repair bill is going to be before the work is put in hand and protects him from being exploited or overcharged—

THE FORD UNIVERSAL SALES AND REPAIR SERVICE MEETS ALL THESE CONDITIONS—

LOW INITIAL COST—LOW COST OF UPKEEP—LOW OPERATING COST

CHEAP REPLACEMENT PARTS—AMPLE STOCKS OF PARTS THROUGHOUT THE COUNTRY.

STANDARDISED FIXED LABOUR CHARGES—COURTEOUS AND EFFICIENT SERVICE EVERYWHERE.

ATTRIBUTABLE TO THE FOLLOWING POINTS: LOW FIRST COST, ECONOMY, RELIABILITY, EASY OF CONTROL, STRENGTH AND POWER, LOW RATE OF DEPRECIATION, and consequent, HIGH RESALE VALUE.

The Ford Car combining all these points, is the best car for general utility at a price which suits everyone who needs a quick and reliable means of transportation, either passenger or goods.

Before buying your new car, call at one of the many authorized Ford Dealers throughout the Colony, and examine and test for yourself the qualities of the Ford Car. The fact that 50 per cent. of the cars in Kenya are Fords should be sufficient inducement to follow the lead of the hundreds of satisfied Ford Car or Truck owners.

VERMOLK SUCCESSFULLY EXTERMINATES MEALYBUG

Report by an Expert on E. A. Agriculture.

"The experiments recently conducted with Vermolok, though not extensive, have proved satisfactory. These were chiefly on the lines of soil fumigation."

The best results were obtained before or some time after the rains, when the soil was wet and had a temperature of from 65 to 85 degrees Fahr.

The surface soil was levelled round the base of the tree and 2 of an oz. of Vermolok (uly grown coffee tree) was sprinkled round in a continuous band about two inches wide with the inner margin about 4 inches from the bark of the tree; the Vermolok was then covered with soil to the depth of 4 inches and packed well down.

This killed the mealybug on the stem below ground and in some cases kept off the ants completely.

The Universal Preference for LIPTON'S TEA is based on its unchanging excellence, flavour and fragrance and on its proved economy

COOPER'S Sheep Dipping Powder

In addition to eradicating Seab and destroying Ticks, Fleas, Lice (on all external parasites of the sheep) Cooper's Dip actually stimulates the growth, and improves the quality of the wool.

The beneficial effect of Cooper's Dip is maintained for months after dipping, thus providing protection against re-infestation.

A splendid preventive against Maggot Fly attack.

The annual sales of Cooper's Powder Dip now suffice to dip over 800,000,000 sheep annually. Cooper's Dip is made from the very finest materials, scientifically treated, and perfectly combined.

SUCCESS OF TEMPERANCE BY LEGISLATION

Report on the Sugar Ordinance.

IMPROVED WAKAMA.

In forwarding certain correspondence to the Chief Native Commissioner on the subject of the Dip Ordinance which was introduced in the House of Representatives (under the Wakama Bill) Dr. D. M. P. F. P. has forwarded a report, which was received by the Chief Native Commissioner on Tuesday.

According to the Ordinance the license to sell and distribute the beverage has always remained in the hands of the Government.

The principal object of the Ordinance, so far as the Province was concerned, was to regulate the exportation of liquor into the Native Reserves of Mombasa and Kilifi and I think it may fairly be claimed that a considerable number of licenses have been obtained.

During a tour I made in the Mombasa Province in July, it was proposed to me that there was an excessive importation of liquor into the Native Reserves and a demand of the Government to stop the importation. They looked healthier and they seemed to take a more intelligent interest in the subjects under the Bill.

The first tax collection this year has been a success. It is to be hoped, in spite of the several failures of the crop, the full amount due to the Government will be received in time.

LAND AND WEAIR.

Trade has also been very good and the Government is doing well. The District has drawn up a scheme for the different towns and surrounding property and wealth of the Province.

During the year, Administrative Officers on a large scale have been introduced in both Eastern and Western Provinces. The Government has also with the greatest care and attention to the interests of the Province.

The Mombasa and Kilifi Districts have also been successful in the former Districts.

ONLY COMPLAINTS

There has been an absence of complaints from the general community in the Province, which is in my opinion, both abundant and satisfactory.

As far as I am aware, the only complaint has been received from the manufacturers and traders of Mombasa and Kilifi.

The Government has also with the greatest care and attention to the interests of the Province.
