Miss Lorraine, 3 B.L.H. New York, has been in correspondence with Mr. Lorraine about the address of the writer under the name of EVELYN BARNETT.

THE FEBRUARY FAIR SHOW

The importance of fruit growing both as regards the health of the people and as a source of profit is becoming daily more important.

It is hoped that fruit growers will get on well with this effort and that the general public will be benefited by the sale of the fruit.

LEARNING TO FLY.

Cheap Tutor.

The Aeronautical Commission of the 1918-1920 says that a definite step has been made in the direction of making flying an official sport of the British Empire. The Commission, after having spent a year in the study of the problem, has now published its report. It is a report which will be of great importance to all those who are interested in the future of aviation. The Commission has found that the present state of affairs is such that it is possible to train a pilot in a few months and to give him the necessary knowledge to enable him to fly a plane. The Commission has also found that the present state of affairs is such that it is possible to train a pilot in a few months and to give him the necessary knowledge to enable him to fly a plane.

THE EAST AFRICAN STANDARD.

will have 200 flying hours a year. This is the minimum number of hours which will enable a pilot to be considered a pilot. The Commission has also found that the present state of affairs is such that it is possible to train a pilot in a few months and to give him the necessary knowledge to enable him to fly a plane.

MACHINE DIFFICULTY.

The fact that a machine is difficult to operate is a fact which is often overlooked. The Commission has found that the present state of affairs is such that it is possible to train a pilot in a few months and to give him the necessary knowledge to enable him to fly a plane.

The Commission has also found that the present state of affairs is such that it is possible to train a pilot in a few months and to give him the necessary knowledge to enable him to fly a plane.

I don't suppose there is a farmer in this colony who does not remember of last year's harvest the result of the "Favourable" rainfall. The Daily East African writes on the 10th inst. that in the British colonies in the East the rainfall was very generally less than the normal average. The crops of many of the colonies were correspondingly less than last year's.

Fortunately very extensive in the West Indies. The crops of many of the colonies were correspondingly less than last year's.

TEA IN KENYA AND UGANDA

To the Editor:—P. A. Stansfeld, 307-310, Albany St. will be glad to see your report...

The People who will be present probably in the Standard and Pioneer Journals, the latter confined to transportation and measures which will be taken to the Tea Plantation...

Personally I think that, not only the tea but other crops should be introduced by small tea...

All being looks alike as far as plant goes, but GANDY is saturated to the hilt, is properly sown and is British. Inland on Gandy...
