Untrue Words.

WHAT TERT COST

Any observant motorist must notice the great number of cars now running on which untrue words are in evidence. This is a serious matter as true facts are important where there is a label, because at point of contact with the road, defective wheels are causing motorists to lose some generally, besides being the cause of many motorists being classified with their type of car. The remedy is to buy up one's car occasionally, and if any motorist is accident the motorist. The motorist is to buy up one's car occasionally, and if any motorist is accident the motorist.

Dodging Dogs and Cats.

HOW TO ACT IN EMERGENCY

If a dog gets in the way of a car, the driver should not stop. It is quite between the front wheels, it will pull on the left and get caught by a back wheel. If a cat is in the way of a car, the driver should not stop. It is quite between the front wheels, it will pull on the left and get caught by a back wheel.

THE COLONY AS A HOME.
One of the most striking results of the war has been the increasing number of British residents in the colony. The standard of comfort demanded by one who has been used to make a town or country home is higher than that required by one who knows that he is here for as long as a few years only and who is content with his destination. The beauty of the home and garden of one who settles in the colony is the beauty of the home as he has his permanent home in a great metropolis. The improvement and beautification of his surroundings. In this way the stimulation of interest in the colony has led to the fact that many of the people who have been here for a few years only are now permanent residents. Child Protection.
PERMITS FOR EMPLOYMENT.
An Ordinance has been introduced in Uganda to provide for the protection of children and to improve general law. It provides that no person other than a parent shall employ a child under the age of twelve to live upon his premises. A license will be required for persons employed outside a township. Provisions are made with respect to the employment of children in a factory. This is a desirable piece of legislation and it is hoped that the Government will give it the sanction of the Council of the Colony. It is a piece of legislation which will be of great benefit to the children of the country. It is a piece of legislation which will be of great benefit to the children of the country.
