2.

Dr. Fildes.

There are several disquieting features in this Report - the increase of malarial & various fevers among the Europeans, & as regards the natives, the difficulty of dealing with the sleeping-sickness problem in the Lake District, & the increase of dysentery & diarrhoea during the past year generally.

Send extract of p.p. 10-12 of the P. Med. report (as marked), extract of p. 5-8 of Dr. Roddick's Report, with Appendix & map, to the Sleeping Sickness Bureau for info. D.D. with refs to Staff of Dr. Roddick's Report, & ask the O.A.F. to consider whether some steps cannot be taken to prevent the

My Lord,

I have the honour to transmit herewith for Your Lordship's information the Principal Medical Officer's Annual Report.

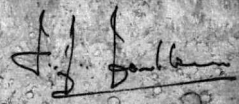

Annual Report
Dr. Milne

2. I would specially invite Your Lordship's attention to paragraph 10 Section (5) on the subject of the occurrence of nervous disorders in the Highlands of the Protectorate. There is, I fear, little doubt that this aspect of the climatic conditions prevailing in the reputedly healthy districts will have to be very carefully considered in the future.

I have the honour to be,
With the highest respect,

My Lord,

Your Lordship's most obedient,
humble servant,

H.M. PRINCIPAL SECRETARY OF STATE
FOR THE COLONIES,
DOWNING STREET,
LONDON, S.W.
