PAI MATEER, British and British Empire middle-weight champion, gains a convincing point victory over Murray of Liverpool, in a top-notch side-splitting match in Liverpool on Thursday.

It was McAteer's show in a four-round contest that was the highlight of the night. McAteer, who was the champion of the British Empire, was the complete control of the fight.

From SIR LEN HUTTON, London, Thursday

THE LAKER took his 100th wicket of the season and increased his haul of Australian wickets by four for 41 runs at The Oval yesterday when Murray of Liverpool was dismissed. Laker was assisted by Eric Higgs who took 44 and once again the Australians achieved their desire for a spin bowling Laker.

McDonald took away that last wicket, but he was not able to play any more aggressive bowling.

'INJUSTICE' BY MISS FLETCHER

Colonial Office memorandum

A COLONIAL Office memorandum on conditions in Kenya contained the criticism of a British and Foreign Chamber of Commerce report on knowledge and management, which was based on a survey conducted by Miss Fletcher. The report said that the memorandum which was submitted to the government by Miss Fletcher has now been made available to M.P.s.

Miss Fletcher, a Quaker and a former rehabilitation worker in Kenya, alleged that girls under 16 have been sent to the Mainland. The memorandum reported that Miss Fletcher made other allegations without providing the 'true facts'.

The memorandum rejects the idea that Miss Fletcher has done more than 'represent the other side of the picture', the newspaper said.

BRIGHT SPOT IN WEEK OF GLOOM

Gains by Canadian oil issues
NOT unreasonably, London Stock Market fell under the shadow of the international market last week. Col Nasser's nationalisation of the Suez Canal caused sharp falls in Oil & Gas shares. The week, however, Britain's firm stance put some hope into the market. Later in the week though, the market fell under the influence of the international situation and the continued weakness of sterling.

BRIGHTER WEATHER DURING WEEKEND

AFTER a week of uncertain weather, conditions in most parts of the Colony took a marked turn for the better at the beginning of the August Bank Holiday weekend. Although rain attracted the usual large crowd of holiday-makers, the sun shone brightly and a pleasant breeze sprang up.

People on holiday at the Coast were augmented by hundreds of Servicemen from the troopship *Arcton* which called unexpectedly at Mombasa yesterday. Deck chairs mingled with the gaily coloured women's dresses in the sun-baked streets of the town, the more fortunate of the troops, who were taken to the hotels in private cars, managed to get to beach for a few hours.

New DUNLOP ROADSTER

TRUCK AND BUS TYRE

- with** tread rubber and pattern to defy cutting and cracks
- with** a casing to withstand impacts, yet supple and strong
- with** a tread for long life and an ideal casing for retreads
- with** a non-skid tread design that grips but does not trap stones

Actual Test Reports on THE NEW DUNLOP ROADSTER

From YUGOSLAVIA *At Karlovac I have seen a truck that has been running with 12.00 x 20 tyres already over three months; these trucks being quite undamaged in spite of very severe roads and under bad conditions of timber haulage work. I feel sure that we shall be satisfied with the results obtained with the Roadster tyres.*

From BURMA *Twenty 7.50 x 20 covers were supplied to one of our largest bus companies and have inspired great enthusiasm. There were no complaints at all. All concerned are most impressed and news of their performance is spreading.*

From PAKISTAN *Early results are most encouraging. Tyres fitted to buses and trucks are in perfect condition, and the operators are themselves most enthusiastic.*

From EAST AFRICA *The outstanding feature of the tyres is the virtual freedom of the tread from chipping and cutting. They have been operated on roads which specialise in this tyre damage.*

From ITALY *The 11.00 x 22 Roadster tyres have given excellent results, although this vehicle is occupied almost exclusively in carrying heavy loads of wet sand day and night, travelling about 900 kilometres in about 24 hours.*

From JAMAICA *The tyres were fitted to a Fargo 5 ton Diesel and were removed at 23,500 miles. This mileage was exceptional, as the roads over which the vehicle was operated are very rough and there are several steep hills and the road is very winding. Mr. Jarrett is most satisfied with the results.*

From SOUTH AFRICA *Roadster is doing very well indeed. You will remember I mentioned a service to the . . . Copper Mines, where we could get a result in six months. I am pleased to be able to tell you that each and every tyre which has been removed so far has out-performed the previous best single performance by 3/4,000 miles. Of course, there is no sign of 'cracking' and all the tyres are fit for retreading. This result is so outstanding locally.*

This Week's Mainly-For-Women Page Concentrates On Beachwear ★ YOU'LL NEED SUNGLASSES AGAINST THE COLOURS

color and the fashion magazines all rolled into one. Today's fashion itself attracted in the most fantastic short ever seen, launched this new collection of beachwear recently. The colors, he said, were from the Pacific and they are variations of color on the beach. And it looks like glorious Technicolor.

THESE YOU CAN MAKE YOURSELF

FORGET the word "bath" as applied to colour and spend the summer in a shade of brightness. This is the season for it. Never before has colour shown so brightly under the fashion sun. This year colour is pure fashion gold.

You will be a treat for the eye in our new beach ensemble with the high bust-shaped neckline and abutting lines. Under the pleated skirt is the latest in complete ensemble which is in swim and figure-fitting as an abbreviated skirt.

Why not "play safe" and make up the minimum in wool? This would be very fashionable for the beach, and at the same time keep those annoying little coastal breezes at bay.

This charming style is from McCall's new "make the clothes that make the woman" collection. For a size 34 bust the pattern requires one and three-quarter yards of 36-inch fabric, and the skirt two and seven-eighths yards. The McCall pattern is No. 3248.

Many readers write asking for information on shortening or lengthening the bodice, skirt, sleeve, or even the shoulders of a pattern. They know about taking a lock across the pattern to shorten it, but do not know the best place to put the lock or that it won't keep the silhouette. They know, too, that to lengthen a pattern they must slash it, but, again, they don't know where.

You will find on all McCall's patterns a general pointed line for the neck or slash. It will appear on each piece of the pattern that might conceivably bring in the shortened or lengthened to suit your figure — on the shoulders, on the bodice, on each skirt gore and on the sleeves.

are, most of them are made with more coloring. They will come in shades of top in pink and yellow striped covering, patterned with spots in pink colors.

Style designer's imagination into three main trends. There are those that feature, made in brightly patterned fabric and decorated either inside or outside your slacks. (Decorative elements happen also to sell themselves, for the slacks that most want stylish casual clothes.)

When it comes to fabric, more practical trends have been introduced. For many seasons past, synthetic are in water-repellent fabric so that they dry quickly. Cotton slacks are cream-colored, and slacks are given a touch of glamour by having a thin line of white piping around the waist.

Most of the patterns in sport with the lightest fabric, are based on (rough) fronts or insets. And one of them where the designer came of was a Main Friday pattern of dress it.

Of course, the slacks are not forgotten. The slacks we turned up at the end of Little Mac's pattern at Washington, D. C. are a pair of slacks that are made in a very simple, straight line with the necessary white piping, but in the white complexion by their white.

There is a white with a white trim, the slacks are made in a simple, straight line with the necessary white piping, but in the white complexion by their white.

1930 car steals the limelight at Nakuru

A 26-YEAR-OLD Austin Special driven by C. Firth stole the limelight at Monday's meeting on the Nakuru Park motor racing circuit. Although the oldest car entered for the meeting, it ran as well as its more modern competitors and came first in event five, the 15-lap handicap race for sports cars, finishing two and a half seconds in front of the 1936 Jaguar XK 120 driven by Teddy Robinson, with an M.G. Special third.

This event showed how the handicapping was at the meeting. Paddy Roberts, driving his Jaguar XK 120, was sprouting dust and with three laps of the race still to go he was as fast as the 1936 Jaguar XK 120, and a half a mile behind the M.G. Special, with Jim Heather-Hayes third.

Preston's fastest lap

Vic Preston showed his usual good speed in the 15-lap handicap race in event four, the 15-lap handicap race for sports cars, finishing two and a half seconds in front of the 1936 Jaguar XK 120, and a half a mile behind the M.G. Special, with Jim Heather-Hayes third.

Event six was slow to start, but it was not an easy win. He was hard pressed by two fellow Kenyan drivers, G. South and G. South.

The last event of the day was the 15-lap handicap race for sports cars, finishing two and a half seconds in front of the 1936 Jaguar XK 120, and a half a mile behind the M.G. Special, with Jim Heather-Hayes third.

Violence aches down

The third chaotic race was the 15-lap handicap race for sports cars, finishing two and a half seconds in front of the 1936 Jaguar XK 120, and a half a mile behind the M.G. Special, with Jim Heather-Hayes third.

The race was a close one, with the 1936 Jaguar XK 120 finishing two and a half seconds in front of the M.G. Special, with Jim Heather-Hayes third.

A VERY large crowd was privileged to see one of the finest games of polo played in Kenya for many years when the first "Test" match against the visiting Rhodians was staged at the Mitchell Park grounds on Monday. As has previously been reported, Kenyas were the victors by 7 to 5.

Fly your freight AND REPRESENTATIVES by BOAC

OPINION in Britain, as reflected in yesterday's newspapers, is hardening in its demands that the Suez canal should be dealt with by the United Nations. This has been brought about by the perplexity felt in some quarters over the Russian Note and the belief that the Soviet will try to exploit anti-Western tensions.

Statement needed on Woodley Estate transit policy

I DO not know what justification Woodley Estate has for its statement that I should have been invited to help people who are suffering from a shortage of housing. I am sure that I would have been glad to help in any way that I could. However, I am not sure that it is in the public interest for the Government to continue to subsidize the estate. I think that the Government should consider the possibility of selling the estate to the private sector.

Letters to the Editor
Mr. Magee is saying that he is not satisfied with the way in which the Government is handling the Woodley Estate. He is sure that the Government is not doing its best for the people of the estate. He is sure that the Government is not being fair to the people of the estate. He is sure that the Government is not being open and honest with the people of the estate.

Equal rights
HAVING read your editorial on 8th August, I am sure that you will have noticed the progress that has been made in the field of equal rights for women. It is a great pleasure to see that the Government is taking steps to ensure that women are treated equally with men in the workplace. I hope that these steps will be continued in the future.

Mr. Mangat's views
I AM not a publicist or a politician. I am simply a citizen who is concerned about the future of my country. I am sure that the Government should be open and honest with the people of the country. I am sure that the Government should be fair to the people of the country. I am sure that the Government should be responsible to the people of the country.

RENAULT Dauphine

Here it is at last! The car that has all of East Africa in its design. Acclaimed by motorists the world over, in talks, performance and economy the Dauphine — with its four doors, large luggage boot and low price — brings a revolutionary change to East African motoring. See it and drive it this morning.

PRICE £572 to £1,001

- ★ SUNDAY GRAPHIC: "Economy? The makers claim 43 m.p.g. The Model on drive did over 45 m.p.g. A fantastic economy! We say, almost in the sports car class."
- ★ THE AUTOCAR: "With the advent of the Dauphine, competition among the mass European cars will become very keen. Renault engineers have evolved a car possessing a lively performance combined with economy and road handling, which would be difficult to find imit."
- ★ THE MOTOR: "It may indeed be said that this is the first European car to have a higher standard of roadworthiness than the better examples of front-engine cars, and in this respect Dauphine has a definite advantage. In general appearance of the car (which certainly does not suggest the cheapness of an economy car) it is completely appropriate."
