# LAND OF FRESH AIR

### And Haven For The Housewife

By James Corfield

THE heading in the newspaper caught my eye. It said: "Mary Roads Loos to Rome." And then followed this remarkable advertisement:—  
"Who has the courage to make an acquaintance with a teeth-drilling feminist-human being?"  
I am the said feminist, 173 centimetres high, slim and ready for a long holiday. Picture details, etc. to be... I will try my best to be in my wisdom tooth, shouldered—and most another advertisement.

**Back Page**  
Another column showed me that the whole back page of the newspaper was filled with such advertisements, together with U.S. advertisements from the States for the Kralians in Vienna.  
So, girls, if you want a permanent holiday in this garden of Eden (Switzerland), with likeable people (that's what it looks like from an aircraft) get these people out. You will have to work hard but you are accustomed to that. The Swiss are the only people who are not afraid of a heavy old Mother Nature and electricity are the silicon basis in every home.  
I visited the spa-resort home of a Swiss family in Winterthur near Zurich. Winterthur the Swiss will tell you is an industrial town with many factories. But the air was so clean that it made me cough, cough to which I am accustomed. The doctor has advised me to walk wide to keep the nature-wide and deep and the cherry-wood furniture as bright as the sun. In fact, my particular friends in Winterthur live for three years.

It was only one year that I had lived in this town, but it would be an improvement. The referee has forbidden

**Not Likely**  
Usually, I understand, it is the women who have the last say in the family with regard to the new or old furniture for their bedrooms. But did you go to a shop and buy a new lamp? The designer the type of wardrobe-cup-writing desk that the required, and father dutifully sent for a pattern. The carpenter went specially to France to get cherry wood and made it to the girl's design.

for a week, and then I thought a rope course would do away good running games. Then we had not only things out the people were to be used.  
Most of the boys are certainly heated with all sorts with bodies using ultrasonic and foot. And although we do have babies, you can always get and jump like a lake (literally). It is in the bedrooms and kitchens that the female prerogative is left over.

**Trips France**  
As a man, I found the wash basins infuriating. They were 40 litres, pieces of porcelain about 18 inches long by 23 inches wide, with a opening 18 inches above the spout. This may be very fine when the girls are sitting their hair on a cushion, but when pouring over the head? But when I was setting my feet and then rose up again to get the towel, I cracked my head on the tap.

USI ladies refuse to remember that when applying rouge that it is better to use too much than too little, and that it is better to use too little than too much, and that it is better to use too little than too much, and that it is better to use too little than too much.

## NOW It's The 'Hellas Line' For Your Hair

VIENNA hairdressers, who have been in recent years to influence international styles, have discovered that the short hair fashions of last year are over.  
For the coming season they have invented the 'Hellas' hair based on the classic style of Venus de Milo.  
The hair will remain close about at the back and sides, but will be permanently blown up in an exhibition in the Aurore Hair Salon.

Counting this year will imitate the shades of autumn hair, beginning at the front, with lighter shades and ending in the low line, with the back of the head. The hair-break, almost white in colour, will be used.  
The new classic styles are modelled in the picture.

# Malicious argument on tax payments

## ASIAN CRITICISM OF ELECTION SPEECH

WHEN a delegation from the Federation of Chambers of Commerce and Industry in East Africa put forward its views on the East African Council of Inquiry on Income Tax in Nairobi yesterday, the members, Mr. S. Mohindra, described as malicious, a receipt was sent out of the amount of income tax collected from the tax payers.

Mr. Mohindra said this sort of statistical argument was raising suspicion of different groups of the population. So he suggested that the Government should have a system of tax collection which would be more efficient and proper than the importers' system.

# THE MEN— THE CAR— THE TYRE!

## NAIROBI-CAPE ROUND TRIP RECORD SHATTERED

AVERAGE SPEED OF 61.7 M.P.H.

A 2-ton, petrol in Nairobi and a 6000-lb. petrol in Cape Town. The men were Peter Davies and John Manuassis. They drove their Morris 1000 in the O.M.C. 1000. The car was a 1958 model. The trip was made in 11 days and 17 hours. Both records were set in 1958.

## TRANS- AFRICAN ELENTE

Both drivers of the last week were very successful by the standards of anyone who has attempted along the route. Both had a very good understanding of the route. Both had a very good understanding of the route. Both had a very good understanding of the route.

For here, at last, is a British car which, without fuss or trouble, will take a hammering such as few normally drivers can ever have to contend with, and still come up smiling. The prowess of the drivers was notable, and there will be many to say that without such outstanding skill and endurance at the wheel the car would not have succeeded. In that suggestion there is more than a grain of truth, but the drivers themselves are emphatic in their belief that without such a tough, powerful and uncomplicated car in their hands any hope of achieving their objective would have been dim indeed.

## THE triumphant return of Peter Davies and John Manuassis from the Cape in their Morris 1000 Saloon is no longer news, but the implications of their feat must still make news on the overseas car market.

Although we can be sure that the vast experience and consummate skill of these two drivers who teamed up so well would never allow them to take risks that would endanger themselves or

others, John Manuassis said that they have a lot of work to do before they can return to the Cape in their Morris 1000.

Unavoidable. He said that the car was in a state of disrepair and that they were going to have to have it overhauled. He said that they were going to have to have it overhauled. He said that they were going to have to have it overhauled.

Recommending. Let us recommend the Morris 1000 to anyone who is looking for a car that will take a hammering such as few normally drivers can ever have to contend with, and still come up smiling.

### ON SUEZ POLICY

#### Communique issued after London talks

#### PREMIER TO ANNOUNCE DECISIONS TODAY

BRITAIN and France have agreed that Col. Mollat's refusal to negotiate on the basis of the 18-19 proposals for international control of the Suez Canal has created a very serious situation. They have also reached full agreement on the further measures to be taken in Canal crisis.

This was stated in a communique issued yesterday at the end of the talks between Mr. Anthony Eden and the French Prime Minister, M. Laval.

Mr. Anthony Eden will announce his decision on the Anglo-French talks when he speaks in the House on the Suez situation in the House of Commons today. A simultaneous announcement will be made by the French Government in Paris.

In a Press conference at the end of the London talks, M. Mollet said the measures envisaged by the British and French Governments included details which would have to be referred to some of our commanding body.

Mr. Eden's suggestion that a new "negotiating body" be set up to discuss the Canal dispute has been rejected by the British Foreign Office. A spokesman said that Egypt's last action had been an unqualified refusal of the 18-19 plan and that the new proposal did not appear to suggest any basis for negotiation.

### Determination to resist breaches in rule of law

IN their communique, the British and French Prime Ministers noted that recent events had clearly demonstrated the identity of French and British action upholding the rule of law in international affairs. They emphasized their determination to develop close co-operation and to resist any action incompatible with the rule of law.

The French Premier, M. Laval, said the British and French Governments are determined to resist any breach of the rule of law in international affairs.

TWO VIEWS ON EACH QUESTION

Indian address discussed

BOTH Mr. Day and Mr. Slade were asked questions at the meeting... Mr. Slade was asked how other views were taken into account by the Independent Group's proposals...

Square deal

Mr. Slade said he attached much importance to Mr. Mangag's address... He said that the F.P.P. was not an intransigent and inalterable organization, and he believed it could achieve only sound foreign policy...

In the past 10 years, Mr. Slade said Kenya had gone a long way along the road to rural co-operation and it was now too late to change that trend... Kenya was a British Colony and the European community was her best friend...

Confused policy

He also criticised the Lipton Plan, because it whittled away the United Opposition and left constituencies indistinguishably indistinguishable... There was a plea for a united and united of all racial groups...

PILGRIMAGE TO DACHAU

Several hundred former inmates of the Nazi concentration camp at Dachau formed an expedition to visit the site... The party was led by Mr. J. J. E. Morgan...

## CANAL USERS' PLAN TO EXERCISE THEIR RIGHTS'

### Commons disclosure by Sir Anthony

### DEFERENCE OF VIGOROUS REACTION TO DICTATORS

SIR ANTHONY EDEN told the House of Commons during yesterday's emergency session on the Suez crisis that a plan, worked out in consultation with the United States and France, to establish a provisional association of users of the canal to "exercise their rights."

The association will employ pilots and assume the responsibility for the co-ordination of traffic through the canal. Sir Eden would be asked to announce in maintaining the maximum flow of traffic through the canal and it was contemplated that it would receive an appropriate payment from the association, to which time would be paid.

Sir Eden said yesterday that Egyptian pilots were withdrawn at the decision of the Suez Canal Co. authorising work by Saturday and on home.

Five ships going to and from Britain and Australia have been diverted round the Cape because of the continued strike. Sir Donald Anderson, a director of several oil companies, said: "We have diverted ships. This will mean increased costs and ships will be making five voyages."

## Egypt's President 'threw away' great chance

OPENING the debate, Sir Anthony said the British Government has done and is doing everything in its power to obtain a peaceful settlement "which takes account of Egypt's legitimate interests and which adequately satisfies the most legitimate interests of those many nations which are so concerned with the Suez Canal."

## Position of Indians 'unfair'

The position of persons of Indian origin in the Union of South Africa has further deteriorated. The Government of India has told the United Nations. The statement was made in a formal request for consideration of the question at the forthcoming session of the General Assembly.

### 10-year-old issue

Last year, the Assembly urged South Africa, India and Pakistan, as the parties directly concerned, to bring about a settlement of the question of treatment of people of Indian origin. The issue has been on the Assembly agenda since 1948.

Mr. Lalit has said that the South African Government had declined to accede to India's request for consideration. Thereafter, the South African Government had refused to meet the Indian representative at the Assembly.

Mr. Lalit submitted copies of letters exchanged on May 21, 1957, between the Government of India and the South African Government. He said that the Government of India had suggested that the Government of South Africa should accede to India's request for consideration.

Mr. Soib, in his reply, said that the South African Minister of Labour had indicated that the Government of South Africa had taken the initiative in suggesting discussion with India.

While discussing the Government's proposal, the House Minister of India in his reply made a speech and announced that the Government of India had taken the initiative in suggesting discussion with India.

ROADS TO INDEPENDENCE
WITHIN THE
COMMONWEALTH

By Dr. L.P. MAIR
Reader in Colonial Administration
at London University
THE unique characteristics of the British Com-
monwealth is that it is a family of wholly inde-
pendent States voluntarily linked together, though not
bound by any constitutional or other legal instrument or
treaty. The United Kingdom, with its dependent territories,
is one member of the Commonwealth; as these
territories in their attainment of full
independence, they are entirely
free to change their status of
Commonwealth membership.
The Commonwealth is the
product of the British
Empire.

Of those who have gained
independence since the
Second World War, only
Burma has chosen the
road of full independence.
The rest have chosen the
road of voluntary associa-
tion with the Commonwealth.

# EXTENSION OF LYTTELTON PLAN

## WISER COURSE

### Mr. Blondell on three aims

**Kenya's wisest constitutional course would be to seek an extension of the Lyttelton Plan after 1960, the Minister for Agriculture, Mr. Blondell, who is seeking re-election in the Rift Valley constituency, told a meeting of the African National Congress on Tuesday night, he said his opponent, Mr. J. E. Roberts, wished to return to the Legislative Council opposite to the Government from the problems facing the country.**

Roberts should not be led astray by emotional appeals based on hysteria, but he should accept responsibility for the Government. Ministers Government decisions before they were made and carry out the actual task of leadership. "You are going to break country into regions and then you are going to extend it to make it to extend to the corner of 117 Mr. Blondell said.

### Left-wing hysteria

There were three points in the Lyttelton Plan which would result in a serious development of a strong economic policy. It was a matter of co-operation between the two groups. The difficulties had to be faced in the pursuit of those objectives. The first was the fact that the Lyttelton Plan was not a solution in British. Nothing was now done to Kenya. The Lyttelton Plan was not a solution in British. Nothing was now done to Kenya. The Lyttelton Plan was not a solution in British. Nothing was now done to Kenya.

### Col. Ghersie attacks F.I.P. plan for autonomy

At the "front line" of the African States of East and Central Africa, Kenya's whole future was bound up in a federation of East and Central African territories. This was stated by Col. G. Ghersie in a speech to the Kenya Legislative Council on Tuesday evening. He addressed a meeting at which he said that the Lyttelton Plan was not a solution in British. Nothing was now done to Kenya.

### Applications by rival bus companies

Kenya applications to operate a bus service in the Kampanja and district were considered at a sitting of the Uganda Transport Licensing Board. The 13 independent members of the travelling public who give verdicts upon such applications submitted by the Kampanja and District Services, Ltd. and the Uganda Transport Co. to operate a service. Of the 13, ten supported the Kampanja and District Services Ltd. and two favored the Uganda Transport Co.

Wide experience Mr. E. M. Mwanza, a member of the Legislative Council said that the Uganda Transport Company had proved itself. He said he supported the Kampanja Service although he had applied for an independent company. He said he had experience in other parts of the country, as well as in the hills. He said he would offer a better service to the Kampanja area.

## Egypt Rejects West's Suez Canal Proposals

### Replanning of world shipping likely

**U.S. PROVIDES FUND FOR EMERGENCY LOANS**

**PRESIDENT NASSER** has stated categorically in Cairo that Egypt will not allow the proposed Canal to be operated to function through the Suez Canal.

The aid "We Egyptians shall run the canal ourselves and efficiently and in spite of this the canal will be a source of pride and honor to the Egyptian people," he said.

Western diplomats yesterday regarded this as evidence of hope that the association would be able to control canal traffic in accordance with the plan proposed by Mr. Dulles — who flew to London yesterday for a conference which opens tomorrow — would be a determination to violate the convention.

It is believed that the 14 nations which will attend the making arrangements for reorganizing world shipping to meet the contingency.

The U.S. Government has approved plans to make available dollar credits through European countries for their ships when they are unable to pay for their cargo. The money would be repaid to the U.S. Government by the countries concerned.

# In defence of Dr. Schweitzer's hospital

ALLOW me to express my views on the criticism of Dr. Schweitzer's hospital at Lambarene.

It is interesting to read this month in the First Church magazine an article in which the author says "The mission work here as far as we know is not a mission at all. It is a hospital." Lambarene is a small town in the north-western province of the Union of South Africa. The criticism is based on the fact that the hospital is a private hospital, and the other medical personnel of Dr. Schweitzer, and all that it involves.

To say we have "believed" that the life and development of this hospital is the work of the missionaries seems "wholly untrue" and "not at all correct" is to ignore the fact that the hospital is in the wild frontier of that part of French West Africa. Apart from that, it is a fact that the hospital is a private hospital, and the fact that it is a private hospital does not mean that it is not a mission work.

There are nobody's fault, and the fact that it is a private hospital does not mean that it is not a mission work. The fact that it is a private hospital does not mean that it is not a mission work. The fact that it is a private hospital does not mean that it is not a mission work.

The First Church magazine mentioned Schweitzer as a Christian but as a Hindu. Hinduism has become a different view of some of the doctrine of the New Testament. Hinduism is a different view of some of the doctrine of the New Testament.

G. G. KURUMA, Lilungu, Sept. 8, 1956.

## LETTERS TO THE EDITOR

CLOTHES OF GOOD VALUE

THE two fashion houses represented on this page have both been long-established in Nairobi. The lovely gipsy lace model, below, with its matching coat and hat, would make an ideal choice for the coming Royal Garden Party.

It is a typical of the exclusive clothes shown by this house which is, however, also becoming known for the excellence of its tailoring where the lower-class, and value clothes are ready-made. One model is a dress with a full skirt, made of the softest of materials, with long lacy collar, wide waist and full skirt.

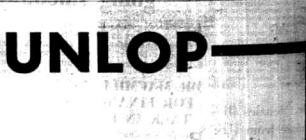

GEORGE A. TYSON, Nairobi, Sept. 6, 1956.

that members for the Garden Party would be practical in wearing a little of the 'new' style, and the difficulty of wearing some of the things which are 'new' is a very much done. To-day's trend is strictly away from over-decoration.

In fact, the general has, in recent months, been doing well. The fact that the Garden Party will be held in the new building is a very much done. To-day's trend is strictly away from over-decoration.

Depositions in London at the request of the Garden Party in Nairobi will, however, have one thing in common — they will undoubtedly be held in the new building.
