The Indian team will consist of several players, including a batsman and a bowler. They will arrive in South Africa in December 1958.

SPRINGBOKS WILL GIVE M.C.C. A CLOSE TUSSELE

Bowling array favours England

SIR DONALD BRADMAN, Australian Test selector, said he expected South Africa to make a "close fight" of the M.C.C. in the coming cricket series in South Africa. Sir Donald, who arrived at Cape Town in the liner Oceanic on his way home to Australia, said England would give a "ballyhoo" favourite because of their "ballyhoo" and strong array of bowlers.

The M.C.C. side has definite batting fall and while their bowlers are not as strong as those of the South African side, he said that during the last Test series in South Africa, England's bowlers still have the edge in winning the ground. Sir Donald, who has not been disappointed by South Africa's performance in the Australian Cricket Board series, said the M.C.C. side would give a "ballyhoo" favourite because of their "ballyhoo" and strong array of bowlers.

SCHEME TO INSTALL GAS IN REMOTE HOMES

GAS-LIGHT and **ovens** will come within the reach of people living in remote parts of East Africa early next year.

A new company, African Light, is planning to install gas lighting in homes as well as in public buildings and industries before the end of next year.

The company will import its domestic natural gas pipelines from its cylinders for distribution throughout East Africa for domestic and industrial use.

The managing director, Dr. G. Barotia, said in Dar es Salaam: "The introduction of gas in convenient and standard of living for all communities."

Bulk tanks

First installation of the gas service next January will be February in Dar es Salaam and Mombasa. Bulk tanks will be installed in the following order: first, in the main centres of East Africa, then in the outlying areas.

Later, the installations will be in two parts and at intervals, the facilities spreading to other inland centres of demand gas.

Gas supply will then be introduced in bulk tankers, and the country hopes to send bulk tankers to other parts of the world. It is expected that the gas will be available at a price of about 100 shillings per ton.

Many cases

African Light will also supply equipment for domestic and industrial use, including stoves, ovens, heaters, fans, and lighting. The company also supplies gas for industrial use, including welding, cutting, and heating.

The company will also supply gas for the transport of gas. It is expected that the gas will be available at a price of about 100 shillings per ton.

Mauritians maintain welcome to the end DRIVE THROUGH ARCH OF SUGAR CANE

PRINCESS MARGARET'S triumphal visit to Mauritius came to an end yesterday. Last night she left Port Louis on the Royal yacht for Zanzibar on the next stage of her tour.
Scores of almost overwhelming enthusiasm again marked her progress through the island yesterday. Wherever she went crowds of cheering Mauritians pressed forward in efforts to get a last glimpse of her.
During the day the Princess visited one of the most important places in the Colony—a sugar factory. Sugar is the staple crop and industry in the island's life-blood.

Named in honour of visit

The welcome of the sugar growers which was given by the people of Mauritius throughout the visit, their resounding cheers all but drowned the deafening noise of the factory machinery.
Earlier the Princess visited the world-famous botanical gardens at Pamphlemon, where she named one of the beautiful palm-lined drives Princess Margaret Drive. During her visit she saw palm land turtles and a pair of native birds, the Mauritius kestrel and the Mauritius warbler. The Princess attended a garden party at the residence of the Governor, Sir William McNair, ending from Mauritius yesterday.

BRITAIN'S largest jet bomber, the Avro Vulcan, crashed and blew up on landing at London Airport yesterday on its return from a round-world trip. Two survivors of the crew of six on board included the chief of the R.A.F. Bomber Command, Air Marshal, Sir Harry Broadhurst, who was flying as co-pilot. The other was the Vulcan's captain, Sgt. Len Donald Howard.

Both men had a miraculous escape from death. They shot themselves from the cockpit with ejector seats and landed by parachute. They got out as the aircraft plummeted for seconds above the ground after being shaken by an internal explosion on landing. The aircraft hit the runway and blew up.

REPORT OF PILOT'S DEATH

INVESTIGATORS from the Kenya Directorate of Civil Aviation have reported that the pilot who crashed yesterday after a five-hour flight from London to Nairobi was killed.

'Experienced' driver a road danger

MAY I be allowed to comment on Mr. Stevens' letter on "Driving Tips"?

While noting the low percentage of people in general who drive, it is interesting to note that the "experienced" driver who is the danger to the public is the one who has been driving for years and who has had a great deal of experience.

New DUNLOP ROADSTER TRUCK AND BUS TYRE

- with... tread rubber and pattern to defy
- with... cutting and cracks
- with... a casing to withstand impacts,
- with... yet supple and strong
- with... a tread for long life and
- with... an ideal casing for retreads
- with... a non-skid tread design that grips
- with... but does not trap stones

Actual Test Reports of THE NEW DUNLOP ROADSTER

From YUGOSLAVIA At Karlovac I have seen a truck that has been running with 12.00 x 20 tyres already over three months, these treads being quite undamaged in spite of very narrow roads and under bad conditions of timber hauling work. I feel sure that we shall be satisfied with the results obtained with the Roadster tyres.

From BURMA Twenty 7.50 x 20 covers were supplied to one of our largest bus companies and have inspired great enthusiasm. There were no complaints at all. All concerned are most impressed and news of their performance is spreading.

From PAKISTAN Early results are most encouraging. Tyres fitted to buses and trucks are in perfect condition, and the operators are themselves most enthusiastic.

From EAST AFRICA The outstanding feature of the tyres is the virtual freedom of the tread from chipping and cutting. They have been operated on roads which specialise in this type damage.

From ITALY The 11.00 x 22 Roadster tyres have given excellent results, although this vehicle is occupied almost exclusively in carrying heavy loads of wet sand day and night, travelling about 900 kilometres in about 24 hours.

From JAMAICA This tyre was fitted to a Fargo 5 ton Diesel and was removed at 23,500 miles. This mileage was exceptional, as the roads over which the vehicle was operated are very rough and there are several steep hills and the road is very winding. Mr. Jarrett is most satisfied with the results.

From SOUTH AFRICA Roadster is doing very well indeed. You will remember I mentioned a service to the... Copper Mines, where we could get a result in six months. I am pleased to be able to tell you that each and every tyre which has been removed so far has outperformed the previous best single performance by 3/4,000 miles. Of course, there is no sign of 'cacking' and all the tyres are fit for retreading. This result is so outstanding locally.

British membership of free trade area a benefit to Commonwealth

REASONS for the Commonwealth's opposition to the British projected membership of the Western European free trade area have been explained in a statement by the Chancellor of the Exchequer, Mr. Macmillan, and five Ministers returned from the London meeting of the United States.

According to financial experts in London, they are of the opinion that the British participation in the free trade area would be a benefit to the Commonwealth. The value of Commonwealth goods will move with any tariffs at all whereas Commonwealth preferences are merely reduced tariffs.

MORRIS OXFORD AND ISIS

IN spite of the pomp and splendour of old Elizabethan times, their methods of travel were neither very speedy nor very comfortable. Today, in new Elizabethan times, we have all the pleasure presented in a different way — strong, rugged, reliable, and fast. Below the hooded roof, modern travel is in the Morris OXFORD and the Morris ISIS.

The MORRIS OXFORD combines a roomy, man-of-war body with a lively 15-hp. engine. Its rugged, developing 50-h.p. engine has independent front-wheel suspension with telescopic hydraulic dampers all round. The clutch is hydraulically operated and the gearbox is 4-speed synchromesh. The luggage boot is unobstructed. The Morris ISIS is a car with great value at £280 and 18 monthly payments of £28 10s. Above: A conservatively styled jumper suit in dark-velvet cloth, a three-quarter brushed surface woven fabric from the French designer Dioran. Its closure is by one button set high on the left-hand side of the pointed tunic although the short-sleeved top features the powder "no waistline" effect, the skirt has a tubular breast.

Below: Dioran's line for winter 1952/53, featured in a tailored suit, the straight coat of which is trimmed by silk and doubletapes. The model comes in brown green-ochre and has an open back panel, seven-eighths sleeves and high-cut corduroy waistline.

WOOL IN ANY WEATHER AND CLIMATE

A recent "fashion costume in wool" demonstration was given at the Mansion House, before the Lord Mayor of London, Sir Cuthbert Ackroyd, by the International Wool Secretariat, many striking creations were shown by the leading designers.

As shown in these pictures, wool is no longer regarded as a cold weather material; it is now worn in many different forms, as the material for the cocktail party, as seen in the model by the Italian designer, the skirt could be further removed from the fall line and the skirt made to suit the occasion, it may be used for all day and night time occasions in the varying weights and qualities for wool.

Above: Fluid wool-suit in red and brown-green, giving a youthful appearance by its wide belted waistline and long skirt. The skirt is made in a wide, belted waistline, giving a youthful appearance by its wide belted waistline and long skirt.

Above: The most look on wool for a dress, creating a wide inserted fabric band at the waist, through which is shown a single looped hem, with a hint of the Empire-waist and the sleeves are of an average length. The matching hat is of brown velvet and has a wide brim and a high crown. The skirt is of the same material and has a wide hem.

LETTERS TO THE SPORTS EDITOR

Hockey supporter sees slight flaw

I MUST congratulate our hockey supporters for their tireless work in selecting a wonderful field for which the Kenya Hockey players and supporters don't feel happy about.
I would like to mention here that P. Verma, whose letter appeared in your paper last week, is wrong in comparing the grounds in Frankfurt and Graz with Frank Trentino. The latter is very often that so said from the members of Kenya's team have to be good grounds, just as good as anywhere else in the world...

I HAVE read with great interest the selection of the Kenya hockey team...

Ph.D. on an 'Imperial' Good Companion

This typewriter was his father's present to him when he took his education to Cambridge. Now, if the United States is so good in the trying, he'll get his Ph.D. in this country. That will give him an income and a home, and he has a girl already. So a wedding depends on what he's doing now. That's all at work. He's a Ph.D. in the Imperial 'Good Companion' typewriter. It's a lovely machine, the Imperial 'Good Companion' typewriter. So easy for beginners; three fingers, four fingers or book-tying.

Israelis die in ambush near border

NIGHT RAIDERS KILL FIVE

FIVE Israelis were killed and a sixth wounded when two civilian cars were ambushed at night on a lonely road near the Dead Sea.

A search party later found the five bodies at the scene of the ambush but the attackers, whom the Israeli authorities claim were Jordanians, had withdrawn.

The ambush, about four miles from the Jordanian frontier, followed a series of similar incidents which had left several Jordan and Israeli soldiers dead.

It happened only a few hours after the Jordan-Israeli Mixed Armistice Commission announced that it would have to report to its own Security Council on a recent Jordanian aggression for its attack on two Jordanian villages.

The Israeli government has announced that it would be "very regrettable" if it were to take any action because it "was unable" to carry it out in the routine examination of incidents.

THE PRINCESS Dhows and yachts meet Britannia

GAY SCENES ON ISLAND

By KENNETH MEADOWS

MORE than 500 Arabs in multi-coloured turbans and brandishing soft swords and colorful sticks performed a traditional dance of welcome for Princess Margaret when she arrived in Zanzibar yesterday.

From the blue and red draped balcony of the Sultan's Palace the Princess, a cool, regal figure, acknowledged cheering crowds and engaged in animated conversation with the Sultan and Sultana as she pointed to wildly gyrating dancers in the street below.

Twenty minutes earlier she had arrived at the pier in the Royal barge from the Britannia which, draped with and flying the Princess's personal standard, had glided through a backwash of small boats a quarter of a mile offshore.

Score of white-sailed dhows and yachts, like swans on a millpond, formed a welcoming armada with a variety of strange craft as tugsy courtes.

Pictures of saris and cool cotton dresses

By Lesley Gray

THIS scene at the Jubilee Gardens which the ceremony of welcoming Princess Margaret took place has a vivid and colorful scene.

The Palace was crowded with a number of guests that were invited to Zanzibar. There were many young women wearing colorful saris and cotton dresses.

The girls were dressed in European-style dresses with a variety of colors and patterns. Some were wearing saris and cotton dresses.

FANFARE OF TRUMPETS

A fanfare of trumpets rang out at the airport when Princess Margaret stepped down from the Britannia at the pier where she had been welcomed by the Sultan and Sultana.

The Sultan and Sultana were dressed in traditional Zanzibari attire. The Sultan was wearing a white turban and a blue robe, while the Sultana was wearing a white and blue sari.

The Princess was wearing a blue and white dress. She was smiling and waving to the crowd.

The crowd was cheering and waving. Many people were holding cameras and taking pictures.

The scene was a joyous one. The Princess was being welcomed as a guest of honor.

Car turns over on Royal route

By Barbara Blyth

THREE women officials of the East African Standard were on Thursday last one of the most over-crowded cars on the road over which Princess Margaret will drive when she visits Zanzibar.

On the way back from Mbaraki their car, traveling very slowly struck a patch of mud and slid over the edge of a cliff.

The Assistant Commissioner of Police, Sir Walter, Mr. A. J. Alim, was admitted to Nakuru War Memorial Hospital later with slight concussion.

The Princess's car was driven by Miss M. J. Cooke, who was uninjured.

The roof of the car was dented. At the hospital yesterday Mr. Alim was stated to be very comfortable.

U.S. EFFORT TO AVOID SHOWDOWN

U.N. meets on Suez

THE Minister for Finance, Mr. Vasey, yesterday described his visit to Britain for talks with Colonial Office and Treasury officials on the Colony's general finances, and the development programme for 1957-60.

Mr. Vasey, who had returned to Nairobi by air, told the East African Standard: "The Colony's revenue has continued to be buoyant and has held up well against the estimate."

He continued: "We have been able to do without some of the rates money granted by Britain, and it is reasonable to expect that we will not need to call for further financial assistance during the present year."

"The Government is in a better position than anticipated to have more money available for development projects, but I am looking for financial aid."

Local loans

The Minister said the 1957-60 development plan was being prepared by the Colonial Secretary, Mr. J. G. Wheeler, Director of the East African Development Corporation. He said the Corporation would be considering the general lightness of capital requirements in the Colony.

He said the Corporation was "very glad to meet with the British Government's willingness to consider the Corporation's proposals for the development of the Colony."

Free trade area best hope of strength for Britain

MEANS OF CREATING WEALTH

By SIDNEY CAMPBELL

BRITAIN'S commitment, so far, to the projected Western European "partial free trade area" is an undertaking to join in serious study of the possibility of creating a sphere for wider trade and the creation of capital. She wants the other countries to bless her intention to open up her interest and for the sake of reconciling Britain's Commonwealth responsibilities which have crumpled her style in European integration.

As the free trade area grows, British industrialists and those who may face their competition in the British market will be in a position to compete with the United States. The British market will be a more important factor in the determination of the price of raw materials.

The projected free-trade area is based on the assumption that the British market will be a more important factor in the determination of the price of raw materials.

FAREWELL ON QUAYSIDE TO

SULTAN OF ZANZIBAR
Princess leaves for Dar es Salaam
WATERFRONT CHEERS AS BRITANNIA SAILS

AMID scenes rivaling the rousing reception two days earlier, Princess Margaret left Zanzibar yesterday afternoon in the Royal yacht for Dar es Salaam.

As the Royal barge left Jubilee Pier, she was cheered by throngs of Zanzibaris who had gathered to see her sail. The yacht is due in Dar es Salaam at 10 a.m. today after what is officially described as a peaceful cruise and quiet anchorage.

Before leaving, the Princess called on the Sultan of Zanzibar at the waterfront palace. Afterwards with Prince Philip in her train, she drove in a red car to the Abdulla, the first apartment, where she lived for a few days.

As she shook hands with the Sultan, who bowed low, the Princess said: "Goodbye and thank you very much."

Among gifts the Princess accepted were a traditional Zanzibar and a shem bani from the Sultan. The British Resident, Mr. Robert Alfred, presented a clock, a jewel box, and a box of all the people of the Protectorate, close up, on behalf of all the people of the Protectorate.

(Editorial comment in Page 4)

Move for secret U.N. Suez talks HOPE OF NEGOTIATION

THE move by Britain's Foreign Secretary, Mr. Selwyn Lloyd, to continue the U.N. Security Council debate this week in secret session represents a fresh attempt to settle the possibility of settling the Suez dispute by negotiation with Egypt, observers at the U.N. in New York said.

Garden party in the Residency grounds

MARGARET, the
Princess,
T. This is how
Margaret is being talked
about by everybody who
saw her in East Africa.
She charmed the
Coast and it is impossible
to forget her. Yesterday,
the left Zanzibar for
Dar es Salaam after a
visit that the Sultan and
his people will always
remember. They gave
her an almost perfect
welcome and wished
her good, before parting.
"It is sad that my visit
has to be so short one."
She promised to take
back to London a mes-
sage of loyalty to the
Queen and special greet-
ings for Prince Charles
and Princess Anne from
the children and all those.
This page of pictures
records a happy weekend
among delighted people.

ZANZIBAR HAILS THE PRINCESS

Crowds thronged the
streets of Zanzibar —
many had crossed from
Arabia — to greet Prin-
cess Margaret. The two
pictures on the right
show (above) the Prin-
cess waiting to leave the
launch that is taking her
aboard from the Royal
yacht, Britannia, while
the Islanders line the
waterfront.
On the left, the Prin-
cess is seen walking with
the British Resident, Mr.
R. E. Alford, before
gracing the garden
party which was
attended by 600
guests in the
Residency grounds.

Sword dances, umbrella
dancers gave display of their
traditional greeting to a
Royal guest. Everywhere the
streets and public places were
packed with cheering crowds,
who were pressed close togeth-
er behind the barred windows.
On the picture on the right,
the Royal car is surrounded by
a mob of excited islanders,
mostly Arab, who are waving
and singing in welcome. The
Princess drove the 20 miles
through town and country, the
car laden with the distribu-
tor of clove.
Her most touching recep-
tion was from the children
waiting at the Victoria
Home for Sufferers from
Leprosy and tuberculosis.
The drive took the Princess
past special markets for gar-
ments, Experimental Station
established by the Government
on a former Royal plantation.
There was also the land-
mark 'Royal Show' of
cloves, produce and home-
brewed 'Umshaki'.
