MAKARIOS DECIDES NOT TO GO TO BRITAIN

Minister's guarded reply on prosecution

BISHOP MAKARIOS, the exiled Greek Cypriot leader, has cabled to the Archbishop of Canterbury that "owing to other duties" he will not accept Dr. Fisher's invitation to attend the Lambeth conference of the Church of England in London next week.

At the same time before a Church of England spokesman in the House of Commons, speculation was made that the Archbishop of Canterbury would not reply to the Attorney-General, Sir James Callaghan, on the legality of action being taken against Bishop Makarios if he visited Britain.

Mr. J. H. Clarke, Conservative M.P. for Portsmouth, urged the Government to start proceedings against the Archbishop. He said that, as leader of the Cypriot community in London, Bishop Makarios had "blatantly broken the laws of the United Kingdom."

Mr. Clarke said that, in relation to an offence committed by him if he came within the jurisdiction of the United Kingdom, he would not be prosecuted if he had been committed outside Britain, whereas if he had been committed in Britain, he would be prosecuted.

# Object to the pension and provident fund proposals

**City Hall**

**EARLY**

It is suggested the public interest would be served by publishing the text of the proposals before they are considered by the Pension Committee. This has been expressed by the Finance Committee members, who have raised questions in the past as to whether it would ever be possible to have a pension scheme, or really a provident fund, which would be based on the contributions of the employees and not on the contributions of the employers and the service.

The Pension Committee has been set up to consider the proposals for a pension scheme and a provident fund. The proposals are being considered by the Pension Committee, which is a sub-committee of the Finance Committee. # PREMIER READY TO SETtle ANY ONE ON CYPRUS Commons offer of concessions in plan PLEDGES REPEATED

MR. MACMILLAN told the House of Commons during its debate on the British plan for Cyprus that he was "ready and anxious to meet anyone or go anywhere" if it would help to bring the island's future to a satisfactory conclusion. He had already offered to bring Prime Ministers of Greece and Turkey, together with the British Minister, to a meeting which would make a contribution towards alterations if these were to be made, but they must not be so plain as to add to the rigidity of the other parties.

The Prime Minister said the Government had no objection to this or that detail in it "stick to the bone" but they must not be so plain as to add to the rigidity of the other parties.

**Separate self-determination**

He again promised that the British Government would stand by the pledge over Cyprus. Those included that the Government would not be asked to separate for the Greek and Turkish communities. Mr. Lemnason, who opened the debate, said that the British plan was to be a weak and inappropriate one which would be set aside only by co-operation or conflict with the initiative of the other parties.

No vote was taken at the end of the debate because the Socialists and Liberals offered no serious criticism of the plan, though Mr. Callaghan, the Labour Party spokesman, said that the Government had made major concessions to the Turkish point of view.

Mr. Callaghan said that the Government had made major concessions to the Turkish point of view. He said that the Government had made major concessions to the Turkish point of view. He said that the Government had made major concessions to the Turkish point of view.

Several members of both Houses of Parliament have been killed in an air raid on the island of Cyprus. The raid was carried out by the Turkish Air Force. The victims were British and American personnel.

# STANBURY Ministers in agreement PRISONS INQUIRY REJECTED Irresponsible letters not justification

He was speaking against a motion proposed by Mr. T. Mwa (Nairobi Area) calling on the Government to institute an inquiry into the conditions of prisons and detention camps throughout the Colony. The motion arose from the publication in a British newspaper of a letter from five convicts at Lokichilingi camp, in which they complained of the conditions of their detention.

Mr. Conway said that the Government had already taken steps to improve the conditions of the prisons. He said that the Government had already taken steps to improve the conditions of the prisons. He said that the Government had already taken steps to improve the conditions of the prisons.

Comment from Page 1, Col. 7.

The inquiry into the activities of the Cypriot National Defence Force (C.N.D.F.) in 1955 and 1956, which was held in the House of Representatives, has been a landmark event in the history of the island.

The inquiry was held over a period of several days, during which the members of the House had the opportunity to examine the evidence and to question the witnesses.

The inquiry was held in a public session, and the members of the House were able to see and hear the proceedings. This was a first in the history of the island.

# KENYA WELFARE TRUST

regret that due to the considerable influx of money during the closing days, it has not been possible to dispatch all receipts, but this is being done as quickly as possible

## Veteran car rally winner

Rolls romps home, third win to Hughes.

Nairobi, for which they are to be appreciative prizes.

As a motorist correspondent, I am of particular interest in the fact that the veteran car rally which was held at Nairobi on June 27-28, was won by a veteran car, a 1936 Rolls-Royce Phantom II, driven by Mr. H. J. Hughes. This was the third time that a veteran car has won the rally since it was first held in 1958.

The same qualities that made Rolls and Ford a household word yesterday are still there today and even better. You see it isn't correct, try any branch of Hughes Ltd. at Nairobi. Eldoret and Nakuru and give it the test.

**Polish ship fugitive saved by Swedes**

SWEDISH sailors helped a slightly injured Polish seaman to evade capture after he had jumped into Stockholm harbour and swam for the shore.

The fugitive, from the Polish freighter "Kosciuszko", was seen overboard in the water by a Swedish sailor who alerted his fellow crew members who rescued his identity and hid him repeatedly on the deck.

As the men struggled with the water, officers in the Polish ship were seen to be in a hurry to get the seaman away from the vessel.

But the escape attempt had been seen by crew of a Swedish ship who set out in a motor launch and rescued the fugitive from the water. They took care of him in their ship which arrived.

The seaman said he had joined the *Magdalen* because he wanted to escape. He was on his first trip to Sweden, and crew members there never allowed aboard from Polish ships on their first visit because their political sympathies are not known.

Earlier this month about 20 passengers left the *Magdalen* in Stockholm and a further seven Swedish sailors when the ship arrived in Copenhagen.

**FRANCE AND POLAND Complete accord on defence needs**

**PARIS TALKS END**  
**COMPLETE agreement between Britain and France on the defence needs of the free world was announced in a communiqué on the talks held by Mr. Macmillan and Gen. de Gaulle, which ended in Paris yesterday. It said they had established "a common attitude for close co-operation" on a whole range of problems.**

The two governments, after a frank exchange of views, were determined to maintain this co-operation. The British and French Prime Ministers had reviewed the "great problems besetting the Western world, which the two countries must face together."

**Warlike friendship renewed**

Exchanges took place in an atmosphere of close friendship, the communiqué said. This had enabled the two states to renew the bonds of friendship and esteem which existed years ago, when both were in North Africa (Gen. de Gaulle as the French leader and Mr. Macmillan as Mr. Churchill's personal representative).

The general French hands warmly with Mr. Macmillan as the man said goodbye on the steps of the Hotel Matignon, the French Prime Minister's headquarters, after their final session of talks yesterday. Later the British Prime Minister, with the Foreign Secretary, Mr. Selwyn Lloyd, flew back to London. Their visit had lasted almost exactly 24 hours.

In the light of the Sunday night session between the two heads of state, Mr. Lloyd said he would be in London on Monday afternoon for detailed talks on the topics discussed by the leaders. They were believed to have included summit talks, the Lebanon, North Africa, Nato and European free trade.

Later the Foreign Ministers joined the Prime Ministers in the final session.

According to British observers in Paris Mr. Macmillan found that the "entire mood" of the talks "was a summit meeting which was shared by Gen. de Gaulle. Both felt they should try to get a summit meeting going. Other points made by the observers were:

Leshaw and the Middle East  
 Both claimants were agreed to the paramount importance of maintaining the independence of the Lebanon and the necessity of preventing foreign interference in the Middle East.

European free trade  
 Mr. Macmillan said that the talks "have stressed the importance of the European Economic Community and the six-nation common market."

**CYPRUS CLASHES**

A CURFEW was imposed yesterday on Limassol, South Cyprus, after a Turkish Cypriot shot and fatally wounded the man, Ahmet Zeki, who was being held in a hospital. Meanwhile, leaflets issued by the Turkish Cypriots urged the Greek Cypriots to join the T.M.T. in Nicosia ordered to stand by for a "general struggle".

T.M.T. said it British officials proposed to move to the T.M.T. in Nicosia. The T.M.T. said it had been offered to be a safe place of refuge for the struggle which belongs to the T.M.T. in Nicosia. ### HOLLYWOOD STAR MAKES A NEW HOME IN PARIS

**BETSY BLAIR**, the film star who left Hollywood to live in Paris, is planning to return to California—but only for a few months. She hopes to make another film with Ernest Borgnine. It was her acting, opposite Mr. Borgnine in *Merry* which won Miss Blair international fame and a British Academy Award. It made her the most sought-after actress in the American film colony. But Miss Blair had other ideas. She wanted to break away from Hollywood's artificial life, so a year ago she made her home in Paris, only the time to see the film, which started in 1956 to make a film. Paris is ideal for Miss Blair, who likes to work and play. She has spent years of her life in Hollywood and she has found a film company to make French, Italian and Spanish films. The former wife of cameraman Harry Grey, who is now working out of his own studio in Hollywood, is now making up and sets for her in a very simple style. A real eye for eye. Miss Blair says she likes to make films in Paris. This is a big change from her former home in Hollywood.

# WESTERN SCIENTISTS TALKS TO RUSSIANS

**Political delegates  
 on Soviet side only**  
**NUCLEAR DETECTION**

THE East-West conference on nuclear test detection opened at the Palace of Nations, Geneva, yesterday afternoon. The Soviet-Block scientists were accompanied by political delegates; the Western nations had only technical representatives present.

Earlier, the American scientist and leader of the Western delegation, Mr. James Fick, met the Russian "Spotnik" expert, Prof. Fyodorov, to discuss procedural matters. They arranged that the daily sessions of the conference would begin at 10 a.m.

At this preliminary meeting, Prof. Fyodorov was accompanied by a senior Foreign Ministry official, Mr. Gromov. Mr. Fick was absent. Three Nobel Prize-winners among the scientists attending the conference, they are Sir John Cockcroft (Britain), Dr. Ernest Lawrence (United States) and Academician Nikolai Semenov (Russia).

**West wants safeguards**

The principal task of the delegates is to recommend to their Governments a system of nuclear test detection which could be put into operation if a subsequent international agreement is reached on such a basis. The Russians have tried in vain to get an advance pledge from the Americans that if the expert talks succeed a ban on nuclear tests will follow.

Russia at present is the only country which has temporarily ceased tests of its own accord. The Western powers are also willing to stop tests, but they insist that any agreement to do so must be based on a firm international inspection, supervisory and control system. The Russians insist that they ensure that it is not being surreptitiously infringed.

Russia's decision to take part in the conference was announced only on Monday after nearly a week of uncertainty over the issue. Some diplomatic observers say that Russia was not given a formal invitation on the basis of previous East-West conversations. The Russians are also sure of a technical nature, the ability to reach an agreement on ending tests only to the extent of a common warning and means of ensuring that such a policy is fully observed.

**British reply to Khrushchev**

**SUMMIT TALKS**

A British Note to Russia on summit talks was handed over in Moscow yesterday. It replied to Mr. Khrushchev on June 11.

The United States and French replies to Mr. Khrushchev's message were also expected to be handed over yesterday. Mr. Khrushchev's Note, made public by the Soviet Press, challenged the West to state whether they would accept a suspension of tests as all.

**ECART NATIONS TAKING PART**

Monroe said last week that the conference would be published in Washington. It was a surprise to all those who had taken it as a scientific conference. The countries represented at the conference are Britain, France, Canada, Austria, Belgium, Czechoslovakia and Rumania.

**RULES NEED HEAVILY TO SAVE RARE BIRD PARTIES**

I HAVE read with interest and not a little dismay what Mr. J. G. Williams has reported as saying about the growth of trade in capturing and exporting birds from South Africa.

Many of these are "lovebirds" which are little more than caged birds of the bush. Many of them are taken from the bush and taken to the coast, where they are sold to the natives. The birds are then taken to the coast and sold to the natives. The birds are then taken to the coast and sold to the natives.

The two countries referred to are the Cape and Natal. The Cape is a beautiful country, and Natal is a beautiful country. The birds are then taken to the coast and sold to the natives.

From what Mr. Williams says, the existing law does not seem to be sufficient to protect the birds. The birds are then taken to the coast and sold to the natives.

An argument to be met will be that the birds are taken to the coast and sold to the natives. The birds are then taken to the coast and sold to the natives.

Without the advertiser, the birds are then taken to the coast and sold to the natives. The birds are then taken to the coast and sold to the natives.

horrid crime... the birds are then taken to the coast and sold to the natives. The birds are then taken to the coast and sold to the natives.

The birds are then taken to the coast and sold to the natives. The birds are then taken to the coast and sold to the natives.

## You can't kill flies with a cleaver!

A microscopist's nose wouldn't be a butcher's shop without a cleaver. 'Lorexane' is just as essential for 'Lorexane' Aerosol Insect Spray is the infallible way to rid your shop of flies. Flies are not only annoying, they are a menace to health and create the worst possible impregnation. A few short bursts from the 'Lorexane' Aerosol Spray (simply press the button) and all the flies, wasps and blowflies in your shop are doomed — because the spray contains gamma benzene hexachloride, a most powerful and persistent insecticide discovered by I.C.I. Its effects are lasting; it destroys all flying insects without harm to humans. Spraying with 'Lorexane' is simple, economical and effective.

## Council debate on flats

**FEUDALISM or feudist privilege (should) be abolished** was the theme of the members of the Nairobi City Council yesterday. The time had passed for their credit against the Government. B. E. Norman, opposed the plan.

## Professing the reverence

Mr. Norman's speech was a masterpiece of sarcasm. He professed to be a reverent admirer of the Government's plan, but his words were filled with veiled threats and innuendoes. He accused the Government of being a 'feudalistic' power and of using its authority to oppress the people.

## Live in beauty.

Wherever you are, whenever the season, the most rewarding way to care for your skin is the natural way. A smooth massage with Imperial Leather soap, a splash of cool water, and the most sensitive skin is refreshingly cleansed and protected. It is the foundation of your freshness, light and delicate complexion, clear as a summer evening, making you irresistibly, wonderfully alive. The perfume of Imperial Leather soap, so appealing to your nostrils, is a diversion itself, lustfully, lovingly yours. It is a luxury that is a real economy: it's less live in beauty.

# A PRINCESS WHO SPOKE IN ESKO!

By SUZAN VALERIAN

THIS news that the Princess Elizabeth has been advised to have two months' rest from official engagements because of fatigue and overstrain is a reminder of the forgotten fact that she is one of the most hard-working and widely-travelled members of the Royal Family.

In the last few years, the princess has officially visited 20 countries, and has undertaken as many as 200 public engagements in a month.

On her visit to Canada she made 2000 Park Service, and while staying in Montreal she visited the Montreal General Hospital, the Metropolitan Police, and the Canadian Red Cross.

She also visited the University of Toronto, and the Ontario College of Education, and the Ontario College of Art and Design.

# A kind of blouse to wear with saris elaborately

COATS to be worn in the country should be carefully adapted to suit the climatic conditions of the area. While collars, large pockets, heavy buttons and patterns, big sleeves and heavy fabrics are all to be avoided in a blouse, it is a good idea to use well-ventilated materials, such as cotton, linen, or silk. The blouse should be light and airy, and should be able to be worn over a sari. The blouse should be simple and elegant, and should be able to be worn over a sari.

# GEDDES AXE INSTEAD OF INCREASED YIELD

There is one burning question which would like Mr. Vasey to answer. Considering the present economic plight of Kenya, why does the Government not show an example to the rest of us by tightening its own belt? Why not cut down on its staff?

For example, I had occasion to see my acquaintance some time ago in a Government office where several of the civil servants were working. One was a secretary. One was a clerk, having the usual clerical work. One was a typist, having the usual typist's work. One was a messenger, having the usual messenger's work. One was a driver, having the usual driver's work. One was a cook, having the usual cook's work. One was a cleaner, having the usual cleaner's work. ## WHERE CAGING WILD BIRDS IS AN OFFENCE

WHEN I visited the agricultural show at Nakuru, my attention was attracted to a new exhibit—caged birds. Being extremely interested in ornithology, I entered the exhibit. What a distressing sight! How upon a table inside, glorious sparrows, warblers and birds of other species.

As a member of a Society of Ornithologists, I am distressed at this. It is a very bad example to set. I should not be surprised if those who are in charge of the show were to be asked to remove the birds. It is a disgrace to have birds caged in this way. It is a disgrace to have birds caged in this way. It is a disgrace to have birds caged in this way.

In England, Australia and New Zealand, it is an offence to cage a wild bird. Surely it is not too much to ask that the same should be done in Kenya.

### LIFE NOT WORTH LIVING?

Then wake up the liver!  
You know that dull, tired, irritable feeling that may be caused by the liver. If you feel that your liver is not working properly, there are two ways to get it back into action. One is to take the liver pills. These regulate the body's metabolism and help the liver to work properly. The other is to take the liver pills. These regulate the body's metabolism and help the liver to work properly. The other is to take the liver pills. These regulate the body's metabolism and help the liver to work properly.

**EXHIBITION** of a Rotaprint lithographic duplicator was a feature of the Business Machines, Ltd. stands. In the picture on the right, Mr. D. J. Watts (left) demonstrates the duplicator to the visitors. The exhibition will be open all this week in the Charter and Conference Halls of the City Hall.

It's the close-up look that tells you

**BLUE OMO** gives you the **WHITEST WASH** in the WORLD

All whites look fairly white at a distance — but it's the close-up look that tells you when clothes have been washed in Omo, the wonderful blue powder. That blouse she's wearing catches your eye because it's white, really white. Blue Omo gives you the whitest wash in the world — everything has that 'special' look about it that simply asks to be admired.

If you wash with blue Omo you can be sure of whiter whites, and so for coloured things — they come up as gay and bright as the day they were new. For washing you can be proud of, for the whitest wash in the world, make sure there's a packet of blue Omo in your home.

— it's best for coloureds too!
