

# GAILLE OFFERS NEW DEFACTO REPUBLIC

## Authority basis of draft Constitution

### FEDERATION PLAN

The first step in creating France's Fifth Republic has been taken by Gen. de Gaulle, with the publication of a new draft Constitution. This will be presented to the nation for approval in a referendum to be held in October.

Under the Constitution the President of the Republic will have wide powers. He will name Prime Ministers, have the right to dissolve Parliament and negotiate international treaties. The Government will be overthrown only by an absolute majority vote of censure in the Assembly.

Gen. de Gaulle has also outlined in the Constitution not only French overseas territories but other States which are to be included in a 'community of free people'. This is understood to leave the door open for an eventual association between France and the independent States of Morocco and Tunisia, as well as providing an immediate plan for Laos, Indo-China.

### Autonomy for colonies

Autonomy is promised for all French territories in a federation to be formed between them and France on a footing of equality. The members of the federation will freely administer their own affairs, with foreign policy, defence, economic and financial policy remaining at federal powers. Overseas territories, however, are free to opt out for total integration with France. So far most of France's African territories have a status of semi-autonomy.

If the Constitution is approved, the Government will have the right to determine by decree the electoral system under which the two Houses of Parliament are to be elected in November. The existing system, based on proportional representation, which has in the past been blamed partly for the weakness of French Parliaments.

Presenting the draft Constitution to a special Constituent Assembly, Gen. de Gaulle said that the weakness of the old system was the chief reason for the events of May 1958, when the Public Order Committee took power in Paris.

The urgent task, he said, was to end up institutions which would allow a turn to normal and democratic government on the principles of democracy.

The powers of the constituent committee to propose amendments to the draft Constitution will expire on August 15, when the constituent committee will give its opinion. A preliminary report will be made on August 15.

Article 11 of the new Constitution provides that the referendum would be the ordinary procedure for the approval of the Constitution.

# ALL IS STILL 'N.' 'SUMMIT'

## Britain and U.S. suggest second week in August

Britain and the United States are expected to reply this week in the latest Soviet proposal with a suggestion that the 'summit' talks should take place in the second week of August.

Mr. Macmillan's letter, proposing that the talks should take place in the Security Council Chamber on August 1st, was received today, according to sources in London, and President Eisenhower is expected to send a similar reply to Moscow. Both leaders intend to stand by their earlier proposals of a 'summit' meeting.

The Russian change of view has caused some speculation in London whether this limited proposal from Paris, as announced by the Soviet Press, would be accepted by the Security Council. It was strongly criticised in the House of Commons on Monday by Mr. Krushchev, who said that a representative of the Security Council should be sent to Paris to discuss the proposal.

Mr. Macmillan is expected to reply to the Soviet proposal in the House of Commons on Monday. The proposal was also discussed in the House of Commons on Monday.

### Co-ordinating policy

MACMILLAN SUGGESTS AUGUST 12 FOR SUEZ TALKS

Macmillan willing to meet anywhere DECISION REACHED
The Prime Minister said that he had no reason to suppose that President Eisenhower would not be willing to go either to Geneva or New York. His statement was cheered by the House. The leader of the Labour Opposition, Mr. Gaitskell, said the Labour Party warmly welcomed it.

BRITAIN has proposed that a special summit meeting of the Security Council on the Middle East be held on August 12. This was stated yesterday by the Prime Minister, Mr. Macmillan, when he told M.P.s of a letter that he had just sent to Mr. Krushchev.

In his note to the Soviet leader, Mr. Macmillan said: "If this meeting is agreed I shall be there on August 12; I hope you will be there too. So far as I am concerned, New York, Geneva or any other place generally agreeable will do."

The Prime Minister added that he had no reason to suppose that President Eisenhower would not be willing to go either to Geneva or New York. His statement was cheered by the House. The leader of the Labour Opposition, Mr. Gaitskell, said the Labour Party warmly welcomed it.

New Lebanese President
Mr. Macmillan said he told Mr. Krushchev that the Council should discuss arrangements for the summit meeting and decide where it should take place. He reiterated the British demand that no negotiations should be put forward at this special meeting unless they arose out of previous agreement.

The Lebanese Army Commander-in-Chief, Gen. Fuad Chehab, has been elected President in succession to Mr. Chamoun. Voting took place at the National Assembly in Beirut, where Gen. Chehab gained a clear majority. The election is expected to end the tense situation in Lebanon which has prevailed since the military coup which resulted in thousands of deaths there last month.

DELAY IN STATEMENT
The United States is expected to send a statement on the Middle East situation similar to Mr. Macmillan's. Mr. Macmillan said that the British Government would announce its statement on Wednesday but had delayed announcing it because of the Communist Government's refusal to do so.

Premier appeals for end of bloodshed in Cyprus outrages

MR. MACMILLAN yesterday made an urgent appeal for the ending of violence in Cyprus. The Prime Minister's humanity demands that violence must stop. Appeals for an end to bloodshed in the island have also been issued by the Greek Premier, Mr. Karamanlis, and Archbishop Makarios, the exiled political and religious leader.

Mr. Macmillan's appeal was made in a statement from 10 Downing Street. "Killing and wounding and maiming is wrong," he said, "but harm to the interests of all the communities of the island must be done. The military people of Cyprus must be persuaded to stop the violence."

 "This is the first parents' day program held in the Kwana country; it is a great day, other parents with us," Mr. Tumbul went on. The report "Time taken to form a primary education — the first Kwana primary school."

Addressing the Africa's president, he said there is need for a higher standard of living and for better conditions, and he is to exert.

The school at Gatsere is used a good example of self-help when he opened the new Van Oudena Primary School in Nairobi on Wednesday as a ceremony attended by some 2,000 people.

The school cost £230,000 of which about £140,000 was provided by a Government grant. The balance of Kenya and the Government of Kenya and the school building was completed in 1952. There were only 100 pupils in the school, compared with 714 today — of which 118 were in the new school.

He hoped the young members of the community would appreciate the sacrifices made by the older and take full advantage of the opportunities provided by the new school.

Earlier, Mr. A. R. Shah, president of the community, presided on behalf of the principal, Mr. P. S. Shah, said that he was proud to be inaugurating a secondary school. The number of pupils who are attending in Nairobi, and several more classrooms should be added to the new primary school.

**Special inquiry on eleven fires**  
**ELEVEN** special investigations into fires in the Kwana which arson was suspected, were started last week by the Ministry of Works Fire Service, according to the country's annual report for the last 12 months. The report says that 69 fires during the year—10 in the previous year—were handled on special calls, ranging from pumping out water from excavations during the rains to felling dangerous trees.

Fire fighting and social jobs are only part of the fire service's work, fire prevention taking up most of the fire. The report stresses the importance of maintaining proper standards of fire prevention and safety. This is more important because fighting a fire after it has started is far more expensive than the relative steps of preventing it.

In this respect the service has to check the precautions made against a fire. It is estimated that about 1,200 premises in the East African country are inspected each year. In the period under review issued 1,275 fire certificates and 1,377 notices to correct other equipment.

Inspecting and preventing fires in the period were held for Government employees in Nairobi, Embu, Fort Hall, Kakawa and Mombasa, and companies in the report says the Fire Service.

STAGE TRIALS**

The Kenya Golf Union is at the moment considering the composition of the various representative teams which will oppose the South African tourists next month. In order to obtain some idea of current form it is proposed to hold two trials, the first of them over 28 holes model play at Royal Nairobi on Sunday August 26.

They will be of 9 holes, which will be reduced to 18 who will engage in 36 holes match play, private singles and foursomes. Competitions will be held on 9, 18 & 36 holes.

Immediately afterwards the teams to represent Kenya in the international game at Karori and Kilale, and also the district series, will be chosen. A decision has now been taken to make the match at Kilale on September 12. It is a full-scale international and Kenya's strongest side will turn out.

**Great value**

Although the trials will be of great value in the selection of their representatives they will not be guided entirely by the results. All other available evidence of current playing ability will be given due consideration.

For example, the side of the first trial, consisting of the first 18 players who have entered for an intended to take part in the

## New Zealand beaten again by innings

**Wardle's reminder to selectors**

**JERRY WARDLE**, the English batsman, who is to be remembered at the end of the season, gave the New Zealanders a reminder of his batting talents at Sheffield.

He continued to take 50 wickets in 20 Test matches, and his batting was the mainstay of the team. He was the only batsman to score 100 runs in a Test match, and he was the only batsman to score 100 runs in a Test match.

**SUNSHINE**, English county cricket champion, took in their second two-day win of the season over "Double" Zealanders at the Oval. They completed their double with a win by 100 runs and 101 runs - a follow-up to their victory by an innings.

After their failure in the first day's play, the English were back in the lead in the second day's play. The only real test was in the second day's play, when the English were back in the lead in the second day's play.

# FOR GIFTS FOR THE PRINCESS

ARRIVING in Ottawa on Saturday for the start of a three-day visit to the Canadian capital, Princess Margaret was seen in the middle of a hectic round of engagements, during which she officially opened Ottawa's new City Hall, attended a charity reception there, had a picnic at a restaurant, an evening reception and a dinner and dance.

The Princess was met at the railway station by the Governor-General, Mr. Vincent Massey, and by the Prime Minister, Mr. Diefenbaker, and Mrs. Diefenbaker. Outside she reviewed a guard of honour of the 1st Bn. The Canadian Guards and then drove to Government House in an open car. Over 8,000 people had crowded into the Confederation Square to cheer as the royal car drove slowly past.

During the luncheon, given in her honour by Mr. Diefenbaker, the Princess was presented with a letter from over a million people who had signed a petition for the Princess to visit Canada. The Princess was also presented with a letter from the City Hall, a check for \$10,000 and a gift of a necklace.

# RESERVES HIGH SEVEN Further increase in July

The sterling assets held by the Bank of England rose to £2,100,000,000 on July 31, 1950, according to the clearing house for trade between Western Europe and the rest of the world.

The rise in the gold and dollar reserves was the result of a monthly increase of £100 million in July and £150 million in August. This is the highest increase since the end of September, 1949.

It is, therefore, suggested as the most satisfactory that the Government should have recourse to the issue of new securities which might have been expected to have been issued in the past.

Moral dangers in Nairobi
The Asst. Commissioner of Police has stated that
prostitution in Nairobi is nothing compared with other
prostitution in Africa and Europe. However, it appears
that the number of prostitutes in Nairobi is increasing

## Nomore untidy washing

By SAKTORIA

NEW always looks more successful and usually than a line of detergent washing machines. In the kitchen, the new household washing machine from end to end of the line, ranging from a simple spraying type to a full automatic.

A week or two ago we were introduced to such an idea, a rotary clothes basket, mounted and attached to a kitchen sink. It was called the "Kwik Wash" and it was a most ingenious and simple piece of machinery. It was a most satisfactory method of washing.

A week or two ago we were introduced to such an idea, a rotary clothes basket, mounted and attached to a kitchen sink. It was called the "Kwik Wash" and it was a most ingenious and simple piece of machinery. It was a most satisfactory method of washing.

Made of steel tube, heavy galvanized inside and outside, the basket which we saw operating in one of the quarters of a big housing estate just outside Nairobi, has four metal spokes supported by wires which catch every bit of hanging soap.

## URNS SLOWLY

The best news with the winter is whatever direction it is blowing, it's not blowing from the north.

It is a pity that the winter is so slow. It is a pity that the winter is so slow. It is a pity that the winter is so slow.

It is a pity that the winter is so slow. It is a pity that the winter is so slow. It is a pity that the winter is so slow.

## TORN PAGES

This is an ideal way of storing and displaying your photographs and at the same time showing them to the children how to give gracefully instead of merely throwing out a lot of unwanted things.

We seem to amass packs and boxes of cards. Those not used will be getting rubber-banded, and a note saying how to give them to the children. It is a pity that the winter is so slow.

## CONGENIAL TASKS IN SCHOOL HOLIDAYS

By ANGELA HILL

It is not too late to think of Christmas— even without a "big" window— excursions about there being only so many shopping days left.

I will recommend that preparing toys and books for giving to the children properly is going to be the best thing to do. It is a pity that the winter is so slow.

## PASSED ON

I reckon on collecting half-dozens or so, and by the time they are retired (turns out most of the minutes are bought cheaply at "sold" shops) and, carrying away and green, with a stamp "22" should be ready for new owners.

VERSATILE NYLON in the kitchen

JUST coming into the shops in Britain, the new nylon sink and drain moulded from nylon. It is just the time to take a chip or crack. It comes in a wide range of colours, including such shades as lime green.

# GILIB WINS FIRST SINGLES TITLE

Chibalo won his first title after a tremendous battle with a third set that was heart-stopping. In January, Sogaard having no less than seven match points in the fourth game of the third set.

For most of the match Sogaard's first service failed to connect and he also threw away many valuable second attempt chances.

However, Sogaard, especially in the beginning, was on the winning side on other sides, when he served for the first time.

Chibalo won the first set 160 per cent better than in the first three games and looked to have control in the fourth set. Sogaard had an inspired spell on which he completely overhauled his opponent, winning one game as a row to go from love-serve to set at 6-2 and then to 6-1.

### Dour battle

Chibalo called hot rally never let up in the second set, and at 6-3 Sogaard led two sets to one, playing with confidence and poise.

The third set was a dour battle with almost every game a tie-breaker. Sogaard led 2-2, Sogaard served on service, but Chibalo and Sogaard leveled in the eighth game of the set and then took Chibalo's service to win the set.

Chibalo was looking all over a winner when he won the fourth set.

But Chibalo would not be satisfied until he had won the fifth set.

### Gallant recoveries

But three times Sogaard only separated Sogaard from the title at match points, but in one being when he had an open court ending like the last set, and in another when he had a 4-2 lead with the "ladder" of the title.

Chibalo won the set with 160 per cent better than in the first three games.

### Not picked for Games

So divers retire

As a result of the women divers, Mr. Hutchins and Mr. Sogaard were not selected for the competitive diving because they were not selected for the British Empire and Commonwealth Games in Cardiff.

Three times a day: a few moments and SOLEA

This is what we prescribe: Massage the skin regularly with SOLEA: This will keep your skin elastic to withstand the effects of wind and weather.

Skin and wind are enemies of the skin: they cause your skin to get rough and chapped. But a skin which has been regularly treated with SOLEA will easily withstand all inclemencies and remain youthfully fresh and elastic through the years.

This is because SOLEA contains Lanolin's substance resembling the natural skin oil.

# TWO MORE WORLD RECORDS GO

## Another triumph for Australian runners

TWO world records — the two miles and the four miles — were broken at Sandy, Dublin, on Thursday evening. Albert Thomas, the little Australian runner who a month ago topped the world three-mile race to 13 min. 10.2 sec., broke the world two-mile record by covering the distance in 8 min. 22.2 sec. Murray Halberg, the New Zealand runner, set the world's fastest time for four miles by clocking 18 min. 22.6 sec.

Thomas was followed here by 23 runners, including the one who set the world mile record of 4 min. 12.2 sec. in 1952, and the one who set the world 1000 yards record of 2 min. 37.4 sec. in 1952. The 1000 yards race was won by the American runner, Bill Beardsley, in 2 min. 37.4 sec.

The first lap was covered in 43 seconds, the second and third in 41 sec. and 41 sec. 1/2. The first mile record was set in 4 min. 12.2 sec. by Albert Thomas, who came back in 41 seconds for the fifth lap of the flight, only to be overtaken by Beardsley in 41.2 sec. for a mile-and-a-half.

**Halberg's great win**  
The British runner, Murray Halberg, won the four miles in 18 min. 22.6 sec. in 1952. Beating this time Halberg was fourth runner in the 1952 mile race, clocked away by 23 yards from Australian runner, Albert Thomas.
