#### Beginning of a new term

In this unaccustomed atmosphere, with so many M.P.: ting from scratch, there is bound to be some healtant but conforming to parliamentary procedure. Several of the tw.M.P.s. as well as some of the old, will be inclined to "speak of turn" occasionally.

rungs with respect to the Chair, learning to conform.

In these circumstances, at the "beginning of a new term", President Kenyatta's words did not come amiss when he received a delegation of the old and newly elected MP-a from Rit Valley Province. The formation of the new Government can be safely left in the President's hands, without any prodding from interested quarters. What he had to say about parliamentary behaviour was what mattered — his advice to "the new boys".

The National Assembly, he cautioned, is not a place where nbers should attack one another, or the Government, eccessarily. Instead, it should be a place for sensible arguments the benefit of the wumanesh.

He went on to caution that some Members may not fully lenstand what it means to be elected to Parliament. In past es, some of the MPs had played to the gallery, making stational speeches to capture the headlines, without the control of the control of the control of the control of the state of the control of the control of the control of the state of the control of the control of the control of the state of the control of the control of the control of the state of the control of the control of the control of the state of the control of the control of the control of the control of the state of the control of the control of the control of the control of the state of the control of the control of the control of the control of the state of the control of the control of the control of the control of the state of the control of the state of the control of

Annu will enjoy an absolute majority in the serried ranks of the newly elected M.P.s. This does not mean criticism is outlawed. What the President was getting at, surely, was that criticism should not be wanton but constructive. With respect to a one-party House, it has been well said that it is more exhibarating for a Government to be spurred from behind than from across the floor of the House.

The Kerna decirate has swept away very many of the old familiar political faces, especially in Nyanza and at the Coast. we verdict demonstrates disastisation with the runwise to ignore. The people look forward, first, to service on a constituency level and, second, in the National Assembly.

Those candidates who promised new secondary schools, clinics and so on, will find it will go hard with them. If they do not produce the goods. So many of their predecessors have been swept away that the lesson cannot be lost on they.

leason cannot be tost on them.

The people are bored with inconsequential debates in Parliament about wigs, make-up and mini-akirts. They expect their elected representatives to be concerned, with more important matters, education and finding jobs, with social welfare and economic development, instead of frittering their time away in useless discussions for which they draw attendance

Yesterday's voters will read tomorrow's debates assiduously, expecting their Members to represent their views sincerely, getting things done and co-operating as a team for the benefit of the whole, united, country.

## PRIZE CROSSWORD

### The only thing you won't notice when you shave with this blade ... is the blade.

A Gillette Super Silver blade gives you the world's most perfect shave, and you don't even feel it doing it.

Of course, you feel the invigorating freshness of the water, and the luxurious comfort of a thick foamy lather, but the Super Silver blade just glides through your beard without a tug or a murmur.

But then, wouldn't you expect the best blade elso to be the most comfortable?

Colour pictures are ready in one minute.

Black-and-white pictures in seconds.

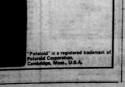

You just shoot the picture and pull out the film packet. In 60 seconds peel the cover off a full-sized (3½" x 4½") photo in colour.

There are no tanks or developing liquids to mess with. Polaroid pictures develop themselves right in your hand. And you don't shoot all your film to see one.

The rew Colourpack II is 372/- half the cost of the least expensive instant colour model we had just one year ago.

Yet it's complete with electric eye and an electronic shutter for automatic exposure settings. Sharp 3-element lens. Built-in flash for 4-shot flashcubes. And easy drop-in pack-film loading.

You might call it the Christmas gift you go on opening all day.
