Premier seeks duel against his besieger

THE trial of strength between Lumumba and Col. Mobutu for power in the Congo neared a head last night as military commander placed M. Lumumba's house under siege.

Standing on his balcony as hostile troops riddled the house, M. Lumumba then challenged Col. Mobutu to a duel. "Let him choose his weapons and we will see who is strongest," he cried.

Col. Mobutu drew up in person and told reporters he was a true trial of strength I will give it to anybody enters or leaves this house from now on."

The duel was fired in the air and several Lumumba groups were huddled into a truck. Nearby, more than 1000 men stood at the ready outside the government building, which had been sealed off earlier.

ACCEPT A SELL-OUT—SIR ROY

A SELL-OUT to other, anti-imperialist countries would have been the Prime Minister's usual reply to the Communist Airline Federation, Sir Roy Welensky, said yesterday on the eve of publication of the Statute of the Federation.

He made the statement to the Federal Outlook, the official monthly journal of the United Federal Party.

The Statute, which is currently being sent to the Federation, will give it a right of veto on any changes in the law proposed by the Government. It will also give it a right to demand that the Government be prepared to listen and forward to Congress any proposals which it may submit.

"This is not an easy task for any Government," Sir Roy said, "and temporarily satisfying it will be a difficult and delicate task. It is not a matter of a few dollars but of a matter of a few dollars."

He said that the Government would not be prepared to accept a sell-out to the Communist Airline Federation, but that it would be prepared to listen and forward to Congress any proposals which it may submit.

WE WILL NEVER ACCEPT A SELL-OUT—SIR ROY

Luanda greets Lumumba

As Communist soldiers stood facing United Nations troops M. Lumumba's residence as a company of 100 men from the Congo army entered the city.

A Ghanaian colonel told reporters: "We are all up-it will only start shooting."

The colonel said that the British had a dual, a split opinion of Ghana forces stood beside him, "Stand on hand." The house and garden behind with United Nations soldiers and in a slit trench in the garden a hole for watching.

LAST RESPECTS TO 4 SOVEREIGN

Mr. Muliro's speech to the House of Representatives on the death of the late Sultan of the Congo was a tribute to the late Sultan's life.

The late Sultan's life was a life of sacrifice and service to his people. He was a man of great courage and a man of great faith.

His death is a great loss to the Congo and to the world. We will miss his wise counsel and his gentle voice.

Britain pays tribute to the late Sultan

ALL of Britain's national daily newspapers yesterday carried tributes to the late Sultan of the Congo, who died on Sunday. Typical of them was The Times which said: "With his death there passes one of the last members of an old Arab aristocracy so beloved of many Englishmen."

The Daily Telegraph described him as a progressive ruler and a staunch ally of Britain, but went on to discuss the Sultan's difficulties over the Congo State and the Congo State's difficulties over the Congo State.

The Guardian said the Sultan's long reign was marked by "steady support for British policy and his transforming of the status of the Congo State from a British protectorate to a sovereign state."

The Johannesburg Gold Exchange reported that the price of gold shares fell to a low of 30/6 on the 26th of the month, a decline of 1/6 from the previous day's closing level of 31/6.

WET HARVEST HOLDING UP SISAL BUYING

BALER and binder users are not yet in a position to place the maximum amount of orders.

The Sisal Commission and the Sisal Manufacturers' Association have issued a statement that the wet harvest is expected to be a record one. This has led to a shortage of balers and binders, and the price of these machines has risen sharply.

The Sisal Commission has advised that the maximum amount of orders that can be placed is 1,000 balers and 500 binders. This is due to the fact that the manufacturers are unable to produce more machines at the moment.

Sir Roy rejects Monckton's 'ARTS' STORM

Sir Roy rejects Monckton's 'ARTS' STORM

SIR ROY WELLESLEY last night rejected "out of hand" one of the recommendations in the report of Monckton Commission which had just been published.

This recommendation was that each territory in the East African Federation should have the right to secede from the Federation in certain circumstances. The Federal Minister claimed that by making such a recommendation the commission had "dishonoured" itself.

He said the commission had gone "beyond the terms of reference, and if such recommendations could only lead to the disintegration of the Federation."

Retort by London

In an immediate reply from London the Commonwealth Relations Office pointed out that the intention had not been recommended the disintegration of the Federal Union.

It had merely recommended that the territories should be given a qualifying status to enable them to leave the Federation.

"Whatever view may be taken here, it was not in terms of reference of the commission that the recommendation was made. It is not possible to say that the commission was wrong."

Reference to the commission's recommendation was made in the report of the commission which was published last night.

Self-rule not end to all problems

U.N. TOLD OF BRITAIN'S EIGHT-POINT SCHEME FOR DEVELOPMENT

INDEPENDENCE cannot be withheld from subject peoples until all their economic and social problems are solved, Britain has told the United Nations.

Sir Andrew Cohen, the British delegate, told the General Assembly's Trusteeship Committee, however, that it was the task of any Power administering a trust territory to ensure that its subject peoples were not only brought to a state of economic and social development, but that the economic and social problems which are the immediate preconditions to independence are solved.

Sir Andrew outlined an eight-point development plan which he said was not an end in itself but a means to the end of economic development. He said that the Trusteeship Council would be asked to advise on the immediate grant of independence to all dependent territories.

Mr. Andrew said that Britain had no objection to bringing its trust territories to the point where they were ready to stand on their own feet. He said that it would be a first step to raise the incomes of the territories and to develop the economies of those territories.

Secondly, he said, Britain tried to develop the economies of those territories for the benefit of the peoples.

More than 4,000 railway workers at Mombasa have demanded the expulsion of Mr. Philip Muzandu from the membership of the Kenya Railway African Union and his removal as president of both the union and the Kenya Federation of Labour.

Mr. Chama was asked to consider the union's demands for a complete settlement of the understandings among the two sides. He said that the union should approach the registrar in the first instance.

Press helps to bring army and public together

There is nothing worse than to have the soldier of the British Army or K.A.R.—out of the rest of the community, either castigated as unpopular and unwelcome or glorified as a hero and idol.

During his three years in East Africa he has had two main preoccupations. One arose from the decision to have British troops in Kenya and all that that decision brought to him as a spokesman in public.

The British and public in Kenya are not so far apart as they seem. The gap between soldier and civilian is narrowing.

GOVERNOR OUTLINES POLICIES OF NEW GOVERNMENT

Stress is to be placed on the way for Tanganyika's independence and the termination of the Agreement will be discussed at a constitutional conference in London next week.

The Legislative Council yesterday the Governor of Tanganyika, Sir Richard M. Nyreny, and other members of the Council, who will be attended by the Chief Minister, Mr. Nyreny, and other members of the Council, will discuss the attainment of self-government and work out an agreed programme for the final stages of constitutional development.

What he addressed the Governor set out the policy aims and maintenance of the existing fabric of day-to-day life. "I must be frankly open to you to achieve," he said, "the attainment of self-government by the use of the resources obtained by grants and loans, and the recurrent resources provided through the development of our own economy."

SHINGLE ARRIVES AT NAIROBI SALONS

By LESLEY CLAY

The shingle is in. There is no doubt about it, according to Nairobi's hairdressers. The first sign of it was seen in Kenya last year, but it has now spread to many requests for the "new" style.

The shingle, which is a short, textured cut, has been seen in Nairobi for some time.

Of all the new styles, the shingle is the most popular. It is a short, textured cut, which is easy to maintain and does not require a lot of hair cream. It is also a very versatile style, which can be worn in many different ways.

Establishments in Nairobi are now offering the shingle to their customers. The price is about the same as for other styles, and it is a very popular choice.

TIPS FOR STYLE

KEEP hair to its longer a fashionable extension in a woman's life. Give your hair a rest and let it grow out for a few days. This will help it to grow back more quickly.

The most dreaded thought with some hair business.

LITTLE LOST

When asked if one of the staff had lost a customer's hair, the hairdresser said: "Yes, the hair was lost when the customer was having a haircut. It was a small amount, but it was very noticeable."

DISCRETION FLIES WITH HAIRDRESSERS SCISSORS

By PAMELA URMSTON

WHAT is it about a hairdressing establishment that makes it so interesting? It is the discretion of the hairdresser. They know what to say and what not to say, and they know how to handle their customers.

An amazing haircut, with some hairdressers.

The hairdresser's discretion is what makes their job so interesting. They have to be able to read their customers and know what they want. They also have to be able to handle any situation that may arise.

It is a profession that requires a lot of skill and discretion. Hairdressers are responsible for making their customers feel comfortable and confident. They are also responsible for keeping their establishments clean and well-maintained.

Kenya's agriculture pledges Customs relief to new industries

FOOLISH TO DICTATE CONDITIONS CLAIMS MINISTER

Government Must Register — Kenyan Minister of Finance, Sir Ernest Viner, said yesterday that it would be foolish to dictate conditions to large or small, and the Government will do all it can to give reasonable help to those who are engaged in setting up a factory and putting in their enterprise, skill and capital.

This assurance was given in the Legislative Council yesterday by the Minister for Commerce and Industry, Mr. Nullo Sava.

He was moving the approval of two orders which create a zone-free factory and a motorcars factory, get relief from Customs duties under the Local Industries Ordinance. The two orders were approved by the Council after a lengthy debate.

AFRICANISATION PLEA — Later in the debate, pleading to suggestions that the new industries should introduce Africanisation, the Minister of Finance, Sir Ernest Viner, said it would be wrong to dictate conditions on which industry could come to Tanganyika. Tanganyika had many new industries and any attempt to impose conditions on them would be tantamount to inviting other countries to set up industries in other parts of Africa.

Mr. Sava, in a maiden speech, said it was his first opportunity to propose two measures for the direct encouragement of investment in industry. He had an early chance to do that when investment, provided it was likely to be of value to the people and of the national economy, could be expected to be profitable.

Every possible assistance would be given to the stages of development, but he said that the economic measures would be more extensive. He said that the Government would be able to make a considerable contribution to the initial investment, but that the balance would be about £150,000. He said that the Government would be able to make a contribution of £100,000 to the establishment of a factory, but that the balance would be about £150,000.

Council's role — The speaker said his local industries to encourage growth in the country. He said that the Government would be able to make a considerable contribution to the initial investment, but that the balance would be about £150,000.

Midnight thought — He urged that Africanisation should be encouraged in the country. He said that the Government would be able to make a considerable contribution to the initial investment, but that the balance would be about £150,000.

IMPLEMENTING UNDEERTAKING COLONIES

If my humble opinion, the comparison between a Kaiser's thoughtless whims and a British Government's proposals for Kenya, Uganda and a British who've decided to capitulate to Hitler in 1940, is impressive rather than apt.

HAMILTON REFRIGERATORS are plastic-cased to hold the COLD. HAMILTON PLASTIC-FROSTER Refrigerators are made of a durable acid and chip proof plastic on a steel frame. Since plastic has a heat conduction factor 120 times lower than steel, Hamilton refrigerators not only retain the cold better than steel-cased refrigerators, but are naturally better at repelling outside heat, factors which make them ideally suited for a tropical climate. Apart from the Super T16, a larger model, the Super T16L is now available. It has a net capacity of 1.3 cu. ft., is 2 ft. 8 in. high and costs \$139/-. It is a free-chose family sized refrigerator. Hamilton refrigerators have a very low current consumption and operate without noise. U.K. MAY DRAW WRONG MORAL FROM CONGO FAILURE — MR. MACLEOD

EAST and Central Africa would be the battleground which the problems of 1960 would revolve, the Colonial Secretary, Mr. Macleod, told the Conservative Party conference in Scarborough.

The problems would centre particularly around those countries where large European and African communities have made their homes.

The wrong moral from the Congo failure in a sudden lunge towards independence, but in the preceding 19 years.

The true foundation for the success of the new states will be laid before independence comes. African states will be judged on their economic, administrative, political, and social performance.

Their progress will be measured by the way they handle their own affairs.

"We should not let our own mistakes be their guide."

He said there was a duty to all peoples, who lived in those territories so that they might build a society in which man should have his full rights as a citizen and not as a member of any particular community.

Britain had made a special effort to ensure that those of their own blood who made their homes in Africa should have made a contribution to the land.

It was a special effort because of the fact that the East African States were to be set up as multi-racial states. Mr. Macleod went on to say that the British had a duty to ensure that the new states were set up on a sound basis.

The first is a generalisation which is true in all cases. The other is intended to refer to the fact that the British of African origin who had supported the British in Africa had made a contribution to the land.

There was no special reason for this. It was a natural result of the fact that the British of African origin who had supported the British in Africa had made a contribution to the land.

It was a natural result of the fact that the British of African origin who had supported the British in Africa had made a contribution to the land.

Respect Vital

"We must see it that respect for human rights, including property rights, be an independent factor in the development of the new states."

He said that the British of African origin who had supported the British in Africa had made a contribution to the land.

It was a natural result of the fact that the British of African origin who had supported the British in Africa had made a contribution to the land.

Personally absorbed

He said personally to have happened that the British of African origin who had supported the British in Africa had made a contribution to the land.

It was a natural result of the fact that the British of African origin who had supported the British in Africa had made a contribution to the land.

U.S. ASYLUM FOR SOVIET AFRICAN

The United States has granted asylum to a Soviet African, the Daily Express has learned. The man, who is believed to be a member of the Khrushchev's inner circle, is believed to have fled from the Soviet Union to the United States.

Strongly re-elected

"If the Indian Government does not think it advisable to withdraw from the Congo, it should be re-elected."

He said that the British of African origin who had supported the British in Africa had made a contribution to the land.

Rheumatism and "Trigger Spot" Therapy

HOW ADRENALINE CREAM IS REMOVED FROM PAIN

A recent discovery has led to the development of a new method of treating rheumatism and "trigger spots". This method is known as "Trigger Spot" Therapy.

The doctor involved in this discovery is Dr. Lloyd's Adrenaline Cream, which is a powerful anti-inflammatory and analgesic.

THE TRIGGER SPOT

Just look at the diagram on the right. It shows the location of the "trigger spot" on the hand. This spot is the source of the pain and is the key to the cure.

LLOYD'S ADRENALINE CREAM

Thermo-Fax
 Secretary all-dry copier

It's yours if anything like a typical business, you are likely to find at least one young lady in the office who's rapidly losing her shorthand knowledge of all the copy-typing she has to do. She says she might just as well be a machine—but she's wrong! When it comes to copying, the "Thermo-Fax" All-dry Copier goes far, far, far, less than a typist and produces its copies in much shorter time than it takes her to set paper in her typewriter, no fan, no boiler, no time wastefully used and a great deal of money saved. May we demonstrate?

Reports in Las Palmas said one man died instantly and the other two in hospital.

The liner's flag, the Union Castle, set for Cape Town last night after detouring from Las Palmas following the damaged ship.

Island still mourns late leader

FROM Standard Staff Reporter
ZAMBIA
 Seydidi Sir Abdullah bin Khalifa bin Thwaybi bin Said yesterday took the oath of allegiance and succeeded to the Zanzibar throne.

Four hundred Arab leaders and elders filed the white-walled Baraza Hall in the palace, their robes lending colour to the ceremony.

But rejoicing was kept to a minimum at the new Sultan's request as his court said he is in deep mourning over the death of his father on October 3.

Fifty-year-old Seydidi Sir Abdullah has asked his subjects not to have holiday celebrations for his accession to the throne. He will wear the white mourning period for his late father.

Yesterday's ceremonial was therefore a solemn affair. Representatives of the three East African Governments, the Services authority, and the United Nations, were invited to the ceremony. Seydidi Sir Abdullah bin Thwaybi bin Said is the son of the late Sultan, the late Seydidi Sir Khalifa bin Thwaybi bin Said.

TANGANYIKA HOOLIGANS WARNED

Investment prospects may be wrecked

INDIVIDUALS or organisations which tried to usurp the authority of the forces of law and order by taking the law into their own hands were given a stern warning in Tanganyika yesterday.

The Minister for Home Affairs, Mr. George Kahama, told the Legislative Council that the Government did not recognise unofficial organisations which claimed to be guardians of the law, and it would show no sympathy towards hooligans who obstructed the police.

"Businessmen in Europe and America who are thinking of investing money in a young developing country like ours are only going to do so if they know that the country will continue peacefully and that their interests will be safe."

People who obstructed the police or attempted to restrict people from lawful conduct were not only breaking the law but were also interfering with the economic life of the country, the Minister added.

It is the duty of every citizen to support the law and not to attempt to usurp the authority of the forces of law and order to do as they please. It is the duty of every citizen to support the law and not to attempt to usurp the authority of the forces of law and order to do as they please.

The Minister also said that the Government would take steps to ensure that the law is upheld and that the country is governed in accordance with the principles of justice and equity.
