**Got that tired feeling?**

You get it when a retread you thought was good for another 10,000 miles starts to come apart, or begins to wobble and vibrate alarmingly, even on the smoothest of roads.

A retread can cover a multitude of sins. Ever thought of the differing qualities of rubber available for retreading? Ever thought of the badly thought-out, low-cost retreads that must be an inferior retread?

Take the finest quality rubber, moulded by craftsmen using "Lod" equipment (designed to make a perfect fit regardless of the make, type or size of your tyre), and you get what is known as a "C-C" Retread.

It's made to rigid specifications by the oldest established retreaders in the country, in the largest and most up-to-date range of patterns, and it's guaranteed.

 Tyres?  
 Yes, tyres. My tyres. Tyres I've taken care of, tyres I know are O.K. When they have to be retreaded, I like to get them back. Don't you?  
 Yes—of course I do.  
 Furthermore, like to see for myself.  
 Can't you?  
 Only if the distinguishing marks, brand, etc. are left for me to see. Some methods of retreading—admirable though they may be—cover up the wall of the tyre and so doing, necessarily hide the markings.

Ah—pity!  
 Yes.  
 But not yours?  
 Not mine! I have always used the oldest established tyre retreaders in the country. You can't go wrong. They have the most advanced techniques, the biggest range of up-to-date patterns and designs and the most modern equipment. Look, you know.  
 Huh?  
 Look. Name given to the world's best remould naturally.  
 Naturally.  
 And then there's the guarantee.  
 What guarantee?  
 Car & General's guarantee. C. & G. guarantee their retreads. Everybody knows that. That's why most people prefer to use them.  
 Are you talking about C. & G. Retreads?  
 Yes.  
 Oh—I've always used them myself.

# ENGLAND'S BOWLERS TO RESCUE

## Paranoid put tourists back in the game

England's bowlers did a superb job in the first day of the first Test at Trent Bridge, but their performance was overshadowed by the fact that they were unable to get a second day's play. The reason for this was the fact that the batsmen were so good that they were able to score runs at a rate which was unprecedented in the history of the game. The bowlers were forced to bowl for long periods, and their stamina was tested to the limit. The result was that they were unable to get a second day's play, and the match was drawn.

**Advantage with Luck**  
 Luck was the factor which decided the result of the first Test at Trent Bridge. The batsmen were so good that they were able to score runs at a rate which was unprecedented in the history of the game. The bowlers were forced to bowl for long periods, and their stamina was tested to the limit. The result was that they were unable to get a second day's play, and the match was drawn.

## FIRST PLANET RACES ON

### TRAIL THROUGH SPACE

#### Russian 'Lutsk' orbit the sun

#### MOON BY-PASS

RUSSIA'S cosmic rocket race got into the air about seven miles a second yesterday and will race out towards the sun, around which it is expected to swing into orbit on Wednesday. Thursday—to become the first artificial planet of the solar system.

The Soviet news agency Tass announced that the "Lutsk", weighing 7 tons, is on a preheated orbit nearest point of approach to the moon—about 4,000 miles—at about 5.30 a.m. yesterday. It was launched on Friday. The instruments were all sending valuable scientific data to the earth.

#### Scientific tasks completed

As the rocket's distance from the earth increased radio contact became more difficult and was expected to cease today. But the Soviet announcement said the scientific tasks set before it had already been completely carried out. The rocket will be about 1,500,000 miles from the earth in 200,000 years but the earth-bound radio will go into a 210,000-mile orbit in 15 months, after each circuit.

At the time of launch, the agency reported that the rocket was accelerating development of a rocket-propelled space station which would be a heavy-duty space station.

### Advertisement: SUMMER BEAUTY

by  
Margaret Merrill

Today some suggestions for  
summer beauty make a note  
of these in your diary for  
future reference.

If you are averse of wrinkles,  
cover your all of day hair  
with a foundation and powder  
in a few hours. Use your  
skin. Don't try to tan; let  
the sun do the work. And you  
will find the best of both  
worlds.

Use a great antiperspirant  
with the best results, use it in  
bath; a refreshing bath  
powder is a wonderful help  
when it comes to sliding into  
your swimsuit during the sticky  
months of summer.

Every stick of perfume in  
your dressing, a touch on  
your neck, wrists, inside the  
elbows and down arms so much  
to keep you during the heat.  
And the relaxing touch, a  
little shower, massage, or a  
little rest, means you are  
getting the best of both  
worlds.

## Got that tired feeling?

You get it when a retread you thought was good for another 10,000 miles starts to come apart, or begins to vibrate and wobble alarmingly, even on the smoothest of roads.

A retread can cover a multitude of sins. Ever thought of the differing qualities of tires available for retreading? Ever thought of the body fitting moulds your tyre can be subjected to? Ever thought that a cut-price retread must be of inferior retreads?

Take the finest quality rubber, moulded by craftsmen using "Lodi" equipment (designed to make a perfect fit regardless of the make, type or size of your tyre), and you get what is known as a "C-G-C" Retread.

It's made to rigid specifications by the oldest established retreaders in the country, in the largest and most up-to-date range of patterns, and it's guaranteed.

# BEST COULD TO SOVIET PLAN FOR FOREIGN POLICY

## FOREIGN POLICY

### German unity best starting

#### NUCLEAR BAN HOUSE

RUSSIA'S proposed peace treaty with Germany, which it has suggested as a 25-nation peace conference in Warsaw with two months, has been coolly received in the West.

In Washington, State Department officials said the United States was unlikely to agree to the Soviet proposals as they stood, and pointed out that the West had, in reply to similar previous Soviet proposals, always insisted that German reunification must come first.

The Franco-British Minister, M. Couve de Murville, said Britain and the Western Powers were ready to discuss with Russia the possibility of Germany and a eventual peace treaty "provided no conditions were attached." The West German Government now asks that discussion of a peace treaty at fraught with dangers for reunification.

### East Germany to sign

In its vote, handed by the Western ambassadors in Moscow, Russia proposed that the peace conference should be attended by West German—excluding Communist China—whose armed forces fought against Germany, and by the Governments of East Germany and West Germany, which would sign on behalf of Germany.

The proposed 25-nation treaty would prohibit Germany from possessing nuclear weapons, rockets or submarines, but would leave her the right to maintain her own armed forces. All foreign troops would be withdrawn from Germany within three years.
