A register of ghosts compiled for tourists

By VIKTOR BERG

GHOSTS, like men, are things who are allowed to be seen about. It is midnight and things go bump in the night. It is a faint feminine figure to tremble and beg protection from the strong, scientific male who works at the spot.

What if all men are unbelievers. Many of them are among the tourists for whom a guide to the most famous ghost of the British Isles has been written.

Asians in the Coast diverse community

On a recent study of the Asian community in the Coast, it is believed that the structure and composition of the community is changing rapidly. This is due to the influx of new immigrants from various parts of the world, particularly from the East Indies, China, and the Philippines. The community is becoming more diverse and is developing a unique identity of its own.

The study reveals that the Asian community in the Coast is not a monolithic group. It consists of many different ethnic groups, each with its own traditions, customs, and languages. This diversity is a strength of the community, as it allows for a rich cultural exchange and a more vibrant social life.

One of the key findings of the study is that the Asian community in the Coast is becoming more integrated into the local society. This is evident from the increasing number of Asians who are working in various professions, including business, education, and the arts. They are also contributing to the local economy and the development of the region.

However, there are still challenges facing the Asian community in the Coast. One of the main issues is the lack of representation in local government and decision-making processes. This has led to a feeling of marginalization and a lack of voice in the community's affairs.

It is important for the local government and the wider community to recognize the contributions of the Asian community and to work towards a more inclusive and equitable society. This can be achieved through dialogue, cooperation, and a shared commitment to the common good of the Coast.

Work scarce

There is a tendency to believe that the work situation in the Coast is improving. However, a closer look at the statistics shows a different picture. The unemployment rate remains high, and many workers are struggling to find stable employment. This is particularly true for the younger generation, who are entering the workforce with high expectations but finding few opportunities.

The reasons for this are complex. One factor is the slow pace of economic growth in the region, which has limited the creation of new jobs. Another factor is the mismatch between the skills of the workforce and the requirements of the market. Many workers lack the necessary qualifications and experience to compete for the available positions.

Addressing these issues requires a concerted effort from both the government and the private sector. The government should invest in education and training programs to improve the skills of the workforce. The private sector should also be encouraged to create more jobs and to provide better working conditions for its employees.

It is also important for workers to be organized and to advocate for their rights. This can be done through trade unions and other labor organizations. By working together, workers can demand better wages, benefits, and job security.

The work situation in the Coast is a challenge, but it is not insurmountable. With the right policies and a commitment to social justice, it is possible to create a more prosperous and inclusive economy for all.

Once farmers

The largest community of farmers in the Coast is the one that has been traditionally associated with the region. These farmers have a long history of working the land and producing a variety of crops, including rice, sugarcane, and fruits. They are a vital part of the local economy and have played a significant role in the development of the region.

However, the lives of these farmers are becoming increasingly difficult. This is due to a combination of factors, including the rising cost of inputs, the volatility of market prices, and the impact of climate change. Many farmers are struggling to make ends meet and are being forced to abandon their land in search of better opportunities elsewhere.

Supporting the farmers in the Coast is essential for the long-term sustainability of the region. This can be done through a variety of measures, including providing access to credit, improving market access, and investing in agricultural infrastructure. It is also important to promote sustainable farming practices that protect the environment and ensure the long-term viability of the land.

The farmers in the Coast are a resilient and hardworking community. With the right support and policies, they can continue to play a vital role in the development of the region and the well-being of the people.

Dhow traders

The dhow traders in the Coast have a long and rich history. These traders have been instrumental in connecting the Coast to the wider world, bringing in goods, services, and ideas from other parts of the world. They have played a significant role in the development of the region and the growth of its economy.

However, the role of dhow traders is changing. This is due to the increasing dominance of modern shipping and air travel. Many dhow traders are finding it difficult to compete in the current market and are being forced to diversify their businesses or find other ways to sustain themselves.

Supporting the dhow traders in the Coast is important for the preservation of their culture and the history of the region. This can be done through various measures, including providing access to capital and markets, and promoting their products and services. It is also important to recognize their contributions to the local economy and the development of the region.

The dhow traders in the Coast are a unique and valuable part of the community. With the right support and policies, they can continue to play a significant role in the development of the region and the well-being of the people.

GOVERNMENT OFFER OF JOINT HOUSES

Baudouin promises self-rule to Congo
 Baudouin intends to give the people of the Congo to "independent" status in a "sovereign" state. King Baudouin said in Brussels.

HOUSING PROJECT
Accommodation for African staff
LOWER COST PLANS

JOINT Government and National City Council plans to build high-class African houses for tenant-purchase have been changed in favor of an offer by the Government to take over the scheme and provide the houses for senior African civil servants.

The new project is to be financed from private sources, and the Social Services and Housing Committee has recommended the Council to accept the offer. It is possible that some of the houses will be made available for tenant-purchase by senior African employees of local business firms.

The Permanent Secretary to the Ministry of Housing, Mr. O. A. Perwill, said yesterday that the cost of the houses would be reduced by cutting the size of the plots. That would also reduce the cost of services to each house.

Price cut by a third

Construction and fittings would be simplified. The original plan made provision for a study and heavy plumbing. Neither of these would now be provided and the estimated cost would be brought down from £1,800 and £2,000 for a two-bedroom house to £1,000 for a three-bedroom house.

Mr. Perwill pointed out that the cost of some houses on the original plan had been as high as £2,000. They had therefore been able to reduce the price by a third. The houses would be built on a site which had been allocated for the joint scheme, but there would now be 30 plots instead of the original proposal of 30 or 32.

Trans hotel for city proposed

Workmen and visitors to the new hotel for city proposed by the Government. The City Council proposes to build the hotel on the site of the old Trans Hotel, which was destroyed by fire in 1946.

The hotel would be built on a site which had been allocated for the joint scheme, but there would now be 30 plots instead of the original proposal of 30 or 32.

WHAT HAPPENED TO THE SCHOOLBOY'S PENNY

Letters to the Editor

JUST ANOTHER SHAKESPEARE

YOUR leading article "Schoolboy's Penny" is a masterpiece of journalism. It is a pity that the author is not a Shakespearean scholar, for the style and the content are both so good that it is a pity that the author is not a Shakespearean scholar.

I was surprised to find that the author of the article is not a Shakespearean scholar, for the style and the content are both so good that it is a pity that the author is not a Shakespearean scholar.

Immigration

DUTYFREE the Kenya authorities have given a green light to the schoolboy's penny.

IT TAKES TWO TO MAKE A MURDER

Two men were charged with the murder of a woman in a case that has attracted widespread attention.

The woman, who was 35 years old, was found dead in her home in the early hours of the morning. The police were called to the scene and found the body in a room that had been searched and looted.

The two men, who were 25 and 28 years old, were arrested on suspicion of the crime. They are both from the same area and are known to each other.

The police are still investigating the case and are looking for any other witnesses or evidence that might help them to solve the crime.

ROBBERY AND ASSAULT AT RUARAKA DENIED JUDGMENT RESERVED

A man charged with robbery and assault at Ruaraka has been denied judgment by the court.

The man, who was 30 years old, was charged with robbing a woman and assaulting her in the town of Ruaraka. The woman was injured and the man was armed with a knife.

The man's lawyer argued that his client was innocent and that the evidence against him was weak. The judge, who was sitting alone, reserved judgment on the case.

The judge will hear the case again in a few weeks and will then make a decision on whether to convict the man of the charges.

RESULT OF MAIZE QUOTA BALLOT

The result of the maize quota ballot has been announced by the government.

The ballot was held to determine the number of acres that should be planted with maize in the coming year. The government has decided to increase the quota by 10 per cent.

This means that farmers will be allowed to plant 10 per cent more acres with maize than they were allowed to in the previous year. This is a significant increase and will help to increase the country's maize production.

NEW POST OFFICE

A new post office has been opened in the town of Ruaraka.

The new post office is a modern building and will provide a better service to the community. It will have a counter for the public and a room for the postmen.

The new post office will be open from 9 a.m. to 5 p.m. every day. This will be a convenient time for the public to use the service.

The government is pleased with the response to the new post office and hopes that it will be a success.

DAILY ROUTINE SKETCHED FOR FIRST LESSON OF BEAUTY SCHOOL

By JEAN WISNARD

There would be nothing so absurd, in our days, as that the year's wardrobe should give a little more time, a little more care, to the hair, than the year's wardrobe. Many of these resolutions have been broken, and the hair has suffered from the neglect of the year's routine. It is now time to begin the first lesson of beauty school.

The first lesson of beauty school should be to clean the hair. This is the first lesson of beauty school. The hair should be washed with a shampoo that is suitable for the hair. The hair should be washed with a shampoo that is suitable for the hair. The hair should be washed with a shampoo that is suitable for the hair.

MAINLY FOR WOMEN

It is the hair that makes the difference between a woman and a man. It is the hair that makes the difference between a woman and a man. It is the hair that makes the difference between a woman and a man.

BEYOND SKIN

The two-way cleaning and brushing of the hair is the first lesson of beauty school. The hair should be washed with a shampoo that is suitable for the hair. The hair should be washed with a shampoo that is suitable for the hair.

BEST FREEMER

Finally, try going to bed before midnight and have at least four hours of sleep. The hair should be washed with a shampoo that is suitable for the hair. The hair should be washed with a shampoo that is suitable for the hair.

LAST WORD

A survey by the Beauty Institute in Boston showed that nearly twice as many women prefer double to single beds. Women mostly like to have their own beds. The hair should be washed with a shampoo that is suitable for the hair.

Youthful fashions in the wash

SOMEONE who takes an interest in what is going on in the world of fashion should know that the latest fashions in the wash are the result of a revolution in the way we think about washing. The latest fashions in the wash are the result of a revolution in the way we think about washing.

BUT DADDY...

...What is electricity?

Daddy: Something that makes life easier for all of us.

Small Boy: How, Daddy?

D: All sorts of ways.

S.B.: But how?

D: Well, in the kitchen for example. Just think what a lot of work Mummy would have to do if she had no washing machine or floor polisher—or if she had to stand over the stove while everything was cooking.

S.B.: Why doesn't she, Daddy?

D: Because with an electric cooker, the food almost cooks itself. Electricity cooking saves time and trouble.

S.B.: Oh!... I see. But doesn't it cost a lot?

D: No. We actually save money with electricity. We can do so many things—cook, clean, listen to the radio, telephone—all sorts of things you can't do without electricity. And it's so easy to use.

S.B.: Why is it easy, Daddy?

D: Ask Mummy.

S.B.: Mummy said to ask PAPPY, Daddy?

D: Be quiet, Boy!

ONLY RESOLVE BATTING CAN SAVE ENGLAND

VANWALLS NOT TO RACE AGAIN

VANWALLS, who were the world's most successful championship drivers for the last few years, will not compete in major races again.

Mr. Tony Vanwall's four world championships were won in 1950, 1951, 1952 and 1953. He was also runner-up in 1954 and 1955.

Great shock

SAVE ENGLAND Australia well placed

By JOHNNY WARDLE

Australia has a very good chance of winning the third Test against England. The length of her batting was very important factor. England looked in with a real chance when three weeks' rest followed yesterday's morning.

Very serious Mackay and Davidson secured the least bit of respite for the England attack by their excellent bowling.

Both of them played some excellent attacking cricket, but they were not able to score runs. They were both out in the first innings. Laker bowled well in the first innings, but he was not able to take any wickets.

Australia in challenging position

Graveney's fielding criticised

TOM GRIBNEY was in a mood of bitter indignation and unfair play by an Australian critic for his fielding in the third Test, at Sydney.

Graveney, who had his left leg cast over the edge of the pitch, was criticised for his fielding in the first Test. He was criticised for his fielding in the second Test. He was criticised for his fielding in the third Test.

The English captain, Peter May, said that the criticism was not fair. He said that Graveney was a very good fielder and that he was not to be criticised for his fielding in the third Test.

Wolves are still Cup favourites

WOLVES remained the favourites for the Football Association Cup at the latest Victoria Cup fixtures.

They had a 2-1 win over Arsenal in the first round. They were the favourites in the second round. They were the favourites in the third round.

Cooper step nearer to tilt at world heavy title

LONDON OUTPOUNDED

HENRY COOPER, the eleven-odd champion from Kent, won the British and British Empire heavyweight titles at Maria Osoy's easily disappointing championship bout at Blackpool, over a round. It was a very gripping battle in which Cooper, a stone lighter than the champion, won by a narrow margin.

Cooper's victory was a surprise. He was not expected to win. He was not expected to win. He was not expected to win.

 The first play to be produced in the forthcoming season will be *Othello*, in which Paul Robeson will play the title role. The other two plays, which are being put on at Stratford, are King Lear and Coriolanus.

A GREAT OTHELLO BY SIR DONALD WOLFE

PLAYING longer excerpts from one of our greatest plays, Sir Donald Wolfe reads even greater drama than he did on the opening night. His act gives the broad effect of the play in a most impressive manner. The play is a masterpiece of the English language, and Sir Donald Wolfe's performance is a masterpiece of acting.

FARMERS USED TO FACE RECESSION IN KENYA

Unga's first 50 years

Kenya's recent recession has not been the first to be experienced by the country's farmers. In the first 50 years of its existence, the country has experienced several such periods. The first such period was in the early 1930s when the country was hit by a severe drought. This was followed by another period of recession in the early 1940s when the country was hit by a severe drought. The most recent period of recession was in the early 1980s when the country was hit by a severe drought. The country's farmers have always been resilient and have always managed to overcome these periods of recession. The country's farmers have always been resilient and have always managed to overcome these periods of recession.

HOUSING-GROWING PROBLEM

FOR AFRICA PLANNERS

Mr. Coultts opens city conference
'POLITICS' DANGER

AFRICANS growing need for houses—especially cheap, family-type accommodation—was stressed by the Acting Governor of Kenya, Mr. Coultts, and the Kenya Minister for Housing, Mr. Musa Amambishi, in Nairobi yesterday.

They were speaking at the housing conference, organized by the Commission for Technical Co-operation in Africa south of the Sahara, which was formally opened in the City Hall by Mr. Coultts.

Mr. Coultts referred the delegates, who come from Belgium, France, Ghana, Liberia, Portugal, the Central African Federation, South Africa, Britain and various African territories, to the difficulties which attend planning for Africa.

'Not an easy continent'

"They think Africa is not an easy continent for which to plan when some politicians with little knowledge of the situation and problems involved are apparently trying to link the pattern of past history, to impose new and unproved forms—unproved at any rate as being in the true but not the correct sense of the proverb."

Mr. Coultts said the subject of the conference—housing and urbanisation—was one which was urgent in Africa.

The development of natural resources and the creation of cities had taken place within living memory of the delegates. Sixty years ago, Nairobi, where they were now meeting, was only a swampy bush settlement on which a few huts were built for the urban fringe of the urban fringe. There was existing little to the north and south, and a few scattered measures of individual and family houses.

EUROPEAN COMPARISON

Mr. Coultts said he thought perhaps it was a little surprising for those men of 30 or 35 in Africa to be asked to compare their towns for only a few months of their lives with the towns of Europe which have been built up over a period of centuries.

ROISING FINANCE

Mr. Coultts said that the Government of Kenya had been asked to raise the amount of the loan for the housing programme. He said that the Government had been asked to raise the amount of the loan for the housing programme. He said that the Government had been asked to raise the amount of the loan for the housing programme.

Trueman bowls well on docile wicket

by **JOHNNY WAINALE**

The M.C.C. certainly need to be encouraged by the way in which the batsmen have been bowled out. Trueman on an attacking day was particularly effective. He bowled out the batsmen in the first innings.

UNBROKEN STAND OF 164 RUNS

BATTING in the second innings was not very successful. The batsmen were bowled out for a total of 164 runs. The M.C.C. batsmen were particularly ineffective.

COLD WAR CONTINUES DESPITE

MIRKOVIC'S OVERSEAS DIPLOMACY CHANGED AFTER TRADE WITH AMERICA TOUR ENDS

MIROVAN, on the last day of his departure from the United States, expressed the impression of frustration which he built up during his two-week tour when he accused the State Department of wanting to restrict the cold war.

The Soviet Deputy Premier, one of whose declared aims was to improve trade relations between the two countries, obviously did not make much progress in his talks with the Under Secretary of State for Economic Affairs, Mr. Douglas Dillon. After the meeting he said: "The cold war in the State Department is going on, and it affects foreign trade."

Departure for home

Later, however, Mr. Mikoyan regained his good form. In a farewell reception in his honor at the Soviet Embassy in Washington he was once again the urbane, friendly and demonstrative figure that has appeared in America throughout the country. "Yesterday he left the State capital by train for New York from where he was to take a ship for Russia last night," Mr. Mikoyan said.

The Russian departure after repeated Mr. Mikoyan's visit was a success. The American side has been very cordially received by the American side.

FIELD OFFICE SET INSPIRING EXAMPLE

By LESLEY CLAY

THE field officers of the British Red Cross serving in Kenya were to share next week in a common cause—a tour of duty and a love of duty. The first 100 men were to arrive in Nairobi on the 15th of the month, with Miss Eileen Hamilton, stationed at Kapanga, near Fort Hall, and Miss Aileen Greenham, the Colony Troop for the Victoria District.

The mission was undertaken by a unit I have just paid to leave Nairobi after a few months' duty in the Victoria District. Each has a most valuable lesson to accompany her on her hours of the afternoon, perhaps the most interesting part of their tour.

Miss Hamilton, who is a nurse, will be accompanied by Miss Greenham, who is a nurse, and Miss Aileen Greenham, who is a nurse.

GREAT WELCOME

Miss Hamilton, who is a nurse, will be accompanied by Miss Greenham, who is a nurse, and Miss Aileen Greenham, who is a nurse.

The club makes for happy lives

Although every one who visits the club is sure to be met by a warm and friendly welcome, the club is not only a place where one can meet old friends, but also a place where one can meet new friends.

Each of the village is well equipped with all the modern conveniences, and the club is a most interesting place to visit.

BEST USE

One of the club is to be used for the purpose of the Red Cross, and the club is a most interesting place to visit.

The club is a most interesting place to visit, and the club is a most interesting place to visit.

Aerogrammes are cheaper

For all the convenience of telegrams, you can save money by using aerogrammes. They are sent in a special envelope and do not require a separate address. They are also sent by the same route as telegrams, so you get them just as fast.

The cost of aerogrammes varies, but is generally much less than that of telegrams. For example, a three-line aerogramme costs only one-tenth as much as a telegram. For a long message, the saving is even greater.

Aerogrammes are available in many languages, including English, French, German, Italian, Spanish, and Chinese. They are also available in code.

For more information, apply to your local post office or to the Aerogramme Office, London, E.C. 3, England.

What makes a specialized service cheaper

Auto electrical service means an expensive investment. Caddy enough, it really is. If you equip yourself to Lucas and C.A.V. equipment, the better, as you probably know, is the electrical equipment which is fitted to every British car. The latter is, in commercial vehicle counterparts.

Diagnosis and repair of electrical faults can stamp many of the "irretrievably misdiagnosed" Caddy road breakdowns to the curb. Coverage mechanic K.R. & T. Auto electrical service is operated by technicians specially trained for this work, backed by modern precision test machinery.

It is cheaper to use K.R. & T. Auto electrical service because fault-diagnosis is more rapid and more quickly, accurately corrected.

GOVERNOR'S OFFER TO AFRICAN ELECTED MEMBERS

Informal talks on return from London M.P.'s PLEA REJECTED

GOVERNOR BARKING has invited the Kenya African elected Members to go and see him personally on his return to Kenya to discuss the present political situation in the Colony.

It was disclosed in the House of Commons that the Colonial Secretary, Mr. Linnell, had been requested by several Labour M.P.'s for a formal round-table conference to discuss constitutional changes.

Mr. Barker had indicated what was the Government's proposal of the Elected African M.P.s and that in the Legislative Council for such a conference. The Colonial Secretary said he had written a reply on the subject.

PREMIER'S HOUSE IN DANGER OF COLLAPSE

MR. MACMILLAN may soon have to move his residence in Britain's Prime Ministers for more than two centuries, undergo a major structural overhaul.
 Although no date has yet been fixed, preliminary work is being started to provide alternative accommodation for Mr. Macmillan and his staff in the Admiralty buildings in Whitehall.
 Altered and packed up nearly three years ago, Number 10 has long been considered both as a private residence and as a public reception place.
 In numerous days it had no room for the Prime Minister's staff, the Prime Minister's staff, the Prime Minister's staff.

Floors unsafe
 But an even more serious problem was revealed last year when a committee on the part of the House of Commons, set up by Mr. Macmillan, reported that the structure of the building was in some danger of collapsing and that there was a possibility of a major structural defect.
 The committee was also informed in their report that the building was in some danger of collapsing and that there was a possibility of a major structural defect.

UNIVERSITY TEAM BEAT TURBO BY 129 RUNS

Students' Correspondent.
 TURBO played the University of Cape Town Rugby team at cricket but found them too strong and lost by 129 runs. The visitors batted first and although they were wicketed did not fall until 111 when Antelme was bowled just before lunch for 68.

After the interval, Reid was in to make his debut with a very heavy ball, of 23. In 10 balls, he established a reputation as 22 for the first time. Turbo did not start too badly, the second innings when the score was 36, but then the batsmen were bowled out until the whole side was out for 129 runs. Turbo's total was 129 runs.
