under the hammer...

The next L & H Auto Auction will be held on February 1, at 10:30 a.m. and thereafter on the 1st Sunday in each month at the Saffier Street Showroom. Models like this, of course, are not for sale but we would suggest you send your "mail" at least eight days prior to the sale date for next month's sale, when a free mechanical report will be given and a description of the vehicle will be inserted in the catalogue, together with a candid opinion of its condition.

After the mechanical report has been given the car need not be delivered in the showroom until two days before the sale - i.e. Friday. But our agents are also entitled to enter their vehicles for sale. An entry fee of the 10% per vehicle is charged.

Vehicles are sold with or without a reserve or a fixed price of commission, to a maximum of 5%, but, if you use the proceeds to purchase either a new or second-hand vehicle from Lewis & Hodgkins, no commission will be charged.

WOMAN IN THE HOUSE PROVES A SUCCESS

By PENNY WISE

We have been, for the last 15 months, in a part of East Africa new to us and our stalwart servant of many years. He tried hard to settle so far from his home but the struggle was too much and with much regret on both sides, we parted.

My new assistant after a long search, found one who was just what we needed. It was a fairly large one but she was very young and new from the holidays. It was a very satisfactory arrangement.

RUSSIA'S HISTORIC ABOUT-FACE

MR. KRUSHCHEV said yesterday that Russian foreign policy would be directed at ending the cold war and reducing international tension, on the basis of Lenin's "peaceful co-existence" of countries with different social systems.

The nation's "historic task" of cutting up and surpassing the leading capitalist countries of the West in output per head must, however, be carried out, he told the Soviet Communist Party's 21st Congress in Moscow.

Earlier, at an Indian National Day reception in Moscow, Mr. Khrushchev had said there was a possibility of a "thaw" in relations with the West. "We wish to thaw out the cold war. But if the West will, we could, we can also make it colder. But I am still an optimist."

Optimist to share the spotlight

Mr. Khrushchev's speech to the 1,600 delegates at the party congress was devoted mainly to Russia's Economic Development Five-Year Plan for 1958-62.

The speech was warm, frank and unadorned, but it was also the first since the denunciation of Nikita Khrushchev and his associates in 1956. At the last congress in 1956, Mr. Khrushchev was the only speaker listed. At the last congress in 1956, Mr. Khrushchev was the only speaker listed. USSIA OVERCOMING ROCKET DISABILITY

MR. KRUSHCHEV said yesterday that the Soviet Union has overcome its rocket disability.

He said the country had now produced a rocket capable of carrying a payload of 10,000 pounds to an altitude of 100,000 feet. This was a significant achievement, as it allowed the Soviet Union to launch its first satellite, Cuba, into orbit.

Dulles looks for next move from West African attitude less rigid

AMERICA with Dulles to any proposal made by the current meeting in 1963. Dulles had agreed to the recent Soviet plan for confederation. This was stated in Washington by the U.S. Secretary of State, Mr. Dulles.

In a statement in which he appeared to take a more flexible line on the meeting by which the reunification of Germany could be brought about, Mr. Dulles reaffirmed that free elections, although the agreed formula, was not the only method of uniting East and West Germany.

He disclosed that the Western Powers were, in fact, studying the possibility of other methods. However, at the summit meeting in 1963, Dulles had agreed to some of the toughest negotiations he had known, to reunification through free elections. If the Soviet Union now wanted to suggest another method, it was primarily up to the Russians to suggest an alternative, it was set up to the West.

The king of Kenya will bring down throne

AN American who describes himself as "King of all the Nations of Men" plans to crown himself "King of Kenya" at a ceremony in Nairobi on February 27.

The man, whose name is Robert G. White, is a 35-year-old American who has spent the last few years in Kenya. He is a self-proclaimed "King of all the Nations of Men" and claims to have a following of 100,000,000 people.

White has been in Kenya since 1958, when he came to the country to work for a company. He has since become a prominent figure in the community, and has been crowned "King of all the Nations of Men" several times.

White's latest move is to crown himself "King of Kenya." He has announced that he will be crowned on February 27 at a ceremony in Nairobi. He has invited a number of prominent Kenyan leaders to attend the ceremony.

White's move has caused a stir in Kenya. Some people see it as a joke, while others see it as a serious statement. White himself claims that his move is a way of bringing attention to the problems of Kenya.

SILENCE AT 500 MPH
AIR FRANCE presents the Caravelle
Through limpid blue skies, high over the weather, the Caravelle soars like a soft, serene white sleek, thoroughbred jet-fueled lines of reality.
MUSIC IN THE HEAVENS. The Caravelle is the quietest plane in the world. There is no vibration in the cabin, only a murmur from the powerful jets, placed far back by the tail — and passengers are lulled by the music of Mozart in an atmosphere calm as an alpine peak.
THIS IS NO DREAM... But reality, for next summer the Caravelle will be flying on the European routes of Air France — the Company's first stakes in the jet age, and soon to be followed by the great Boeing 707 Intercontinental, forming part of a vast expansion programme costing nearly £100 million.

Graham Stable takes one-two in big race

DISPITE going that was distinctly firm—even hard and glossy in places—the fields at Saturday's Nairobi were very good, the weather perfect, the attendance excellent and the racing first-class. Later, after the shocks when four short-circuited lights in the house nearly stopped the afternoon.

It was through the lead, at the 100-yard mark, that the 7-10 favourite, the once again unbeaten Lady (Graham) was declared the winner. She was ridden by the 10-year-old jockey and was a very good horse. She was a very good horse. She was a very good horse.

EAST AFRICAN AIRWAYS

Now, be careful! Doesn't that offer sound just a bit too good to be true? We're always seeing those catchy headlines — and it's not until we read the small type underneath that we realise just how "catchy" they really are.

The catch (if you can call it that) comes later. But you really can walk into your travel agent or any E.A.A. office tomorrow, put down £20 16s. (that's Shs. 416/- to you) and they presto! you're halfway home! That's what the new E.A.A. Credit Travel Plan can mean to you.

Actually that sinister small type merely states the obvious — for of course you knew all along that your flight, like all good things, would have to be paid for sooner or later. In this case, you can pay later. On E.A.A.'s Credit Travel Plan, operated in association with Lombank Ltd., you can pay for your flight at an easy £26 11s. 3d. (sorry, we mean Shs. 331/25) for 12 months.

Ask your travel agent or any E.A.A. office for a detailed brochure explaining how E.A.A.'s Credit Travel Plan brings a flying holiday to any part of the world well within your reach.

The study was conducted by a team of scientists who were observing the behaviour of the Duke in various situations. The study showed that the Duke was not infallible and that he was capable of making mistakes. This is a significant finding because it shows that even the most intelligent and experienced individuals are not immune to error.

Royal taste studied for up-country journey

LESLEY CLAY takes a look at the Queen Mother's adventures on the Royal Tour.

LIKE women the world over, I find the Queen's Family provides an excellent type of amusing interest.

As I have travelled in the past, I find that the Queen Mother's adventures on the Royal Tour are a most interesting study in the history of the British monarchy.

DINNER PARTIES

I love to talk not with a dinner party, and did not find it hard to maintain the subject of the Queen Mother's adventures on the Royal Tour.

Only one of the dinner parties I have attended has been so interesting as the one given by the Queen Mother in the dining-room at the Royal Hotel, London.

SAVINGS EFFECTED ON EXPORT OF MAIZE

The Ministry of Agriculture has announced that the export of maize has been reduced by 10 per cent since the beginning of the year. This is due to the fact that the Government has decided to restrict the export of maize to the minimum necessary to meet the requirements of the local market. The Government has also decided to increase the price of maize in the local market to encourage the production of more maize. This is expected to result in a further reduction in the export of maize.

Letters to the Editor

The One Party Democracy
 The one party democracy is a system of government in which only one political party is allowed to contest for office. This system is often used by authoritarian governments to maintain their power. It is argued that this system can lead to more stability and efficiency in government, but it is also criticized for being undemocratic and for leading to corruption and abuse of power.

Our Air Force
 The air force is a vital part of a nation's defense. It is responsible for the protection of the country's airspace and for the transport of troops and supplies. RABBIES DIALECT JINGLES

It is a great pleasure to know that the jingles 20 years ago still have the same appeal. The jingles were written by a group of people who were very talented and very creative. They were able to capture the spirit of the times and to create a music that was both entertaining and meaningful. It is a testament to their talent and to their creativity that their jingles are still so popular today.

'APPALLING POVERTY' IF MALTA GAINED INDEPENDENCE

REPORT ON COLLEGE CLARIFIED

A STATEMENT issued from the Archbishop's office in Nairobi on Monday clarified a report of proceedings at Nairobi Urban Catholic College for a Catholic College.

"We would like to clarify certain points in the report," it said. "The application was for a grant of facilities for the training of a Catholic College."

"The Ministry is opposed to the Catholic Bishop of Kenya who will control it and look after the finances, the administration and all other matters connected with the school."

"The funds are available for the acquisition of the land and the erection of the buildings. The site of the primary will be provided by the Bishop and consequently it is not correct to say that the College will be a vesting of the Government."

"The Bishop has written Mr. Mottet who stated he was in favour of the Bill. The Colonial Secretary should be kept informed of the progress of the Bill."

"We do not have British troops in Malta as the British Government has stated."

A Diesel specialist is a rarity

Specialists, anyway, are rare. Otherwise they wouldn't be specialists. It is the general and correct contention that the fuel injection equipment of the diesel engine is more complex to maintain than is the petrol system of the normal engine.

By virtue of the fact that our diesel specialists have served their apprenticeship and they have introduced the machinery available in our workshops, they are able to put their fingers on faults or improvements to the running of your diesel engines. You can save money by taking advantage of our C.A.V. service, because it's quicker to diagnose and correct a fault.
