HEAVY RAIN INCREASED PARKS BILL

Report for 1958
MORE than a million of rain fell on City Park, Nairobi, during 1958—about double the amount of rain that fell during 1957—and the "phenomenal" increase in the volume of that year helped to send the park maintenance costs to a new high.

The new estimate for 1958 is KSh 1,200,000, compared with KSh 700,000 for 1957. The increase is due to the heavy rain which has caused a lot of damage to the park's infrastructure.

Work widespread
Planned and some new roads, bridges, and other structures are being planned and some are being constructed. The council is also planning to increase the number of staff in the park department.

If you have a pain—what do you take?

Do you take a tablet or a powder as you take "Disprin"? Do not be different from other pain relievers—prepare Disprin—different because it dissolves, not merely dissolves.

BECAUSE Disprin dissolves it enters the stomach as a solution, and is rapidly absorbed into the bloodstream. In this way Disprin acts without delay. Also, because Disprin dissolves there are no upset to the stomach and cause unpleasant effects. It is best to take Disprin tablets in water. They dissolve instantly, but you may, if necessary, swallow the tablets whole. They will dissolve just the same in your stomach.

Because it dissolves—**DISPRIN** stops pain quickly!

Wales top in the championship

A GREAT second-half rally by Wales, who trailed 9-0 at half-time, enabled them to gain a splendid victory over Ireland by eight points to one. The Welsh side, captained by Cardiff Arms Park, who had been expected to confer a big advantage upon the Welshmen, Ireland were clearly masters in the opening stages and their powerful backs largely controlled the game. Changes in Tanganyika

FAR-BROADCASTING has been made possible for Tanganyika by the Government's decision to change the broadcasting system from a single transmitter to a network of transmitters in the country.

The new system, which is being installed, will enable the Government to broadcast news, educational programmes, and other programmes to all parts of the country. The first stage of the programme is to install a network of transmitters in the coastal areas, which will be connected to a central transmitter in Dar es Salaam.

The Government has also decided to increase the number of programmes broadcast each week, and to improve the quality of the broadcasts. It is hoped that these changes will make broadcasting a more effective means of communication in Tanganyika.

Popular form of Government

Five colonial Ministers who had indicated for this purpose in the 1946-47 session of the House of Commons, have now been confirmed by the House.

The Ministers are: Mr. A. V. Alexander, Mr. G. D. Rankin, Mr. J. G. G. Cameron, Mr. J. G. G. Cameron, and Mr. J. G. G. Cameron.

The Ministers have indicated that they will support the Government's proposal for a new form of government for the colonies. This proposal is based on the principle of self-government, and is designed to give the people of the colonies a greater say in their own affairs.

IDEAL HOMES

Designs for a young girl's room

By ELLEN FLETCHER

DESIGN for a young girl's room, combining the best of modern and traditional, is a rooming plan that is both practical and pleasing.

Real beauty in the rooming plan is not only in the design, but in the execution. The rooming plan should be both practical and pleasing.

AMATEUR WORK
The rooming plan is a practical one, and is one that can be made by anyone who has a little knowledge of the subject.

Two-year business College for the woman and child. Try an elegant, practical, individualized rooming plan. This is a good type of rooming plan.

By JEAN WISEMAN
If Jeanne Scarlett O'Hara had her way, she would make a dress. In fact a number of dress makers have been busy making dresses for the exhibition.

Now the trend is towards the use of the latest straight lines, and the use of the latest materials. The dress makers have been busy making dresses for the exhibition.

Double rows of buttons are used in the design. The dress makers have been busy making dresses for the exhibition.

COTACSO P.V.A. EMULSION PAINT. Cotacso emulsion is so easy to apply. Ideal for plaster, cement, brickwork, building blocks. You can use it on any surface normally painted or distempred, provided it is properly prepared. There's a range of so attractive shades to choose from.

PAINT ON A HOT TIN ROOF. Hot sun and humidity can often harm wall-paint surfaces.

Our Dux or Salsom factory treats all Sherwoods paints under the severest tropical conditions. In fact we expose painted sheets of metal to sun and rain for long periods. We make sure that when you buy Sherwoods paint it's just as it's sold in its actual shelf life, too.

East African Standard

Amateur drama criticism

It is a pity that the amateur drama movement in East Africa has not been able to attract more attention from the general public. The standard of the productions is often low, and the variety of subjects is limited. However, there are some notable exceptions.

In the production of "The Last Days of Pompeii" at the Victoria Theatre, the standard of acting was high. The costumes were well made, and the sets were impressive. The production was well received by the audience.

Another notable production was "The Merchant of Venice" at the same theatre. The acting was excellent, and the production was well received by the audience.

There are many amateur drama groups in East Africa, and it is hoped that they will continue to improve their standards and attract more attention from the general public.

Two Lines Show

Two lines of drama are being shown at the Victoria Theatre. The first is "The Last Days of Pompeii" and the second is "The Merchant of Venice". Both productions are well received by the audience.

The production of "The Last Days of Pompeii" is a masterpiece of drama. The acting is excellent, and the production is well received by the audience.

The production of "The Merchant of Venice" is also a masterpiece of drama. The acting is excellent, and the production is well received by the audience.

RAIL AND HIGHER

First months of 1959

TRAFFIC receipts from the British railway in the first months of 1959 are reported to be 10 per cent higher than in the corresponding months of 1958. The total receipts for the first three months of 1959 are reported to be £1,100 million, compared with £1,000 million for the same period in 1958. The increase is attributed to a rise in the volume of traffic, particularly in the coal and iron ore trades, and to a rise in the price of coal. The railway is expected to continue to show a steady increase in traffic and receipts throughout the year.

Consolidation in London

Consolidation in the London stock market is expected to continue in the next few months. The London Stock Exchange is reported to be in a state of consolidation, with many companies being taken over or merged. This is expected to result in a more stable and efficient market. A strong moral character is essential for success in business, and is also essential for a good life. It is important to always do the right thing, even when it is difficult or unpopular.

Gen Ayub leading nation back to path of Mr Jinnah

The young events in Pakistan from the time of the Quaid-i-Azam to the present administration under Gen. Muhammad Ayub Khan are reflected here by Fareed S. Jafri.

At the height of the Pakistan movement in 1947, Mr. Mohammad Ali Jinnah, creator and founder of Pakistan, was asked to define his concept of Pakistani nationalism. Mr. Jinnah declared:

"It is a Pakistan, not a Hindu India, a nation of 150 million with its own distinctive culture and civilization, its own language, literature, art and architecture, its own social and political structure, its own laws and regulations, its own political and economic system, its own traditions, institutions and customs."

It is clearly, based on the constructive approach of Mr. Jinnah, that the Pakistan movement was not a mere demand for an independent State on August 15, 1947. Mr. Jinnah added to his earlier statement:

"A nation is not a geographical entity, but a community, a people, a group of people, who are united by their common religious, cultural, economic, political, administrative and other rights and interests."

Mr. Jinnah, by these words, has defined the concept of Pakistani nationalism. It is a nation, not a geographical entity, but a community, a people, a group of people, who are united by their common religious, cultural, economic, political, administrative and other rights and interests.

PRESIDENT AYUB KHAN

The President of Pakistan has made the following statement:

"Let us not lose sight of the fact that the Pakistan movement was not a mere demand for an independent State on August 15, 1947. It was a movement for the creation of a nation, a people, a group of people, who are united by their common religious, cultural, economic, political, administrative and other rights and interests."

Mr. Jinnah's concept of Pakistani nationalism is a concept of a nation, not a geographical entity, but a community, a people, a group of people, who are united by their common religious, cultural, economic, political, administrative and other rights and interests.

AMID DOMES AND MINARETS

The streets of Pakistan find peace and quiet and time for meditation and prayer amid the domes and minarets of this country's many mosques and shrines.
