STERLING REVALUATION RUMOURS PERSIST: COMMODITY PRICES

RUMOURS that sterling and other currencies including the Canadian dollar and the Australian pound would soon be revalued have been circulating for a week or two. It is reported that a movement of revaluation of sterling was contemplated just over a year ago. It seems hardly likely that the sterling value of the Canadian Government's treasury deposits from the dollar will cause any decrease in the revaluation, regarding the dollar movement. London is still denying that the pound is to be revalued.

Confidence in sterling is now being restored. The fact that the value of sterling is being maintained at its present level is a sign of confidence in the sterling value of the Canadian Government's treasury deposits from the dollar will cause any decrease in the revaluation, regarding the dollar movement. London is still denying that the pound is to be revalued.

But the revaluation idea can't fail. The fact that the value of sterling is being maintained at its present level is a sign of confidence in the sterling value of the Canadian Government's treasury deposits from the dollar will cause any decrease in the revaluation, regarding the dollar movement. London is still denying that the pound is to be revalued.

UTILISATION OF AFRICAN LABOUR IN TANGANYIKA

Board insists programme is suffering

CRITICISM of Government policy in Tanganyika and of the attitude of the Administration towards labour problems is contained in a memorandum sent to the Governor of Tanganyika (Sir Edward Denny) by the Northern Province Labour Utilization Board.

When James Chumwanya of the British Chamber of Commerce in Dar es Salaam, Tanganyika, requested by the Board for a report on the labour situation in the Northern Province, he stated that the labour situation was "unsound and led only to poverty, idleness and unemployment." The memorandum states that the utilisation of African labour is suffering from a number of causes, including the fact that the Government is not doing enough to encourage the employment of Africans in the public sector.

The Board also complains that the Government is not doing enough to encourage the employment of Africans in the private sector. It states that the Government should take steps to encourage the employment of Africans in the public sector, and that it should also take steps to encourage the employment of Africans in the private sector.

THE SOCIALISTS' COLONIAL POLICY
by The Rt. Hon. JAMES GRIFFITHS
Secretary of State for the Colonies
in a speech to the recent Labour Party and Fabian Colonial Bureau Conference in London

The central purpose of our Colonial policy is to guide the people of our territories to responsible self-government within the Commonwealth. In partnership with them, to seek to establish such conditions as will enable each self-government to be firmly built.

It is not sufficient to transfer the task of governing to the people of our territories. It is essential that they should be able to do so with confidence. It is essential that they should be able to do so with confidence.

There is no doubt that the people of our territories are capable of self-government. It is our duty to help them to achieve it. It is our duty to help them to achieve it.

Democratic self-government cannot be achieved if it is to be a reality. It must be based on a solid foundation of justice and equity.
