How important is security?

Have you an idea of how your family steel assets
yourself? THE QUESTION: WHAT WOULD HAPPEN TO
YOUR FAMILY IF YOU WERE SUDDENLY TAKEN
AWAY?

The illustration above clearly
illustrates that with the threat
of war breaking out, the ordinary
investor can be very easily
and in great proportion, it is an
unrealistic mistake for most
people to say that their family
assets should be left unsecured.

Insurance is something that the
family of today cannot afford to
be without in any way, and it is the
Charterford Assurance Company
and does not offer individual results
with them?

BUDGET SESSION OF COUNCIL

Governor outlines problems

CAPITAL EXPENDITURE NEEDED FOR EXPANSION OF COLONY

The Governor of Kenya, Sir Philip Mitchell, is to discuss racial representation on Kenya Legislative Council with the leaders of the various groups (Clans) and with the Kenya Association for the Central Assembly.

It will, when the meeting is held, be the first time that the Governor will be able to discuss before the Council the budget which will be presented to the Legislative Council at the opening of the Budget session on November 15.

Before the Budget is presented, the Governor has already discussed with the Secretary of State for the Colony some of the important matters which must be covered in the Budget. In particular, the Governor has discussed with the Secretary of State the question of the expansion of the Council, which was first proposed in 1952 when the original term of four years of the Central Legislative Assembly expired, and with the Secretary of State for the Colonies on the question of the expansion of the Council.

Mr. Mitchell said that it will be necessary to discuss with the Government in the matter of the expansion of the Council and the question of Indian representation arising out of the decisions of the Speaker's Committee on the subject, and also the representations which have been made by African Members of the Council.

The Governor added that "at this stage my endeavour will be to lay before you all the matters which are before me, and to discuss them with you, so that you may be able to give me your views on the various matters which are before me."

TRADE EXHIBITORS WERE PLEASED

And the Railways Show drew a daily queue

Most spectacular of the "official" stands was that of the East African Railways and Harbours administration which lived up to the high standard claimed by its exhibitors. It was not only the largest stand erected throughout the show but also provided the most interesting displays waiting for the public to open for the day.

The Superintendent of Harbours and the Director of Railways both headed an impressive team of exhibitors. The stand was a high one and was completely covered with exhibits. It was the only stand in the exhibition which was open to the public from 10 a.m. to 6 p.m. The stand was arranged in 1953. All the exhibits were displayed in a most attractive manner through the use of a number of models which were in fact a continuation of the work of the exhibitors.

Relief map

The Agricultural Department also had an interesting exhibition. It was a high relief map of the country showing the various districts and the main roads. The map was a most attractive one and was a most interesting exhibit.

Model flats

In the centre of the building was an attractive model of a modern flat. The model was a most attractive one and was a most interesting exhibit.

WAR CLOUDS OVER MOUNT ARARAT

Brigadier Fitzroy Maclean, M.P., continuing his journey through the borderlands of Soviet Russia, visits Persia and finds the Russian propaganda war in full blast.

The British look back on the war with a sense of pride and accomplishment. They have done well, and they have won. They are now at the end of the war, and they are looking forward to a peaceful future.

Over there, too, it is a very different scene. The war has been going on for a long time, and it has caused a great deal of suffering. The people are tired and they are looking for peace.
