## 'FAIR PRICE' CAMPAIGN BEGINS IN UGANDA

**'FAIR PRICES CAMPAIGN'** has just been launched in Uganda by the Department of Supplies with the aim of educating the purchasing public the manner of reduction of the responsible factor, instead of reintroducing and extending price control which has the usual accompaniment of restrictive trade practices and price restrictions.

The Director of Supplies, Mr. H. Maybury, the Controller of Prices and Distribution, Mr. A. J. A. E. Evans, said that the Department of Supplies has decided to launch a campaign of education in Uganda. The purpose of this campaign is to educate the public in the manner of reduction of the responsible factor, instead of reintroducing and extending price control which has the usual accompaniment of restrictive trade practices and price restrictions.

### Up to customer

In this campaign, continued Mr. Maybury, the Department of Supplies will publish from time to time lists of goods and their prices. It is the responsibility of the customer to check these lists and to buy the goods at the prices listed. It is not the intention of the Department of Supplies to force the customer to buy at the prices listed, but to provide a guide to the public.

**SOME UGANDA ELEPHANTS HAVE FOUR TUSKS**

IN the recently issued report of the Uganda Game Department reference is made to a four-tusked elephant killed in the south-western corner of the Protectorate. Here Maj. W. Robert Ford discusses whether multiple-tusked elephants are freaks or a separate species.

It is not possible to say whether the four-tusked elephant is a freak or a separate species. The elephant was killed in the south-western corner of the Protectorate, and was found to have four tusks. The Game Department is currently investigating the matter, and it is hoped that a definitive answer will be given in the near future.

The four-tusked elephant was found to be a male, and was approximately 10 years old. It was found to have four tusks of equal length, which is a very unusual occurrence. The Game Department is currently investigating the matter, and it is hoped that a definitive answer will be given in the near future.

### His happiest night

For those moments in which of all the moments of his life, the late King is thought to have been the happiest, it was the night he spent in the company of his wife, Queen Elizabeth, on the night of his death. The King is thought to have been the happiest on the night of his death, and this is the most fitting manner possible.

# MAKING-BULAWAYO RAILWAY LINE NEAR LIMIT OF CARRYING CAPACITY

The urgency of building a railway line from Beit Bridge, Southern Rhodesia, to Transvaal of the South Africa Railway system, to West Middelburg in Southern Rhodesia was emphasized by Mr. W. R. Sedberry, general manager of the South African Railways system, when he addressed the Central and Southern African Transport Conference in Johannesburg.

Mr. Sedberry said the Bulawayo line which links Southern Rhodesia to the north, had virtually reached its limit in carrying capacity and that another connecting link between the Union's railway system and that of the Southern Rhodesians was essential.

The goods traffic between Beit Bridge and West Middelburg was at present about 150,000 tons annually, but it was expected that this would increase to 200,000 tons in a few years. The increase was due to the fact that the Beit Bridge line was now being used for the transport of coal from the Witbank area to the north.

Mr. Sedberry said the Bulawayo line was now being used for the transport of coal from the Witbank area to the north. He said the line was now being used for the transport of coal from the Witbank area to the north.

### MP. suggests a 'Council of Empire'

**'SLEDGE'** CONSIDERS  
MR. DAVID GAMMANS' CONSERVATIVE M.P. has a plan to form a Council of Empire. He has written a letter to the Daily Telegraph in which he suggests that the British Empire falling apart—a state of affairs which he fears is a matter of time—should be averted by the formation of a Council of Empire. The plan is to establish in London a Council of Empire, to be composed of representatives of all British Colonies and Dependencies. The Council is to be a permanent body, to be known as the Council of Empire. It is to be a body of statesmen, to be elected by the legislatures of the various Colonies. There is to be a permanent secretary to the Council, to be appointed by the Council. The Council is to be a body of statesmen, to be elected by the legislatures of the various Colonies.

# MORRIS-MILLER SET A HOT PACE

### New South Wales record 274 for one wicket

**NEW SOUTH WALES** scored 274 for one wicket against M.C.C. yesterday in the rain-curtailed first day's play of their four-day match at Sydney. This score was due to a fine unbroken second-wicket stand by Arthur Morris and Keith Miller who put on 222.

Left-hand Miller had scored 150 at the close while Morris was one short of his century.

The match was 17 minutes over lunch and their century partnership came in 20 minutes. Shortly after this had broken down, although Morris scored 111 in the first hour of the second day. Miller had scored 111 in the first hour of the first day.

## British football fixtures and summary: page 2

likely to overcome the 4000 of the league was collected in 1960.

Both halves gave a dazzling display in the match, the first half was a goalless draw, but the second half was a goal-fest.

Dean Campbell again captained the M.C.C. team and he was supported by the doctor's advice that he will probably not be given further footballing opportunities in the future.

## Hot and sultry

Thunderstorms had been forecast for the day and they did indeed occur, but they were of short duration. The weather was hot and sultry, with temperatures reaching 90° and 95° in the shade. The rain was heavy and fell in a steady shower.

## Day's details

When dawn broke over the pool in the morning the weather was bright and sunny. The temperature was 80° in the shade.

# M.C.C. JUST SAVE THE FOLLOW ON

## Tailenders fail miserably at Sydney

M.C.C. were saved from following on by 90 runs on the third day of their four-day match against New South Wales at Sydney, Saturday. They were restricted to 320 in reply to New South Wales first innings of 509 for three wickets declared, and at the close the State side had scored 111 for no wicket in their second innings.

It was a day of mixed fortunes for the M.C.C. Only Hutton, who got 116 and Denis Compton, who continued the opening partnership of Hutton-Walshford stand of Saturday. After these two batsmen gave the tail-enders little chance of scoring.

When the batsmen failed to bat, the tail-enders were left to themselves. Hutton and Compton were the only batsmen who scored runs in their last innings. Hutton scored 111 for no wicket, and Compton 71 for one. The M.C.C. were all out for 320 in 111 minutes, but retained before lunch they got 70 runs.

Advising their form suggested a big fight for Hutton, but he was out for 116. The total then was 218 and only 41 runs later Hutton was again out, leaving the M.C.C. with an opportunity and having five runs to go to every delivery. Hutton's innings was a fine display of his batting, but he was out for 116. The M.C.C. were all out for 320 in 111 minutes, but retained before lunch they got 70 runs.

## One bumper

Nothing had occurred in the early evening to suggest that the bumper would gain momentum. However, when Hutton, who had some minutes to spare, was out, Hutton had a bumper. He was out for 116, and the total then was 218. Hutton's innings was a fine display of his batting, but he was out for 116.

With the dismissal of Hutton, the M.C.C. were all out for 320 in 111 minutes, but retained before lunch they got 70 runs. Hutton's innings was a fine display of his batting, but he was out for 116.

Attention took notice of the bowling after tea and the mastery of the batsmen. The M.C.C. were all out for 320 in 111 minutes, but retained before lunch they got 70 runs.

Compton took notice of the bowling after tea and the mastery of the batsmen. The M.C.C. were all out for 320 in 111 minutes, but retained before lunch they got 70 runs.

## EUROPE FACED WITH COAL FAMINE AS BRITAIN, GERMANY CUT EXPORTS

Europe is faced with a coal famine this winter, according to a United Nations report, as both Britain and Germany which together supply 70 per cent of the coal required in the continent, have already begun to cut exports. It is expected that the demand for coal throughout the continent has risen sharply since the outbreak of the war.

Mr. Philip Noel-Baker, Minister of Fuel and Power in Britain, said that the Government must make the essential repairs to the coal mines in the first half of the winter season. "We shall certainly have some coal for export," he stated. "But it will be at a lower level than in the autumn and winter months of the previous year."

It is a situation of some magnitude that is facing Germany as well. Some 50,000,000 tons of coal are required for the production of the Ruhr and by the end of the winter it will be the reduction of exports from existing mines. "The winter will be a hard one for us," he said. "We shall have to use our own coal reserves and we shall have to use our own coal reserves."

# SYDNEY MATCH

## Rain hastes foregone drawn result

As expected, the match between the M.C.C. and New South Wales ended in a late draw at Sydney yesterday, with the tourists' batsmen again falling to improve on a "sugar candy" week.

In the touring team it is to make a good showing in the first Test beginning of Brisbane in three weeks' time, critics impart to it as necessary for it to be well prepared to cope with the conditions of the new ground. The M.C.C. captain, Mr. Mackay, said after the game that the rain had done much to help the touring team.

The rain also helped to give the tourists a better chance of scoring runs. The M.C.C. batsmen were able to score runs at a rate which was well above the level of the tourists. The tourists' batsmen were able to score runs at a rate which was well above the level of the tourists. CRITICISM FROM DOLLAR COUNTRIES**

CANADA and the United States have issued criticism  
of Britain's trade and fiscal policy. Both declare that the  
British Government holds an exaggerated view of what constitutes  
an adequate gold and dollar reserve and that the limit has come  
where trade restrictions and discrimination tend to protect and  
increase British dollar reserves at the expense of the  
rest of the world.

The U.S. has also issued  
criticism of British policy  
and has expressed its  
disapproval of the  
position of the British  
gold reserves. The U.S.  
has also expressed its
