# TRIUMPH FOR BACCHUS IN DELAMERE CUP

### Only two runners for the Kenya National

WELL-KNOWN runner James Nairu on Saturday won the Delamere Cup, the day's most important event.

Favourite of many runners, he won the race from outside the next two to the finish. He was the only runner to finish in the top three.

The race was held at Nairobi on Saturday. It was the first of a series of races to be held in the city.

The Delamere Cup is named after the late Mr. J. C. Delamere, who was a prominent sportsman in Kenya.

James Nairu, who was only 21 years old, won the race in a time of 17 minutes and 30 seconds. He was followed by George Odhiambo and Peter Ngunjiri.

The race was held on a track which was built for the purpose. It is one of the best tracks in the country.

The Delamere Cup is one of the most important races in Kenya. It is held annually in December.

### Results of Saturday's eight races

**100 Yards**—1. J. K. Ombaka, 17.2; 2. J. K. Ombaka, 17.5; 3. J. K. Ombaka, 17.8.

**200 Yards**—1. J. K. Ombaka, 35.5; 2. J. K. Ombaka, 36.0; 3. J. K. Ombaka, 36.5.

**400 Yards**—1. J. K. Ombaka, 1:12.0; 2. J. K. Ombaka, 1:12.5; 3. J. K. Ombaka, 1:13.0.

**800 Yards**—1. J. K. Ombaka, 2:25.0; 2. J. K. Ombaka, 2:25.5; 3. J. K. Ombaka, 2:26.0.

**1,600 Yards**—1. J. K. Ombaka, 4:50.0; 2. J. K. Ombaka, 4:50.5; 3. J. K. Ombaka, 4:51.0.

# Black day for three league leaders

### And Scotland provides a real surprise

The Annual run of successes has been halted. After collecting 17 out of a possible 18 points from their last three matches, the "cat" team's defence which has put the Highways faithful on the edge of their seats was broken by Scotland's triumph on Saturday at a Bolton team that was under strength.

But Arsenal won't be the league leaders to lose. Defeat Coventry, who headed Division One last season, was their only defeat. United, Transvaal, leaders in Division II (North), were humbled by their neighbours Gateshead while Minto FC, though only at the top of Division III (South), could only draw with their nearest rivals.

Bolton were without their league leader, the late John King, but managed to beat the second-bottom team, the Black Cats. At the same time, the Black Cats were without their league leader, the late John King, but managed to beat the second-bottom team, the Black Cats.

FORT JESUS AS THE MUSEUM OF KENYA'S COAST

FOR the past few years Fort Jesus has been used exclusively as a prison. It will no longer be required to serve as such. By the end of 1951 it is expected that all prisoners will have been removed. The Fort will then be handed over to some appropriate authority for the purpose of becoming a museum.

My conscience told me to shift from there to here. The Fort of Jesus was built by the Portuguese in 1541. It was the only stone building of the kind in the world. It was built on a rocky island in the Indian Ocean. It was built by the Portuguese in 1541. It was the only stone building of the kind in the world.

Another point of interest is the fact that the Fort was built on a rocky island in the Indian Ocean. It was built by the Portuguese in 1541. It was the only stone building of the kind in the world. It was built on a rocky island in the Indian Ocean.

**CHURCHES PROTEST OVER APARTHEID POLICY**

**'Totalitarianism' hint in South Africa**

SOUTH AFRICA'S churches are taking an increasingly aggressive part in the opposition to the Apartheid policy of Dr. Verwoerd's Government. Churches of all denominations are represented by the leaders of the Church's National Council, which is expected to meet soon at a time of the country's political crisis.

The annual conference of the Church of South Africa, which is held in Johannesburg, has just concluded its proceedings. It was held in a hall which was packed to overflowing with members of the church. The conference was held in a hall which was packed to overflowing with members of the church. The conference was held in a hall which was packed to overflowing with members of the church.

**Only path**

The conference agreed that the best way to bring about a change in the South African Government's policy is through the use of non-violent methods. It is the only path, it is the only path, it is the only path.

**Rule for years**

The church leaders have agreed to a set of guidelines for their actions. They will continue to work for a change in the South African Government's policy. They will continue to work for a change in the South African Government's policy.

DAIRY FARMING LOOKS FOR EFFICIENCY

IMPORTANT developments in farming practices, particularly in milk production, emerged during the Dairy Show in London, which was attended by more than 60,000 visitors. Supplementing information gathered by the National Farming Union about the continuously rising mechanization of agriculture were the statistics of the Ministry of Agriculture which combine to give a picture of increasing efficiency.

The immense clamour at the Dairy Show an average cow bred by the Dairy Farm had had 100 calves in 10 years was announced by the Minister of Agriculture, Sir James Duff, who said that in 1949 the average cow produced 10,000 lbs. of milk. However, in 1950 the average cow produced 12,000 lbs. of milk. This is an indication of the machine-like nature of the modern dairy farm. The quantity of production, and it is here that the Ministry of Agriculture figures were helpful, has increased in 1950 by 10 per cent. All the larger United Kingdom agricultural shows have, for many years been giving a lead in improved methods of farming. By introducing modern methods of farming, the dairy farmer has been able to produce more milk with less labour. The Ministry of Agriculture figures show that the average cow produced 10,000 lbs. of milk in 1949 and 12,000 lbs. in 1950. This is an increase of 20 per cent. The Ministry of Agriculture figures also show that the average cow produced 10,000 lbs. of milk in 1949 and 12,000 lbs. in 1950. This is an increase of 20 per cent.

COLONIAL The purpose, in 1950, the number of farms using such machinery has increased by 50 per cent. In 1949, 100,000 farms used such machinery. In 1950, 150,000 farms used such machinery. This is an increase of 50 per cent. The Ministry of Agriculture figures also show that the average cow produced 10,000 lbs. of milk in 1949 and 12,000 lbs. in 1950. This is an increase of 20 per cent.

Milk yield The results of three trials in Friesian and Holstein Friesian cows are shown in the following table. The average yield of the Friesian cows was 12,000 lbs. of milk in 1949 and 14,000 lbs. in 1950. The average yield of the Holstein Friesian cows was 10,000 lbs. of milk in 1949 and 12,000 lbs. in 1950. This is an increase of 20 per cent.

TANGANYIKA MILD COFFEE BELOW THE AVERAGE

# LET US TAKE STOCK OF OUR GAME IN AFRICA

ONLY when one looks at a situation from a distance does the true perspective appear, and in this respect the game in Africa is no exception. It is only when one looks at the game in Africa from a distance that one can see the true picture. The game in Africa is a vast and varied one, and it is only when one looks at it from a distance that one can see the true picture.
