International Outlook

The paper will persist that a hopeful settlement of the Korean problem will be found. Nothing has happened in recent days to destroy that hope. Though the general situation remains critical and the prospects almost overnight.

On the diplomatic front the approach has been to limit the hands of the United Nations Organisation and to the active and initiative of such states as Sir Bernard Lee, who has taken the lead in the Government of India. Sir Bernard Lee's position is most interesting in view of the fact that he is both large and small, as well as the fact that he is a member of the United Nations Organisation.

SOLVING THE HOUSING PROBLEMS OF TROPICAL AREAS

By W. M. WOODHOUSE
a building development expert who is adviser at the Colonial Office to the Development and Welfare Organisation for the West Indies.

This apartment at Lushington, in Barbados, illustrates one type of housing which is being developed by the Development and Welfare Organisation.

HOUSING problems of tropical areas are not the same as those of the temperate zone. The need for greater resistance to the elements of nature is a major factor in the design of housing in these areas. It is not enough to build a house which will stand up to the weather, it must also be designed to provide a comfortable living environment.

It is possible to make a house which is both comfortable and resistant to the elements of nature. This can be done by using materials which are suitable for the climate and by designing the house to provide a comfortable living environment.

It is possible to make a house which is both comfortable and resistant to the elements of nature. This can be done by using materials which are suitable for the climate and by designing the house to provide a comfortable living environment.

Much to be done
The problem of the tropical areas is a great one and it is one which is being solved by the Development and Welfare Organisation.

WOMEN GARDENERS WIN WELL AT FLOWER SHOW

Quality the keynote at Nairobi event
 Women gardeners took most of the honours at yesterday's flower show of Nairobi Branch of Kenya Horticultural Society. The premier award of the day, Kenya Horticultural Society's Challenge Cup, for the winner with the highest number of points, went to Mrs. Phillips, of Nairobi, who took first in the rose, delphinium, flowering-sprub, winter, and pansy classes.

£1,000 raised in ten minutes
 £1,000 raised in 10 minutes—the record for any fund-raising event—was set at the annual Christmas dinner of the Nairobi Branch of the Kenya Horticultural Society. The dinner, held at the Nairobi Club, was a success in every way. The total amount raised was £1,000, which will be used for the purchase of a new greenhouse for the society.

Meritorious
 The most meritorious exhibitor of the flower show was Mrs. Phillips, of Nairobi, who took first in the rose, delphinium, flowering-sprub, winter, and pansy classes. Her exhibits were of high quality and attracted much attention from the visitors.

Toys will not be too late for Christmas
 A shipment of toys delivered by the Nairobi Branch of the Kenya Horticultural Society is expected to arrive in Nairobi in time for Christmas. The toys, which include dolls, games, and other children's toys, were purchased with the proceeds of the flower show.

Two new car parks for Nairobi
 Nairobi City Council has announced that it will build two new car parks in Nairobi. The first car park will be built in the area around the Nairobi Club, and the second car park will be built in the area around the Nairobi Hotel. The new car parks will provide much-needed parking space for the city.

Tanganyika road ban during rains
 All traffic with a loaded engine will be prohibited on the roads of Tanganyika during the rainy season. The ban is intended to prevent accidents and damage to the roads. The ban will be in effect from the start of the rains in January until the end of the rains in March.

Publication resumed
 The publication of the Nairobi Standard has resumed after a long hiatus. The newspaper, which was suspended during the war, is now being published again. The new publication is expected to provide the public with the latest news and information from Nairobi and the surrounding areas.

Theatre now drill hall
 The Nairobi Theatre has been converted into a drill hall for the Nairobi Police. The theatre, which was built in 1910, is now being used as a drill hall for the police. The conversion of the theatre into a drill hall is a result of the need for more drill halls in Nairobi.

NO EXCESSES FOR BRITAIN'S CONTINUED TURF DEFEATS

Too many valuable 2-Y-O races a cause?

The 100 excesses of English horses in the great races in recent years is a natural result of the increasing number of defeats in a field where money was so abundant... The turf has been hit hard by the 2-Y-O races... The excesses have led to a decline in the quality of the races... The turf authorities are taking steps to reduce the number of 2-Y-O races.
