OVERCOMING SOIL EROSION

Effect of Wind and Rain

OVERLOOKING DANGER

Below is given the fourth of the series of news notices on the subject of soil erosion that are being issued by the Kenya Department of Agriculture.

The action of soil erosion is brought to the notice of farmers by the appearance of rills and by the presence of silt at the bottom of shallow after rain. Loss sustained in cultivated land where good soil is entirely removed and subsoil appears is very apparent from casual observation.

Rain and Wind

But these signs reveal only a small proportion of the loss. Erosion of soil by rain and wind takes place at varying degrees of intensity at all times on soil exposed to their action. Where silt is not protected by a covering of grass or other vegetable growth, and is in a constant state of removal, although over a short period displacement may be small, and not of sufficient intensity to arrest the eye. Slow but insidious encroachment, and were trouble taken to measure such loss farmers and planters who value fertility of their land which they have acquired at considerable cost, would receive an unpleasant shock.

The water of rivers in spots is often a deep colour according to the nature of the soil of which it has drained, and this colour, when it is a normal rate, are often far from clear. This means that silt which is the fertile top soil is being carried off and lost.

Silt from Grazing Lands

These streams are not confined to cultivated areas. In many instances they originate in open areas from which the water emerges clear, and as they pass through gullies, ditches, drains, and carrying silt from grazing lands gives them colour.

Erosion is not confined to cultivated lands. Pastoral lands are also badly affected if overstocking is allowed to remove the protective covering of grass. The treading of animals on dry unprotected soil loosens it and wind and rain removes it to lower levels. This

process is repeated and fertile soil and the grazing value of the land is often reduced to such an extent that herbage fails to grow.

Stocks which are the cause of this process can be seen in this country. These may be more in evidence in Native reserves than in settled areas, but nevertheless similar plans are made by farmers to protect the soil of their pastures, the way will come, but is not far distant in some districts, when the carrying capacity of pastures will be very considerably reduced.

Through Examination

In the interests of the Colony as well as their own, farmers are urged to make a thorough examination of their lands to ascertain the extent of soil loss. Having done so, be the loss great or small, they should formulate plans to bring about its cessation and put into effect immediately.

The freedom of farmers and planters are dependent upon the fertility of their soil. Productivity in turn depends upon fertility. Erosion removes fertility and will to a greater or lesser degree cause decline of profits on farms which employ in the raising of crops and stock dependent on their existence.

Farmers and planters cannot afford to neglect the all important subject of soil erosion.

Passengers by air

The Imperial Airways liner, "City of Nairobi", piloted by Capt. J. Bradford, departed for Kisumu at 6.30 a.m. on Friday. The Imperial Airways liner "Amalia", piloted by Capt. J. S. Sheppard, arrived from the south at 5.30 p.m. on Thursday, and departed for the north at 6 p.m. on Friday. The following passengers were carried—Nairobi-Kisumu: Dr. Raymond; Nairobi-Britidi, Mr. V. A. D. Collier; Nairobi-Estehab, Mr. J. A. Moore; Nairobi-London, Mrs. E. M. Biles; Nairobi-Cairo, Mr. and Mrs. Piper; Nairobi-Estehab, Mrs. Salmon; Bulawayo-London, Mr. C. A. Barrow; Salisbury-Cairo, W. H. E. Hamner; Broken Hill-London, Sir A. Geddes; Muya-London, Miss Robinson; Nairobi-London, Mr. and Mrs. Rhine; Mbeva-Nairobi, Mr. Hayward.

RAILWAY AND HARBOUR TRAFFIC

Figures for First Six Months of This Year.

IMPORTS AND EXPORTS

The total export traffic raised to the Coast during the first six months of this year was 124,186 tons, as compared with 307,024 tons for the corresponding period last year—a decrease of 59.74 per cent.

The total import traffic raised from Kilindini Harbour inland during the same period this year was 40,837 tons, while for the corresponding period last year it was 42,113 tons.

Public Traffic

For the first six months of 1934, the total public traffic dealt with by the Railway and Harbours Administration was 392,262 tons, as compared with 434,848 tons for the corresponding period of last year; and the total train mileage run during the first six months of the present year was 1,046,514, as compared with 1,275,514 for the corresponding period of 1933.

Principal Imports

The following table shows the tonnage of principal import commodities despatched to up-country destinations from Mombasa Island during June last and during corresponding period of 1933 respectively: Cement 690 and 1,477; coppered iron 292 and 232; motor cars 39 and 30; cotton cloth 302 and 400; cotton blankets 97 and 54; iron and steel (manufactured) 241 and 286; horse-castle 600 and 747; petrol 1,274 and 1,287; salt 822 and 745.

Export Commodities

The following are the tonnages of principal export commodities received at the Coast from up-country stations and lake ports during last June, and during the corresponding period of 1933 respectively: Coffee 2,131 and 1,100; cotton 7,174 and 7,742; cotton seed 2,855 and 34,835; sisal 1,060 and 1,404; hides 440 and 295; maize 654 and 1,129; sisum 117 and 498; sugar 1,039 and 292; wattle bark 962 and 2,065; wool 18 and 22.

NATIVE CYCLIST MEETS LIONS

Shooting-Of Elephant in Northern Rhodesia.

"STANDARD" CORRESPONDENT

During the past few months, the Standard's correspondent of the Johannesburg Sunday Times, Messrs. Hill and Douglas, the well-known big-game hunters who were engaged by the Northern Rhodesian Government for the work of protecting game and crop from the depredations of elephants in the Fort-Janssens district, have succeeded in killing of 143 elephants, mostly bulls.

From reports received, the disposal of this number—as it is spread over a very wide area—has by no means done away with the menace, and the numbers left are still considerable.

Climbed Tree

A Ndebe Native reported to his master that he was cycling along a footpath, he saw two lions, a male and a female stalking towards a bush which was lying under a tree near a fire he had made.

From a distance he shouted to the boy, who quickly climbed up the tree to safety. He himself pecked off an leaf as the lions would take him.

Appointments Dissolved

The following appointments have been granted: Mr. C. Tomkinson to be District Commissioner, Kiambu-Landini District, Nyanza Province; Mr. E. J. A. Leslie to be District Officer (Hides), Fort Hall District, Coastal Province; Mr. H. M. Watson to be Assistant Auditor; Mr. H. G. Filling to be Acting Colonial Secretary; Mr. C. J. P. Barton to be Acting Deputy Colonial Secretary; Mr. H. L. G. Gurney to be Acting Assistant Colonial Secretary; Mr. C. M. Dorewell to be Acting Assistant Secretary, Secretariat; Miss Margaret Minnie Richards to be Acting Store; Captain H. G. Bergquist, Port Captain, to be Acting Port Manager and District Traffic Superintendent, Kilindini.

Primary Figures of Agricultural Census.

FAVOURABLE CONDITIONS FOR THE INDUSTRY.

Effects of the Drought.

MARKED DECLINE IN PRODUCTION OF COFFEE AND MAIZE.

The Department of Agriculture has issued a preliminary extract from the Agricultural Census figures for the year beginning March 1, 1933 and ending February 28, 1934. These figures reveal that mainly, owing to the drought conditions, the period under review was definitely an unfavourable one for agricultural and pastoral activities.

Sheep Temporarily?

The comments made by officials of the Agricultural Department on the figures are as follows: The year under review was usually unfavourable for general crop and pastoral industry, owing to the continued drought which prevailed over the greater portion of the Colony in 1933. The conditions in 1934 were somewhat improved. The areas under main-cultivated crops were increased, but not less than 30 per cent. The areas under secondary crops were also increased, but not less than 20 per cent. The areas under main-cultivated crops were increased, but not less than 20 per cent.

MARKED DECLINE IN PRODUCTION OF COFFEE AND MAIZE.

The Department of Agriculture has issued a preliminary extract from the Agricultural Census figures for the year beginning March 1, 1933 and ending February 28, 1934. These figures reveal that mainly, owing to the drought conditions, the period under review was definitely an unfavourable one for agricultural and pastoral activities.

KENYA'S POPULARITY AS HOLIDAY RESORT.

Tendency to the increasing popularity of Kenya as a holiday resort was given by Brigadier E. H. Kelly, C.B.E. (Ret.), Brigadier, General Staff, P.E.F., in a paper read at the meeting of the British Officers' Club in Nairobi, Kenya, on August 17. He said that the number of British officers and their families who visit Kenya annually is increasing steadily.

Buildings to be Erected Shortly.

The General Manager of the Kenya Government Creosote Co. is on a visit to Eldoret with the view of erecting a new building for the creosote works. The building is to be erected on the site of the old building, which was destroyed by fire in 1932.

SOIL EROSION AND AFForestation.

The fourth number of "The African Observer" is devoted particularly to the all-important problem of soil erosion and afforestation. It contains a number of articles on the subject, and is a valuable contribution to the knowledge of the problem.

THE HOLIDAY CAMP at Mombasa.

The holiday camp at Mombasa, which was opened on August 15, is a most successful one. It has attracted a large number of holiday-makers, and the programme of entertainment is most interesting.

RACING AT COWES.

The racing at Cowes, which was held on August 17, was a most successful one. The British flag was carried off by the "Gallant Fox", which won the race by a large margin.

THE JOHANNESBURG STOCK EXCHANGE.

The Johannesburg Stock Exchange, which was closed on August 17, was a most successful one. The market was buoyant, and there was a general advance in all the principal shares.

206 New Members!

The Agricultural Society still has 2145 short. The society has a large number of members, and is a most successful one. It has a wide range of activities, and is a valuable institution for the farmers of the district.

OPERATIVE CHRISTIAN SETTLEMENTS.

The Operative Christian Settlements, which were founded in 1914, are a most successful one. They have a wide range of activities, and are a valuable institution for the workers of the district.

INFORMATIVE ARTICLES.

The informative articles, which are published in the "African Observer", are a most successful one. They contain a wealth of information on a wide range of subjects, and are a valuable contribution to the knowledge of the district.

RATES OF EXCHANGE.

The rates of exchange, which are published in the "African Observer", are a most successful one. They contain a wealth of information on a wide range of subjects, and are a valuable contribution to the knowledge of the district.

CROP PROSPECTS IN NYNAGA.

Encouraging Forecast Made

AGRICULTURAL POLICY.

With the reported shortage of crops in different parts of the world attention is drawn to the prospects of local crops. Nyanza Province has for this year to keep up its reputation as a rich agricultural district. The maize crop should be very heavy and at least 250,000 bags are expected to be available for export from the Province. Groundnuts, which last year were very light crop owing to the incidence of "black" disease, should yield a much larger crop this season. Efforts are being made to combat the disease by clearing planting land in 1935 early to estimate fairly the value of this measure. North Kavirondo is of course the principal district for this crop.

Cotton is now becoming of increasing importance. In 1931 approximately 2,000,000 lbs. were harvested. The following year was a doublet: it is estimated that Nyanza will produce in the neighbourhood of 10,000,000 lbs. this year. A new ginnery is to be established at Kericho, which will be working by the end of September. The latest type double roller gins are being installed. The keeping are probably the most crops of general interest to us here are many more of really vital importance to the inhabitants and at least of passing interest to all who have the economic development of Kenya as their heart. Rice, for example, which had almost died out in 1929, is now being planted in increasing quantities, mainly in North Kavirondo. An approved method of irrigation is now being grown and it is possible that a cigarette-making machine may be set up in the Province.

Maize Food Drops.

A new early variety of maize has been introduced. The harvesting of this does not clash with the planting of cotton as used to occur with later maize strains. Maize, the most important cereal locally for food purposes, is now being produced in an early variety which allows of two crops being sown in a year. The possibilities of the crop have been attracting increasing attention here as elsewhere. Behind all this are the concerted efforts of the Agricultural Department and the Administration. From "Kintima" a clearly defined policy of agricultural development is applied to the Province. For the purpose of preventing famine maintaining conditions of policy and unity, the land has been divided into seasons according to soil climate and other factors. Production is classified under Food Crops and Cash Crops. Among the latter, for example, are rice, groundnuts and simsim. Simsim has proved the most valuable cash crop of Nyanza. It is confined practically to districts below 2,000 feet. As a result of the efforts of the Agricultural Department a considerable improvement in quality has been achieved already.

Reviewing the crop prospects generally in the Province to-day one is assured that, thanks to the kindly rainfall and favourable powers that be, Nyanza will have plenty this year for her own needs as well as a large surplus plus for the rest of Kenya and overseas markets.

Major H. L. Nathan, I.C.S., M.P., for North-East, East and West, has decided to join the "Labour Party" on the ground that he thinks there is no future for Liberalism.

LATEST COMPANY REPORTS.

Dividends Declared by Breweries.

GUINNESS, BOY AND CO.

["STANDARD" CORRESPONDENT.] Latest Company Report. (By Air Mail). London, August 7. Latest Company Report on Dividends are as follows:— A final dividend of 15 per cent. is announced by Anchor Guinness. As before £28,000, which the distribution for the year 27 per cent., the same as for 1932-33. As before £28,000, which is due to depreciation before computing profits. While the profits for the year are £28,000, it is evident that the company earned more than in the previous year for whereas it brought forward £140,000 less is being carried forward £140,000 more.

A final dividend of 8 per cent. was declared by Water, Cable and Road and Company making 18 per cent. for the year on the deferred shares, against 10 per cent. for 1933. In some quarters 15 per cent. was declared. It is noted that 1932 had been anticipated, but the past year's distribution remains the more general estimate. The company's dividend policy appears to be maintained to some extent. Allotments to property improve the value of the shares. The share has, ranged from 200,000 to £400,000 in value. The dividend and profit is £4, 6s. 8d. per cent. without allowing for accrued dividend.

Grovehouse House.

A substantial increase in profits is shown in the annual report of Grovehouse House (Park Lane) to June 30, 1935. The net balance from trading after charging all expenses, including repairs, amounted to £21,282. This is an increase of £5,121 over the previous year. The total revenue amounted to £202,254. In November last the year's profit was estimated at £200,000. Total revenue amounted to £202,254, compared with £200,000. Profit includes £212 (against £10,000) profit on investments made. Net profit was left at £22,300 as against £17,100.

The directors of Yarely and Co., the perfume and toilet soap manufacturers, are raising the Ordinary Interim dividend to 2s. 6d. above, of 12s. per cent. for 2s. 6d. above last year. The dividend is payable, late tax, on August 17. For the year 1935 the net profit was £217,430 and a final dividend of 7s. per share was paid, making 100 per cent. Capitalised bonuses were distributed in February £25,000, of 5s. per cent. on 72,270 six per cent. Preference and in June following amount of 2s. 6d. per cent. a further 90,000 of these shares.

Imperial Tobacco Dividend.

An interim dividend of 7 1/2 per cent. (free of tax) was declared yesterday by the Imperial Tobacco Company (of Great Britain and Ireland). This compares with 6 1/2 per cent. (free of tax) for the year ago, but the increase had no influence upon the market yesterday, because it had been forecast at the annual meeting in February, when the chairman announced the Board's intention to stabilize the interim dividend at 7 1/2 per cent. with a view to reducing the proportional difference between interim and final payments. Hence the market distribution cannot be regarded as implying an increased dividend for this year as a whole. However, the buying of Imperial shares that has taken place since the cessation of the "Labour Party" on the ground that he thinks there is no future for Liberalism.

KAMPALA'S TELEPHONE SERVICE.

(Continued from page 7.)

The general opinion of members was that the Post Office should follow the example of the British postal authorities and treat the Department from a business point of view. It had been found that in Britain and the States should apply to Uganda.

The telephone was an insurance, and it was the means of saving a life it was surely worth a gross extra expenditure of £20 per annum. The Post Office was asked to treat the matter not as a business but as a necessary public service.

No Anagnam. Mr. Kello, in reply, made it clear that he was not antagonistic to the idea. The principle that was the installation of a telephone carried with it an obligation to install an all night service as well as a day service. It would be glad to have the Chamber's views on this, and would forward them to the Postmaster-General, but at the moment he did not feel justified in recommending the service for Kampala.

The Chamber declined to take the action and press for a 24-hour telephone service for Kampala. The Chamber will ask the chairman, Mr. O. H. Goodrich, who left by air for England, the next day, a pleasant and healthy leave and a safe return.

Kampala Abattoir. The question of the Kampala abattoir then received attention. This was built little less than two years ago on the main Kampala-Jinja Road quite close to the township, and all the objections raised by the Chamber at the time of its erection, it was stated, held good today.

As a scheme is in hand for resigning the lands in the township, the Chamber will ask the Government to make a diversion at this point, thereby isolating the abattoir from the main road, strengthening out a number of dangerous curves, and making a better approach to the railway crossing, which, at the moment, is definitely dangerous.

Mr. W. B. Hall was nominated to take the place of Mr. H. R. Fraser on the Coffee Board during the latter's absence on leave in England.

Confidence that is felt in the future of the great undertaking. The London and North Eastern and the Great Western Railway made the divided statements for the first half of 1934. The L.N.E.R. is paying the dividends on its guaranteed stocks, but consideration of payment of dividend on stock is pending after the Government has again been deferred until the accounts for the whole year are available. The Great Western Railway is again paying 7 per cent. on its Ordinary stock after making an appropriation from reserves. Financial results of the two companies are summarized below:—

L.N.E.R. £1,845,000. G.W.R. £209,000.

Increase in expenditure—L.N.E.R. £1,154,000. G.W.R. £281,000.

Increase in net revenue—L.N.E.R. £690,000. G.W.R. £270,000 (including interest).

In the case of the L.N.E.R. additional expenditure on maintenance of £450,000, while the increase in the Great Western's expenditure was largely due to the employment of additional staff to provide for the growth in traffic. The statements are given in our City column.

BRITISH LEGION 1934 "ETE"

WIRE

Sixth Avenue, under the Standard Clock.

CHATS ON WIRELESS—No. 24.

We are receiving very many reports from various parts of the country, as far apart as Mombasa and the Mau Summit, on the excellent performance of the Lanes All-Wave Four Receiver, the merits of which we have from time to time told you about. Public opinion is the greatest factor which helps us to sell these Sets. Here is an example—On June the sixth last, we called for one gross of Lanes Kits. Last week we called for a further gross and it was obvious to us that there were many who were contemplating purchasing a Receiver, this alone should suffice to convince them as to the type of Receiver that is suitable for this country.

We are demonstrating in our Show-Room every evening from 8 p.m. to 10 p.m., and you are cordially invited to attend. Demonstrations are also being given through our Agents, Messrs. Galley and Roberts for Nairobi and Jinja; The International Motor Shop for Tanga and Dar es Salaam; and Messrs. Mwangi and the Tanga Motor Shop for Tanga. We hope to have further Agents in the near future to enable you to hear this Receiver under your own local conditions.

We can quite definitely say that until you have heard Broadcasts from the World through a Lanes Receiver, you have not heard wireless that has been worth while hearing.

With a Lanes All-Wave Four, conditions are always favourable. And think of the price—a Kit of Parts complete with four Valves, £15. 12/0.

CROP PROSPECTS IN NYANZA.

Encouraging Forecast Made.

AGRICULTURAL POLICY.

With the normal amount of crops in different parts of the world attention is drawn to the prospects of local crops. Nyansa Province bids fair this year to reap a rich harvest at a risk agricultural district.

The maize crop is expected to be very heavy and at least 200,000 bags may be available for export from this Province.

Groundnuts, which last year gave a very light crop owing to the incidence of "C" disease, should yield a much larger crop this season. Efforts are being made to combat this disease by closer planting but it is too early to estimate fairly the value of this measure. North Kavirondo is, of course, the principal district for this crop.

Cotton is now becoming of increasing importance. In 1933 approximately 2,000,000 lbs. were harvested. The following year this was doubled; it is estimated that Nyansa will produce in the neighbourhood of 10,000,000 lbs. this year. A new ginery is to be established at Mendi and it should be working by the end of September. The latest type double-drum roller gins are being installed.

The foregoing are probably the main crops of general interest but there are many more of real vital importance to the inhabitants and at least of passing interest to all who have the economic development of Kenya as a whole at heart. Rice, for example, which had almost died out by 1930, is now being planted in immense quantities, mainly in North Kavirondo. An approved system of tobacco now being grown and it is possible that a cigarette-making machine may be set up in the Province.

Latest Company Reports.

Dividends Declared by Breweries.

GUINNESS, SON AND CO.

["STANDARD" CORRESPONDENT]. London, August 17. (By Air Mail).

Latest Company Reports are as follows—

A final dividend of 11 per cent. together with a bonus of 5 per cent., announced by Albury Guinness, Son and Co. This makes the distribution for the year 27 per cent. the same as for 1932-33. As before, £20,000 is placed to disposition before commencing profits. While the precise figure of profit is not stated it is evident that the company earned more than in the previous year, for whereas it brought forward £140,000 less it is carrying forward a balance (£811,744) which is £100,000 more.

A final dividend of 8 per cent. was declared by Watney Combe and Mercantile making 15 per cent. for the year on the Defrased share, against 10 per cent. for 1933. In some quarters 15 per cent. which was the rate paid in 1932, had been anticipated, but the past year's distribution scheme the more general optimism seems to be influenced to some extent by the fact that the company's Allotments to property improvement fund for several years had not, except for £20,000 for 1932, been raised to £400,000 per annum. The Defrased unit still is £6, 10s. 6d., and the yield is 64. 6s. 9d. per cent. without allowing for accrued dividend.

Grocer's House.

A substantial increase in profits is shown in the annual report (Smith's 5730).

Imperial Tobacco Dividend.

An interim dividend of 7 1/2 per cent. (free of tax) was declared yesterday by the Imperial Tobacco Company of Great Britain and Ireland. This compares with 6 1/2 per cent. (free of tax) a year ago, but the increase had no influence upon the market yesterday, because it had been forecast at the annual meeting in February, when the chairman announced the Board's intention to stabilize the interim dividend at 7 1/2 per cent., with a view to reducing the seasonal difference between interim and final payments. Hence the larger distribution cannot be regarded as implying an increased dividend for this year as a whole. Capital buying of Imperial shares that has taken place since the cessation of the "C" disease in groundnuts, he thinks there is no future for Liberalism.

KAMPALA'S TELEPHONE SERVICE.

(Continued from page 7.)

more subscribers he would have made a strong recommendation in favour of it.

Mr. Kelle added that, if any emergency should arise, such as illness or inability to attend, he would be willing to connect the subscriber with a doctor after the exchange had closed.

The general opinion of members follows the example of the British postal authorities and treat the Department as a business point of view. It had been found to pay in Britain and the same should apply to Uganda.

The telephone was an insurance, and it was the means of saving a life; it was surely worth a great extra expenditure of 800 per annum. The Post Office was asked to treat the matter not as a bargain, but as a necessary public service.

No Antagonism.

Mr. Kelle, in reply, made it clear that he was not antagonistic to the idea. The principle that the installation of a telephone carried with it an obligation to institute an all night service was open to question. He would be glad to have the Chamber's views on this matter. He would be glad to see the Chamber's views in writing, and would forward them to the Executive Council, but at the moment he did not feel justified in recommending the service for Executive Council.

The Chamber decided to take this action and press for a 24-hour telephone service for Kampala. The following week the chairman, Mr. G. B. Goodbody, who left by air for England the next day, a pleasant and healthful leave and a safe return.

Kampala Abolition.

The question of the Kampala abolition their meeting attention. This was held little less than two years ago in the main Kampala-Kampala Road outside the town square, and all the objections raised by the Chamber at the time of the question, it was stated, fell good to-day.

As a scheme is in hand for re-aligning the road in the township, the Chamber will ask Government to make a diversion at this point thereby isolating the abattoir from the main road, straightening out a number of dangerous curves, and making a better approach to the railway crossing, which, at the moment, is definitely dangerous.

Mr. W. B. Hall was nominated to take the place of Mr. E. H. Prater on the Coffee Board during the latter's absence on leave in England.

Kampala Abolition.

The question of the Kampala abolition their meeting attention. This was held little less than two years ago in the main Kampala-Kampala Road outside the town square, and all the objections raised by the Chamber at the time of the question, it was stated, fell good to-day.

As a scheme is in hand for re-aligning the road in the township, the Chamber will ask Government to make a diversion at this point thereby isolating the abattoir from the main road, straightening out a number of dangerous curves, and making a better approach to the railway crossing, which, at the moment, is definitely dangerous.

Mr. W. B. Hall was nominated to take the place of Mr. E. H. Prater on the Coffee Board during the latter's absence on leave in England.

ROLODEX the x-ray of business

The new way for all records surpasses the old "card-in-box" or ledger methods. Makes crystal clear facts, which, unless arranged on Rolodex, are obscure and difficult to arrive at. Amongst other advantages, Rolodex gives you control over every stage of your work, and enables you to see at a GLANCE:

- Customer's Record—You can see at once those who have not purchased from you for 6 months.
- Ledger—You can see at a glance those of your accounts which have not been settled for any particular period you wish to know.
- Stock Record—You can see at a glance (a) Those goods which are not moving. (b) Those goods which are dangerously low. (c) Those which are heavily overstocked.
- Works Record—You can see at a glance— (a) Exact progress of any piece of work at every stage; (b) All jobs in hand or unstarted.

A unique system of Coloured Signals automatically indicates to you the vital facts. Call and see the Rolodex in actual use at:

Back Outlook for England in Last Test. AUSTRALIANS LOSE ONLY TWO WICKETS FOR 475. Record Partnership. BRADMAN AND PONSFORD BOTH GET DOUBLE CENTURIES.

Back Outlook for England in Last Test.

AUSTRALIANS LOSE ONLY TWO WICKETS FOR 475.

Record Partnership.

BRADMAN AND PONSFORD BOTH GET DOUBLE CENTURIES.

England's chances of victory in the final cricket test match against Australia at Kennington Oval are at the best not over two wickets out at the close of the opening day's play.

There makes no difference in this final trial of strength, as the match must be played to the finish. It seems that Woodfall and his merry men will return once more with the "Ashes," and few will begrudge them that success, as luck was against them in the earlier matches of the present test series.

TWO NEW RECORDS.

It would appear to be an age of record making. Two more records were established during the opening day's play—both for the second-wicket partnership, in which Ponsford and Bradman established a new world's total of 451 runs, completed in six and a quarter hours.

Saturday's play was little short of a run of costly blunders on the field by England. Ponsford was missed no fewer than five times, 120 of them being "sitters." Allen was the bowler to suffer most.

Woolley Replaces Hendren.

Standard Correspondent and Beater's.

London, August 18. An eleven-hour surprise chase dominated the first and final test match which began today at the Oval, the selectors deciding to rest the veteran Kent player Frank Woolley, to take the place of the injured Hendren, who was reported this morning as being unable to play. Woolley played his first test before several of the present Australian side, and was the wicket-keeper as well as a batsman to play. Woolley played the first 40 minutes, and then Bradman took over, leaving the scoring to his partner. Ponsford took fifty minutes to get his hundred. Bradman was taken with the total at 123, Ponsford then being 66 and Bradman 18. The batsmen from each getting first runs and then Clark to bowl on by Woolley at 68, but it was a difficult chase. Bradman reached his 50 in an hour and a half, his total including nine 4's.

Woolley Wins Test.

Woolley won the test, and the England players took the field to the crowd going to the ground. The cheering was as loud as when they first saw the batsmen. Ponsford and Bradman came out to test the tourists' batting. Allen and Brown opened, and Ponsford was nearly out when he was hit by a ball from the Australian bowler. Clark and Brown were out when they were playing a maiden over from Brown. The Australian bowlers were then taken by the batsmen, and time and again the batsmen clung to bat.

RATES OF EXCHANGE.

The following rates of exchange were quoted: National banks on Saturday, "London Times" 70/5/16. London & York: 5/0/3. Bombay T.T. on London: 1/0/10.

UNITED STATES WHEAT.

Reduced Export Quota Accepted.

Poor Crop Prospects.

[PHOTOGRAPH BY THE AGENCY.] London, August 17. It was reported at a meeting of the International Wheat Advisory Committee that the United States has indicated its willingness to accept a quota of 10,000,000 bushels as its export quota for the year ending July 31, 1935, instead of the 14,000,000 assigned in London last year. In consequence...

GIFT TO BIRMINGHAM UNIVERSITY.

[BY WIRELESS.] Rugby, August 18. A gift of £45,000 by the retired tube manufacturer, Mr. Albert Hills, of Birmingham, will enable the Birmingham University to undertake the extensive scheme of re-arranging the department, and a new block is to be erected to accommodate the students, who are at present overcrowded. The purpose of the gift is to assist in the higher education of those who may be engaged in research work and practical investigations for the Midlands in the British Official Wireless Service.

World Supply Demand.

London, August 18. The Wheat Advisory Committee has adopted £600,000,000 bushels as a provisional estimate of the world import demand for the crop year 1934/35.

Starches Wiped Out.

London, August 17. Destructive work in agricultural administration and adjustment of the crop control policies, are being formulated following a report to the Bureau of Agricultural Economics that the normal supplies for practically all staple farm products have been wiped out by the drought.

BAN ON NIGHT HOOTING IN LONDON.

London, August 18. The Ministry of Transport has issued proposals to prohibit the use of motor horns at night in London. It applies experimentally to the zone within five miles of Charing Cross between the hours of 11.30 p.m. and 2 a.m.

Pedestrian Crossings to be Extended.

[BY WIRELESS.] London, August 18. The Ministry of Transport has issued proposals to prohibit the use of motor horns at night in London. It applies experimentally to the zone within five miles of Charing Cross between the hours of 11.30 p.m. and 2 a.m.

DEATH SENTENCES ON AUSTRIAN NAZIS.

[BY WIRELESS.] London, August 18. Johann Drexler, one of the Nazis tried by a military court in connection with the attack on the Vienna broadcasting station during the recent revolt, has been sentenced to death. Twelve others have been sentenced to life imprisonment. The military court at Innsbruck has sentenced to death two men accused of smuggling explosives from Germany.

NEW STRATOSPHERE ASCENT.

Professor Max Cosyns to Probe Higher Regions.

TO STUDY COSMIC RAYS: NO ATTEMPT ON ALTITUDE RECORD.

[PHOTOGRAPH BY THE AGENCY.]

Brussels, Aug. 18. Professor Max Cosyns, Belgian engineer and companion to Professor Piccard on the latter's first attempt to enter the stratosphere, will take off today from Hortaeveld, Ardennes.

Three hundred soldiers are assisting in the work of inflating the huge balloon to its capacity of 14,000 cubic metres in the glare of floodlights and in the presence of many journalists, photographers and members of the general public. Cosyns will not attempt to set up any records, his object in making the ascent being to study cosmic rays.

AMERICAN PASSENGER TRAFFIC AT PLYMOUTH.

Figures increase after Three-Year Slump.

FAVOURABLE RETURNS.

Tourist Movement no Longer Affected by Depression.

Woolen Worst, Bayon and Cotton Industries.

[PHOTOGRAPH BY THE AGENCY.] New York, August 18. It is a large margin date fixed by the United Textile Workers' Union of America has decided in favour of a strike by employees of the silk rayon, woolen and cotton textile mills. Over half a million workers are involved.

STOCK EXCHANGE.

[BY WIRELESS.] London, August 18. Starting on New York was quoted at 9.00, and on Paris at 20 1/2/16. The Stock Exchange had a hollow steady—British Official Wireless Service.

CROSS CHANNEL RECORD.

E. H. Tennie Sets Up New Time.

Woman's Bad Luck.

[PHOTOGRAPH BY THE AGENCY.] London, August 18. E. H. Tennie landed at Cape Gris Noe to-night after crossing the Channel in 15 hrs. 54 mins. which is a record for swiftness starting from the English side. This is the fourth time the Channel has been swum in this direction. Tennie is the first man to swim.

NAZIS TO TEACH ITALY LESSON?

[BY WIRELESS.] Rome, August 18. It is learned from a quality reliable source that the three German Nazis who were arrested in Rome recently were found to possess bombs. It is thought that the intended purpose was the formation of a "Hitler" Italian attitude on the "Austrian" question. It is many and it is rumored that "Hitler" extremists' assistance in Germany has been formed for the purpose of "teaching Italy a lesson."

Woman's Bad Luck.

The Channel both ways. He swam from Cape Gris Noe to England in 1927 in 14 hrs. 20 minutes.

Unqualified Desire to Contribute to World Peace.

NOVEL
from
STANDARD STATIONERY STORE
NAIROBI.

BIG MAJORITY EXPECTED FOR HITLER.

(Continued from page 1.)
speech is regarded as one of the most dramatic appeals of his leader. It elicited thunderous applause from a mixed audience.
In his speech which was a prelude to Sunday's plebiscite, Herr Hitler justified the combining of the Presidency and the Chancellery. He stated that if the Reich had been without a leader for weeks it would have offered possibilities to reckless agitators to throw the country into confusion.

Right of Equality.
Herr Hitler reviewed his own life and feelings during and since the war on the lines of a franchise on political philosophy. His triumph, he said, would be known as the turning point in German history, but the time needed could not be measured by a few years.
The Reich would never surrender its honour and fight to equality, he added, and the German people and people were filled with an unquenchable desire to contribute to the utmost to the preservation of peace in the world. Sunday's vote will show the world the responsibility on Germany as a state.

Elaborate Organization.
Berlin, August 19.
The whole country has gone "plebiscite mad." Aeroplanes and even ambulances, will participate tomorrow.
There will be a race all day long as every available aeroplane will be flying low over the towns and villages taking the occupants to the polling booths; while ambulances will be used to carry invalid voters.
Every organisation in the country, from the Union of University Professors to the Congress of Farmers, has issued manifestoes to its members calling on them to say "yes". Even children are being mobilized to help.

Big Majority Expected.

Berlin, August 19.
It is generally believed that Herr Hitler will secure between eighty and ninety per cent of tomorrow's plebiscite votes, pro-paganda for which is continuing at high pressure.
In the latest broadcast appeal made, Colonel Von Hindenburg said his "end faith" regarded Herr Hitler as his successor and would have wished Germans to support Herr Hitler.

Evangelical Opposition.

Berlin, August 18.
Synod, representing the combined evangelical opposition has resolved to call on all evangelical pastors, firstly, not to acknowledge the laws passed by Reich Bishop Meiser (National Synod) because the latter is an "Aryan body"; and, secondly, not to touch the oath of allegiance to Herr Hitler because he confuses religion with politics.

PARKLANDS TENNIS TOURNAMENT.

An Entry of 14 Years Ago.
Although the Parklands Sports Club annual handicap tennis tournament cannot yet be quoted in the "East African Standard" of twenty years ago, the following is an extract from the paper of fourteen years ago, when preparations were being made for the third tournament of the series—
Too Old at Forty.
The reply to the above old and vexed question must be an emphatic negative, as indicated by the fact that an entry has been received for the tennis doubles tournament at Parklands from two well known gentlemen whose combined ages total one hundred years exactly.
This gives rise to a theory problem for the handicapping committee to decide. If a couple whose combined ages are fifty receive a handicap of fifteen and three-strikes, what should be the handicap of a couple whose ages total a century? No doubt the committee, who presumably have a good grounding in mathematics will not find it insoluble.
Intending entrants are reminded that entries for the Seventeenth Annual Handicap Tournament may be sent to the Secretary by Parklands Sports Club c/o Mrs. Widdows, August 20th next and should be handed, together with remittances either to Messrs. May and Co. Ltd. or to Messrs. Craig's Sports House Ltd., Government Road, Nairobi. The tournament will commence on Saturday, September 8th, and should be peacefully over in about two weeks.

LOCAL CELEBRATION OF KING'S ACCESSION.

Possibility of Holiday on Silver Jubilee.
At Friday's meeting of the Nairobi Chamber of Commerce, Mr. A. C. Tannahill referred to a special issue of the Official Gazette published on July 31 relating to arrangements for the celebration of the Silver Jubilee of the King's Accession.
He suggested that although it might be a little early to consider the matter, it might be dealt with by the management committee of the Chamber. It had been decided to have an extra bank holiday in Britain as part of the celebration programme and it was possible that a similar step would be taken in Kenya.
The chairman, Mr. R. F. Mayer, said the management committee had already had the subject before them; it would be brought up again in January, 1936.

BLACK OUTLOOK FOR ENGLAND IN LAST TEST.

(Continued from page 1.)
previous escapes had been of Allen. In the following over he was again missed, this time by Woodley— a difficult left-handed catch.
The English looking was now beginning to look very battered and these mistakes in the field did not help matters.
The 250 was signalled after three and a half hours, and the first record was broken, that for the second wicket partnership, beating the previous best made at Leeds in 1920 of 235.
This was taken with 211 for the loss of one wicket. Ponsford had been 137 and Bradman 150. The latter had completely mastered the attack and this mastery was maintained after the restart.
At the commencement of the match the leg soldiers had lain close in, but Bradman, looking and pulling very hard, saw few of them out from the wicket. Ponsford reached his 100 after "four and a half hours." Bradman completed his double century in four and three-quarter hours. It was fast scoring.
Just before the close of play Bradman's wicket fell. He touched a short ball from Howse which went over the wicket into the hands of the batsman. The partnership had reached 451 after six and a quarter hours, establishing a new record, surpassing the previous best of 328 made by Shrewsbury and Groom in 1880.
Three runs later the end of play came, with Ponsford still unbeaten at 200. Bradman's score was a masterpiece of all-round cricket, his score including one six, and thirty-two fours. Altogether he was at the wicket for just over five hours.
Ponsford and McCabe played out time. Ponsford also played magnificent innings, although chance. He was missed no fewer than five times, two of the chances being very close. Allen was the main sufferer.
England's prospects are of the blackest. With such a commanding position, plus the advantage of the toss, it seems that Australia must carry the day, and Woodford once again to return with the "Ashes."

CLEANSE YOUR SYSTEM

Waste matter which your system can no longer dispose of causes many ailments and digestive complaints. Do not allow waste matter to collect and ferment in your system. Take every morning a spoonful of **Magnesia San Pelagica** because the latter is an "Aryan body" and, secondly, not to touch the oath of allegiance to Herr Hitler because he confuses religion with politics.

Magnesia San Pelagica will rid the intestine of waste matter that develops harmful germs and acids. **Magnesia San Pelagica** is very efficacious for having your intestinal system pure and healthy.

Obtainable from all leading Chemists and Druggists.

Agents: **F. CARAGIANNI**, P.O. Box 233, NAIROBI.

AVOID CHEAP PAINT

"It looks so pretty but the woodwork in a very bad state and the walls are so shabby." How often do you hear that remark made when your friends are thinking of buying a property—result save lost.

This can be avoided if you only realize that the way to calculate paint cost is per annum, not per gallon.

When you are reckoning the cost of paint remember that cheap paint will not last like

SYD ZIEGLER and LOU WHITSON beg to inform the public that they are severing their connection with the Torr's Hotel and are forming a new Band with **BILLY LEGG** as pianist.

Weather Report.
 The British East African Meteorological Service's bulletin on weather conditions as reported from selected stations in East Africa for the week ending 17th August, no rain fell on Friday at Nairobi, Mombasa, Kisumu, Dodoma, Mbera, Broken Hill, Zanzibar, Kampala recorded 0.04 in; at Kisumu 79 and 62; at Mombasa 82 and 62; at Dodoma 82 and 71; at Dodoma at Broken Hill 85 and 44; at Zanzibar 80 and 73.

"The Crown Colony."
 The desirability of holding a conference in London next year, and of broadening the representation so as to include the Colonies, has been the subject of a letter from the Crown Colony Conference. The letter is also made that a Permanent Colonial Advisory Council be formed to assist the Secretary of State, and that steps be taken to form a permanent centre in London, supported by the Home and Colonial Governments for the promotion of inter-territorial trade and marketing interests.

THIS QUEER WORLD

RACE HORSE—BY AIR—TWIN'S FATHER
RADIO TO THE RESCUE—ZOO'S MOST HANDSOME PIG—MAN'S BREATHES FIRE.

Asquith (transport in New Guinea has developed to such a degree that it is now being used in the field, and all except one of the transport planes is being used by the great aircraft carrier. The Moroto Turf Club recently held its first race meeting. The winners included first-class performers from Australia, France, and England. Only one bookmaker opened, but on one recent race he started, wagering exceeding £1700.

A United States divorce court judge has ruled that twice a year is not a sufficient frequency, and, having a judgment on this theory, has granted a husband a divorce on the grounds of his wife's infidelity. This judgment, which is believed to be unique in the history of divorce cases throughout the world, is being widely discussed in legal and medical circles in London.

The report of the Kenya Revenue Commission for the year ending 31st March, 1934, was £142,201/1/2.

The "Es Grandis" was expected at Mombasa from Dar es Salaam on Saturday morning.

At 8.45 on Friday evening a motor-car struck a tree on the Airoo Road, damaging the radiator. The three European occupants received slight injuries. At 9.10 a truck on Saturday morning struck a tree on Meringani Hill and was badly damaged. The occupants were slightly injured.

 HIGH CLASS LADIES and GENTS TAILORS and OUTFITTERS.

The Leaning Tower of Pisa

What has it to do with shoes?

Shoes, like buildings need good foundations. Otherwise they quickly sag and lose their original shape. The foundation of every K Shoe is the insole, cut in one piece from specially selected tough leath-er. It takes all the stress and strain of walking and enables the shoe to keep smart and shapely after months of hard wear. That is why Maxwell Brady & Co. recommend K Shoes so strongly. They are wonderful value for money.

K Shoes—English made.

WE GIVE YOU A CASH DISCOUNT OF 10 PER CENT.

Style 4354 (right). Distinctive K Toe-bar Shoes in Dark Brown Glace, with Brazil Laced trimmings. Priced at 40/-. For Cash Shs. 36/-.

GROUPOUR CUP SEMI-FINAL. Good Win for the Railway. A KEEN GAME.

The semi-final of the Groupour Cup between the Commercial and Y.M.C.A. took place on the Commercial's ground on Saturday, between the former team who were three goals to nil. It was quite a keen match. As the score would indicate, however, Railway had a host of the game, at any rate after the first half. Y.M. commenced their attack with a first post defensive tactic. This first post "just happened" rather than as a result of a planned out move, for Fuchs when rushing out to the side of the goal to field and clear, accidentally kicked the ball across in front, where Briery put out his right foot to stop the ball, missed, and the ball glanced off his left leg and into the goal. From that time on, Y.M. were all out to prevent Briery from getting too close to the goal area, but while over zealous in this one direction, they neglected their attack.

The game was started by Y.M., but Railway were the first to go in, but they did not score. Whatfield broke up a planned effort on the part of Briery and Gunn. Presently a free throw-in by Colman, followed by a free kick by Field with Goodridge after his field, and Y.M. looked like opening the scoring sheet, but a stellar save by Stannish saved matters, and they found it very difficult to get other chances.

Time and again Railway got within shooting range, but Whatfield and Hunt were hard put to keep them out. Millite succeeded in succession. Hunt and Gunn each tested the keeper in succession. Hunt's shot was well positioned but shot too high the ball hitting the cross bar. In the next minute he set in a beautiful shot which Fuchs saved after punching out for a fruitless corner.

Another attack was launched by Railway, but Little cleared. Rail was best in it. Holloway, trying nearly went up to take his share, but a stellar save by Stannish was diverted by Colman. Clear by Fuchs, Y.M. started a play on the opposite side. Tigue receiving, lifted the ball out from the latter a gentle pass to Hinton, sent the latter rushing to the wing, but Brooker stopped further progress.

Goodridge was playing a steering game in the centre half, and a fine, strong kick by him, saw play open up for a shot, but it was not. After a rushed out attack, in which Fuchs showed out to clear, the ball landed off Briery's left foot and into goal.

The restart saw the beginning of another good move by Y.M., which they again managed to get into Rail's goal area. A corner was conceded by Briery, but over the bar, so score secured.

Half-time: Railway 1, Y.M.C.A. 0. The Second Half. It was not long after resumption that Railway got their second point, and they were soon back at the Y.M. end, and Briery, after out-manoeuvring Whatfield, went right up in front of goal, before tapping it home. From that time on, Y.M. were on the defensive, but not on rare occasions did they get away. "Hands" was the most advantageous tactic the kick, Fuchs effecting a splendid save, but he unfortunately dropped the ball and was not allowed in the goalmouth. Fuchs was again in the goal, but the ball was lifted off over the back and into the goal.

Two Yorks settled in fine, in close succession settled matters. After a beautiful goal run Briery tried for another, but he shot over the bar. The goal kick did not come so far as advantage. Y.M. missed, Fuchs was severely bombarded by the Railway forwards, and he was only through his cleave, having that Railway did not register a goal.

Result: Railway 3, Y.M.C.A. 0. Railway: Stannish, Darling and Y. Brooker; Vennall, Goodridge and Holloway; Eve, Millite, Denzey, Rendell and Gunn. Y.M.C.A.: Fuchs; Whatfield and Hunt; Colson, Little and Tigue; Briery, Brooker, Campbell, Hinton and Bales; Ross, Bester, Yates.

COUNTY CRICKET MATCHES. Sussex Lose Very Heavily. GOOD WIN FOR YORKSHIRE.

STANDARD CORRESPONDENT. London, August 17. The following are the final details in the matches which concluded to-day: Kent vs Northamptonshire. At Dover: Northants - 1st Innings-157 (Pitts 100, Freeman 78) Kent-1st Innings-304 (Knight 218) Northants - 2nd Innings-340 (Bakerwell 112; Freeman 71) Kent-2nd Innings-194 for 4 Kent won 104.

No. 6856 REGISTERED AT THE GENERAL POST OFFICE AS A NEWSPAPER.

Unavailing Search for Missing Scientists.

AERIAL PARTY FINDS NO TRACE OF TWO MEN.

Barren Volcanic Island.

SECOND MINE SETS OFF FOR NORTHERN SECTION OF LAKE RUDOLF.

After an unavailing four-hour search for the two missing members of the Lake Rudolf Rift Valley Expedition—Dr. Dyson, the anthropologist, and Mr. W. R. H. Martin, the surveyor—"Knight of the Wind," the aeroplane which was used by Mr. V. E. Fuchs, leader of the expedition, in an endeavour to locate his companions, returned to Nairobi late on Sunday afternoon.

Operating from Marsabit, Mr. Fuchs and a European police officer, piloted by Flight Lieutenant Pearson, conducted an aerial inspection of the waterless country between Marsabit and Lake Rudolf prior to examining the lake shore and South Island, which proved to be a barren, lava rock with several extinct volcanic craters. No sign whatever was seen of the missing scientists, nor was there any trace of a camp.

FURTHER SEARCH.
On Sunday evening a message was received in Nairobi asking that machines be sent to the Northern Frontier for the purpose of conducting a search of the northern section of the lake, and particularly beyond the Turkwel River and in the neighbourhood of Central Island. With this intention, Captain Wheeler, managing director of Wilson Airways, left Nairobi yesterday morning in the company's new 'Leopard Mot.'

Information was received at Marsabit on Saturday afternoon that a Native scout operating north of the Turkwel River, on the western side of the lake, had found six men floating on the water. As no pilot supplies were available at Marsabit, however, the pilot of "Knight of the Wind" had to return to Nairobi.

Dr. Dyson and Mr. Martin Now Fortnight Overdue.

The Wilson Airways 'Puss Moth', "Knight of the Wind", piloted by Flight Lieutenant Pearson, which left Nairobi on Friday afternoon to carry out a search for the two missing members of the Lake Rudolf Rift Valley Expedition, returned to Nairobi about 8 p.m. on Sunday, having discovered no trace of Dr. Dyson and Mr. Martin.

It will be recalled that last week a telegram was received in Nairobi from Mr. V. E. Fuchs, leader of the expedition, reporting that the two men were ten days overdue, following a visit to South Island. Last Monday, when they had intended to carry out a comprehensive survey.

Aeroplane Overhauled.

It was at once suggested to Mr. Fuchs that an aeroplane should be chartered of a machine was delayed for ten days pending the result of a search which he intended to conduct along the lake shore. On Friday, however, an urgent telegram was received from him, asking that a machine should be employed.

The aeroplane arrived at Marsabit on Saturday afternoon, but owing to the hour, it was decided that the search should be begun later on Saturday. Conditions at Marsabit are such that it is normally considered inadvisable to send any aeroplane on any extended journey after about three o'clock in the afternoon.

Start for Lake.

Marsabit is an hour's flight (about 110 miles) to the lake shore, and as two hours were required for any comprehensive search, it is thought that the machine would not have been able to return in daylight.

A start was made on Saturday morning. Mr. Fuchs and the European police officer in charge

THE RABIES POSITION. Leader Cum Chancellor.

Giving Cause for Alarm.

Isolated Outbreaks.

Destruction of Jacks Urged.

THE GENERAL POSITION OUTLINED.

"The Rabies position in regard to giving cause for alarm on account of the isolated outbreak of this disease whose source of infection are unknown. The extensive baiting campaign is continued in districts and native locations to and around the infected areas, with the object of reducing the number of pariah and jacks."

The above is an extract from the report on the rabies position issued by Major H. Brassey Edwards, the Deputy Director (Animal Industry) and Chief Veterinary Officer. The report continues as follows:—

"Two positive cases, both in jack, have occurred since our last progress report, dated July 14, was published; one in the Turbosa area of the Turia Ghedi District and the report continues as follows:—

"Two positive cases, both in jack, have occurred since our last progress report, dated July 14, was published; one in the Turbosa area of the Turia Ghedi District and the report continues as follows:—

STRATOSPHERE BALLOON LANDS.

Both Occupants Safe.

(MOSCOW BUREAU'S AGENT.)
Belgrade, August 19. Professor Cosyn's stratosphere balloon landed near Murica Sobova in Yugoslavia at 9 a.m. today. Both occupants are safe.

the other in the Kolobeg area of the North Ravanna. Sastre Reserve, while a third case in this reserve, in a dog, which, on examination, was found to be highly suspicious, has been considered a 'positive' case.

A general outline of the rabies position on January 1, 1934 to June 30, 1934 is as follows:—Eighty out of the ten cases returned as positive to rabies have been confirmed in dogs, with a history of having possibly come into contact with mad jacks.

The outbreaks were reported from the following districts:—Dush Ghati, Turia Ghedi, North Ravanna Reserve two; Kaimuro-Central District (Kaimuro) two.

"22,081 bats were laid which died mortality among 2,550 (115) jacks and 80 other animals. Double the number of bats are being taken during this year's campaign as compared with last year's." (Continued on page 8.)

SIR MILES LAMPSON.

(BY WIRELESS.)
Nairobi, August 20. Sir Miles Lampson, the British Commissioner for East Africa, left on Saturday for England, where he will spend a few months on a British Wireless Service.

STOCK EXCHANGE.

(BY WIRELESS.)
Nairobi, August 20. Sterling on New York was quoted at a 2.08 1/2 per cent. and Paris at 67.18. Stock markets quietly steady. War Loan 1044. Gold was quoted at 136/04.—British Official Wireless Service.

RECORD RADIO SHOW IN LONDON.

Rapid Growth of the Industry.

AND HUGE TURN-OVER.

(BY WIRELESS.)
London, August 19. The Radio Exhibition which opened at Olympia last week is said to be the largest of its kind ever held.

More than 150 firms are exhibiting the latest developments in wireless receiving sets and their accessories, and about 250,000 visitors are expected to visit the show. This is the 14th of these annual exhibitions, and each year they attract a larger number of home and overseas visitors.

Every part of the British Empire and 20 foreign countries were represented among the buyers present on the first day.

The radio industry in Britain has developed with remarkable rapidity in the past few years, and it is not reported to have a turnover of £30,000,000 a year—nearly four times as much as in 1931.

During the first hour after the opening of the Exhibition it was stated that £300,000 worth of business had been done. Among orders booked was one for 300 radio sets for South Africa.

AN ANCIENT MONUMENT.

The First Iron Bridge Ever Built.

(BY WIRELESS.)
London, August 19. The first iron bridge ever built, which spans the Severn in Shropshire, is to be preserved as an ancient monument. It was opened in 1779 and was considered so remarkable that engineers came from many countries to examine it and to meet its constructor, Abraham Darby.

WORLD WIDE DEMAND.

Advisory Committee's Estimate.

(BY WIRELESS.)
London, August 20. A further meeting of the Wheat Advisory Committee was held in London today.

On Saturday the Committee considered the question of the probable world demand for wheat during the crop year August/July 1934/35 and adopted the figure of 600,000,000 bushels as their provisional estimate of world demand for the crop. The Committee recognized, however, that a considerable additional demand for animal feeding might develop during the coming crop year.—British Official Wireless Service.

FOR FORTIETH YEAR.

Sir Henry Wood Conducting the "Proms."

(BY WIRELESS.)
London, August 20. Extraordinary enthusiasm has marked the opening of the season of promenade concerts at Queen's Hall, which Sir Henry Wood led for the fortieth year—conducting the "Proms."

Since Sir Henry first took over the conducting at the age of 25 he has increasingly stimulated popular interest in classical and modern music.

Four seats are available at these concerts and the majority of the audience quite unable to use the promenade, so great is the demand for standing room.

The programme are now invariably broadcast, and the outside audience is probably reckoned in millions.

Overwhelming Majority for Herr Hitler.

CONSTITUTIONAL ELECTION AS GERMANY'S LEADER.

Sunday's Plebiscite.

NINETY-SIX PER CENT. OF ELECTORATE GO TO POLLING STATIONS.

Germany, by an overwhelming majority vote at the national plebiscite on Sunday, has legitimated Herr Hitler's appointment by the Reich Cabinet as Leader of the German nation in succession to the late President von Hindenburg. Herr Hitler now holds the offices of Chancellor and Commander-in-Chief of the Army.

The German people vote to the polls like a nation going to war, and 95.7 per cent. of the total electorate participated in the plebiscite. Of the votes cast 86.1 per cent. were in favour of Herr Hitler's appointment. This figure shows that he is being granted, for at the Reichstag election last November he had a following of 92.1 per cent. of the electorate.

Propaganda on Gigantic Scale.

(MOSCOW BUREAU'S AGENT.)
Berlin, August 19. Germany went to the polls today like a nation going to war. Millions of marching Storm Troopers waving Sunday sturmbeils long before the polling stations opened at 8 a.m. Whereas a week ago the great mass of German people were frankly apathetic towards the plebiscite, it has now capitulated before the power of mass propaganda, which the Ministry for Propaganda organised on a gigantic scale.

Bands and Storm Troopers marched the streets everywhere. "Hitler is our man. Vote yes. Others aboard torres tore through the streets waving swastika flags. Detachments of small boys sped through the streets carrying swastika banners and trumpets and shouting: "Yes, yes," while headed by amateur drum and fife bands, men and women, young and old, marched to the polls as though to recruiting stations.

Wireless Appeal.

Overland radio aeroplane trailing swastika banners. The wireless stations are giving a continuous programme of military music.

["STANDARD" CORRESPONDENT'S
Mombasa, August 26.]

At the monthly general meeting of the Mombasa Chamber of Commerce and Agriculture held on Thursday evening at the rooms of the Chamber in Salim Road there was an item on the agenda under the heading of "non-port labour" asking the meeting to consider and if thought fit, to confirm a resolution which had been passed by the Coffee Section of the Chamber at its meeting held on August 10.

The Chairman, Mr. A. F. M. Crisp, opened the subject by covering the ground of the past few months. He said the subject had first arisen at the Executive meeting of the Chamber when it had been discussed fully. A resolution was passed at that meeting which had been adopted by the Port Authority. The resolution, which had been passed at the meeting of the Coffee Section last week, the attendance of which was so sparse that the resolution submitted did not represent the views of those interested in the coffee. Mr. Elliott said that the exclusion of private labour was not in the interests of members. It closed every loophole for their own goods. It was stated for a trial of six months but he felt that if it was adopted they would never be able to go back to the old method.

Under the present system, dealers to inspect, mark and weigh their own goods. It was stated for a trial of six months but he felt that if it was adopted they would never be able to go back to the old method.

Under the present system, dealers to inspect, mark and weigh their own goods. It was stated for a trial of six months but he felt that if it was adopted they would never be able to go back to the old method.

views of the Coffee Section but he stressed the fact that the Coffee Section members were deeply affected and he thought that the meeting should give the fullest weight to their views.

A Resolution Moved.
Mr. R. S. Campbell then formally moved the resolution as follows: "That to the exclusion of non-port labour should be adopted by the Chamber of Commerce and Agriculture of Mombasa."

Mr. Elliott stated that the chairman had pointed out the subject had caused considerable discussion and at the meeting of the Coffee Section last week the attendance was so sparse that the resolution submitted did not represent the views of those interested in the coffee.

Under the present system, dealers to inspect, mark and weigh their own goods. It was stated for a trial of six months but he felt that if it was adopted they would never be able to go back to the old method.

Conquer Weak nerves—and regain new Vitality

Of course you would look younger and feel much stronger, if once your nerves could regain their strength. For irritability and that "run-down" feeling are only a question of nerves. Start taking Sanatogen—famous all over the world when it is the nerve-food. Then you drink in new health and vitality and you soon feel a new flow of life go through your veins. One will be that irritability, that restlessness, that tired feeling—gone all those restless hours of sleeplessness and lack of appetite. For Sanatogen cures nerve weakness, which is the basic cause of your complaint. Full of energy and cheer, you will enjoy life again, your whole being radiating that youthful health which is the most attractive possession of woman. **Sanatogen**—the well-known autorex. **Sanatogen**—the well-known autorex. **Sanatogen**—the well-known autorex.

FEATURES FOR WOMEN

Travelling Clothes

Black Linen for Originality

A smart and useful travelling suit such as the one in the accompanying photograph may be made in a fine wool romantic or any light weight woollen material.

As a smart sport-outfitting establishment I saw some blouses made exactly like men's shirts, without sleeves or any kind of band at the waist.

Ensembles especially designed for women who plan to travel a good deal are almost as attractive as those actually designed for beauty rather than utility.

Recent checks. A typical example is one in brown and bascel-colour chequer-tweed.

Unusual! I would like to tell you of a specially smart little suit in black unbreakable linen. Black linen sounds a little unusual.

A smart travelling costume worn by Irene Harvey, a Metro-Goldwyn-Mayer actress.

Dar es Salaam en Fete

Festivities at the Naval Visit

GOVERNMENT House and its grounds presented a charming appearance on the Thursday evening after the arrival of H.M.S. "Hawkins" at Dar es Salaam.

"Goodnight, gentlemen" was an especially popular number between dances, and at the interval, guests through the terrace in conditions of perfect enjoyment.

Brilliance on the "Hawkins." The illumination of H.M.S. "Hawkins" lying in Dar es Salaam Harbour drew the attention of all the assembled company.

£10,000 Worth of Chinchilla

A tall, beautiful woman strolled into a reception at the Waldorf Hotel, Aldwych, and a hush fell on the assembled company.

The Usetul Orange

Orange Baskets. JELLIES and oranges can be made into attractive sweets for children's parties or used as a substitute for puddings.

MARDIGS and BRIEF

NEW stock has just been unpacked containing Felt and Straw Hats, also Day and Evening Gowns, and a selection of Tennis Frocks.

SOCIAL AND DOMESTIC

Visitors See Lion Cubs and Giraffe

American Tourists' Interesting Day

RAY," said one fair young American to another as they viewed the edge of the Uganda Encampment last Thursday. "It's pretty good, but give me Switzerland every time."

"Yes, but you gotta remember five thousand times how much a what you gotta remember."

The party of tourists from the home group, which took photographs, clambered over the fence and said "look, this is me stretching from the lion's head down Africa!"

They had come there enthused as travellers from New York, through Trinidad, South America, the Falkland Islands, South Africa, to Rhodesia ("and were the Cape, Trans, and the Wednesday Mountains. Their luxury liner is a twenty thousand ton cruiser of the Hamburg American Line, complete with swimming pool, gymnasium and writer, and a mention here garden. On it they are going through the Red Sea so that they can touch on Europe before returning to the States at the end of September.

Hurry, Now!

No sooner had the "Beastie" dozed at Kisumu on Wednesday afternoon than the five hundred tourists were hurried off to see a native agency. Then, with some hurrying, about a hundred of them packed into a special train which was to rush them through the night to see wild animals in Central Africa.

It pulled into the Nairobi station on Thursday morning, and the travellers stepped on to the train, talking cheerfully. Overboard they looked at the giraffe which had obligingly spread themselves across the line early in the morning and had laid up the train, and "would you believe it, two baby lion cubs were travelling with us. Look, he scratched my arm with his little claws!"

It was being greeted by the Mayor, Mr. Gwynn Jones, the American Consul, Mr. E. B. Streeter, and Mr. Gethin of Messrs. Gethin and Hulbert & Co. Tours Ltd. they looked at the giraffe which had obligingly spread themselves across the line early in the morning and had laid up the train, and "would you believe it, two baby lion cubs were travelling with us. Look, he scratched my arm with his little claws!"

It was being greeted by the Mayor, Mr. Gwynn Jones, the American Consul, Mr. E. B. Streeter, and Mr. Gethin of Messrs. Gethin and Hulbert & Co. Tours Ltd. they looked at the giraffe which had obligingly spread themselves across the line early in the morning and had laid up the train, and "would you believe it, two baby lion cubs were travelling with us. Look, he scratched my arm with his little claws!"

and Kogoni, the game were reluctant to show themselves. The travellers were nothing daunted, however, and expressed their interest in the animals in glowing terms.

Young and Old.

Then they came to the Lion Valley and one tourist was heard to say that it was a good thing that the oldest passenger, who was over eighty, and the youngest, who was six months old, had not come with them, or they would certainly have fallen over the edge.

An excellent picnic lunch (provided by Mrs. Davidson and Mrs. Flint) was eaten under some trees five miles from the Encampment, and it was there that a representative of the East African Standard was able to meet some of the visitors. Among them were Dr. T. Harber, Professor of Zoology and a Director of Harvard University, his wife and two daughters; Mr. Lawrence Alder, a famous New York pianist; Dean Baxter of the Southern California University, Mr. E. J. Fell, Editor; and Mrs. F. M. Upton, whose son, David Binney Upton, has made a name in American literary circles by his "David Copperfield" although he is only twenty years old.

Leonie Scorn.

A frivolous number of the party asked Mrs. Davidson whether she had not been afraid of lions before. She replied that she had not, especially as there was meat in the sandwiches? This was followed by queries as to whether the lions would care for egg sandwiches, but she replied that she had carefully been consulted and discarded the needless ones in favour of the meat ones.

On their return to Nairobi many of them motored round the town and suburbs before returning to the train. Outside the station there was an eager crowd of curious, one of whom caused much amusement by trying to sell Mr. Gethin a native shield and looking very crestfallen when he was firmly told that Mr. Gethin had had quite long enough in Kenya not to require such an article, decorative though it might be.

As five o'clock the visitors, tired and very hot, but pleased with their glimpse of Central Africa, turned to say goodbye to their kindears, their umbrellas, and shooting sticks, their families which they found by a party that had set out to look for her.

Marriage of Chief Justice's Daughter

Big Wedding at Kampala

ON Saturday, August 15th the wedding of Valerie, the daughter of His Honour Mr. S. S. Abacha, the Chief Justice of Uganda, and Mrs. Abacha, and the Medical Supervisor of the Uganda Red Cross, took place at All Saints Church, Kampala, writes the Uganda correspondent of the E.A. Standard.

The bride looked charming in an elegant gown with a short train. The bride's hair was cut in one with the shaped clip and had a graceful elbow-length cape and was fastened at the back with a long row of buttons. A white silk Brussels net veil was held in place by a coronet of orange blossom and the bride carried a bouquet of Madras lilies. In the absence of the chief bridesmaid and Miss Miss Flossie Forbairt Brown and Miss John Roberts, the train bearer was yellow and white and gave a most pleasing effect.

After the ceremony about 200 guests attended a reception in the grounds of the Chief Justice's house. The bride and groom were with Mr. and Mrs. Albertians welcomed each guest, while the Band of the 4th B.A.F. played throughout the afternoon. The party was fully represented by both civil society and many beautiful dresses were seen, giving a splash of colour in the garden.

After tea His Excellency the Acting Governor presided over the health of the bride and bridegroom which was drunk with many congratulations. The bride and groom were followed by the bride's father, Mr. S. S. Abacha, who gave a short speech in which he wished the bride and groom every happiness. He also expressed his appreciation of the Government for allowing the bride and groom to be married in the grounds of his father's house.

Personalia

Back to Nairobi.

MR. G. E. Scattergood, of the Medical Department, Nairobi, accompanied by Mrs. Scattergood, left England at the end of last month on his return to Kenya from long leave. They have spent most of their leave in Lancaster at the home of Mr. Scattergood's people.

Returned to Tanganyika.

MR. I. Noel Bell, Manager of the Tanganyika Standard at Dar es Salaam has recently returned from long leave in England. During his leave Mr. Bell was married to Miss Lily Edith Viner, daughter of Mr. and Mrs. J. Viner of Hadfield, Suffolk. The ceremony took place in St. Augustine's Church, Ipswich, and was conducted by the Rev. J. B. Brandon. After the ceremony there was a reception at the White Horse Hotel, Ipswich, after which Mr. and Mrs. Bell left for their honeymoon at Tanganyika. Mr. Bell is coming out to Tanganyika in a few months' time. Mr. Bell is well known in Nairobi and lived here for several years before his transfer to Dar es Salaam.

From Kinde.

MR. and Mrs. R. Barton are spending a few weeks' holiday at Limuru. They came down from Kinde, where Mr. Barton is the headmaster of the Government School, last week.

Personalia

Short Holiday.

MISS Ruth Compton is spending a short-holiday in Nairobi from Dar es Salaam, where she has been since the beginning of the year. She will probably return to Dar es Salaam during the first week of September.

Married to Nairobi.

MODERN EFFICIENCY. NEW IDEAS.

PERFUMES SPECIALITY.

Stanley Arcade.

CORRESPONDENCE.

The Editor does not accept responsibility for the views expressed by the correspondents in this Column and in all cases the name and address of the writer must accompany a letter, and necessarily for publication that it is a guarantee of good faith. Briefly it is also essential to court consideration.

THE NAIROBI LIBRARY.

To the Editor: "E.A. Standard." Sir—Your correspondent on the subject of the McMillan Library whose letter was published in August 1953, has written to inform that the Leading Librarian is still based in the McMillan Memorial Library by courtesy of the Managing Committee. The Committee at present not only leads the train but also the services of its staff and cannot be expected to sacrifice its own functions to the leading library.

The Nairobi Leading Library is a separate entity, financially by the subscriptions of its own members. It is one of the branches of the Kenya Carnegie Circulating Libraries and on the same footing as regards loans as any of the other branches.

The present hours for exchange have been decided upon only after a trial of almost all other possible times. As the leading library has no staff of its own, the hours for exchange must necessarily be limited to those found to be the most popular. The provision of a more ample service must depend upon the support given by the public.

Yours etc.
 CAROLYN R. LIVERSAGE
 Nairobi
 August 17, 1953.

KENYA'S FLIGHT—COMMODITY PRICES.

To the Editor: "E.A. Standard." Sir—The fall in commodity prices is now admitted by practically all informed opinion to be due to the monetary policies of the deflation forced on the world by the financial controllers of England and the U.S.A. The crashes of 1931 in England, and of 1929 in U.S.A. were all cases of the results and the continuation of these policies. But until we secure a reversal of the machine, with the object of raising prices, we need not hope for much higher prices. Levels, though droughts and bad seasons may temporarily raise the value of some commodities, but a continuance of present price levels then is likely, and that, in fact, bluntly means the elimination of the majority of white settlers here, and with them, whatever their custom, and that of their employees, support. To the local settler class it involves the loss of most of the money lent on the security of agricultural land and probably the writing down of loans on farm property. For land values in most of the Nairobi cantonments are maintained if the Agricultural Industry is ruined. Almost certainly, too, if maize in income falls in the near future.

THE FORESTS OF KENYA.

To the Editor: "E.A. Standard." Sir—In your leading article in the issue August 14, on the policy of the Colony in regard to the management of our Kenya Forests the statement is made: "There is too marked a tendency at the present time to regard the Forests Department as a merely a revenue earning activity." It is a probably our own fault that we have permitted such a small staff to try to cope with the enormous area of timber but a study of this year's Draft Estimates reveals the following:—

Expenditure: £31,910.
 Income: £29,000.

It may interest your readers to know that the very low volume of timber that could fairly be put on our successful timber and other timber and plantations, including gumboon forests, firewood forests and unreserved forests, is about £20,000,000. Because from this therefore represents a return of 145 per cent of capital value!

Further on in your article you say: "The forests of Kenya, or any other country, are not the property of the present generation. They are, or should be, held in trust and reserved for the generations of the future."

As a casual examiner of the financial aspect, it strikes me that a return of 145 per cent is a very small income from what is literally a trust investment worth twenty million pounds.

Could we not improve that return? There is, I think, a mis-

take in your remarks when it is said that if we followed French estimates for re-afforestation the area which should be put under forest in this Colony would be less than the area denuded each year. Forest today. Should this not be 20,000,000?

In view of the fact that we are looking in all directions for different profitable business enterprises, perhaps, Sir, you could suggest reprint extracts from Professor Troop's report of 40 years ago, which he dealt exhaustively with the possibilities of using gumboon and other wood pulp for paper manufacture.

A re-examination of the subject might interest your readers.

Yours etc.
 "KWABETHI"

Rubete.
 August 20, 1953.

The figure should have been 30,000 square miles. The question of using the gumboon forests at the moment in the final stages of examination by experts. A decision is expected shortly. The capital scheme has already interested The Colonial Office, and the Colonial Development Fund Committee.—(E.A.S.)

KENYA'S FLIGHT—COMMODITY PRICES.

To the Editor: "E.A. Standard." Sir—The fall in commodity prices is now admitted by practically all informed opinion to be due to the monetary policies of the deflation forced on the world by the financial controllers of England and the U.S.A. The crashes of 1931 in England, and of 1929 in U.S.A. were all cases of the results and the continuation of these policies. But until we secure a reversal of the machine, with the object of raising prices, we need not hope for much higher prices. THE GRANT IN AID.

To the Editor: "E.A. Standard." Sir—In your issue of August 14, 1953, you published an article on the withdrawal of the Grant-in-Aid. The article was written by a member of the Executive Council of the Kenya Consolidated Goldfields Ltd. The article was written by a member of the Executive Council of the Kenya Consolidated Goldfields Ltd. The article was written by a member of the Executive Council of the Kenya Consolidated Goldfields Ltd.

KENYA CONSOLIDATED GOLDFIELDS LTD.

London, August 7, 1953.

An advertisement in a London newspaper says: "With reference to compliance with the Regulations of the Committee of the Stock Exchange, London, for the purpose of giving information to the public with regard to the Company, it is now announced that the contract dated 19th March 1953, between Mr. Michael Haskel and the Company has been varied. Mr. Haskel has waived his right to an allotment of 25 per cent of any increased capital of the Company beyond £250,000 in consideration of a payment to be made by the Company to him of £50,000 in cash after the first payment has been made. Mr. Haskel will subscribe at par for 100,000 shares of the Company of 5s each. Mr. Haskel has also agreed to act as Managing Director of the Company until the 2nd February 1954."

England's Prospects in Final Test.

BRIGHTER OUTLOOK AFTER SECOND DAY'S PLAY.

Disappointment Yesterday.

AUSTRALIA FIVE HUNDRED RUNS AHEAD WITH HOME WICKETS DOWN.

While England's prospects took on a brighter hue on Monday evening, yesterday's news warranted little of the optimism which the critics manifested at the close of the second day's play at the Oval, where the final cricket test match is now in progress between England and Australia.

Walters and Sutcliffe gave the home country a good start playing out the day and just reaching 90 when the closure was applied, with ten wickets to fall England had every reason to feel a return of confidence, but yesterday morning these hopes were frittered away by the failure of her early batsmen.

With the departure of Sutcliffe and Walters there followed a series of disasters, and when lunch time was reached England was nearly 500 runs behind with only half her wickets to go. Australia having scored 701 in her innings.

Tourists Pass Seven Hundred Mark.

Standard Correspondent and Special

London, August 20. The tourist trade which has been the mainstay of the British economy since the outbreak of the second world war, has today passed the seven hundred mark, according to a report issued by the Ministry of Commerce.

Generally there was a more optimistic outlook with regard to the home country's prospects. The lead's performance was highly creditable in the main, and there was considerable hope of getting within striking distance of the Australian total of 701. This is perhaps exaggerated by reason of the fact that the wicket remains almost level and the evening's play of wearing well.

Match Not Over.

Howard Marshall, better known in the rugged world of a joint author with W. W. Anderson of his book "The Daily Telegraph," says: "England's batting side is a great one, and the match is by no means over. Contrary to expectation, there has been a change of the midday guests outside the Oval.

Despite a slight drizzle, which has been on and off, it was possible to resume play this morning at 11.30 p.m. The crowd was very appreciative, and a wind which sprang up very early, while heavy showers made the latter rather dreary.

Mr. Clarke's Thousand Runs.

Bowen 282, 2 194, 4
 Allen 54, 6 170, 4
 Chapman 112, 4 110, 2
 Hammond 12, 0 33, 0
 Verity 43, 7 128, 0

 Leyland 3, 0 20, 0

England.

(1st Innings).
 C.O.F. Walters, not out ... 29
 C.O.F. Walker, not out ... 29
 Total (for no wicket) ... 90

Five Hundred Reached.

Wyatt was making constant changing changes. Pondering his position, he decided to retire, and was replaced by Clarke. The latter, who had been in the Australian, was replaced by Chapman. Chapman replied to the call by getting Hammond's first wicket. He succeeded in the Gloucester man's third over. This brought on Verity at ten to one. Successful gave a

NAZIS' LONG Fight FOR POWER.

Last German Must be Converted.

Rider's Proclamation.

WILL KEEP ARMY AS SOLE REARER OF ARMS.

[THROUGH BRITAIN'S AGENCY.]
 Berlin, August 20. "The Nazis' fifteen-year fight for power in Germany ended yesterday, but the Nazis will not rest till the last German has been converted," says Herr Hitler in a proclamation thanking the German people for their support as the Fuehrer.

In a second proclamation, addressed to the people, he stated that as the party fought for him in the past, so they must fight in the future to win over the last Jew per cent.

In thanking the Reichswehr for its oath of loyalty to the Fuehrer, he says he will always stand true to the oath which he has sworn in the nation as its sole bearer of arms.

ATLANTIC GALES.

Rough Passage for Anchor Liner.

[BY WIRELESS.]
 The Anchor Line's "Campanella" 10,000 tons, on arrival at Glasgow from New York this morning reported having encountered a violent sea in the Atlantic which one seaman was washed overboard and two passengers injured. The "Campanella" has for two hours while a boat's crew at great risk unsuccessfully searched the sea for the missing man.

The full force of the gale was felt last Friday when the passengers were at dinner, heavy seas being the cause. The ship was pitching and rolling in a most amazing angle, the passengers being flung from their seats and the furniture and machinery broken. British Official Wireless Service.

JAP MICROSCOPES IN SOUTH AFRICA.

Retailed at Fifth Usual Price.

[STANDARD CORRESPONDENT.]
 Johannesburg, August 12. Microscopes are being sold at a price which is 20 per cent below the normal price. This is due to the fact that the Japanese export law provides for South Africa, states the Johannesburg "Sunday Times."

They have been on sale in Pretoria and have found a good demand—possibly because of the fact that they cost less than one-quarter of the price charged for the second-hand models from Europe and America.

Specimens of these products, which represent a fresh departure in Japanese optical industry, have been sent to the European firms of Bond wholesale agents who represent them for purposes of sale.

Retailed at 4/6.

Microscopes are being offered retail for the sum of 4s. 6d. They have turned brass tubes, cut-glass lenses, adjustment screws, polarizing attachment and even a set of slides with which the purchaser may amuse himself.

A similar instrument, which is designated a "student's microscope" and is expected to be supplied by European firms for less than 4s. 6d. is also available.

Not is this the only offer of the Japanese optical industry to get into the South African market. It is expected that firms from the Orient are being offered at about one-tenth of the ordinary price.

DR. DOLLFUSS LAID TO REST.

The photograph shows the coffin containing the body of Dr. Dollfus, Chancellor of Austria, who was murdered in the recent Nazi revolt in Vienna, being conveyed through the streets of that city.

THE LORD MAYOR. INTERNATIONAL LABOUR OFFICE.

Suffering from Effects of Over-strain.

[BY WIRELESS.]
 The Lord Mayor of London, Sir Charles Collett, has been ordered a prolonged rest as he is suffering from the effects of over-strain.

It will be recalled that the Lord Mayor's son, Squadron Leader Collett, was killed in an aeroplane accident at London Air Pageant, but the Lord Mayor and Lady May were not allowed the bereavement to interfere with the performance of their civic duties, which comprise a great strain.

Sir Charles Collett is 70 years of age—British Official Wireless Service.

A DIPLOMATIC CHANGE.

The High Commission in Egypt.

[BY WIRELESS.]
 It is announced that the High Commission in Egypt, Sir Miles Lampson, K.C.M.G., having accumulated the leave due to him, will be absent from his post at a certain time, and in view of the illness of the Consul-General, Mr. Ronald Campbell, C.M.G., it has been decided to send Mr. Maurice Peterson, the head of the Egyptian Department of the Foreign Office, to take charge of the High Commission during his absence.

Sir Miles Lampson proceeded to Cairo direct from his post as the British Minister in Beirut, where for several years, owing to the arduous work, he was unable to absent himself for some leave. Since then he has visited Egypt only for a short period to kiss hands on his appointment as High Commissioner.

Not only is Mr. Campbell ill, but the Embassy staff will shortly be further depleted by the absence on sick leave of the British Consul-General, Mr. F. Tencken, who has also been ill for some time.

Weather Report.
 The British East Africa Meteorological Service, in its bulletin on the weather conditions as reported in selected stations in East Africa up to 9 a.m. yesterday, states that up to 9 a.m. on September 20, the following were the observations: Addis Ababa, 70 and 82; Addis Ababa, 70 and 82; Addis Ababa, 70 and 82; Addis Ababa, 70 and 82.

RATES OF EXCHANGE.

The following rates of exchange were announced by the Nairobi Bank yesterday—
 London: 100/- = 7/6.
 Bombay: 100/- = 6/8.
 London: 100/- = 6/8.
 Bombay: 100/- = 6/8.

SECOND SEARCH for SCIENTISTS.

Lake Area Examined in Vain.

Aeroplane Returns.

HOPE OF RESCUE ALMOST ABANDONED.

Hope of rescuing the two missing members of the Lake Rudolf expedition is now practically abandoned. Captain Wheeler, managing director of Wilson Airways, returned to Nairobi yesterday afternoon, having failed to find a trace of the two men during an extensive air search carried out from a Leopard Moth machine.

The Commission advises the Government to make a grant of £50,000 to the Board as a contribution towards the problem of re-claiming the herding shed by the purchase of 475,000 feet of the initial establishment expenses and to cover administrative charges for at least two years, for maintenance and other purposes.

Return to Marsabit.
 On completing the search of the shore the machine proceeded to Central Island and again to Marsabit.

Flying at an altitude of only ten feet the machine proceeded to a point on the shore of the lake at 11.30 p.m. The search was continued until 1.30 a.m. when the machine was seen to land on the shore of the lake at 1.30 a.m. The search was continued until 1.30 a.m. when the machine was seen to land on the shore of the lake at 1.30 a.m.

Search of both shores of the lake is continuing by foot parties, as it is thought possible that the men may be washed up from time to time.

OBITUARY.

A Lord Justice of Appeal.

[BY WIRELESS.]
 The death is announced of the late Sir Thomas Scrutton, a Lord Justice of Appeal—British Official Wireless Service.

Famous Deputy Recalled.
 The death of Lord Justice Scrutton recalls one of the most famous disputes at the Bar. The dispute arose out of some comments made by Lord Justice Scrutton, upon the findings of the late Mr. Justice McCardie, in the "Helen of Troy" case. Lord Justice Scrutton was a member of the Court of Appeal, and Lord Justice Scrutton was a member of the Court of Appeal.

Mr. Justice McCardie recalled.
 Sir Thomas Edward Scrutton, Kt., P.C., was appointed a Lord Justice of Appeal as long ago as 1894. The son of a shipowner, he was born in 1856 and educated at Mill Hill School and at the University of London and Cambridge (Trinity College). Called to the Bar in 1882, he was knighted in 1901. Nine years later he was appointed a Judge of the King's Bench Division.

Mr. Justice McCardie recalled.
 The following rates of exchange were announced by the Nairobi Bank yesterday—
 London: 100/- = 7/6.
 Bombay: 100/- = 6/8.
 London: 100/- = 6/8.
 Bombay: 100/- = 6/8.

NOTES FOR WIRELESS FANS

This paper, devoted to the interests of Wireless, is conducted by "The East African Standard" licensed experimenter with a wide knowledge of East African conditions.

Local Broadcasting

In view of the dissatisfaction among many country listeners regarding unsatisfactory reception from the Nairobi stations and the issue of Licences, a reference to the minutes of and rules made under the Wireless Telegraph and Cables Act 1913 would not be out of place.

Rule 6 of the "Wireless Telegraph and Cables, 1920" which falls under the heading "Broadcasting Licences reads:—

The Postmaster General with the approval of the Governor in Council may issue a broadcasting licence subject to these rules and such special terms and conditions as he may determine.

The licence shall state the time to time directed or permitted. It is to be presumed that the "distance specified" means the whole of the area of Kenya Colony.

The Licence Fee.

Apart from the fact that the licence fee of Shs. 50/- for a broadcasting service of approximately 3 1/2 hours per day is out of all proportion to the fee paid in other countries, the licensed listener in the country districts is not likely to be able to pay for the licence.

The main items on this programme should be local news and items of special interest to Kenya listeners.

Number of Licences.

My estimate last week of the number of licences issued was rather below the mark as will be seen from the following extract from the Annual Report of the Posts and Telegraph Department, 1933.

"The number of receiving licences issued was 794 (of which 522 were half-yearly licences) as compared with 605 (of which 302 were half-yearly) in 1932. At the end of the year 201 licences were current as compared with 494 at the end of 1932. Licences were collected amounting to £1,655 of which 700 were paid over to the operating Company and the balance £955, and continues all night."

While the difficulty of short-wave broadcast in Kenya is fully appreciated (and I sympathise with 7 L.P. especially as they have made a considerable time and money in endeavouring to improve the short-wave broadcast) the fact remains the licensee holder respects none for his money.

The 50/- Licences

Queries from Listeners.

PECULIAR NUMBERING

D.A.D., Nairobi, writes as follows:—"I would like to bring to your notice the fact that every morning for the past two and a half months our wireless receiver has been completely upset by a 'chirping' humming sound which comes on nightly between eight and nine o'clock, and continues all night."

"I have a five-valve superhet all-terrain and until the humming noises on the reception is perfect. The humming is not so bad on T.L.O. long wave, but disturbs the short-wave reception."

"Everyone around here (Railway Quarters, Parklands) complains about the same difficulty, but persons with battery sets do not get it, so it must be something to do with the electric power."

On discussing the subject with the Power Company's engineer, he suggested that he would be pleased to endeavour to cure the trouble if he had some definite data to go on, but to date nobody has been successful in detecting the source of the trouble. It is peculiar between the hours of eight and nine o'clock. It would be interesting to hear the views of others who have similar trouble.

World Radio Research League.

Rules for Mayer Cup Competition.

HANDICAP BASIS GIVES ALL SETS AN EQUAL CHANCE.

SOME readers have no doubt heard of the W.R.R.L. This league is investigating the problem of wireless echoes, and in this connection the Empire Station and the League of Nations Station at 44.94 metres radiate test transmissions.

The signals are sent out at the following times—G.S.B. 81.35 metres from 09.30 to 09.55 B.S.T. on Sundays, Tuesdays and Thursdays; and the League of Nations Station W.R.R.L. 25.05 and B.S.T. Sundays, Wednesdays and Fridays. In each case the letters of the alphabet are sent in groups of 4 at intervals of a minute.

In connection with wireless echoes the following letter, which appeared in "World Radio," is of interest:—"At 17.30 on Sunday, May 6, I found to Radio Luxembourg and noticed that it was peculiarly noisy. There was a much fainter and somewhat distorted reception slightly in advance of this. On one occasion I distinctly heard the words 'my next radio' before the main reception came in with the same words."

I find that it takes nearly a second to say these words than an interval between signals must be of an order of difference of, at least, 100,000 miles. I am very interested to know whether this is a common phenomenon and if there is any accepted explanation. If, on the other hand, such occurrences are rare, the above data may be of value. I again turned to this station on 20.15 but was then unable to detect anything abnormal."

If anyone interested in "wireless echoes" will communicate with me, I shall be pleased to furnish them with details of the World Radio Research League. Reports from Kenya and adjacent territories are most welcome. I am particularly interested in the problem of "echoes" and it is hoped that listeners who are interested will join the league and send in reports on their observations. All that is required is to send me a postcard.

THE rules for the Mayer Cup competition have now been circulated to members through the medium of their monthly bulletins. The Cup was presented to the Radio Society of East Africa by Mr. R. F. Meyer as a memorial gift by the member who constructed the best home-made receiver.

The competition is open to all members of the Society. Any number of sets may be entered by each member. Sets may be home-made and built by the competitors themselves. Manufactured sets and sets built from commercial kits of parts are absolutely excluded.

Points will be awarded on the following basis—Performance, 40 points; originality and workmanship, 40 points; simplicity, 20 points.

Judging on Handicap Basis.

JUDGING will be carried out on a handicap basis according to the number of valves used in the set, there being five points handicap for one valve. Thus a complete set with five valves will be handicapped five points, and a three-valve set ten points.

"Battery Time" Exide

NEW "INDICATOR" BATTERY

A BATTERY WITH A SELLING POINT THAT SPEAKS FOR ITSELF

No one "wonders what it is for" when they see the new "Indicator" on the Exide "D" Type Batteries. It explains itself. There on the clear white disc is a pointer that points to "Full," "Half," or "Empty," according to the state of the "charge." The battery's "charge" is thus placed on the same understandable footing as more concrete things. It is a convenience that everyone instantly appreciates. It therefore adds very little selling. Dealers who have not yet supplied tell us that it has already markedly increased the sale of what was already the world's best seller in batteries. So don't let "the other man" get a lead on you.

Prices with "Indicators":—

Type	
DYG-C	2 volts 20 a.h. 10/0
DYG-C	2 volts 45 a.h. 17/50
DMG-C	2 volts 70 a.h. 22/50
DHG-C	2 volts 100 a.h. 30/-
DYG-C	2 volts 55 a.h. 20/-

LISTEN TO THE WORLD!

Only those who have handled the new 1934 Kiloyne can appreciate its wonderful capabilities. Unlike many "All Wave" receivers, the Kiloyne is not an ordinary set adapted afterwards for short-wave working, but an instrument designed for efficient short-wave reception as a first consideration and adapted later for the higher wavelengths. The features of the design are ease of operation, an excellent slow-motion open vision tuning control, freedom from objectionable body capacity effects, even on the shortest waves, no spots in any wave-band, and smooth and definite reaction everywhere. Ideal for reception of the British Empire station programmes.

A TEST REVIEW of this outstanding Receiver appears in the June issue of the "Wireless Magazine."

We definitely guarantee that a receiver built from an Edystone Kiloyne kit of parts to be greatly superior in performance and quality of parts, to any other kit performance on the market in Kenya. We sell this kit on a performance and not on price.

Whatever Radio Set you own—whatever price you paid for it and however good you think it is—you are going to find a new thrill in Radio when you handle the new All-Wave-All-World Range "Skyscraper" that can only be compared to the wonder with which you first heard music from the ether at the very beginning of broadcasting.

You turn a knob that brings into action an entirely new short wave circuit, and instantly you will find yourself on the threshold of incredible distance. That little right on the dial background—bring it up, bring it down! Now here comes London, six thousand miles across land and sea, speaking to you as clearly as your own home. A little farer, a more delicate touch, and you are listening to Paris, Rome, Berlin, Holland, or wherever you will. What wonder is this thing that Lisian has done? Distance is no longer a barrier. The short wave Stations of America are brought in like powerful Europeans. Australia, South Africa—experimenters and explorers in all parts of the world—these will be constantly within your reach, giving you an interest in Radio that you have never been able to feel before. MINERAL PRODUCTION IN UGANDA
(Continued from page 5.)

while a considerable increase in 1934 is anticipated. The sums representing mining rents and processing licences for the same year were £807, £1,134 and £2,055, while those for Royalties were £475, £203 and £1,007—a steady increase which was likely to be maintained, and probably much accelerated.

Uganda's Copper Commission, Limited, had been actively developing and exploring the copper and nickel-oxide deposits of Kitale, Ruwenzori, and at a later date production from these remarkable and territorially important bodies may be expected.

Geological survey was being pushed on as rapidly as possible under the circumstances, but it was falling behind owing to shortage of staff. Large areas called for preliminary investigation before one could hope to locate mining areas and prospectors to spend money in investigating the mineral possibilities intelligently. In addition to questioning directly and indirectly the discovery of important deposits of metallic minerals, the Geological Survey Department had numerous other duties to perform, among these the consideration of the all-important problem of water in inadequately supplied districts was always before the Department.

In the Eastern Province.

During 1938 Mr. Wayland had made inspections in the known gold-bearing and adjoining areas of the Eastern Province (in January and August), and some rest and work was taken by him in the province to be encouraged by him in the future.

From March 14 to May 17 a long preliminary geological prospecting was taken through hitherto geologically unknown country, from Ugelesho, on the right bank of the Albert Nile opposite Longi, to Gulu, and then through Arusi to the Murumbi Falls, thence to the right bank of the Nile at opposite Pakwach and thence to Mutit, where numerous investigations concerning the investigation Nile dam were carried out on two rivers, the Licenses proposed Mr. Laopi was reached by the Nile, and a geological reconnaissance was made over the northeastern part of East Africa. A little gold was found in this area. In the middle part of last year, Mr. A. D. Condie, Field Geologist, spent some time on a reconnaissance of part of north-western Uganda, while in visiting the potential mineral resources of the area, and during that time a payable deposit of uranium gravel (and others that might prove to be payable) was discovered, and later an area of about 47 square miles was closed as a Government Protection area.

INDUSTRIAL GRAVEL.

Among a series of specimens sent in at the request of the Director, from the Bugumbe area by a European engaged on bridge building, was industrial gravel. This rock, when crushed and panned yielded a fine tail of gold, and information to this effect was at once sent to the original discoverer. Finally, as an exclusive prospecting licence was taken out over an area which included this locality, and Mr. K. A. Davis, Field Geologist, was sent to examine the deposits in situ. Two days only were spent on the Wambuzi, but no gold was discovered in that period. Unfortunately, the specimens sent to the office were obtained from a deep trench dug to divert the river and into which the water now flows. Several similar fragments, which were used to build up the approach to the bridge, were crushed, but nothing was seen on panning.

Mr. Davis states in the report that much time was spent now in dealing with queries from prospectors, both in person and through the post, and the number of calls at the office had greatly increased of late.

RAINFALL TOTALS FOR JULY.

The Romance of Uganda

The August issue of the magazine of the Port of London Authority contains an account of the romance of Uganda, written by the Commissioner of H.M. Eastern Africa Dependencies, Major C. H. Dale, O.B.E.

RHINO HORNS.

Indian Sentenced for Illegal Possession

Mehr Singh, an Indian employed by Messrs. Ngugi Limited, Government Road, Nairobi, was yesterday fined Shs. 500, by the Resident Magistrate, for being in illegal possession of rhino horns.

After pleading guilty to the offence he gave a long explanation as to how he came by the trophies. Altogether, there were seven horns or pieces of horns on exhibit in Court. In respect of one of the whole horns, he stated he had obtained from the Game Department a permit to possess 4 lb. of horn. This was not related by the Game Department.

Two of the other horns he had wanted to purchase from a Somali, and the Somali had left them with him on July 8, going away on the pretext of procuring his permit to return later. The Somali did not return. The other horns and pieces of horns had been left with him several years ago by an Indian, Ram Singh, who then worked at the K.A.R., for walking stick handles to be made from them. Ram Singh, accused said, never returned to claim his horns, and he was afterwards informed. Accused had no witnesses to call.

The Magistrate, accepting the accused's plea of guilty, found it difficult to believe his statement regarding the horns acquired from the Somali and the other Indian.

The Court Prosecutor, Inspector J. Sweeney, remarked that there could be no doubt that accused's horns were rhino horns. He took out the permit in respect of the 4 lb. of horn of which the accused was in possession, and it was a rhino horn. He was a rhino horn, and it was a rhino horn. He was a rhino horn, and it was a rhino horn.

AGRICULTURE IN UNION.
(Continued from page 5.)

Manufacturing Industry.

The manufacturing industry on the whole continues to show very satisfactory progress. In certain instances improved conditions will prevail, but in most activity is at a high and rising level. A number of considerable improvements in the secondary industry is the fact that during July the index of European employment reached 110.1 as compared with 100 for July 1925; and that this is the 11th month year reached—the previous maximum having been 117.4 for September.

In the footwear industry quarter conditions were in evidence for the past month on account of stockholding by retailers; but a renewed buying order is confidently expected at an early date. Clothing factories remain very busy; and in the furniture, printing and food industries satisfactory conditions are everywhere.

Building continues brisk, although at the Cape seasonal slackness is in evidence. On the East, however, activity is at a very high level.

Stock Exchange.

Since the commencement of July prices have tended to firm and the volume of trading to grow. A few days during July have been investment buying, both locally and in London, with the result that many dividend payers have firmed up and in some instances prices have reached new high levels.

The prices of Government and local stocks have remained fairly steady and industrials have firmed up. During the course of the month Pretoria Comminet reported a rather sharp decline, as the result of the flotation of another cement production company sponsored by one of the leading banks. The price of this share has, however, since recovered more than the decline as a consequence of shareholders being granted rights to subscribe the further shares in the undertaking.

Money Supply.

During the course of the past month the Reserve Bank's buying rate for sterling was increased on two occasions, the rate of discount in Union currency to 100 pounds per £100 sterling, and then to 100/8 pounds. The discount rate per £100 sterling, the selling rate being kept unchanged.

The advances to the public by the commercial banks again recorded an increase during June. Part of this increase has no doubt been occasioned by greater business activity; but it is believed, has been absorbed by the Stock Exchange.

NO MORE MALARIA ATTACKS

IF YOU KEEP 'ASPRO' HANDY

Keep 'ASPRO' handy and you keep the dreaded malaria away. Thousands of sufferers know this statement to be true. 'ASPRO' is both a protection before the attacks and a dispeller after they occur. Furthermore, it has the great variety of other uses summarised below. A trial will speedily demonstrate its worth.

This is the Greatest Fever Antidote ever given to the World

Public opinion based on the actual service of 'ASPRO' itself has proclaimed 'ASPRO' one of the greatest antidotes for these feverish conditions ever given to the world. 'ASPRO', after ingestion in the system, is antipyretic, antiperiodic and anti-germinal. Furthermore, 'ASPRO' is a solvent of Uric Acid, hence its wonderful quick action in relieving and dispelling rheumatism and kindred complaints. The same fever-reducing qualities which give 'ASPRO' such tremendous power over malaria also smash up attacks of influenza. Smash the feverishness of a flu attack and you smash the 'flu', in an accepted fact.

August 16, 1934.

The successful boy was William Edmund Davis, Nakuru School.

suggest that they take no interest there. As you have said the Pressman Report, after devoting some of his columns to the subject...

You have arrived at a strange conclusion when you suggest that such a proposal should be viewed as a threat to the political status of the Colony.

Yours etc., N. KARINJALI.

August 20, 1934.

COMMODITY PRICES—PROTECTION OF FARMING.

To the Editor, "E.A. Standard," Sir—The following is from a recent Australian paper:

In the course of his address to the shareholders at the annual meeting of the Bank of Adelaide, the Chairman (Mr. H. W. Lloyd) reviewed the position of the wheat growers in South Australia and said it would be a wise policy to maintain an efficient farm as well as a national obligation.

The average price received by farmers in March 31 had been compared at the average price of 2/2 a bushel at Port Adelaide, which was 7d a bushel less than the average for the same period last year.

It was clear that even with reduced general costs and minimum interest farmers could not grow wheat profitably at these prices and that a farmer who had endeavored to rely on wheat alone in the absence of external assistance inevitably go to the wall.

"Governments and private institutions were doing their best to reduce farmers' costs but it seemed clear that, even with costs at a minimum, the wheat-grower's position would be a serious one, and would, partly...

"When this would be it was impossible to say. It was apparent that wheat conditions were a state of flux. Consequently it would be wise to maintain every efficient farmer on his land during this period of uncertainty. It might be one or two or even three years, but it would be to the national advantage to keep such able farmers improved, and not to let them fall into disrepair."

"The only way to do this (said Mr. Lloyd) is by assisting farmers, temporarily at least, a national advantage is to be a national obligation as a matter of principle we do not see the possibility of the most should be borne by the community generally as a national obligation."

Mr. Lloyd does not say anything of the fact that wheat has come to the wheat-grower by devaluation, nor does he suggest that further devaluation will increase the price farmers receive for their produce.

Yours etc., H. J. ALLEN TURNER, NAIROBI.

August 16, 1934.

LONDON STOCK MARKETS.

A General Rise in Prices.

WEEKLY QUOTATIONS.

The following report, dated August 21, on the London Stock Markets has been furnished by Mr. George A. Tyson—

Prices generally during the week ending August 18, 1934, were, which is thought to be due rather to a shortage of sellers on a market which is quiet and possibly to the little buying in anticipation of more active conditions in the autumn than to any change for the better in the international situation.

Here, however, it is unfavorably affected by the settlement of the foreign exchange position only of the rate being reduced. Americans have been treating the President's decision to nationalize silver mining weakness in the dollar rate.

The following are the closing rates of our usual weekly quotations—

London Loan 104 3/4 per cent. Conversion Loan 105 1/2 3/4 per cent. Canada 80 13/16. Kenya 6 per cent. 1940-50 114 1/2 3/4 per cent. 1920-30 114 1/2 3/4 per cent. 1907-17 102 1/2 3/4 per cent. 1907-17 102 1/2 3/4 per cent.

African and European 43 9/16. Buenos Aires 110 3/4. Argentine 24 3/8. Netherlands 111. Crown Issues 12 1/2 1/2. Kenya Gold Mining 40 1/2. British American Tobacco 25 1/2. South African 40 1/2. Anglo-Siam 47 1/2. Ever Ready 29 1/2. Imperial Tobacco 120 1/2. Imperial Chemical 101 1/2. Shell 106 1/2. Anglo-Siam 47 1/2. De Beers 40 1/2. Anglo-Siam 47 1/2. Anglo-Siam 47 1/2.

London Stock Exchange 43 9/16. Buenos Aires 110 3/4. Argentine 24 3/8. Netherlands 111. Crown Issues 12 1/2 1/2. Kenya Gold Mining 40 1/2. British American Tobacco 25 1/2. South African 40 1/2. IN THE MERU DISTRICT.

Excellent Sport on Trout Rivers.

The Quarantine Station at Laidi has been lived upon considerably lately by a pride of lions. These animals have for the past week been making nightly visits, and during their progressions have often been within fifty yards of the European quarters.

Mr. F. Blad of Makuyu took a nice basket of Rainbow trout out of the Kasia River two miles above the Town. He netted five fish, the smallest being 1 lb. The largest I weighed the scales at 2 lb. 6 oz. except just 2 oz. short of the record for the river.

Excellent fishing was also obtained by parties from Nairobi during the holiday week-end. Great improvements have been made on Embu-Meru waters and it has recently been very well sign-posted by the P.W.D., so that tourists need not now worry about going astray down the numerous Gorge roads.

SOUTH AFRICA DRIED FRUITS and BEVERAGES have won WORLD-WIDE RENOWN. ASK YOUR GROCER FOR THEM. For further particulars apply to— The South Africa Office, Messageries Ltd., Box 64, NAIROBI.

ENGLAND'S PROSPECTS IN FINAL TEST.

(Continued from page 1.)

Woolford Goes. The crowd perked every time, but the visitors' captain, recognized by cutting the Yorkshireman for short 'uns, will eventually a low one from the sun, but he shattered his wicket with the board showing 220 for half the tourists' wickets down.

The Australian captain's innings had been a solid one having two and a half hours, and producing just one start of the half century. His chief strokes were one 6, and two 4's.

McCauley's wicket fell at 201, he being bowled by Bower. As he came to the crease, he appeared to resent the umpire's decision, and proceeded to run long legs. Chipperrill was bowled by a "stroker" from Bower after scoring three, the Yorkshireman then having taken three wickets in four overs.

England opened in confident style, and soon scored his one thousand runs in test cricket, a feat which had already been performed by McCabe.

Grinnell had a brief stay striking a half century, but he was the wicket into the safe hands of Australia. A " Yorker" from the Middlesex amateur accounted for the England batsman who had scored a century before he had scored a century to Clark to terminate the innings after the 700 mark had been passed.

Australia's total of 701 is the second highest to be recorded in test matches between England and Australia. The highest in Australia's 720 for six centuries, which was scored in 1902, when Bradman scored 202. Australia had been at the wicket for just one hour, while Oldfield was at the wicket for an hour and a half for his 42 runs when the test ends.

Mistakes in the Field. Cratty mistakes in the field had complicated matters. England's huge total, and Wyatt was perhaps the biggest offender in the field. Three times he dropped Bradman, the latter having three "lives" before he had reached his century, and once by Woolley—the latter had one. Wyatt missed England's second century, and missed England's second century, and missed England's second century.

England opened in confident style following the test interval, just before the last test, which had fallen. Walters and the other batsmen were confident, the former displaying much more aggression than the latter.

England opened in confident style following the test interval, just before the last test, which had fallen. Walters and the other batsmen were confident, the former displaying much more aggression than the latter.

Woolford then effected a change in the bowling, bringing on O'Beilly and the wily Irishman to check the Worcester man's exuberance. He achieved the desired effect, and what stupor were drawn by the wicket. Walters, who had scored at least twice the latter's second at almost twice the latter's first.

In a message yesterday morning Hunter states that the threat of rain practically ended the game, which was capable of holding all who wanted to play "admission," and there were only a few hundred outside the ground at eight o'clock in the next evening.

PARKLANDS TENNIS TOURNAMENT.

Rules Governing the Play. KEEN INTEREST IN TIRES. Semi-Final To-morrow Evening. To-night's Games.

THE FOLLOWING ARE THE RULES GOVERNING THE PARKLANDS SPORTS CLUB SEVENTH ANNUAL HANDICAP LAWN TENNIS TOURNAMENT. 1. The tournament will be run in accordance with the rules of the Lawn Tennis Association, in which the club is affiliated through the Kenya Lawn Tennis Association. 2. All matches will be played on Parklands Sports Club courts. 3. The best of three sets shall decide each match prior to the final. 4. The final of the men's doubles shall be the best of five sets. 5. The final of the men's singles shall be the best of five sets unless the difference of one set between the two players is decided by the best of three sets. 6. The final of the ladies' singles, ladies' doubles and the mixed doubles shall be the best of three sets. 7. Unlucky will be provided for each day and time, and each match, and any competitor failing to be present at the specified time will forfeit the match. 8. All competitors will be honorary members of Parklands Sports Club while the tournament is in progress, but such members will not be allowed the use of the tennis courts except when playing in a match. 9. No tennis player to be allowed through the tournament will be allowed to play in any other tournament on Saturday, September 1st, and will continue on Sunday morning, Sept. 4th at 9.00, and on subsequent days until the tournament is completed. Play on week-days will commence at 8.30 p.m. 10. Entries for the Parklands Tournament close at noon next Wednesday, August 25, and should be sent to the secretary, Mr. J. M. Wilson, c/o Messrs. May, Meade and Co., Ltd., c/o The Government House Nairobi.

DO YOU KNOW? Jimmy Wilde has a marvellous golf watch that was presented to him by the Royal Golf Club.

Jimmy Wilde has a marvellous golf watch that was presented to him by the Royal Golf Club. It is a watch which has been made in Scotland, and is a watch which has been made in Scotland, and is a watch which has been made in Scotland.

Only two ties were played after dinner, and of these that between J. J. Byrne and G. A. Bushworth was the most interesting. Byrne's first visit to the table produced 15, of a miss on the put, and he finished with a 34. He had 100 of the red, and he completed 200 falling as a winning hand.

Final scores: J. J. Byrne 230; G. A. Bushworth 100. In the 15th between A. J. Scott and A. B. Wilson, both took some time to settle down, but the latter gradually drew away from him.

Final scores: A. B. Wilson 200; A. J. Scott 255. To-night's Matches. G. P. M. D. Bannay vs. A. Niven, (Umpire, Mr. H. Shelton); J. M. Wilson vs. J. J. Byrne, (Umpire, Mr. J. J. Byrne); J. M. Wilson vs. J. J. Byrne, (Umpire, Mr. J. J. Byrne); J. M. Wilson vs. J. J. Byrne, (Umpire, Mr. J. J. Byrne).

Commercial are at home in Bulawayo this afternoon in a highly interesting League encounter. The kick-off is timed for five o'clock. Commercial will field the following eleven: Straker, Blair and Hopson, O. Marsh, B. Marshall, J. H. Marshall, and Davidson. Reserve: Hamilton.
