THE WATER ORDINANCE, 1923.

Notice of Application for Water Rights.

In terms of Section 27 of the Water Ordinance, 1923, notice is hereby given that T. Avery Bay, of Mwingi has filed an application, which has been registered by the Water Board for a Water Right, to divert from the Athi River at a point on L.S. No. 502, 503, 504, 505, and 510,000 gallons per day (of which approximately 400,000 gallons per day will be returned to the Athi River) for the purposes of domestic use, minor irrigation and power to operate a water wheel respectively on L.S. No. 502. The proposed works consist of a concrete canal, 1,200 feet long. A plan may be seen at the office of the Director of Public Works, Nairobi, and at the Public Works Department, Mwingi. The application will subsequently be considered for a Water Right.

Any objections to the grant of the Water Right and/or to the application for a Water Right, in duplicate, with the Water Board, P.O. London, Mar. 18.

So extensive has been the demand for Britannia's Colours in the home market that the large new factory at London has had to be re-tasked trying to fill export orders.

Originally built to supply the whole world excepting the American continent, it was never anticipated that the popularity of Colours produced in Britain would come about. The whole production is to be taken up.

The factory had to cable to the Home and Overseas branches of Anglo-Seltic Timber Co. Ltd., Nairobi, "Would you please install new machinery suitable for production of Britannia Colours of various shades of magnificent quality—British and Best."

Keep your money between Kenya, Uganda, and the Old Country and use Colours for your ceilings and walls.

The Anglo-Seltic Timber Co. Ltd. possessing the mark made sure of having sufficient stocks by building their stock order.

GOODYEAR ANNOUNCES

A NEW TYRE

*embodying a wholly new principle
of tyre construction*

A Conventional Tyre
When inflated all portions of the tyre expand—the tread stretches, which makes it easy to cut.

B G-100—Uninflated
Note that this tyre when uninflated is flat-sided, higher than it is wide.

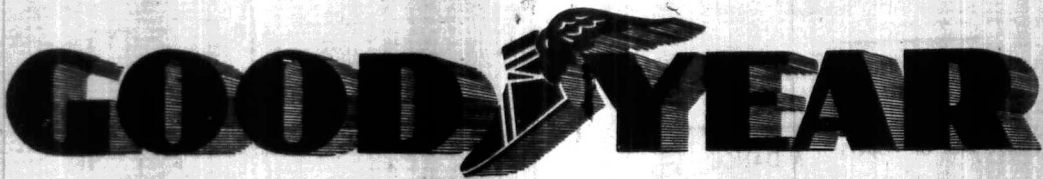

C G-100—Inflated
Sidewalls expand—tread contracts. "Compressed" rubber wears longer, is tougher to cut or bruise. Result—30% longer life.

Forget everything you've heard before about how long a tyre should last . . . for here is a great new tyre . . . the G-100 . . . that upsets all former standards: Glance at the diagram shown above. In diagram "A" you see the cross section of an ordinary tyre. It's round, as you would expect it to be. When such a tyre is inflated all portions of the tyre e-x-p-a-n-d . . . including the tread. The stretching of the tread rubber makes it easier to cut . . . just

as a stretched rubber band is easier to cut. Such a tread wears faster, is more vulnerable to bruises. Now look at diagram "B", which shows a cross section of the new G-100 uninflated. Note its different shape. Not round . . . but flat-sided . . . higher than it is wide. When the G-100 receives its charge of air, its sidewalls expand . . . but the tread actually **contracts** as shown in diagram "C". This compacts the tread rubber . . . compresses it so that it offers far greater resistance to cutting and wear.

THIS NEW PRINCIPLE OF TYRE CONSTRUCTION ENABLES THE G-100 TO DELIVER UP TO 33% MORE MILEAGE EVEN THAN FORMER GOODYEARS

Available in 6.00-16 and 6.50-16 sizes only

THE EASTERN RUGBY TOURNAMENT

Two Up-country XV's to Play in Nairobi

THE 1939 Eastern Rugby week-end matches are likely to be most interesting of the year on account of the unusual admission of two up-country sides to the Entebbe Cup.

THE teams taking part are Nairobi and Nairobi 'A' and Nandi and Nandi 'A' who will play the other three up-country sides in all.

THE opening match at 5.45 on Monday will be for the Entebbe Cup between Nairobi 'A' and Nandi 'A'.

THE teams are Nairobi (A) (Green and Brown): Williams (W.V.), Scribin (N.D.), Adams (H.D.), Wity (R.A.) and Oms (O.C.), O'Brien (O.C.) and A.N. 1000 p.m.

CHANGE AND THE LUXURY TRADES Prosperous London

People in Kenya may be wondering how, in this changing London, the Luxury Trade, as one might call it, is going on...

Some of the famous restaurants in Piccadilly and the West End have brought out their menus and their property has been a surprise to the general public...

When the new Waterloo Bridge is finished, it will be the longest bridge in the world and will be the only bridge of its kind in London...

There will be some of the best and most beautiful gardens in the world, and they will be in the hands of the people...

There will be some of the best and most beautiful gardens in the world, and they will be in the hands of the people...

Girl on her own writes "I Can't take a compliment"

Likes and Dislikes of a Girl who Earns her Own Living...

SUSAN and I don't agree about parties. She goes for cocktail routs with lots and lots of people...

Then I feel as though I wouldn't have been invited otherwise. Hostesses ought not to give vocational instructions...

Another thing I don't like is the way all the young men at these parties say you are magnificent...

Susan is having one of her cocktail parties this evening, and I've just been into the sitting-room with an armful of flowers and leaves I got at the market...

Then she married into gentility. Then she married into poverty. Then she married into the coffee-cup...

Susan had washed three pairs of stockings and hung them up to dry by putting them into a clothes-line...

La Femme S'Amuse I FOR ONE... Ask "What's In a Word?"

Of course, in these days, the favourite word is "survival". It is an interesting word, and it is used in many ways...

This one woman regards that the feminine ideal of the past is the ideal of the future...

As the women, particularly in the East, are now getting into the habit of wearing "made-in-London" clothes...

At present, all I want to make clear is that those people who are always talking of "survival" are those who are always making "made-in-London" clothes...

In Nairobi, people have the idea of "survival" in a different way. They are always talking of "survival" in a different way...

There is a great deal of "survival" in the world today. It is a word that is used in many ways...

Pioneers of East Africa

This is the second of a series of articles dealing with the life and career of men who played a notable part in the early history of East Africa. The next article is on Sir Frederick Jackson.

LIKE many pioneers of the world in all parts of the world the leaders of the South African movement were of modest Scotch parentage. The son of Mr. James Mackinnon, Campbeltown, Argyll, born in 1823, he was given a sound education which enabled him to do well in the examination for a clerk in a mercantile firm.

by H. R. Tate

In 1850, he had already founded a firm, the East African Company to which he had been appointed manager. With the grant of a charter from the Emperor, he had obtained the territory known as German East Africa. It was not until the Foreign Office decided that Germany had violated a march on the English Government that steps were taken to subvert British interests in East Africa but finally in 1887, Her Majesty's Government granted a concession of his main-tenance to be made by the British East Africa Company. The British Government then took the initiative in the Imperial Charter which was a Royal Charter on September 12, 1888.

In the foregoing paragraphs Mackinnon was mentioned as being Chairman and an active Director of the East African Company. The latter was formed in 1887, the same year in which the East African Company was incorporated. The latter was formed in 1887, the same year in which the East African Company was incorporated. The latter was formed in 1887, the same year in which the East African Company was incorporated.

Sir WILLIAM MACKINNON, Bart., G.C.B.

1888 resulted in a combined blockade of the East African coast. Mackinnon was with difficulty prevented from sailing to the British East Africa Company. He was appointed Governor of East Africa in 1890. He was appointed Governor of East Africa in 1890. He was appointed Governor of East Africa in 1890.

A letter from the Union In SOUTH AFRICA - Last Week

(N) March 23 in response to demands made from all parts of the House, the Prime Minister, General Hertzog, made a statement on the Union's attitude towards the International Situation. It was a grave and unequivocal statement. In fact the only definite part of the speech was that which concerned those who sought to force the Government to define its foreign policy.

General Hertzog said: "We are and when the activities of a European country are of such a nature and scope that its purpose and aim is the domination of other free countries and peoples, and that the safety and interests of the Union are also threatened thereby, then it will be time for this Government to turn the people of the Union and ask this House to concern itself with European affairs, even where the Union otherwise has no interests."

one could give, coming just after the war, I do not intend to enter into it. However, it is to be noted that the Government's attitude towards the International Situation. It was a grave and unequivocal statement. In fact the only definite part of the speech was that which concerned those who sought to force the Government to define its foreign policy.

Furthermore, it has now become obvious that the "neutralisation" in the country has worried the Government a little, for on Monday last General Smuts was put up to his ears in Parliament, where it would have caused some Minister to describe the well-known fact that the doctrine of joint Cabinet responsibility for individuals and South African Ministers was not in fact a new thing.

than a synthetic substitute. He has had advisers of this vision before now. It was several years ago that he made it clear that he was not to be between the Commonwealth and the U.S.A. as to have about the world peace and reason which his League of Nations had so greatly failed to produce.

Mr. Pirow said in Parliament on the same day as General Hertzog's speech that he intended to be extended into a new programme which greatly exceeds that of the old programme. There are signs, however, that deeds will be forthcoming this time. The major points of Mr. Pirow's speech were:

The Department is constituting a central defence office for the equipment placed with the British Government which will be of great importance. The British Government has set up a new department which will be of great importance. The British Government has set up a new department which will be of great importance.

According to Press reports several M.P.s expressed "angry dismay" at the British Foreign Secretary's speech. There is no doubt that the Premier's speech has no interests whatsoever in the eyes of the more enlightened members of the South African House.

The speaker of the March 23rd session of the House of Commons was Mr. J. Chamberlain. He said that the Government's policy was to maintain the Union's independence and to support the principles of the League of Nations.

In the year 1882 Mackinnon had been made a member of the Imperial Legislative Council. He was appointed Governor of East Africa in 1890. He was appointed Governor of East Africa in 1890.

EXHAUSTED NERVES renewed by the magic of Sanatogen

"I feel a different person." - The best I derive from Sanatogen is a sense of relief. After taking it, I feel a different person. For several years I have suffered from exhausted nerves and I feel the effects have been stimulated by one full dose of Sanatogen before sleeping.

When you feel listless and tired, unable to sleep or concentrate on your work, there is usually one thing wrong with you—your nerves. Exhausted, starved nerves are a common penalty of the life we live to-day. Yet you can prevent nervous exhaustion—with Sanatogen. Sanatogen builds new, healthy nerves and new, rich, strong blood. Daily Sanatogen gives you extra energy to enjoy every moment of a hard day's work, particularly in a warm country. Start your daily Sanatogen to-day—and remember, you will be following the advice of more than 25,000 doctors.

New Shell Motor Oil is specially adapted to the needs of the modern car. A special mineral oiliness concentrate—exclusive to Shell—fortifies New Shell Motor Oil and prevents it draining off the metal surfaces in an engine under all running conditions. Thus, whether your engine be standing, starting or running it "stays-on-the-job" all the time, forming a constant oil film protection to prevent corrosion and "dry-starting," the greatest cause of wear in an engine.

BASIN LISTING

Conservation, Moisture, Retards
Erosion, and Increases Yields

Basin listing is a new method that
is growing rapidly in popularity for
the conservation of moisture and con-
trol of soil erosion. The construction
is well shown above. For each Lake
furrow there is a unit comprising a
disk blade carried on a hinged beam,
and a pair of lagged wheels which
at intervals of 10 feet cross the furrow,
leaving a dam of loose loess across
the furrow. These dams hold the water
as it falls, where the loess furrows
follow the contours accurately or not,
and in either flat or contour listings
effectively hold the water from run-
ning off.

We will be glad to design this new
type of basin listing for you. Write

new method of soil conservation.

AN AGRICULTURAL POLICY FOR KENYA

By W. A. G. BOWEN

To those of you who have
read the report of the
Royal Commission on
Agriculture in Kenya,
you will have seen that
the Commission has
recommended a policy
of land reform which
is in many respects
entirely new. It is a
policy which is based
on the principle that
the land should be
distributed so as to
enable the maximum
number of the people
of Kenya to obtain
a living from the soil.

It is not possible to
discuss the details of
this policy in this
short article. It is
necessary, however,
to point out that the
policy is based on
the principle that
the land should be
distributed so as to
enable the maximum
number of the people
of Kenya to obtain
a living from the soil.

One of the greatest
difficulties in the
way of the
implementation of
this policy is the
fact that the
land is at present
in the hands of
a small number of
people. It is
necessary, therefore,
to point out that
the policy is based
on the principle that
the land should be
distributed so as to
enable the maximum
number of the people
of Kenya to obtain
a living from the soil.

TO THOSE OF YOU WHO HAVE

Momentous Statement by Prime Minister In House of Commons

MEN FOR NEW ARMY

Aircraft Progress MINISTER PLEASED

REPLY TO RUMOURS OF GERMAN ULTIMATUM

CONFERENCE SUGGESTION

A statement described as possibly the most momentous in the House of Commons in the last quarter of a century—a reference to Sir Edward Grey's historic warning to Germany in 1914—was made by the Prime Minister yesterday afternoon.

Mr. Chamberlain said that in the event of any action which threatened Polish independence and which the Polish Government considered it vital to resist with their national forces, His Majesty's Government would feel itself bound at once to lend Poland all support in its power. The French Government had authorized him to make it plain that they stood in the same position as Britain.

This statement followed rumours which had circulated all day that Germany had presented an ultimatum to Poland.

London, March 31. Before ten o'clock this morning a meeting of Ministers was held at No. 10, Downing Street. It was attended by the Prime Minister, Lord Halifax, the Lord Chamberlain, Mr. Chamberlain, Mr. Butler, Mr. Oliver Stanley and Mr. Butler. At noon a full meeting of the Cabinet was held.

It is believed that the statement which Mr. Chamberlain made in the House of Commons was under discussion by both these meetings.

Summary Questions

When the House of Commons met this morning Mr. Arthur Greenwood, the Deputy Leader of the Labour Opposition, asked the Prime Minister whether he could make a statement on the European situation.

Mr. Chamberlain replied that he would prefer to make a statement later in the day.

Mr. Greenwood: "I am sure that in view of the gravity of the situation you would wish to press the Prime Minister to make a statement earlier than he thinks possible. May I ask him, in view of the rumours that are floating around, whether he could say a little more about the position in the interval, and the time at which he will be convenient to make the statement?"

The Prime Minister: "I should anticipate that I should make a statement shortly before three o'clock this afternoon, with regard to the rumours, I am aware of them, but they are not confirmed by any official information in my possession. The Government must not be taken to be accepting them as true."

Mr. Chamberlain made his proposed statement shortly before twelve o'clock.

"I am glad this morning His Majesty's Government has an official confirmation of rumours which are suspected attack on Poland and must not therefore be taken as originating as true."

"I am glad to take this opportunity of stating again the general policy of His Majesty's Government. They have consistently endorsed the policy of the League of Nations between the parties concerned of any difference that may arise between them. They consider that this is the natural and proper course where there can be no question in principle of the maintenance of peace and they would see no justification for the deterioration of the relations of force for the method of negotiation."

"The House of Commons, certain consultations are now proceeding with other Governments in order to make perfectly clear the position of His Majesty's Government in the meantime, before that period in which the House of Commons will be asked to give its approval to the statement which I am making."

At The Debate will take place at 3 o'clock.

The United States Ambassador in London, Mr. Caffery, has been asked at the Foreign Office whether he had any statement to make in the House of Commons.

German Statement

In Berlin an official statement was issued this afternoon in which it was declared that several anonymous had been coming to the German Embassy in London, Poland, where they were speaking in the name of the Polish Republic. This was described as a "deliberate attempt to agitate the European public opinion and to disrupt completely unshaken relations."

The international situation was the subject of a long communication between British Ministers yesterday. A specially summoned meeting of the Cabinet was held yesterday morning and the policy was further studied by the Cabinet and Foreign Affairs Subcommittee in the late afternoon.

Ministers remained within reach of each other throughout the day, and the Government was in constant touch with the Opposition party leaders. The latter interview of the day took place at the Foreign Office.

During the day, the Dominion Secretary, Mr. Chamberlain, and the Polish Ambassador, Count Raczynski, had a long conversation for a routine exchange of information.

It is understood that Colonel Beck will not stop in Berlin on his way to London. He is expected, however, to accept an invitation to visit the British Embassy in Paris.

All the Polish newspapers lay stress on the importance of the presence of the visit to London. One of the Polish newspapers said that the visit will be a "winning of Colonel Beck to the Polish cause in Europe at the utmost moment."

On Thursday evening, Mr. Chamberlain met Count Beck at the British Embassy in Warsaw and the latter Ambassador in London called at the Foreign Office.

President in Conference

President Hoover spent three hours on Thursday evening with the British Prime Minister, Mr. Chamberlain, and other Ministers. They were joined by Mr. Chamberlain and Mr. Chamberlain's wife.

The Polish press reports what it calls news to Poland in the German press. It is believed that the German press is making a special attempt to make it plain that the German Government is not in any way connected with the attack on Poland.

Mr. Chamberlain said that in the event of any action which threatened Polish independence and which the Polish Government considered it vital to resist with their national forces, His Majesty's Government would feel itself bound at once to lend Poland all support in its power. The French Government had authorized him to make it plain that they stood in the same position as Britain.

Mr. Eden and the Premier

Mr. Arthur Eden speaking at Newcastle-on-Tyne yesterday said that Mr. Chamberlain's statement on Poland and that he would be endorsed in the whole country.

Mr. Eden continued: "I warmly endorse the statement which Mr. Chamberlain made in the House of Commons. I have said and should say that I have no doubt that I had got pleasure in supporting the statement which Mr. Chamberlain made in the House of Commons."

Mr. Eden said his speech with regard to the statement which Mr. Chamberlain made in the House of Commons was in the name of a national unity—British Official Wireless Service.

ITALY TO SEND TROOPS TO ALBANIA ?

Rumoured Plan For Protectorate

Hitler Takes Over Reichsbank

NEW CONTROL LAWS

Rome, April 4.

IT IS REPORTED THAT TROOP SHIPS ARE STANDING BY AT BARI AND BRINDISI AND THAT OVER TWENTY THOUSAND MEN ARE CONCENTRATED IN THAT DISTRICT. THIS REVEALS THE RUMOUR WHICH HAS BEEN OFFICIALLY DENIED VERBALLY, TO THE EFFECT THAT ITALIAN TROOPS ARE PREPARING A LANDING IN ALBANIA.

The suggestion is made here that Albania may consent to something in the nature of an Italian Protectorate and that such a step would have the entire approval of King Zog.

A statement issued in Tirana (capital of Albania) today says that Albania would never allow her independence or integrity to be violated.

In London, while it is not denied that there are indications of military activity in Italy, it is felt difficult to believe that Italy would take any action infringing Albania's independence. The friendly relations by King Victor Emmanuel to Albania in his recent speech are recalled as well as the clause in the Anglo-Italian Agreement which says that any infringement of Albanian sovereignty would violate the status quo in the Mediterranean.—(Rushy).

Possible Reason For Sending Troops To Albania

BALKAN ATTITUDE

THE VIEW IS EXPRESSED IN LONDON THAT ITALY MAY BE PLANNING THE MILITARY OCCUPATION OF ALBANIA AS A REPLY TO THE ATTEMPTS BY BRITAIN TO BRING GREECE AND YUGOSLAVIA INTO THE SCOPE OF THE PROPOSED ANTI-AGGRESSION FRONT.

It is thought that Italy may in this way also wish to bring pressure to bear on Greece and Yugoslavia to maintain friendship with the principal Axis Powers.

The statement issued in Tirana yesterday that Albania would never allow her independence or integrity to be violated is followed by an announcement from the Italian Government that Italian troops are standing by at Bari in the event that the Italian Government would demand of King Zog a special action against Albanian troops of invasion.

The broadcast added that the report that trouble was brewing between Italy and Albania was entirely unfounded.

It was stated that the only news matter in the moment being the two countries was the fact that negotiations were in progress for further reinforcement of the Italian army in Albania, which would not make a defensive alliance.

These negotiations were taking place at the request of King Zog.

There is considerable speculation whether the conversations will result in the Italian military occupation of Albania. As stated yesterday.

Berlin, March 31. Dr. Prunk, the German Minister of Finance, will shortly take over the Reichsbank. It is expected that he will be officially announced as Reichsbank president at a ceremony on April 4.

It is understood that Dr. Prunk's appointment is being made as a result of the resignation of Dr. Prunk from his post as Minister of Finance, which he is expected to do in the near future.

The Reichsbank shares should be introduced into the hands of the public, and it is expected that Dr. Prunk will be able to do this.

It is also expected that Dr. Prunk will be able to do this.

ALWAYS FOLD FRIDAY COLLECT OF ALBANIA

Small State Speedily Subjugated By Sea Air and Land Forces

WORLD SHOCKED BY LATEST EXAMPLE OF AGGRESSION

BOMB MUSCULIN CHOSE GOOD FRIDAY MORNING FOR THE INVASION AND CAPTURE OF ALBANIA FOLLOWING HEAVY BOMBARDMENTS OF COAST TOWNS FROM THE SEA AND AIR.

The Albanians are reported to have put up a brave resistance but they were overwhelmed by vastly superior troops. King Zog has fled to Greece where he was born by his wife, Queen Geraldine and their infant son, just last week. The democrats regard with dismay and disgust the dramatic events of the week-end and there have been emergency meetings of Ministers in London and Paris.

It is believed the British Parliament will be summoned to meet early this week to consider a situation arising out of the Italian occupation of Albania.

Little more than 10 days ago Albania was a small, peaceful, undeveloped country which had been invaded by the Italian Fascist army. It was reported that Italy had been invited to occupy Albania and that the Albanians had accepted the terms of the invitation. The Italian Fascist army then moved into Albania and occupied the capital, Tirana, on April 9th.

The Italian Fascist army then moved on to occupy the rest of Albania. The Italian Fascist army then moved on to occupy the rest of Albania. The Italian Fascist army then moved on to occupy the rest of Albania.

British Guarantee To Greece?

London, April 8.—The Cabinet will meet on Monday afternoon or Tuesday morning to discuss the Italian occupation of Albania and the possibility of a British guarantee to Greece.

It is believed the British Government will not make any commitment to Greece at this time. The Italian occupation of Albania is a serious development and the British Government is studying the situation.

Port Bombarded. It is reported that the Italian Fascist army bombarded the port of Durazzo and other coastal towns on April 9th.

Italian messages report that many Albanians gathered in the streets to welcome the Italian troops.

Street Resistance
Although the soldiers were as heavily armed as the Albanians, the latter fought bravely in many places. In some instances, the Albanians managed to hold off the Italian troops for several hours.

King Zog's Flight
King Zog fled to Greece on the evening of April 9th. He was accompanied by his wife, Queen Geraldine, and their infant son. They are believed to be safe in Greece.

Russian Warships In Mediterranean
The Russian Navy has dispatched several warships to the Mediterranean Sea. This move is believed to be a response to the Italian occupation of Albania.

German Troop Movements
The German Army has reported movements of troops in the Balkans. This is believed to be a response to the Italian occupation of Albania.

Mainly for Film Fans HIGH HOKUM for HOLIDAYS

The Adventures of Robin Hood CAPTOL

THIS week is Easter week, and very cleverly I think, New Theatre have managed to produce some grand entertainment that should prove as acceptable to grown-ups as to juveniles.

Number One holiday adventure tale for boys (and with the memories of my own childhood when boys and grown-ups and dressing up as cut-throats was a favourite game, for girls too) is "The Adventures of Robin Hood," presenting high hokum in really admirable Technicolor.

"Robin Hood" is one of the most satisfying films I have seen in months... Among the cut-throats you see, Will Scarlet, Frank Leighton and Dick Lenoir...

There are several shots that will not be forgotten... The film shows some of the most beautiful scenery in the world...

THE 1939 EASTER GOLF TOURNAMENT Royal Nairobi and Mombasa To Meet In Today's Final

With an unmitigated roar in their respective sections, Royal Nairobi's first team and Mombasa Golf Club, each with 3 points up to Saturday yesterday, will contest the final of the Easter Golf Tournament today, on the Royal Nairobi course.

It should be a hotly fought affair since so far towards it has been a pretty even contest. A description of the play and the results up to midday yesterday follows.

The final match of Friday morning was that between last year's winners, Mombasa, and Royal Nairobi. The latter were by far the greater favourites, their chances being estimated at 10 to 1. But it was B. Anderson, captain of the Nairobi team, who showed his class by leading his team to a victory over the Mombasa side.

His lead was the remarkable 14 holes to nil, which he maintained until the 17th, when he took a 2 to 3 hole lead. This was a remarkable feat, especially in the hands of a player of his calibre.

The second match of the day, between Royal Nairobi and Mombasa, was also a close one. The Nairobi side were again the favourites, but the Mombasa team put up a brilliant performance to win by 4 holes to 2.

Another close fight was that between last year's runners-up, Mombasa and Royal Nairobi. The Nairobi side were again the favourites, but the Mombasa team put up a brilliant performance to win by 4 holes to 2.

The Easter Golf Tournament has been a most successful one, and it is hoped that next year's tournament will be equally so. The players have all shown a high standard of play, and the spectators have been most numerous and enthusiastic.

THE UGANDA VISITS Kibbi Gymkhana Win The Rubber

The Nairobi Gymkhana were in an ideal position at the end of the visit to the Kibbi Gymkhana. They played a very good game, and won the rubber by 3 to 1. This was a most successful result, especially in the hands of a team of amateurs.

The match was played on a very good course, and the players showed a high standard of play. The spectators were most numerous, and the atmosphere was most enjoyable.

The Kibbi Gymkhana were a very strong team, and they showed a high standard of play. They were well supported by the spectators, and they played a very good game.

NEW ROAD TO LAMU

From Nairobi In Two Days

["crisis" (Continued from page 5)]

Lamu, April 4.

On March 13 last the main road from Nairobi to Lamu via Isaka was closed to all motor traffic—except official vehicles—on account of the fact that it was being cut off by communications in that line in the event when rain is to be expected, and if it doesn't rain, it might last.

So far, this year, I have not heard of any north-bound traffic along the above route, and non-official traffic seems to have been seriously hampered. Last year you even wrote that the road was being cut off throughout the "big rains." We do things better on the Coast, so far as the Lamu—Isaka road is concerned.

There are no fixed dates for the closing of this road. It is left to the Administrative Officers along the road to advise the P.W.D. as to its usability, and the latter Department is to endeavor to advertise the opening and closing of the road according to the conditions.

This system is only in accordance with plain common sense since the road is not to be used by any of the motor vehicles in the District cut off by permitting the use of the road when they are not in a fit condition to be used. The same system of course is in force in the N.E.D. where not only the roads via Isaka, but all of the roads are closed and reopened to a hard and fast timetable irrespective of the weather.

This is the one explanation why so many of the principal towns in the N.E.D. are now being visited as if the latest information as to the state of the roads can only be transmitted to headquarters.

London, Mar. 31. No contractor here has the demand for British-made Colours in the same amount that the huge new factory at London has had a dismal winter trade for the last 2 years.

Originally built to supply the world, world-wide the Anglo-British Colour Co. Ltd. (London) "showed up" themselves in the world of Colours products in Britain which have almost the whole production to be taken up.

The Anglo-British Colour Co. Ltd. forwarding the work, make a start having sufficient stocks by getting their stock order.

Announcing A GREAT NEW GOODYEAR TYRE

G-100

Named in honor of the 100th Anniversary of Charles Goodyear's discovery of the process of vulcanization of rubber.

MORE HANDSOME THAN ANY TYRE YOU'VE EVER SEEN!

LONGER WEARING AND SAFER EVEN THAN FORMER GOODYEARS!

Here, at last, is a tyre to match the sleek smartness of the newest motor car designs. A tyre whose "sculptured" groces and streamlined sidewalls—visible even when the car is in motion—actually enhance the flowing lines of today's motor cars.

The new G-100 by Goodyear!

And there's more than outward beauty to excite your interest in this great tyre. There's a story to tell of tyre engineering that employs wholly new principles of construction. For this tyre is as far ahead in performance as it is in looks!

You know what a cross section of an uninflated ordinary tyre is like—it's round, as you see in diagram A at the right.

When such a tyre is inflated, all sections expand—including the tread.

This stretching of the tread rubber makes it easier to cut—just as a stretched rubber band is easier to cut.

Now look at the shape of a cross section of an uninflated G-100 as shown by diagram B. It's higher than it is wide—the sides are "flatter."

When air flows into this tyre its sidewalls expand—but the tread actually contracts—grows smaller—as you see in diagram C.

This action compresses the tread rubber—makes it tougher to cut—more resistant to bruising—makes it wear longer.

How much longer?

The G-100 delivers up to one-third longer mileage even than former Goodyears!

Then, to back up all this new beauty, and long tyre life, Goodyear has accomplished still another feat in the G-100.

Its famous, ALL-WEATHER, Center-Traction tread has accomplished for still greater safety.

No tyre manufacturer—not even Goodyear—has ever been able to better that basic diamond-block pattern for traction, for fast starts and quick stops, for resistance to skidding in all directions, on all types of roads.

But in the G-100, that tread is flatter—to give more road contact. And the diamonds are closer nested—to make the G-100 roll more silently, more smoothly.

Also, the tread is deeper, and—a newly developed Goodyear compound makes that tread rubber far tougher to stand the grind-away action of today's high speeds on hard-surfaced roads.

Have your Goodyear dealer fit a full set of G-100 tyres—feel the thrill of seeing these handsome tyres on your car. Ride on them—and feel the satisfaction of knowing you've got the longest-wearing, safest tyres your money can buy.

Available in 6.00-16 and 6.50-16 sizes only.

CAN YOU THINK OF ANYTHING MORE A TYRE COULD OFFER?

Beauty — with "sculptured" lines to match motor car designs.

Long wear — 30% longer non-skid mileage, owing to longer tread life than that provided by a new arrangement of the tread.

Safety — ALL-Weather Center-Traction tread rolling more resistant to skidding, in all directions.

LAST OF THE EASTER MATCHES

The Relegation Problem Much Intensified

(Editor & Standard Correspondent) London, April 11. The results of yesterday's English league football matches and those in Scotland will be found below. There have been no changes of leadership and the position in Scotland, so far as championship and promotion are concerned, has been clarified and it seems certain that Aberdeen will finish in fourth position in Division 1 next year.

Blackburn's victory appears set for promotion, but it is now more certain that who will accompany them, the Easter matches results being reversed. The relegation problem are as acute as ever, as in most cases, the best teams in the table. Others in the danger zone still have hope.

The 1939 Easter Golf Tournament

ROYAL NAIROBI'S SUBSTANTIAL VICTORY IN THE FINAL

Royal Nairobi's first (Group "A") team won the Easter Golf Tournament of 1939 by defeating Mombasa G.C. in Monday's final by matches to 0.

It was a well-merited win and the margins were fairly substantial, only the few examples putting a fight in which the issue was much in doubt up to almost the end.

A considerable crowd followed the first match and the whole tournament will be considered a successful one. It was certainly enjoyed by the competitors (who had a most enjoyable and strenuous time) and the "gallery" on the last day especially.

Royal Nairobi won the 1939 Easter Golf Tournament, the 16th of the series in very convincing fashion by beating Mombasa G.C. on Monday to a match of 1 to 0.

The record was a remarkable one for they secured the maximum number of points in every one of the group matches, the individual members being winners in 10 out of 16 matches and only one lost that gave them in points and in the final a total of 15. Mombasa lost the maximum number of 10 points in the "B" group, the individual matches being 15 matches won, lost and one drawn.

Mombasa appeared their "match" in the "A" group, but they were disappointed to lose that match, the individual members being winners in 10 out of 16 matches and only one lost that gave them in points and in the final a total of 15. Mombasa lost the maximum number of 10 points in the "B" group, the individual matches being 15 matches won, lost and one drawn.

Monday morning was hot but the overcast rain had freshened the course and a breeze over the top was not without its effect. The course was in the best of form and the weather was just what was needed to prevent the first couples, who were followed by a large "gallery" from turning out some snuffing golf. The half for 7 holes, 10 holes, 15 holes and 18 holes were being three strokes under the S.S.S. for the course to date.

To-night (April 13) Tommy Farr, the great boxer, will fight Clarence "Red" Burman at the Royal Albert Hall, Haringey. The fight will be one of the most interesting of the season.

It was an amazing proof of Farr's popularity for rarely does a foreigner get such a big reception in this country. Farr has always had an amazing popularity.

PETER KANE - BANTAMWEIGHT. Peter Kane, of Clontarf, has won the British bantamweight title by defeating Jimmy King.

THE SPANISH was a quick move in the early stages of the fight. His aggressive tactics and use of the Spanish style to make liberal use of the ring and to work carefully.

ALTYA - LIGHTWEIGHT. Altya, right hander and upper case, has been a great success.

Stanghelli by to retain a backmarker as well as the best weight champion of the world in 1938. He has been a great success.

There are no new matches of particular interest. The only one of interest is the fight between Altya and Stanghelli.
