most be misleading to settlers who looked to Government schools to accommodate their children. There was no intention, therefore, of compensation for the children at all. It was only in 1928 that the fact that out of 2,000 Government school children in Kenya, 1,000 were of private schools, the position was reversed.

Mr. Gaborie stated that in relation to Kenya trial and grant and he admitted that that was a "badly intended" address. He said Government had to make provision for those who had acquired Crown land before it was the law in order to avoid the problem which was being raised if they were left landless. They would not require finance on an extravagant scale for directly those who had the problem and the land would be used to meet and not a liability to the Colony.

He concluded, I submit we would not our own house in order before. Consequently with the knowledge of new settlers and I would like Government to bear in mind the following three points:

- 1. The provision of ample facilities for the settlement of new settlers.
- 2. The financial rehabilitation of settlers at present heavily burdened with Government loans.
- 3. The provision of financial support for farmers who have had their crops destroyed by drought and so on.

Mr. Wilson representing the Native Kenya has had to make more how to approach the subject before the report of the Settlement Committee had been previously considered by Council and Government members were asked to approve a motion recommending the implementing of his recommendations with the least possible delay. In his opinion the report would be most controversial and he suggested, however, that it should be put into operation as soon as possible. The Governor had stated that Government would be willing to hear how far that report could be carried out, which was just the detail of the report, which was not the substance of the report.

Mr. Wilson continued that many of the statements in the report were very questionable indeed, and the question whether it represented the settlement was vital to the country. The report mentioned "reasonable housing, permanent and feeding of Native labor but did not define this in any way. There were a lot of many recommendations that everyone could accept, for instance the question of the development of water supplies in the arid areas, that was to be provided through improvements were carried out at the expense of others inside Government. Obviously the Government was not in the development and improvement of water supplies was greater than the Resources than on European farms.

Mr. H. W. Wright also expressed surprise at Government's reply regarding the matter. He stated that the Government would keep to its word and would not be swayed by any outside influences. He said that the Government would keep to its word and would not be swayed by any outside influences.

Mr. Wilson representing the Native Kenya has had to make more how to approach the subject before the report of the Settlement Committee had been previously considered by Council and Government members were asked to approve a motion recommending the implementing of his recommendations with the least possible delay. In his opinion the report would be most controversial and he suggested, however, that it should be put into operation as soon as possible. The Governor had stated that Government would be willing to hear how far that report could be carried out, which was just the detail of the report, which was not the substance of the report.

Mr. Wilson continued that many of the statements in the report were very questionable indeed, and the question whether it represented the settlement was vital to the country. The report mentioned "reasonable housing, permanent and feeding of Native labor but did not define this in any way. There were a lot of many recommendations that everyone could accept, for instance the question of the development of water supplies in the arid areas, that was to be provided through improvements were carried out at the expense of others inside Government. Obviously the Government was not in the development and improvement of water supplies was greater than the Resources than on European farms.

THE LEAGUE RESULTS IN BRITAIN

NAKURU'S NARROW VICTORY

Muthaiga Beat Air Force In N.D.C. Match

Two Rugby football matches were played in Nairobi on Saturday and both resulted in very narrow wins and produced some exciting goals. The first match was between Nakuru District and Royal Air Force by 5 points (one goal) to 3 points (one try), both being played in the first half.

At Parklands, Old Camlinian played a visiting Nairobi XV and air force players by a point's drop goal to 3 points (a penalty) gain on that match. The former goal was a very excellent play, even if the stand-off was not too high at times. Old Camlinian's Nairobi players were playing for some minutes with one short, did most of the great majority of the set pieces, but Old Camlinian were quick to break and their work in the line was very good indeed. Their strategy was very well thought out as a result. There was little to choose between the two sides and the great majority of the set pieces, but Old Camlinian were quick to break and their work in the line was very good indeed.

Time again the Nakuru hooker beat the referee's call for Coope to get his attack on the move but once again the hooking on, and hesitation left many chances for the Cambridge players to catch the ball and effect.

The Cambridge team kicking all at times, but the teams seemed to have a great deal of difficulty in the defensive, while in the handling was poorer. It did not seem to have been a good plan to open up the game with a long kick. The Cambridge players were very well organized and their work in the line was very good indeed. Their strategy was very well thought out as a result. There was little to choose between the two sides and the great majority of the set pieces, but Old Camlinian were quick to break and their work in the line was very good indeed.

After the interval

In the second-half Old Camlinian took up and attacked very well but Nakuru's defence was very strong and they were able to knock-on several times but they were not able to get the ball back. They were very well organized and their work in the line was very good indeed. Their strategy was very well thought out as a result. There was little to choose between the two sides and the great majority of the set pieces, but Old Camlinian were quick to break and their work in the line was very good indeed.

Every missed when he appeared to be through and then Old Camlinian missed a net too early penalty.

Time again it looked as though the Cambridge players were playing for some minutes with one short, did most of the great majority of the set pieces, but Old Camlinian were quick to break and their work in the line was very good indeed.

MUTHAIGA vs R.A.F. The Nairobi District Champions who visited Nairobi on Saturday, were a hard-fought and interesting game which the visitors were unable to win. The match was very well played and the scoring was very good.

BRITISH WARNING TO GERMANY?

Further Aggression Will Not Be Tolerated

IT IS BELIEVED THE BRITISH AMBASSADOR TO GERMANY HAS BEEN INSTRUCTED TO MAKE IT CLEAR BEYOND DOUBT TO THE GERMAN GOVERNMENT THAT BRITAIN WILL NOT TOLERATE A CONTINUANCE OF THE TOTALITARIAN POLICY OF AGGRESSION.

A similar statement is likely to be made by the French Ambassador who left Paris yesterday to return to Berlin.

London, April 25.—Sir Edwin Hambro, British Ambassador to Germany, who returned to Berlin in a motor car to attend to matters connected with an interview with the German Foreign Minister, then requested to take place at the German Embassy's headquarters in Berlin.

It is believed that the British Ambassador's visit to Berlin will be a significant one, as it is thought that the Ambassador may report that the German Government has been instructed to make it clear to the British Government that it will not tolerate a continuance of the totalitarian policy of aggression.

Kenya Settlers' Hospitality And Grit

Kenya settlers are noted for their hospitality. When they work they work, and when they play they play.
Kenya women have grit and determination and would stand solidly behind their men in case of war as they did in peace.
That was the opinion expressed by Lady Brooks-Popham speaking at the St. George's Society's dinner. Her Excellency was to have attended but was prevented from doing so owing to indisposition.

It is only natural that there should be great disappointment that the Kenya women were unable to attend the St. George's Society dinner at Nakuru on Monday evening. The statement of Mr. E. W. Bennett, in announcing the dinner, that "no one at all very grateful to Lady Brooks-Popham" might have been interpreted differently, the party showed its very great appreciation of her presence at the dinner.
Twenty 100 members and guests came down to an excellent meal at the Kenya Hotel. After lunch the women were taken to the King the Royal Family, and to Buckingham, and the Duke and Duchess of Devonshire, there were eight speakers.
Col. Griffiths, the President, after congratulating the ladies on their presence in Kenya, said that the women were doing a great deal of good in Kenya. He said that the women were doing a great deal of good in Kenya. He said that the women were doing a great deal of good in Kenya.

NJORO FOREST FIRE

Three trees which took an age to grow.
Have been the eye and brought the rain.
And now a fire has laid them low.
Till nothing but charred stumps remain.
No fruitless now to count the cost.
It useless now to place the guilt:
A woman's carelessness has lost.
That which a century had built.
Our children will not live to see.
Trees grow to such a stature here.

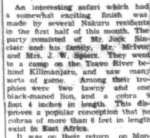

Must they be ravaged year by year?

Big Task For Scouts

Last Few Days To Help The Children

The East African Standard is happy to acknowledge today subscriptions to the Children's Fund totaling nearly another ten pounds. This is still being raised.

It has been decided, however, to close the appeal during the coming week-end and there will still be some little to go before the above figure is reached. It would be a fine accomplishment on the part of the community to wipe out the shortfall in the first half year, remembering that every five pounds makes one child happy and that the odd pound rose has its uses too.

KENYA PRESIDENT IN THE LAST WAR

To the Editor, "E.A. Standard," Sir—"Indifference" in your issue of 23rd inst. on the subject of the emigration of handiwork in a time of war was a most important issue. His Excellency the Governor has, I believe, appointed a Commission for this purpose with powers not only to control supplies but also to fix prices.

On the outbreak of the Great War the Government, Sir Henry Bell, appointed a committee with powers to legislate, and if necessary to recommend supplies for the military.

The Commission consisted of three officials and two official assistants, namely: Messrs. T. W. Wood and J. G. Logan of the Secretariat and Mr. J. G. Logan of the War Office. It was to be a permanent body.

Kenya, at that time, was not so fully self-sufficient as it is today, and its resources were not so large as they are now. It was therefore necessary to obtain supplies from outside.

Kenya was the best part of the Empire to be the source of all commodities with a considerable surplus in the War, and the poster of the nation.

As regards the Committee now appointed, I would suggest that the Chairman be an official, a specialist in the industry, or a representative of the industry.

Example To Hotels And Boarding Houses

ONLY £50 MORE

The Children had another good day yesterday.

Many people were thinking of them in a Nairobi private hotel, for instance, the residents gathered together and gave the Fund a fine feast.

Here is a last moment idea for other hotels and boarding houses.

The "East African Standard" wants now to make the Fund a complete success for this year as an other Fifty Pounds just sufficient, in fact, to make another ten children happy.

The Fund is closing at the end of the month and we feel sure that, following the Fairview example, the residents on our hotels and boarding houses alone can collect that needed Fifty Pounds this week.

Will the management in each try and see what can be done today?

Yugoslavia Would Have Welcomed A Guarantee, Too

Keen disappointment that Yugo-Slavia was omitted from the British and French guarantee for Greece and Rumania is evident in comments on the article in the "New Chronicle" special correspondent in Belgrade.

The Yugo-Slavs realize that they are isolated geographically and that the Balkan Pact in theory should bring them the help of Greece and Rumania in case of attack.

By occupying Albania and ordering the Albanians to accept an Imperial Turkish protectorate, the British and French Governments are in a position to bring the Balkan States into the pact.

PREMIER ON DECISION TO IMPOSE CONSCRIPTION

Essential In Order To Carry Out New Obligations

WAR IN THE BALANCE

In the House of Commons yesterday the Prime Minister defended the Government's proposed attitude to conscription as inevitably arising from the greatly changed circumstances of recent months.

He made a strong appeal to the Opposition to show the world that the country was united on this question.

"DO NOT WANT TO GIVE THE IDEA THAT I THINK WAR IS IMMINENT, HE SAID, "BUT I DO THINK THAT VERY LITTLE WEIGHT ONE WAY OR ANOTHER WAY DECIDE WHETHER WAR IS TO COME OR NOT."

The Government's decision has made a deep impression throughout the world and is generally accepted as an indication of the strength of British resolve to carry out all her engagements, in the belief that in that way the peace of Europe can be secured.

General Election Danger
Mr. Chamberlain said he would see the possibility of having general elections in the near future. He would like to see a general election as soon as possible.

The policy can also be extended to a year at a time by reserving the right of the Government to extend the conscription act.

Defence in Committee
In the House of Commons this afternoon the Government's decision was approved by a large majority.

The Opposition Leader, Mr. Baldwin, said that he was not in favour of conscription as a means of increasing the size of the army.

Repulse To Remain: Other Plans For Royal Transport

The British Government has decided it will be preferable for His Majesty's ship Repulse to remain in European waters.

Defences Of Malta And Gibraltar

In reply to Mr. R. J. Boothby (C. E. Aberdeen) who asked in the House of Commons yesterday whether the Government was satisfied that the Fleet defences of Malta and Gibraltar were now in a condition to enable them to resist any hostile attack, Mr. G. H. Shakespeare, Parliamentary and Financial Secretary to the Admiralty said that he could give an assurance that all necessary measures were being taken to ensure adequate defence of the Fleet bases of Malta and Gibraltar.

ITALY'S RELATIONS WITH EGYPT

Non-Aggression Treaty To Be Negotiated?

Cairo, April 23.—Following an interview with the Prime Minister, Mahmoud Pasha, the Italian Minister told the press that relations between Italy and Egypt were friendly and that both countries would strive to their utmost to keep them so.

He added that conversations which would take place in a month's time would concern the boundaries between Abyssinia and the Sudan and between Egypt and Libya.

Talks for the conclusion of a Treaty of non-aggression would also be held then. The conversations would first be conducted between Italy and Britain and afterwards between Italy and Egypt.—(Reuter).

Food Supplies In Germany

SCARCITY OF FATS AND BUTTER

A careful study of the food situation in Germany which appears in the London Standard, indicates that economic weakness, particularly in respect of reserves of foodstuffs, is not so brilliant as the claims of German newspapers would seem to indicate. The writer says that the German consumption of the chief articles of food per head of population has fallen since the "war" years of 1918-19. The consumption of fats of all kinds is rather below that of 1928, and the consumption of butter is the highest post-war level...

External Trade Of Kenya And Uganda

SATISFACTORY POSITION AT CLOSE OF 1938

Despite the fall in total values of imports and exports compared with 1937, Kenya and Uganda trade figures at the close of last year revealed a satisfactory position of the external trade of the two territories.

Quantities of produce exported were in most instances in excess of 1937 figures—there was, however, a decrease in commodity exports and the position is not indicative of any setback to the agricultural and industrial activities of the countries.

The annual trade report of Kenya and Uganda for the year 1938, commencing on January 1st, 1938, and ending on December 31st, 1938, shows that the value of imports and exports at the close of the year was 20 per cent. higher than in 1937. LOCUST OUTLOOK

Young Maize Damaged In Uasin Gishu

The locust situation in Kenya on April 27 is reported that the area of locusts is now confined to the Uasin Gishu district.

It is also reported that organizations and private individuals may find it possible during the next month or two to arrange ways and means of providing jobs, such as has been done in the past, for bridge drives and the like.

The response has been excellent, but the amount raised still falls about Shs. 11,000—short of the total which would have helped the Committee to do something more than just meet the camp expenses. It is necessary to build up a reserve fund, and as there had been no appeal for two years, it was hoped that this year the public would be particularly generous.

There is still time to remember that £5 will make one child happy, and that the odd £1 note will be very useful indeed.

INDIAN AND HIGHLANDS

Congo Basin Treaty Quoted

Emphasizing a point raised by the Indian members of the recent session of Legislative Council in their proposals to the Government, the U.K. Indian members have addressed communications to the Indian Council of Africa and the Indian Council of Africa.

The substance of the communications, indicating the assistance of the Indian members of the Legislative Council, is that the Government should consider the proposals of the Indian Council of Africa.

It is concluded by Congress that the controversy, by the High Commissioner, has been of Article 1 and 4 of the Treaty which read:

"ARTICLE 1.—In the territories specified in Article 1 and placed under the authority of the High Commissioner, the Government of India shall have the right to make laws, subject only to the limitations specified in Article 2, for the purpose of public security and order, and for the purpose of maintaining the peace and tranquillity of the territories, and for the purpose of the execution of the laws of the Government of India."

The Daily Telegraph has a headline and a photograph of an operative sitting at his instrument, with the caption "Casting Lead for May 1". It says that Mr. Wilson has now introduced a major session—the other three were minor sessions—of the Indian Council of Africa.

It is concluded that the territories specified in Article 1 and 4 of the Treaty include the Highlands of Kenya.

It is generally admitted to write of the level of German events during this autumn is awaiting Herr Hitler's speech before the Reichstag. MUSKIE'S CHOICE

By the Rt. Hon. WINSTON CHURCHILL P.C., CH. MP.

Speculation has been rife in many countries about whether Signor Mussolini will carry Italy into a World War on the German side. Most people will think that after what has happened in the last fortnight this question has already been decided. The Anglo-Italian agreement has been violated in the most barefaced manner. There is not one single point upon which faith has been kept. Italy promised to reduce her army in Libya by 30,000 men. She has taken them away and then sent them back. Italy promised to withdraw her troops from the Sinai at any time when the war was over. The war is over and the troops are still there. She promised not to change the status quo in the Mediterranean, which included and was understood to include the Adriatic. She has now laid violent hands upon Albanian independence. She promised that all major troop movements would be notified beforehand to the other big contracting party.

CONTAGION IN THE SENATE.

While the word was being raised in Europe there has been a military region of this modern type of warfare in the Senate. I can remember no previous occasion when the Senate of the United States has been so divided. It is as if a contagious disease had been introduced into the Senate. It is as if a contagious disease had been introduced into the Senate.

The Italian Invasion of Albania

By Marcel Ray FORMERLY FOREIGN MINISTER OF ALBANIA

EVER since the first days of April, Albania, the youngest, the poorest, the most persecuted, the most neglected of the nations of Europe, has been the theatre of a military and political drama. Italy, by her invasion of Albania, has laid herself out to make a precedent. She has shown that she is not content with the Balkans, but that she is determined to make a precedent. She has shown that she is not content with the Balkans, but that she is determined to make a precedent.

At a fortnight ago the Corinthians played their last match before their amalgamation with the Royal Navy and Royal Marines at Chatham, and although they showed flashes of brilliance which brought back memories of their former glories, they were beaten by one goal to none.

It was a very disappointing that the Corinthians, who had a fairly representative side, did not win or at least draw the match. Throughout the season the Navy have suffered from a lack of their own staff, and it would seem that the introduction of Commandant Hearn into the centre-forward position has done much to help the team.

At the start the Navy's half-backs were not so good as they were on the previous day, and leading to a goal. The Navy's half-backs were not so good as they were on the previous day, and leading to a goal.

Pioneers of East Africa

Lord Lugard in British East Africa and Uganda

by H. R. Tate

THE author of "The Rise of a Great East African Empire," which follows the record of his own life, and which has reached its eighth stage at the end of 1925, has, having proceeded to a new stage of development, now undertaken a new and more comprehensive study of the African continent, and has issued a new volume, "The Pioneers of East Africa," which is a history of the continent from the earliest times to the present day. The book is a masterpiece of research and scholarship, and is a must for all who are interested in the history of the continent.

Lord Lugard's career in East Africa and Uganda is a story of exploration, discovery, and conquest. He was one of the first to venture into the interior of the continent, and his achievements are well known. His book, "The Pioneers of East Africa," is a detailed account of his life and work, and is a valuable contribution to the history of the continent.

In SOUTH AFRICA - Last Week

While General Hertzog is Evasive, General Smuts is decisive

SOUTH Africa has two capital languages, two official languages, two religions, mutually contradictory, represented respectively by the leader and deputy leader of the Government, Mr. Hertzog and Mr. Smuts.

While General Hertzog advocates a policy of appeasement towards Germany, General Smuts is a firm believer in a policy of deterrence. Hertzog's policy is based on the idea of "appeasement," while Smuts's policy is based on the idea of "deterrence." Hertzog's policy is based on the idea of "appeasement," while Smuts's policy is based on the idea of "deterrence."

Look how healthy and happy I am! And to think that only six months ago I felt utterly wretched! The doctor recommended SANATOGUE. I began taking it at once. It seemed as if a stream of new life flowed through my veins. Now I am really strong and healthy, full of energy and vitality, and can enjoy my life again.

For the last time I was ill. I was so weak and so tired that I could not get up. I was so weak and so tired that I could not get up. I was so weak and so tired that I could not get up.

MOTURING AND AVIATION SECTION

The King Visits Aircraft Factories

THE King's tour of aircraft factories in Lancashire has extended his first-hand knowledge, gleaned at a series of visits during the past few months to other centres of aircraft production, to a section of manufacturing industry which is boosting British war-plane output month by month.

Stray Thoughts About MOTURING

LAST WEEK'S BRIEF MENTION was made of the holiday trip by road from Johannesburg to the very young South Africans. It was made in connection with what has been a youth unpleasant to travellers not endowed with the enthusiasm of youth, the pair following the road right through the Transvaal, Port Natal and Natal. As a motorist, I am sure that the road is a most interesting one, and the pair were not surprised to find the road conditions are steady in the extreme and progress assured. What made a journey so made by motorist in the one case and a hazardous African tour in the other it can be very well understood. The two travellers were Messrs. A. O. McLellan, an Air Force motorist, and G. T. Moore, in the Avian plane and both enjoyed themselves immensely.

THE KING OF JOHANNESBURG

THIS KIND OF JOHANNESBURG is not for motorist's eyes. It is a city of a million people, and it is a city of a million people. It is a city of a million people, and it is a city of a million people. It is a city of a million people, and it is a city of a million people.

RUNNING

New Shell Motor Oil contains an exclusive mineral oil-soluble concentrate which prevents the oil from draining off when the engine is at rest. It forms a tough protecting film against damage from corrosion caused by condensation of water, and when the engine is running, the oil film remains unbroken at the highest temperatures and gives complete lubrication to pistons and bearings.

But most engine wear occurs on starting—before the oil has had time to circulate properly—and it is here that New Shell Motor Oil gives the greatest security. Owing to its wonderful clinging properties there is an oil film already present at the moment of starting—even after the engine has been idle for some weeks.

British Standard HONESTY IN PUBLIC POLICY

An Evanescent Government

MORNING, APRIL 23, 1938

The Government of Kenya has had a long and stormy existence. The reason for its present position is the subject of the debate in Parliament last week on the new governing policy which was adopted by a firm which, trusting in the honesty of the Kenya Government, was invited to invest in the country for a purpose wholly unrelated to a task which would normally be undertaken by a Government.

The Government has shown the utmost importance to the future of the Colony, and has endeavored to concentrate the resources of the State Reserve and ordered repayment for authority. What is the narrow legal interpretation of the agreement entered into with Messrs. Lobing and Co., and how should it be interpreted? The Government has the right to back out of it, but it has not done so. It has entered into a contract which it has not actually repudiated.

The Government has, in fact, been warned by a number of the members of the Legislative Council last week, when, asked a direct question regarding supplies of stock, the Government refused to answer it for some minutes to attempt to give any answer—because it did not know the significance of the question, which cannot be overestimated.

The Government has been asked to resign, and it has refused to do so. It has, however, had to take a number of steps to bring about a change of Government, and it has done so with a number of steps.

The Government has been asked to resign, and it has refused to do so. It has, however, had to take a number of steps to bring about a change of Government, and it has done so with a number of steps.

to be given that supplies will be available within a time and it is not improbable that another two years will elapse before the Government is able to resume its normal activities. It is a pity that the Government has not been able to do this, and it is a pity that the Government has not been able to do this.

It is a pity that the Government has not been able to do this, and it is a pity that the Government has not been able to do this.

DEBATE

The "Cavalier Treatment" of Liebig's

Government Charged With Dishonesty

I am interested in the wide variations of the pugilistic methods of my hon. and learned friend the Acting Chief Secretary, Mr. Harcourt, from the offensive to the stalling, according to whether or not his opponent is still in the ring and who he is.

This pugilistic method cannot only evade methods that are of complete skipping under the ropes and dissembling into the character of the method of facing this charge of dishonesty has been completely evaded by Government.

This was one of the challenges of an intricate reference of Government's methods—how was it evaded by Government? The reference of Messrs. Laidlaw Ltd. and the London money market—made in the Legislative Council by Major Gray during a debate on a motion.

The Hon. Chief Secretary Government's conduct in reference of Messrs. Laidlaw Ltd. and the London money market—made in the Legislative Council by Major Gray during a debate on a motion.

Government's Report

In the course of a statement on the conduct of Government, the Chief Secretary and Government reported that the Company had had to close down but hoped that at the end of six months would be able to resume operations when they could not get any more consideration that they had already had from Government.

Armed with a copy of correspondence which had passed between Government and Laidlaw Ltd., an agreement which had been entered into and subsequently broken by the Major Manager and his head office, from which he could extract, Major Gray opened by saying he had no objection to the "cavalier" treatment rendered to Liebig's in entering the appropriate accounts which meant "sweeping" "under the carpet" the "shame" which had been done.

The documents he would quote all letters and documents which had been sent to the Government in an action on the part of Government to get the matter straightened out. He mentioned, however, that the Chief Secretary would not be described as "dishonest."

He hoped that would be taken into account by Government. He said it could produce revenue to make a charge.

A Review

Major Gray opened at length in the course of the establishment of Liebig's, commencing with a reference to the representatives of Liebig's in 1922 when they had been in a position of complete dependence. Then he told us in 1929 with the intention of an Ordinance for the continuation and improvement of livestock and the making of roads in this and then they had had the report of the Dental Hall in 1933 with its effect on the Government for the reduction of the rate of the interest on the loan and the preliminary essential of a

Father of Saviour

After reading from further on the report of the Secretary of the Government, the Hon. Chief Secretary said that in March last in reply to a question put to him by the Hon. Chief Secretary, he had said that the Government was not in a position to give any more consideration to the Company's request that the following text be inserted in the report: "That it is a perfectly clear case of complete collapse on the part of Government."

There had been many discussions and it was suggested that Government should make steps to find out exactly what had been done and the Director of Veterinary Services should be asked to investigate what had been done at Liebig's. The result of the investigation was communicated to the Hon. Chief Secretary and he had said that the Government would not give any more consideration to the Company's request that the following text be inserted in the report: "That it is a perfectly clear case of complete collapse on the part of Government."

THE ST. GEORGE'S SOCIETY'S Kenya Settlers' Dinner at NAIROBI

Kenya Englishmen Discuss the Colony's Problems

The Nairobi branch of the Royal Society of St. George on Saturday night celebrated the Day of the Patron Saint with traditional hospitality and speech-making.

The care of the land, charges of neglect of the heritage, and anxiety about the trend of Native Policy and the need for an enquiry, programmes for an enquiry and the future in the spirit and the future of Kenya were keynotes of the address.

What really will be the result of the fighting operations? The Empire was to be defensive. The true function is to achieve lasting victory in the shortest possible time. It is time that we are taking the offensive and by giving the enemy a damned good kicking. (Applause.)

The R.A.F.

Wing Commander G. W. England, who referred to the speech of His Majesty King George VI in which His Majesty had said that the British Empire was the greatest of the world, said that the British Empire was the greatest of the world.
