HERR HITLER'S REPLY TO MR. ROOSEVELT

Rejects Proposals For Peace Conference

Each Country Invited To Approach Germany For Terms

TREATIES DENOUNCED

Herr Hitler's anxious awaited speech to the Reichstag was delivered yesterday and occupied about two and a half hours. IT INCLUDED DENUNCIATION OF THE ANGLO-GERMAN NAVAL TREATY AND OF THE TREATY OF NON-AGGRESSION BETWEEN GERMANY AND POLAND.

The reasons given were in the first case that Great Britain apparently no longer had the conviction that war with Germany would never again become possible, and in the second case that Poland had broken her Treaty with Germany by accepting the British guarantee of her independence.

Several passages of the speech were devoted to points made by President Roosevelt and were preceded by a long statement of the German point of view in regard to her recent acts. He declared that these acts were neither contrary to the Munich Agreement nor to his agreement with Mr. Chamberlain and that they had all been accomplished without war.

In reply to Mr. Roosevelt he said that the fear of war was caused only by agitation on the part of the Press. He denied that Germany was threatening anybody, rejected the suggestion of a conference, criticised American policy, suggested that the United States should remove economic barriers and that President Roosevelt should redeem the promises made by President Wilson.

Finally Herr Hitler suggested that the States named in the President's message should approach Germany separately on the subject of any measures to be taken and reach an agreement which must however be on a reciprocal basis.

He declared that he had no claims against Britain except the return of the former German colonies and for that reason he regretted the recent developments in British policy because he had always believed in friendship between the two nations.

Herr Hitler started his speech by referring to an agreement which he had concluded with what he called "the strange countries." He stated that the German people had been deceived by the British and American propaganda which had led them to believe that they had been invited to join in the new war.

Herr Hitler went on to call attention to the fact that the German people had been deceived by the British and American propaganda which had led them to believe that they had been invited to join in the new war.

Ordered To Listen

The whole German Congress was ordered to listen to Hitler's speech. He said that he had been invited to join in the new war.

Speaking both to the Reichstag and to the German people, he said that he had been invited to join in the new war.

74 MILLION MEN AVAILABLE FOR FIGHTING SERVICES

Commons Approves Conscription

EXCLUDING THOSE IN RESERVED OCCUPATIONS (AND THE NUMBER HAS BEEN GREATLY INCREASED AS THE RESULT OF REVISION) BRITAIN HAS SEVEN AND A QUARTER MILLION MEN AVAILABLE FOR ONE OR OTHER OF THE FIGHTING SERVICES.

The House of Commons on Thursday night passed the Government's motion approving conscription.

Several speakers criticised the limited character of the measure and Mr. Churchill thought more age classes should have been called up.

In the course of his speech in the House of Commons on Thursday night the Prime Minister said that Britain was ready to fight to the last man and the last shilling.

Mr. Churchill, he thought that many age classes should have been called up and that he agreed with the Opposition view that conscription should be extended to include all men fit to bear arms.

Britain "Stands On The Side Of General Need"

London, April 22.—The British Government has today issued a statement in which it says that it stands on the side of the general need for food in all parts of the world.

The statement was issued in the House of Commons after a long debate on the subject of food supplies.

The Minister of Agriculture, Mr. Morrison, said that the Government was aware of the serious situation in many parts of the world, particularly in the Near East and in the Mediterranean region.

He said that the British Government was doing all it could to help to meet the needs of these areas, and that it was in constant communication with the United States and other countries to discuss the problem.

Mr. Morrison also said that the British Government was determined to do all in its power to ensure that the United Kingdom was able to meet its own needs, and that it was not prepared to allow any action which might result in a shortage of food for its own people.

Control Of Food In War Time

PLANS WOULD BE READY AT OUTSET

London, April 22.—The general method envisaged in the Government's plan for the control and distribution of food in time of war is the immediate setting up of a Ministry of Food and the issue of up-to-date versions of schemes which would operate immediately at the outbreak of the Great War.

An important difference, however, is that the Ministry of Food would be the sole authority of all foodstuffs in the country, and the sole purchaser of all items supplied to the army, the navy, and the air force, and the retailer from the wholesale trade.

The plan also provides for a reasonable margin of profit being permitted in the wholesale trade, and for the Government to have the right to control the price of foodstuffs, and to issue licences to the wholesale trade to supply the public.

World Views On Hitler's Speech

FALSE STATEMENT OF POST-WAR HISTORY Herr Hitler's speech to the Reichstag has revived on the whole a very unfortunate Press reception except of course in Germany and Italy.

The Times declares that the key sentence is: "I have taken no step which violated the rights of others" and declares that this audacious statement begs every question of the First World War.

Both the Prime Minister and the Foreign Secretary were in constant touch regarding it last evening, and while official comment is reserved, it is inferred circles the general reading of post-war history is reviewed, and his determination to ignore or refuse the offer of President Roosevelt in his new endeavour to restore economic co-operation to the world is deplored.

The Times says "I do not trust as Herr Hitler claimed yesterday, that Germany surrounded in 1918 on the strength of President Wilson's assurances. Germany gave up resistance after having been careful examination in official circles."

ODO-RO-NO
 fulfills a social ambition often so close to a condition
 that drives away even sincere admirers—perspiration
 odour.
 Deodorants that merely deodorize are not made to keep
 your underwear dry. No matter how little you perspire,
 some moisture always collects on the armpole of your
 dress. This moisture grows stale, and when next you
 wear the dress, the warmth of your body brings out a
 disagreeable odour.
 Odo-ro-no stops perspiration—your own doctor will tell
 you that it is absolutely harmless to stop perspiration in
 small areas. You can rely on Odo-ro-no to protect you

employees of the Government
 departments in Kenya at the
 monthly payment of wages; and
 he will consider the expediency
 of weekly payments?" The sub-
 ject is innocent enough, and the
 very fact that it is so harmless
 encourages a belief that it
 can be spoken by a man who has re-
 ceived the confidence of a free
 people in Catoch's hands. How
 can it be true when the speaker
 throw of the Catoch has shown a
 white continent, and has been
 step and formal. Britain, which
 equally and unopposedly de-
 clare of policy in the defence of na-
 tional independence, and the
 whole course of British policy—
 instead of the "road back" to
 goodwill, by which it has incurred
 the "serious disadvantage" in the
 ranks of the African Civil Ser-
 vice in Kenya on the subject of
 weekly wages. If there is, it is
 no reason why that should be
 capable of local dispensation by
 the use of the Government's cer-
 tainly available for the discus-
 sion between the Government and its
 servants of matters of this nature
 at interest respecting terms of
 employment.

What the country will really be
 interested in is not the fact
 that it was not even by fault
 to arouse suspicion, the ease of
 the arrangement is not to be
 considered by the Government and
 if, so, why the proposal
 (which seems reasonable enough)
 is by no means new to be
 rejected.

There should be no need for
 sections of the community, and
 particularly those in the employ-
 ment of the State, to take their
 grievances outside the Colony and
 by individual members of the
 House of Commons. Kenya is
 the place where, in the first
 instance, these matters should
 be raised and the African Civil
 Servants have at their disposal
 not only the ordinary Servants
 channels but also the Members of
 Unofficial Members of the Legis-
 lative Council who look after
 African interests. Indeed any
 member of the Legislature
 would be glad to ventilate any
 grievance which may exist.

It is certainly seems strange and
 not a little surprising that a
 question which relates to the
 terms of employment of the
 African Civil Servants in Kenya
 should have been raised by a
 Member of the House who is
 not a member of any party and
 whose political and social
 beliefs are not held in
 favour by those who have res-
 ponsibility for the Government.
 It is interesting to know how and
 by whom these questions are
 arranged.

Where Danger Lies

In Paris, the general opinion
 seems to be that the speech is
 not an aggressive one might have
 been expected to give rise to some
 alarm. It is true that the
 denunciation of the Anglo-German
 Naval Treaty is regarded as not an
 occasion for surprise or alarm, and
 it is considered that the character-
 istic of the speech is to show
 where the danger lies.

The German newspapers complain
 that comment on Herr Hitler's
 speech is unreasonable. They argue
 that comment has been made
 in the United States there have
 been no newspaper reports of
 the speech as a whole, and that

 reasonable.

Government's Policy Is To Encourage Them

The following written answer to a question asked in the House on May 1, 1938, by Mr. C. G. Clarke:

Just because this is the beginning of a new month, and people have a little money to spare, the "East African Standard" is continuing the Children's Appeal for one more day. It was also hoped that the example last week of a collection made by the residents of one private hotel in Nairobi would be followed in a competitive spirit by other hotels and boarding houses, but nobody seems to have had the energy to make a start.

THE TWO DRAGONS ABROAD IN THE WORLD

[STANDARD] Correspondent
Despite heavy rains and washed away bridges, the members and press attended the annual meeting of the Society of the British Empire in London.

The speaker, in a stirring speech, pointed out the vital importance of a uniform high standard of education to be maintained by the British Empire.

INDIANS AND THE HIGHLANDS

ARTICLE I

British Statements of Policy For 42 Years

Reserved Indian claims to be allowed to purchase agricultural land in the Highlands of Kenya have attracted the attention in the columns of the "East African Standard" since the movement began with the publication of the Two Orders-in-Council two months ago.

Major F. Cavendish-Bontland, Elected Member of the Kenya Legislative Council for Nairobi North, has summarized the official records of the history of the policy of reservation of the Highlands and sets out the results of that research, which covers a period of forty-two years.

This is the first of a series of two articles and deals with the official statements which have been from time to time, tracing the various aspects of the policy and the frequent re-affirmation of the principle by the Imperial Government.

The second article, which will appear tomorrow, will deal mostly with the Highlands issue in relation to what are popularly known as the Congo Basin Treaties.

(By Major the Hon. F. Cavendish-Bontland, M.L.C.)

THE first serious proclamation of the British Government's policy in the Highlands of Kenya was made in 1895 when the Hon. Mr. Chamberlain, then Secretary of State for the Colonies, announced in the House of Commons that the Government intended to reserve the Highlands of Kenya for the benefit of the African natives.

The first definite statement of the policy was made in 1902 when the Hon. Mr. Chamberlain, then Secretary of State for the Colonies, announced in the House of Commons that the Government intended to reserve the Highlands of Kenya for the benefit of the African natives.

It's not the price you pay that matters most-it's the *Value* you get for your money

That is why experience invariably proves that it pays to fit DUNLOP Tyres, whether for personal use or produce conveyance.

Yet the price factor is important.

Here are two examples of DUNLOP value—low in first cost and yet challenging all competitors when results are considered. It is the service you receive that counts—the longest mileage free from trouble, under the hardest conditions. That's why

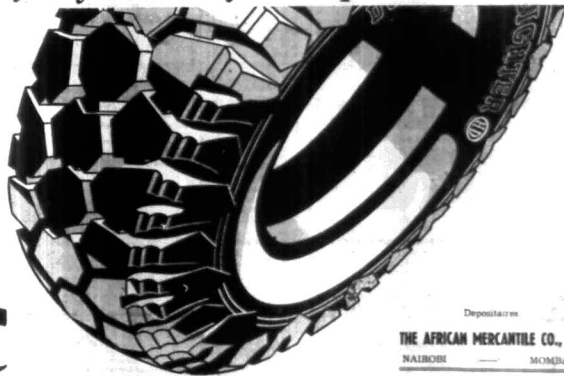

DUNLOP 'TRIPLE STUD' TYRES for cars and **DUNLOP 'FREIGHTER' GIANT (H.D.) TYRES** are definitely the best tyres you can buy at the price

The rugged superficial appearance of these tyres reflect their inbuilt strength. See that deep-moulded tread of hard yet resilient rubber; the wide central row of studs ensuring easy traction, note the bold shoulder buttress, the stout side walls.

BUT THERE IS ONE GREAT FEATURE YOU DO NOT SEE—the multi-corded breaker strip, with far more cords to the inch than on any tyre at a competitive price. That means more strength and longer service still.

ODO-RO-NO

MAKES YOU SOCIALLY SAFE!

Failure in a social situation often is due to a condition that drives away even the most admiring—permeation odor.

Deodorants that merely deodorize are not made to keep your undergarms dry. No matter how little you perspire, some moisture always collects on the armbands of your dress. This moisture grows stale, and when next you wear the dress, the warmth of your body brings out a disagreeable odor.

Odo-ro-no stops perspiration—your own doctor will tell you that it is absolutely harmless to stop perspiration in such areas. You can rely on Odo-ro-no to protect your undergarms. If you want to be completely immaculate—use Odo-ro-no.

SPINSTERS' CLAIM FOR PENSIONS AT 55 TURNED DOWN

Spinsters have not a strong case for pensions at 55 in the opinion of the Committee on Pensions for Unmarried Women.

The Committee's report, issued yesterday, shows that it would cost £4,000,000 a year.

But it granted, "it would be impracticable" to withhold pensions from other classes of insured women at the age of 55.

The other class of insured women to whom the Committee refers includes the wives of pensioners at 55.

As to the argument that industrial conditions have made it impossible to work at 55.

But on the basis of the general evidence given to the Committee, it is not possible to say that the women in question are in a worse position than the married pensioners at 55.

Understanding Widows The widows of men who have died in the service of the State are entitled to a pension.

Ex-Kenya Planter Presents Army With Problem

Ex-Kenya planter has been presenting a beard, which has not been removed to perfection. During the last few days he has presented the National Service bill. He went to the Kenyan Field Water department to join up as a "Private."

London Irish Brigade has been protesting the matter while the Government has been protesting the matter. The Government said it would have to come of this finally the officers decided to allow the beard to remain.

SPINNERS' CLAIM FOR PENSIONS AT 55 TURNED DOWN

London, April 25. Spinners have not a strong case for pensions at 55, in the opinion of the Committee on Pensions for Unmarried Women.

The Committee's report, issued yesterday, shows that it would cost £4,000,000 a year.

But, it granted, "it would be impracticable" to withhold pensions from other classes of insured women at the age of 55. This would increase the cost to £14,000,000 a year.

The other classes of insured women to which the Committee was asked to refer, were: (1) printer's husbands, (2) the widows of persons aged 55 or over, (3) widows of persons aged 55 or over, (4) widows of persons aged 55 or over.

As to the argument that industrial conditions have changed since the 1911 Act, the Committee said it was not possible to find any statistical support for this contention on an examination of the state of insurance, rates of unemployment, sickness and mortality, or of the position of the insured women.

A large proportion of these spinners who remain work at advanced age are in order to look after their children.

But on the basis of the general evidence given in the Committee's report, the Committee has concluded that it is not possible to grant pensions to women at 55.

The view is expressed that the Government should continue to provide for their own benefit as widows, but the Committee has recommended that the pension for spinners at 55, on the basis of parity with the "widow" (1925), is not a strong one.

Sir Alice Bailey's Farewell To S. Africa

Sir Alice Bailey has embarked for England. She has been in South Africa for some time, and has been very successful in her work.

I have no longer in the land and the other one in South Africa. She has been very successful in her work.

The War Office had heard about the matter. It is reported that the War Office had heard about the matter.

When I left England, believing that the policy of Hitler and his associates was to make war against France and England, I went to South Africa.

Today, when the world is proceeding towards a new era, I feel that I have done my duty.

Walking arm-in-arm along the road, I saw a young man and a young woman. The young man was holding the young woman's hand.

The tragedy was not a tragedy. It was a tragedy. It was a tragedy.

It might be that the other side would never come out, on the other hand, I should never believe any further in the power of the heart which could not be trusted out but which did not fit its opponent.

ARTICLE 2

Position Of Congo Basin Treaties

In the second of last article on the subject of Indian claims to the Congo Basin I endeavored to show that the Congo Basin Treaties are the result of a compromise between the Indian and the European powers.

He quotes the relative clauses, points out that the creation of Native Reserves and their absolute protection by Order-in-Council is a compromise between the Indian and the European powers which has not been challenged by the Indian leaders, and also observes that the various assurances to white settlers by the Imperial Government were given after the Congo Basin Treaties.

R. A. F. WIN AS THEY LIKE

Uninspired N.D.C. Match At Muthaiga

Royal Air Force won practically all the matches they played last season against Old Cambridge, played at Muthaiga on Tuesday evening and after leading by 18 points (two wickets) in the second half, finally making by 11 points (two goals and a try) to win.

The leading in general and in the second half was well maintained by the team which they defeated by 18 points. The winning try was scored by one of the leading players, a young and promising player.

The playing of the Old Cambridge was uninspired and they were unable to get any points against Muthaiga. The leading movements of the attack, except Anderson and R. A. F., appeared to be suffering from nerves.

Both sides have lost several good players since the start of the season and while not as experienced as some of the players who were with them in the previous season, the team has been able to put up a good performance.
