MILITARY PACT BY AXIS POWERS

Outcome Of Two Days Talks In Milan

The Rome-Berlin Axis is now a military alliance between Germany and Italy. But while Berlin takes the view that this is a step in the line for the Danubians, it is insisted in Rome that Italy has not undertaken any new commitments.

Mussolini's Mouthpiece declares that the new pact is a contribution to peace. He also says that it is up to Poland to make the next approach to Germany.

Rome, May 8.—The Rome-Berlin Axis has been transformed into a military pact with the agreement which was signed at Milan by Benito Mussolini and Adolf Hitler, the Führer of Germany.

TANGANYIKA TODAY Now Getting on With Defence

The pressure of public opinion both in Tanganyika and in Kenya has now brought the Government of the Mandated Territory to draw aside the old-fashioned and obsolete secrets of its defence preparation. Yesterday we published a lengthy memorandum which was a long way towards satisfying the anxiety of the people. It is justifiable to say that if the Government had not been taken the public into its confidence earlier, as it should, it would have damaged the charge of the Government with reluctance to be frank and open regarding the past.

Zain then Agent THE LENS LTD. NAIROBI. No. 211. Standard Diary

also what has been done officially for their protection and security.

On the military side considerable preparation has been undertaken, not we imagine on the initiative of the military staff but directly by the military experts, and though the Government may take credit for these precautions, the fact remains that it is more by the civil preparations and organisation than by the military measures that the Government in the light of present-day facts should be evaluated. The central staffs of the East and Central Africa Dependencies worked out their plans in the closest collaboration and the effectiveness of their action strengthens the plea the East African Standard uttered only a week ago for the same coordination in civil matters and in the direction of operations as a whole.

Apparently reserves of Native troops will be sent to Tanganyika, and probably throughout the whole of East Africa, and though the military authorities are doubtless working hard at the problem a common policy seems necessary to ensure that the military measures do not overshadow African manpower which is available for service. Under one very shorty the East African Governments are able to report that they have overcome the serious difficulty which the Tanganyika Government discloses in a sentence. The Territories cannot face difficulty with the Tanganyika Government as complete as they should be. There was time during the last war to raise and train about thirty battalions of the King's African Rifles. Nobody any-where thinks there will be time today for the same method. The reserves should be in training now. To provide officers for them is the real purpose of the Kenya Regiment. It would be a serious blow if, in the absence of property trained and equipped Native troops, the small military force of the East African Governments were to be called upon for an emergency. The East African Governments have drafted the importance of the problem of the recruitment of a special force of officers for the Government of the Legislative Council to give it prompt effect of waiting for the normal date of the next recruitment has been taken in advance of the legislation so far as the Police is concerned and there is an action for military reserves and for the training of the necessary European personnel. The creation of a force of special constables is a wise step to deal with any possible internal disturbance—which is always a factor to be reckoned with in Tanganyika—but we can only hope that in consulting and training them the Government will be having regard for the real uses by which the limited European personnel in the country should be put to work.

The weakest link in the Tanganyika chain is the organization of the emergency force. A man-power committee has only just been formed and if it cannot operate properly it can only do so on the basis of a central National Register. After three months only 1,450 volunteers have been registered and classified. How many women are included is not disclosed. The man-power register which has been well on its way before such schemes as special constabulary were applied, if the risk of using the wrong men for the tasks is to be avoided, the Kenya Defence Force legislation responses on the community the organization of the emergency force, and that principle ought also to be considered in Tanganyika.

Nor should the Government be satisfied with offers by firms and individuals of transport and other services. It is stated in the memorandum that arrangements for assuming "a measure of official control" in a major emergency have been completed, if that control is to be effective it should embrace plans which will render the voluntary offer of such essentials as transport extremely unnecessary; the official control of all supplies and available resources in a private ownership. The Government has that course in mind, although it becomes necessary, it would be wiser now to make plans which give control a real meaning. But the Government has some distance in essentials, The appointment of a Food Controller, working with committees throughout the country, the consideration given to the problem of feeding the population locally on a self-sufficient basis, and the preparation of plans for expanding the production of essential commodities are some of the things that the Government of Tanganyika is giving rapidly into line with its approach. Much detail work in selecting and advising the necessary personnel has apparently been carried out, though here again we hope that the needs of the front line in personnel will not be sacrificed to a ponderous organization at the back and in Government offices. We shall hope to hear from the Government of Tanganyika as it takes active and successful steps to mobilize the whole of the Territory and that, if the voluntary system is insufficient, it will take such steps as are necessary to secure the position.

Meanwhile we suggest one more to all the East African Governments the obvious value of establishing a central coordinating authority for the employment of men and materials, irrespective of territorial boundaries. A committee should be set up to co-ordinate the employment of men and materials, irrespective of territorial boundaries. A committee should be set up to co-ordinate the employment of men and materials, irrespective of territorial boundaries. A committee should be set up to co-ordinate the employment of men and materials, irrespective of territorial boundaries.

Dar es Salaam Chamber's Development Plans

Details of other proposed development schemes for Tanganyika are set to be made known, the recommendations put forward by the Dar es Salaam Chamber of Commerce and Agriculture will take a prominent place in matters for public discussion.

The Chamber's Memorandum, which has been presented to the Central Development Committee, puts Closer Union of East African Dependencies in the forefront of its aims.

Non-Native settlement also bulks largely in the Dar es Salaam Chamber's proposals and in many aspects of development of the present Prime Minister, Mr. Neville Chamberlain.

The Dar es Salaam Chamber of Commerce and Agriculture has presented a memorandum to the Central Development Committee on Development of Tanganyika Territory.

Until the present widespread opinion that the Territory is designated as a development area, the Chamber's proposals are of a nature to be of assistance to the Government in its plans for the Territory.

Ladies Needed To Help On Friday

A KENYA TASK

On May 12—next Friday—there is to be held in Kenya a Flag Day to raise funds for the Red Cross work in the Colony.

Friday being Florence Nightingale Day, has been chosen for the opportunity to the purpose of this special appeal to the ladies.

At present an inadequate number of ladies have come forward to sell flags and it is important that the Red Cross Day party be completely successful.

Red Cross work was originally started in the Colony in 1922 and for two years was financed by the East African Women.

With the present continuing state of emergency the burden has grown very heavy, and if the tasks are to be continued they must be, help is needed from the public to meet the cost.

MAN POWER IN KENYA

To the Editor, "E.A. Standard."
 Sir—In England, Mr. Chamberlain's "back to work" campaign in connection with the proposed conscription of men returning from the military service in Kenya, the Man Power Commission has done good work but could not do more. Let us be convinced that the return of the conscripts to each district is an important one—a return to the community and preferably one in which they are employed.

Let us find confidence that all who are fit for service will be called up to ensure that I suggest a Ministry of Labour, which, although no handicap at all, would be a great help in the future.

Yours etc,

GERMANS IN TANGANYIKA

To the Editor, "E.A. Standard."
 Sir—The letters of your correspondent "Democrat" are as interesting as they are deplorable. I wish to refer to your arguments whether his points are right or wrong.

The fact remains that there are a good many people in Tanganyika who work towards a better life and are not interested in the different nationalities under the British flag.

A BRITISH YOUTH MOVEMENT

To the Editor, "E.A. Standard."
 Sir—As one who has lived and travelled in many parts of British East Africa, I have been greatly struck by our failure to organize the youth of the Empire in the cause of the high principles of democracy and self-government.

Whether or not we regard the activities of totalitarianism as a spiritual and material, it can be considered as a danger to the world. The Dictators largely depend on the youth of the world for their support.

INDIAN FARMING

To the Editor, "E.A. Standard."
 Sir—I have on many occasions been struck by the fact that the Indian farmer in East Africa is generally so much indebted, and I have the temerity to say he ought to be helped.

RUSSIAN GUARANTEES FOR EUROPEAN STATES? BRITAIN AND DANZIG

Decision Believed To Have Been Reached In Moscow

VERY ACTIVE DIPLOMACY

AUSTRALIA, BRITAIN, JAPAN

Melbourne, May 9. In the Australian House of Representatives today, the Minister for External Affairs, Mr. Bruce, announced that the British foreign policy states that Australia, Japan and the United States have agreed to support a policy of mutual defence. Mr. Bruce said that the British Government was in agreement with the Australian Government on this point. He said that the British Government was in agreement with the Australian Government on this point.

Although there is still no official news of the progress of the attempts being made to form an anti-aggression front, Soviet diplomacy appears to be very active in that quarter. The Deputy Commissioner for Foreign Affairs has now decided to visit Warsaw on the way back to Moscow from Turkey. He has already visited Sofia and Bucharest.

Kenya Road Foreman Becomes An Earl

As the result of the death of his father yesterday, a former road foreman in Kenya becomes the Earl of Mayo.

Lord Mayo was intended for the Indian Civil Service, but he did not go to India. Very few of his family, however, did not go to Kenya because of their own choice. Lord Mayo was a foreman in the Kenya Road Foreman's Association during the war. He was a very successful foreman and was in charge of the road works in Kenya. LOCUST INSURANCE SCHEME

During the latter part of the week there has been a large swarm of locusts in the Sotia District which reached Nakuru on Sunday. Considerable damage has already been done to young crops of grain. It is indicated that preparations have been made for another hopper destruction campaign.

In the meantime, the Kenya Farmers' Association has made the following announcement:—

The Directors of the K.F.A. have decided that they will advance £1,000 per acre for maize and £100 per acre for wheat to enable members who crop where such assistance is necessary.

They have also decided to start immediately a locust insurance scheme to cover wheat and maize. Premiums: 1/- per acre in the case of wheat and 1/10 per acre in the case of maize. Growers anxious to participate in the scheme are requested to notify the nearest K.F.A. depot immediately.

RUGBY PRACTICE YOUNGSTERS IMPROVE

A heavy rain interfered with the Rugby practice game on Saturday. Twenty-seven players turned out and several county players had to be included in what was a very hard game. The home side, which won by 15 points to 5.

Owing to wet conditions the game developed into a forward battle. The tackling was hard, and the vigorous tactics resorted to were largely the result of the rain. The visitors, who were led by their captain, Henry, lost his ankle and will be out of the game for two or three weeks. He also struck his head and was out for a few days. In the second half things were eased up a bit, and play consisted chiefly of kicking games. Great improvement was shown, especially by the youngsters. Some of the three were included in being on the field too long after they were tackled, which under strict refereeing would have penalized their side.

There was much better work in the scrums, and it is a pity that the young forwards were not included in the scrums. There will be no scrums this week, as the referee has ruled that Saturday's game will be held next Saturday, at 2.15 p.m. on the range.

CHAPLAINCY FINANCES

It will be remembered that, at the beginning of the year, a circular was issued by the Committee of the Nairobi and District Chaplaincy, asking District Representatives to make an effort to obtain orders on the Co-operative Association for a Banker's Order.

It is very disappointing to have to record that so far only two such orders have been received. Moreover, quite a number of representatives have not yet responded. It is to be hoped that the District Representatives will better themselves, and try to obtain regular donations in cash or in kind on the forms which have been sent to them.

CAR OVERTURNED: MR. BOWRING HURT.

On Saturday afternoon, Mr. Bowring, of the Motor Mart and Exchange, was with a serious accident, 18 miles from Nakuru, on the Nairobi road. His car was overturned, and he was pinned up to a giant tree.

Fortunately he was taken to a Nairobi nursing home, and it is understood that he is recovering from severe concussion.

FAREWELL TO R.A.F. BAND

There were, perhaps, not quite so many people at the dance given at the Sotia Head Hotel on Saturday night as there were at the previous one. It was, however, very enjoyable, and was particularly so because of the rain. The entertainment was very good, and a very good programme was given. The funds of the R.A.O.B. character, benefited as a result of the entertainment.

The R.A.F. Band was in great form, and they will be sorry that they will have the last opportunity for the present.

RIFLE CLUB SPOON SHOOT

Owing to the Kenya Regiment parade held last Saturday, a Spoon shoot will be held next Saturday, at 2.15 p.m. on the range.

EXTRACTS FROM "THE MOTOR" ROAD TEST REPORT ON THE

THE MERCURY "8"

"... No car we have tried this year has better performance figures... one of the best £400 worth of motoring now offered on the market... from a standstill it draws away sweetly, with smoothness is maintained up to the maximum speed of just over 90 miles per hour... motoring at 60 or 70 m.p.h. is so quiet, the general travel so smooth that it is impossible to realise that the cruising speed is over the mile-a-minute mark... combine with this safe braking (36 feet to stop at 30 m.p.h.)... acceleration from standstill to 60 m.p.h. in 13.3 seconds... and you get all the attributes of high average speeds... a standing quarter mile in 19.1 seconds, with the best clocked time 18.5 seconds... lightness of control... good all-round visibility... attention to detail... quick and light gear change.. will undoubtedly appeal to the big-car-performance enthusiast".

THIS IS THE MERCURY "8" * THE KENYA PRICE IS BELOW £400

we recommend it to your careful notice.

EXCITING MATCH AT PARKLANDS R.A.F.'s Fine Effort Against Nondescripts

One of the most exciting football matches of the season at the Nairobi District Championship was played at Parklands on Tuesday evening, when Nondescripts' first Royal Air Force team met the R.A.F. team.

The second annual Empire Day Open Stroke Competition organized by the Nairobi Staff Club was held at Parklands on Monday.

The contest attracted 40 entrants the first year it was played and was won by W. H. Hodges, on returning a net 142, two strokes.

The best net score in 1935, when 64 players took part and the average was 117, was made by W. H. Hodges on returning a net 142, two strokes.

From the first day of the competition the R.A.F. attacked and a penalty awarded to them was a blow to the Nondescripts.

PREMIER'S STATEMENT ON PROPOSALS TO SOVIET

No Suggestion That Russia Should Act Alone A REPLY TO MOSCOW

MEMBRE OF A SEMI-OFFICIAL REPORT IN MOSCOW WHICH SEEMED TO SUGGEST THAT THE SOVIET GOVERNMENT HAD MISGOTTEN THE NATURE OF BRITAIN'S PROPOSALS REGARDING RUSSIAN PARTICIPATION IN THE NON-AGGRESSION PACT, MR. CHAMBERLAIN MADE A STATEMENT ABOUT THEM IN THE HOUSE OF COMMONS YESTERDAY.

In this he made it clear that there was no question of Russia's being involved in one-sided obligations and that Russia would not be asked to intervene unless Britain and France had already intervened in accordance with their guarantees to other nations.

Mr. Chamberlain made his statement in the House of Commons last night after the British Government had received from the Soviet Government a semi-official report in Moscow which seemed to suggest that the Soviet Government had misgotten the nature of Britain's proposals regarding Russian participation in the non-aggression pact.

The British Government had expressed its willingness to discuss the pact with the Soviet Government on the basis of a number of conditions which would be in accordance with their guarantees to other nations.

Mr. Chamberlain said that the British Government had expressed its willingness to discuss the pact with the Soviet Government on the basis of a number of conditions which would be in accordance with their guarantees to other nations.

PROPOSED REVIVAL OF FLAX PRODUCTION

Of Joro Orok Farmers Will Grow It If Factories Are Established And Price Is Guaranteed

["STANDARD" CORRESPONDENT]

Farmers in the Ojoro Orok district will be prepared to give flax provided Government factories are established and conditions as to a minimum price of £100 per ton under existing contracts being obtained.

The decision was embodied in a resolution carried at a recent meeting in the district.

Why people engaged in flax-growing in the district had not been able to succeed in their attempts to develop the flax industry in the district was the subject of a meeting held in the district on May 6. The meeting was held in the hall of the Ojoro Orok Farmers' Association, and was attended by a number of the farmers of the district and by Mr. H. M. B. H. O. of the Ojoro Orok district. Sanitary Protection is now more hygienic—it's worn internally!

"Every woman who values her health, comfort and personal dignity should use Tampax, the new form of invariable sanitary protection invented by a doctor. Internally, it is more hygienic, more comfortable, and enables you to live as normal and active a life as any day of the month. Apart from its many obvious advantages, Tampax is designed to be proof against all forms of health."

TAMPAX

Thousands of women every year find Tampax their most ideal sanitary protection.

To Roam Seas With 2 Lions? THE PLANS FOR COMPULSION

Sir Edward Grigg Answers The Critics

Well, after about himself was an Arab, why not send them to the Arab sea? ... Sir Edward Grigg, M.P., in an interview with a representative of The Observer answered two shipbuilding questions.

BRITAIN BUILDS MORE SHIPS

When the official quarterly shipbuilding returns for Great Britain for the month of April show a striking increase in tonnage, it is certain to record a very high level of output.

During April, the first complete month since the Government's new shipbuilding subsidy of £300,000, the total tonnage ordered was £2,000,000 worth of ships, compared with £1,400,000 for the whole of the month of March last.

It is not surprising that the Government's decision which it has taken, and for which it has secured a measure of approval from the House of Commons, has raised the spirits of the shipbuilding industry.

CORONA

JUNIOR

CORONA is marvellously simplified. That is one reason why it is so seldom put out of order, and why it is so easy to repair.

SIMPLICITY

This is an important point to consider in the purchase of a portable typewriter and which results from twenty years of engineering study.

It is almost impossible to wear out a Corona. Coronas purchased twenty years ago are still in active service to-day.

DURABILITY

Anyone can learn to write with Corona, because Corona was designed with the needs of the amateur typist in mind. It is easy to learn.

BRITAIN & FRANCE AGAIN WARN GERMANY Force Over Danzig Will Bring War

Expelled From Poland

Chamberlain's explanation in the House of Commons yesterday of the British proposal for bringing Russia into the anti-Soviet pact is criticised today in the Moscow newspaper, Pravda, which is usually reported as reflecting the Soviet Government's views.

London, May 11. The Emperor of Austria is now touring Cape Horn which is the southernmost point of the world.

THE DANZIG PROBLEM COULD AND SHOULD BE SETTLED BY DISCUSSION, BUT IF AN ATTEMPT WERE MADE TO CHANGE THE SITUATION BY FORCE, SO THAT POLISH INDEPENDENCE WAS THREATENED, THEN THERE WOULD BE A GENERAL WAR IN WHICH BRITAIN WOULD BE INVOLVED.

Following is the note on the week ending 8 a.m. on May 12... In Kenya, rain has been most plentiful during the previous week, but except on the Coast the total reported falls have not been heavy.

The promoters of the concert have arranged for contrast in their programme, and judging from the programme, they have chosen the most successful.

At the end of the year it is hoped that the brilliant success which will come to Nairobi and its region will have still to be shown.

WELL-KNOWN EXPERT'S GRIM PICTURE OF KENYA CONDITIONS... The report to Dr. F. B. P. O'Connell, Chief of the Division of Public Health, Department of Health, Kenya, dated 1st June 1950...

Well-Known Expert's Grim Picture of Kenya Conditions... When Kenya awakes to the fact that the health of her land, the health of her people and the health of her livestock depends on the preservation of her grasslands, and a sturdy pastoralism its rightful place in State policy, then progress will be made and an example set for the whole of Africa to follow.

Higher Taxes In Eire... The Budget for Eire for the year 1950 has been presented. It provides for an increase in the rate of 1/6 per pound which will be levied on the total value of the property...

Canada's New Loan... Ottawa, May 11. The Canadian Government's new loan of \$100 million to the United States has been announced. The loan is for the purpose of financing the construction of a new dam on the St. Lawrence River.

Anglo-Iranian Oil Company (East Africa) LTD. An old Persian proverb runs, "Pleasant company makes the road seem shorter." How true this is even in these days of motoring! With a congenial companion, time seems to take wings, and—provided that you car take you there smoothly and efficiently—before you know where you are you reach your destination. Note the proviso, To banish time and distance your car also needs pleasant company—and what better company can it have than... The BP logo and company name are prominently displayed.

Nairobi's A.R.P. Scheme Now Complete

(Continued from Page 7).

The Town Hall, Northlands Hill... The Municipal Engineer has completed the work on the demolition of buildings rendered unsafe by the earthquake of debris from the streets and rendered unsuitable for habitation.

The central Dept. for decantation Nairobi Municipality is fortunate in having recently installed an up to date street cleaning system and having installed a road cleaning machine.

Increased efficiency and personnel have been secured for its aid. The Fire Brigade in addition is an Auxiliary Fire Brigade.

The Air Raid Warning... The Air Raid Warning will be given by a siren which has a variable note, far less than two musical notes in the notes of G, G# and B, and C, and which has been tested and found to be reliable.

The 'All Clear' signal will also be given by a siren which will consist of a series of short blasts over a two minute period.

Nairobi is fortunate in that the Municipality covers an area of 23 square miles, and that speaking from the point of view of population, the public should take warning.

The 'All Clear' signal will also be given by a siren which will consist of a series of short blasts over a two minute period.

The handbook will prove a valuable aid to the citizen in those steps he should take in accordance with his own circumstances and situation.

CONVERSATION PIECE

It matters not how meekly obtained a writer is if his talk knowing and communicative friends.—CAMERON

It is possible that a few of the initiators now arriving in this country will be able to furnish some reliable picture of these conditions. It is naturally possible and it is impossible by the time I read a report of a recent debate between the House and Senate on the subject of the League of Nations. The League of Nations was even more than a subject of conversation. It was the subject of the House and the Senate of the House of Representatives. It was the subject of the House of Representatives. It was the subject of the House of Representatives. It was the subject of the House of Representatives.

Perhaps the most significant result of the present situation in Europe during recent years has been the effect on the progress of democracy. Not many years ago the average citizen could not expect the growth of democracy to be inevitable and that it was only the result of the pressure of a civilized people. During recent years democratic ideas have been spreading. Over those parts of Europe it has been re-organized and abandoned and in one form or another democracy has been established. It is not surprising that many countries have been invited, one after the other, to adopt this particular form of Government. The problem has been most clearly defined in the case of Germany. It is not surprising that many countries have been invited, one after the other, to adopt this particular form of Government. The problem has been most clearly defined in the case of Germany. It is not surprising that many countries have been invited, one after the other, to adopt this particular form of Government.

ANGLO-RUSSIAN RELATIONS

It has long been the view of many thoughtful and well informed people in Britain and on the Continent that the prevention of aggression, the maintenance of the rule of law and the preservation of peace in Europe can be secured only by a firm alliance of the peace-loving States and that the maintenance of any such alliance must be the three great Powers, Britain, France and Russia.

HIMMEL! THEY MEAN IT!

(Copyright in All Countries)

Looking at the world position today, it is evident that the interests of Britain and the U.S.S.R. are the same. Both are unopposed and desire the maintenance of peace. Both are anxious to see Europe free from aggression. Both are anxious to see the world free from aggression. Both are anxious to see the world free from aggression. Both are anxious to see the world free from aggression.

By Major C. R. Attlee

It is to be hoped that neither Signor Mussolini nor Herr Hitler would be so foolish as to start a war against such heavy odds.

Consider the reasons which have made an approach to Russia by the British Government a necessary step. It is not surprising that many countries have been invited, one after the other, to adopt this particular form of Government. The problem has been most clearly defined in the case of Germany. It is not surprising that many countries have been invited, one after the other, to adopt this particular form of Government.

THOUGHTS ABOUT SHAKESPEARE... AND MACBETH

It is barely a fortnight since the St. George's dinner, at Nakuru, drank a toast to "The Memory of William Shakespeare and illustrious Englishmen," in which were included (much as an astute politician might bequeath the thought of a safe) "those who died in the Great War." It is significant enough that the Royal Family, in which the only Englishman mentioned by name on the toast list, because Eng-land, considering her vast influence on the world, has produced singularly few statesmen-beaters. And of these, Shakespeare is by far the greatest.

The last year has seen a great change in British policy. It is not surprising that many countries have been invited, one after the other, to adopt this particular form of Government. The problem has been most clearly defined in the case of Germany. It is not surprising that many countries have been invited, one after the other, to adopt this particular form of Government.

Macbeth is a play which has been so often mentioned in connection with the Great War. It is not surprising that many countries have been invited, one after the other, to adopt this particular form of Government. The problem has been most clearly defined in the case of Germany. It is not surprising that many countries have been invited, one after the other, to adopt this particular form of Government.

THE RISE OF FREEDOM

On several occasions I have referred to the economic and financial difficulties which must be met by the nations of Europe. It is not surprising that many countries have been invited, one after the other, to adopt this particular form of Government. The problem has been most clearly defined in the case of Germany. It is not surprising that many countries have been invited, one after the other, to adopt this particular form of Government.

TRIBUTE TO MACBETH

The production of "Macbeth" by the Railway Players last Friday evening gave them the opportunity to play to a very large audience. It is not surprising that many countries have been invited, one after the other, to adopt this particular form of Government. The problem has been most clearly defined in the case of Germany. It is not surprising that many countries have been invited, one after the other, to adopt this particular form of Government.

The Proper Study of Mankind is Man - Alexander Pope

LIMELIGHT

AFTER MORE THAN A YEAR of writing this sort of people in and about, it is a little easier to see the social functions of the group, if it has in fact occurred to one that it might be worth it to know more about the people. The majority who are well-known have, more or less, been extremely successful in their careers, and their friends are only rarely aware of it and it is my intention to know more about some of these men who have done something more definite than write a little each week which now happens to be in the public eye at the moment.

At the end of last week the **Kempy Players** presented their comedy, "Machob," and a further notice was given yesterday. It is of members of that gifted society of amateur players who I wish to write now.

IMPLIANTS AND FANTASY

AS THE PRODUCER, one finds Mr. Kempy, who has been mentioned so often in this column, as being especially well known to the members of the **Kempy Players** and it is to be expected that he will be the one to write about them.

One might say that the **Kempy Players** are a group of people who are interested in the production of plays, and who are also interested in the study of the human mind. It is a group of people who are interested in the study of the human mind, and who are also interested in the production of plays.

AND HIS WIFE

TERRA WOODFORD who is tall and slender, and who is a very successful actress, is the wife of Mr. Kempy. She is a very successful actress, and is the wife of Mr. Kempy.

VERSATILE YOUNG ACTRESS

CERTAINLY the most striking performance in "The Proper Study of Mankind is Man" was that of **Marianne Waller** as **Lady Blanche**. She is a very successful actress, and is the wife of Mr. Kempy.

MARMITE
makes Soup
a meal in itself!

A household budget is a big responsibility. The chef's not slumping to make each meal if you know about, and use Marmite. Marmite is delicious, but Marmite is more than that. It is both an appetizer and a economical food extracting it in Vitamin B. With a little Marmite and a few simple ingredients you can make soups that are easy, nourishing and of real health-giving value. Think of your soup really made in this, don't forget the Marmite. It will add a lot to the nourishment and taste to nothing to the cost. Soups made with Marmite always "go down" well.

WITH a kiss you open a clandestine affair in a summer-house on a night in June. His eyes closed, his eyes dreamy with delight but not heedless of the gleam of danger from the open French window across the lawn. We open to your liking, I believe, ladies, who have had such kisses of your own before now and will have more in some days.

That said! I must dash your naturally pleasant anticipations of a liaison. This was a proaic, unmarital romance. The Kissers merely a young game master at a public school; a housewife's daughter the Kissed. The menace within the study across the lawn was only Father, who was sitting correcting Latin exercises. A lame Victorian theme.

Mr. Punting (Father—and what name by Aristophanes for a public school leucosternus to be exposed with a sister for lamporary sex) was sitting disapprovingly at the desk in the Latin exercise and waiting for the entrance to the next view expressed.

"A handsome woman of wealth—was on a neighbouring wall, with kissing and the dog. From the boy's wing of the massive house, a child of day had given place to a distant staturion hum of evening."

Martin Dickson, said Miss Punting, "I'm leaving her from the house and putting the reader of the game master's name to you. You can come on to see me in the study, but I don't want to see a perfectly good girl, who has been a girl for years, but she's not a girl for long."

She had received the name Punting from the first, but from the Lower Common Room. In like manner her mother had been named by two generations before her. "Punting" in course of time, came to signify a young man of a matter of twenty and a matter of twenty and a matter of twenty."

You might hear two completely unromantic humours in the study at Chatterbury in conversation with a young man who had been a girl for years, but she's not a girl for long."

Unhappily the fact of a dog standing there through the French window into the study. Mr. Dickson, who was sitting at the desk in the Latin exercise and waiting for the entrance to the next view expressed.

Kruschen Has Made No Young Again

"I feel that I have aged a great deal since I was a young man," said Mr. Kruschen, "but I feel that I have made no young again."

Mr. Kruschen, who is now 60 years of age, has been a prominent figure in the world of medicine for many years. He is the author of several books on health and has been a frequent speaker at various medical conferences.

You Can Have That KRUSCHEN FEELING

It is the opinion of one of the 25,000 physicians all over the world who have written on the value of Santogen. During and after illness it is a godsend. Santogen brings real health to the whole body and revitalizes the blood and nerve cells.

Premier's Health

THE PRIME MINISTER's health has been a subject of much interest since he threw on his shoulder a greater burden of responsibility than he has done so since his death, yet he does not appear to be any more tired than he was at the age of seven, as a matter of fact.

War Minister's Revolt

INTERNAL CONVICTION over the results of external pressure pushed the Government to the point where Mr. Baldwin, who administered the War Office portfolio, resigned his post as Minister of War. The Minister's revolt was a significant event in the history of the British Government.

Reflections On The Nairobi-Nyeri Road

At last the road that made part of the main road between Karatina and Nyeri, has been murrined by the Public Works Department, thus completing the link in the hard surfacing of the main Nairobi-Nyeri road.

After it had been in existence for a quarter of a century this arterial road from the capital should now carry motor traffic in all weathers, without chains.

The average rate at which it had been done since it was first used is not very high, and it is not very good, and it is not very good, and it is not very good.

It is not very good, and it is not very good, and it is not very good, and it is not very good, and it is not very good.

It is not very good, and it is not very good, and it is not very good, and it is not very good, and it is not very good.

Stray Thoughts About MOTORING

A GREAT DEAL HAS BEEN written in these columns from time to time on the question of roads and road behaviour. As I have said before, I attribute my own immunity from serious mishaps some 28 years of driving to a physical condition that makes me regard any such as something very keeping while and a correct vehicle made me to regard all other roads as potential candidates for a fatal accident.

Another practice which seems to be on the increase is the habit of driving with the windows down in this country. It is a habit which is not only unhygienic but also a nuisance to the other motorists.

It is not very good, and it is not very good, and it is not very good, and it is not very good, and it is not very good.

It is not very good, and it is not very good, and it is not very good, and it is not very good, and it is not very good.

These few materials will be written consistently to the various motorists that use. Looking to the future, a standard mode of conduct for all can be attained.

It is not very good, and it is not very good, and it is not very good, and it is not very good, and it is not very good.

It is not very good, and it is not very good, and it is not very good, and it is not very good, and it is not very good.

The Cattle Clearing Act

In the dear future the farmers of the Nairobi District will decide whether the Cattle Clearing Act should be applied to the district. There is no doubt that their decision will exercise a considerable influence on the immediate future of farming in Kenya. It is, in fact, a decision which will determine the relation between stock raising and land husbandry. Nairobi is widely recognised as the centre of the cattle industry in Kenya and it would be strange if the farmers of the district did not feel the force of the Act as essential to the sound progress of their industry.

At one time the same progress existed amongst farmers against the Act, but this has now disappeared except in some instances in animal husbandry. In spite of the fact that the Act is so essential to the welfare of the district, it is unfortunate that the preliminary stage with a view to applying the Cattle Clearing Act to the Nairobi District was not very fully taken into consideration.

For it was human writers who first set the standards such as back strapping, rump, eye, barrel round, deep of flank and well ribbed, bold mellow and flexible to touch, long neck and with good udder. These standards were written by the Nairobi District Cattle Clearing Act in the form of a bill.

Now let us turn to beef cattle. In fact, the main object of the Act is to maintain a standard of excellence. For all practical purposes, the standard of a carcass class, and only in this class, should be maintained.

England's Cattle Standards

(By ROBERT BOURNE)

PROGRESS in agriculture has been rapid during the last 50 years and the increase of population has led to an increase in the demand for food.

At one time the same progress existed amongst farmers against the Act, but this has now disappeared except in some instances in animal husbandry. Thoughts from a Farmer's Fireside

SOME weeks ago I urged stock raisers to read the Minutes of the Executive of the Stockbreeders' Association. Even though they only do a cursory glance... A correspondent has criticised this to me.

The Association is unfortunatel... to be regarded as the only one of its kind in the country.

The Nairobi standards... for it was human writers who first set the standards such as back strapping, rump, eye, barrel round, deep of flank and well ribbed, bold mellow and flexible to touch, long neck and with good udder.

South African Farmers in the Eldoret District

By G. R. Morrison

At the invitation of Mr. W. A. B. Buser, I lately paid a visit to Eldoret, and saw something of the African opening South African farmers in that area. One of those paid yet planned his first crop while another had been on his land for over 30 years.

It is not an easy proposition to argue, because in the first place the Government is not... I have seen many more South African farmers in the Eldoret District.

The chief objection seems to be that the Government is not... I have seen many more South African farmers in the Eldoret District.

CLOSER UNION AND NON-NATIVE SETTLEMENT

Dar es Salaam Chamber's Development Plans

While details of other proposed developments for Tanganyika are yet to be made known, the recommendations put forward by the Dar es Salaam Chamber of Commerce and Agriculture will take a prominent place in matters for public discussion.

The Chamber's Memorandum, which has been presented to the Central Development Committee, puts Closer Union of East African Dependencies in the forefront of desirable aims.

Non-Native settlement also bulks largely in the Dar es Salaam Chamber's proposals and in many aspects of development, this body has been able to quote the considered opinions of the present Prime Minister, Mr. Neville Chamberlain.

The Dar es Salaam Chamber of Commerce and Agriculture has recently issued a memorandum on development for submission to the Central Development Committee. The memorandum is a long and detailed document, but its main points are as follows:—

It is believed, would meet with the approval of the Government and would be warmly welcomed in every quarter. The High Commissioner would certainly be in a position to refer the memorandum to the three Governments concerned. It is believed, however, would be warmly welcomed in every quarter.
