Masai point of view on Amboseli poll

UNEMPLOYMENT CAUSED IN KIKUYU RESERVES

Some refuse to have a racial vote in the poll. The fact that the Masai are to be included in the poll has caused a great deal of trouble in the reserves. The white population is not so much interested in the poll as the Masai are.

Every university has an employment department. It is the duty of the department to find work for the graduates. In the same way, the Government has a duty to find work for the unemployed.

UNEMPLOYMENT CAUSED IN KIKUYU RESERVES

Returning Kikuyu

RECENTLY there have been several articles regarding the returning Kikuyu in the reserves. It is a matter of fact that the returning Kikuyu are not so much interested in the poll as the Masai are.

It is a matter of fact that the returning Kikuyu are not so much interested in the poll as the Masai are. The fact that the Masai are to be included in the poll has caused a great deal of trouble in the reserves.

Electronic 1957

It was reported recently that the Government had decided to introduce an electronic system in the reserves. This system would be used to control the movement of people in and out of the reserves.

Sikh protest

I wish to comment on an article which appeared in the press regarding the Sikh protest in the reserves. The protest was against the inclusion of the Sikhs in the poll.

Makerere

Thank you for the interesting article in the press regarding the Makerere University. It is a matter of fact that the Makerere University is one of the best in Africa.

VILLAGE ARTISTS OF KIGOMBE

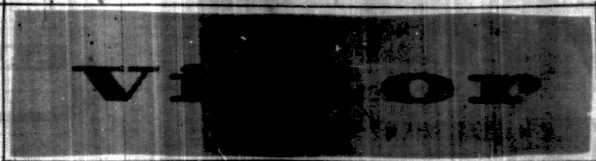

During the past few years, the village artists of Kigombe have become well-known throughout the country. Their work is of a high standard and they are well-received by the public.

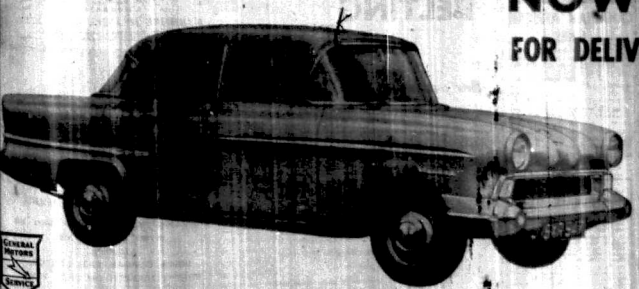

There is a great deal of interest in the poll. The fact that the Masai are to be included in the poll has caused a great deal of trouble in the reserves. The white population is not so much interested in the poll as the Masai are.

Rheumatism relief little short of-

ASTOUNDING

says LORD RUSSELL of Liverpool

LORD RUSSELL OF LIVERPOOL—well known for his best-selling book "The Scourge of the Swastika"—now tells of an amazing new treatment for rheumatism developed by a Harley Street doctor and his new rheumatism sufferer.

Lord Russell says: "The history of this treatment has been continuously improved and developed by this doctor during many years, and he has benefited many thousands of sufferers, both in the U.K. and abroad." Lord Russell goes on to say that he knows of cases in which the relief obtained was "little short of astounding."

Most of the new treatment is extremely "new" and "astonishing" and is based on injections and on cream form.

Tension Released. Attention—A natural relief from rheumatism for five months.

Facts about a Newcomer To East Africa.....

1 FACTS ABOUT THE PROVIDENT:

In the short space of a few years, the Corporation has made outstanding progress in the wealth of its insurance business. Since entered in force for the first time in 1954, it has secured a net loss of KSh2,000,000, the Corporation's best record to date.

The Corporation's activities throughout Africa and abroad are controlled by a Board of Directors comprised of experienced insurance and financial advisers. The formation of the Board being—

Messrs. H. H. Harber
E. Pongol
W. G. P. Hill
N. Vermaak

The Corporation has been steadily increasing its facilities to the insuring public by opening up branches and agencies in most of the principal towns in Southern, Central and East Africa. Offices and trained representatives are available to serve you at Nairobi, Kampala and Mombasa.

The policy of the Provident is to offer a complete insurance service through its branch offices and is based on the principle of mutual insurance. The policy is available in all parts of East Africa.

The proof of our policy is in the progress. During the six months ending December 31, 1955, the Corporation received proposals amounting to some KSh2,000,000, covering the lives of 1,251 policyholders. We are proud to welcome you in a future policyholder of this Corporation. MAKE YOUR FUTURE POLICY A PROVIDENT POLICY.

Journeying from biblical times to the present day

By J. HUMPHREYS
The book "The Journey from Biblical Times to the Present Day" is a well-written and interesting account of the evolution of the modern motorway system. It traces the history of the motorway from its origins in the Roman Empire to the present day. The author, J. Humphreys, is a well-known expert on the subject and his book is a must-read for anyone interested in the history of the motorway.

Tax beliefs
The author's views on taxation are well-expressed and are of interest to all who are concerned with the subject. He points out that the tax system is a complex one and that it is essential for the State to have a sufficient amount of revenue to meet its needs. He also points out that the tax system should be fair and that it should not be too burdensome on the individual.

Book
The book is well-written and is of interest to all who are concerned with the history of the motorway. It is a well-illustrated book and it is a must-read for anyone interested in the subject. The author's views are well-expressed and are of interest to all who are concerned with the subject.

New Members
Mag-Gem, Tappi to be prominent members of the new East Africa Command. While there has been a preliminary agreement on the security situation, there has been no agreement on the terms, basis, and British infantry battalion commander. The East Africa Command is the pre-emptory organization. The "home troops" are expected to be approved by the Government. The "home troops" are expected to be approved by the Government. NEW SPIRIT NEEDED TO BRIGHTEN CRICKET

FEATURING SPORT

Soccer team for England

By ERIC NICHOLLS

SUBSTITUTE THE Championship team for England? Billy Wright for Wood, John Berry, and Albert Chinnell for Marlow, Billy Whelan.

THEIR is the white shirt of Manchester United's "Reds" who have you got? A great deal more than a football team with capital enough to buy Billy Bees, the manager of the team.

FOREIGN EXAMPLE

That is the question which arises in the mind of the English football fan when he reads of the success of the German national team in the recent tournament in France.

MATTHEWS A MUST—The England team which has been selected for the forthcoming tournament in France is a strong one, and it is felt that it will be successful.

CAID if it is not evident, that the results of every tournament which is held in the M.C.C.C. season are to brighten English cricket.

There is no doubt that the team which has been selected for the forthcoming tournament in France is a strong one, and it is felt that it will be successful.

In South Africa going places is half the fun!

Bring your car, or hire one here. Speed happily along the splendid South African highways. Getting around is half the fun, finding friendly hotels along the road, seeing such a variety of attractions. Plan your holiday with this in mind. Take in the Drakensberg, the Cango Caves. Enjoy the gay sophistication of the big cities. Drive along the Garden Route and visit the wonderful coastal resorts. The Union is such a happy place for a holiday... for a cool, healthy holiday... for a holiday with good food and excellent wine... for a holiday that costs surprisingly little.

'REVIVING OLD FRIENDSHIP'

PROPOSED Qualitative system recommended 1958 POLLING DATE

'Standard' Correspondent, Dar es Salaam.
PROPOSALS for elections on a common roll in Tanganyika, at the end of the first quarter of 1958, are made by the Committee appointed by the Governor, Sir Edward Twining. Its report was issued last night in Dar es Salaam, with copies of dispatches between the Governor and the Colonial Secretary.

With this object in view, the committee recommends that an Electoral Bill should be introduced into the Legislative Council as soon as practicable.

The common roll is intended to be based on a qualitative franchise and uniform to the existing Constitution. This provides that three Representative Members of the Council—one African, one Asian and one European—severally and jointly represent the common interests of the constituency for which they are returned.

Three votes available
Every voter, therefore, records one vote for each of the three seats in his constituency.

The committee was appointed in May, 1956, was assisted in its inquiry by Prof. W. J. M. MacGinnis of Manchester University, and constituted its members by the Governor. Members were published with the Official Gazette, and the release of the report.

In considering the problem of the franchise, the committee has regard to the desirability of a common roll for all those who, by their attributes, expression of opinion, and social status, are capable of understanding the implications of the exercise of the franchise. At the same time it has regard to the desirability of the franchise to be exercised by those who are capable of understanding the implications of the exercise of the franchise.

INCOME OF £150 A YEAR
In particular, the committee has regard to the desirability of the franchise being exercised by those who are capable of understanding the implications of the exercise of the franchise.

ONE OF THREE QUALIFICATIONS
A person to qualify for registration in the territory has to satisfy one of three conditions: (a) he must have been resident in the territory for a period of not less than 12 months immediately preceding the date of his registration; (b) he must have been resident in the territory for a period of not less than 12 months immediately preceding the date of his registration; (c) he must have been resident in the territory for a period of not less than 12 months immediately preceding the date of his registration.

NEW WOMEN ENFRANCHISED
The committee had difficulty in coming to a final decision on the question of whether women should be included in the common roll. It is recommended that women should be included in the common roll.

Old Dame Dishpan lost her temper

By ROSINA WRIGHT

DAME DISHPAN stood at the end of her row of crockery to her left. She worked for a large old-fashioned family and the kitchen was full of dirty dishes from morning till night.

As she sat next to the sink, she saw a young boy, who was called Dishpan, who was very mischievous. He was always getting into the crockery and she was always having to wash it for him.

One day she saw him sitting on the floor, playing with a toy soldier. She went over to him and said, "What are you doing with that toy soldier?"

"I'm playing with it," he said. "It's a very nice toy soldier."

"What is it doing?" she asked.

"It's marching," he said. "It's marching to the music of a drum."

"What drum?" she asked.

"That drum," he said. "It's a very nice drum."

"What drum?" she asked.

"That drum," he said. "It's a very nice drum."

BETTY'S FORTUNE BROUGHT TOO MANY NEW FRIENDS

By ANN PERRY

BETTY had been very happy and had had a wonderful time since she had been brought to the city. She had been very popular and had many friends.

One day she was sitting in a room and she saw a young man who was very handsome. He was sitting next to her and she was very interested in him.

"What is your name?" she asked.

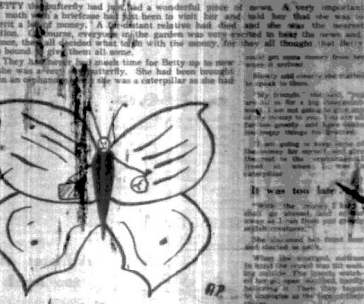

"My name is John," he said. "I'm very pleased to meet you."

"What are you doing here?" she asked.

"I'm here because I'm very interested in you," he said. "I've heard that you are very beautiful and I want to know you better."

"What do you mean?" she asked.

"I mean that I want to be your friend," he said. "I want to know you and I want to be with you."

Shopping puzzle

At first, Betty was delighted and then she became puzzled. She was very interested in John and she wanted to know him better.

'BUSBY'S BABES' SET FOR CUP-LEAGUE DOUBLE

By VERNON MORGAN

MANCHESTER UNITED, familiarly known as "Busby's Babes" look set for the Cup-League "double", just achieved when Aston Villa announced this week that they have been selected to carry off the F.A. Cup when the second draw will see some only on 11-16 chance to lift the coveted trophy for the third time in their history.

The draw, however, has not yet been fixed to take place in the week-end, but is placed somewhere they have drawn their most dreaded opponents Birmingham City last year's league finalists, who contested their fourth World Cup final since the Second World War.

Through the betting process the Babes have been made out as the favourites to win the new set of trophies, and the odds are generally in their favour. In their last League match, Manchester United beat Manchester City 2-0 in the return game at Old Trafford, and have since won several more games in the Cup-competition. Spanish team prior threat in next European Cup round

Spain's national football team, which has been selected to play in the next round of the European Cup, is expected to pose a serious threat to the English side. The Spanish team, coached by Vicente Fox, has a strong record in international football and is considered one of the top teams in Europe.

A duel put Britain in the sun

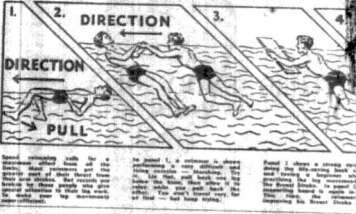

By FRANK TOWLER

Britain last November B very few people in Britain and indeed here in the rest of the world, had heard of Gillian Sheen. Then came her unexpected but nevertheless brilliant victory in the women's individual field at the Melbourne Olympics, becoming Britain's first ever female gold medalist.

Gillian certainly made history for it was the first medal of any kind to be won by a British woman in Olympic history. It was a wonderful incentive to others that they have considerable confidence in the future of the sport. MADE FOR THE JOB

The P.A. specially designed for Trucks and Buses. The long-wearing P.G. coat is constructed in the type which HENLEY has chosen because it is especially for trucks and buses. It is extraordinarily tough yet which is why, giving the weight on the top of the coat and neck, it remains the most used. However, being the going, it can be relied upon to give you the best service and last many more miles of use.

The cities are bright every night in South Africa! Soft lights... and bright lights, everywhere... spell out your holiday fun in the big cities of the Union. Downtown, pick a restaurant-oriental or continental, or find a little tavern tucked away along a marine drive. On to a show, see the latest Broadway and West End hits... attend performances by international celebrities; Gay dancing places, intimate nightclubs. Step into a sophisticated rhythm on your next holiday. And, what's more, the Union has much else to offer. Healthy holidays by the sea... cool holidays in the mountains... everything the heart could wish for.

33 final acceptors for the 1957 Lincolnshire

All the leading market fences were among the 33 final acceptors for the Lincolnshire Handicap to run at Lincoln on March 27. Originally there were 95 entries for this sale race, first major handicap of the English flat racing season. Total value of the race will be £100,000, of which the winning owner will receive £25,000.

From a variety of sources it is known that the Lincolnshire Handicap will be a five-year-old race, to be run at Lincoln on March 27. EGYPT CLAIMS ALL TOLLS FROM SUEZ SHIPPING

Move under review by canal users

FRENCH REJECTION

EGYPT declared yesterday that no vessel will be allowed to use the Suez Canal — which is to reopen to major shipping on April 10 — unless all canal dues are paid directly to Cairo.

Earlier reports said this vital problem might be solved by an interim proposal which would canal dues would be paid into a special fund of the World Bank. Half would be made available to Egypt and the rest retained pending a settlement.

This was rejected by a statement issued in Cairo by Col. Nasser's chief political adviser, Wing General-Sabry. Announcing the rejection of the deal, he said the Egyptian Government would not recognize the Canal Users' Association and would itself collect all tolls, setting aside part of them for maintenance and development. He added that British and French shipping would be allowed passage through the canal.

Shippers advised to wait

The British and French Governments and other major users of the canal are considering Egypt's decision. The British Minister of State for Foreign Affairs, Mr. Ormsby-Gore, told the House of Commons that British shippers were being advised not to use the canal until the position is more clear.

The French Foreign Minister, M. Pinxten, said France had told the Allies that she could not accept Egypt's claim to receive all the canal tolls. The French Government is also considering Egypt's decision.

Bermuda hopes surpassed

PREMIER'S REVIEW

Mr. MACMILLAN's return to London after his arrival back from Bermuda last Wednesday that the centre-left of the Conservative Party is now being outstripped by the Labour Party.

The Prime Minister said that he had been surprised to find that the Labour Party had surpassed the Conservative Party in the number of seats won in the recent election.

'NO REASON FOR FRET'

Norwegian bank

PRIME MINISTER Macmillan described as insignificant a report that the Norwegian bank had refused to accept a Soviet loan.

Macmillan said that there was no reason for fretting over the report, as it was a purely domestic matter for the Norwegian government.

Commonwealth talks likely

Mr. Macmillan said he hoped to get a crown for which British money would be withdrawn if the talks were successful.

He said that the talks were likely to be held in London in the near future, and that they would cover a wide range of subjects.

U.N. chief to consider 'buffer zone'

THE U.N. Secretary-General, Mr. Dag Hammarskjöld, will be asked to consider the possibility of a 'buffer zone' between the two sides in the Suez Canal.

The proposal is being considered by the United Nations Security Council, and it is expected that a decision will be reached in the near future.

Shipping accounts for West

Shipping accounts for the West coast of Africa, and the Suez Canal, are expected to be a major factor in the economic development of the region.

The shipping industry is expected to play a key role in the development of the West coast of Africa, and the Suez Canal is expected to be a major factor in the economic development of the region.

CUT IN E.A. ESTIMATES

Advantage cancelled by drop in aid from Britain

An estimate of more than £478,000 has been made for the cost of the non-self-contained services in the East Africa High Commission in 1957-58.

This is £222,000 less than in 1956-57 but contributions from the four Governments are all likely to be increased from the last year. It is proposed, should be £1,200,000 (£200,000 more than in 1956-57), while Tanzania is expected to contribute £1,000,000 (£150,000 more), Uganda £250,000 (£100,000 more) and Zanzibar £100,000 (£20,000 more).

EXTRA FIVE CENTS ON BREAD

Second increase in two months

NAIROBI, Kenya, April 28. — The price of bread in Nairobi has risen by five cents in two months.

The increase is due to a rise in the price of wheat and other raw materials used in the production of bread.

FIFTY YEARS OF FUELLING Pioneer Days

THE middle of time shroud the fuelling of Wilbur Wright when, on 17th December, 1903, at Kitty Hawk, North Carolina, he made history as the first man to leave the ground in a powered aeroplane. There was no special fuelling machine. There was no special fuelling fuel then — even motor cars were still

the 1903. In 1907 Charles Lindbergh crossed the Atlantic, and from New York to Paris in the astonishing time of 33 hours. By 1928 portable fuel pumps had been developed and fuelling sites were being — the aeroplanes all have now the standard. By 1937 small portable fuelling pumps, holding only 20 gallons, had again bettered the

standard. It has been estimated that the world's fuel consumption was still well below the standard service until 1914, when the world's population was 1,500 million. This was particularly so in parts of Africa. At one fuelling point, which had a 100-gallon tank, the fuelling was done by a hand pump. The fuelling crew were there several days standing on a high-

The Present and the Future

In regard to the past, there have been many improvements, some of them since Wilbur Wright's time. The standard of the present day is to have a fuelling machine which will deliver 100 gallons a minute. When the fuelling is done, the fuelling pump on the aeroplane will hold over 100 gallons of fuel. A fuelling pump on the ground will hold over 100 gallons of fuel. A fuelling pump on the ground will hold over 100 gallons of fuel.

only threatening danger to his aeroplane, and, indeed, however they managed to get a fuel tank to the fuelling site, it was not a great success.

One of the largest aircraft in the world—the Douglas DC-3—has capacity for a fuel load of 10,000 gallons weighing 65 tons, which can be delivered in 45 minutes. Making allowance for losses during flight, it would have taken Wilbur Wright about a week to fuel her.

The Jazz Age

Imperial Airways "Aquila" fuelling at Harar, Tanganyika, 1925.

Wilbur Wright, doubtless poured his gasoline from a can through a funnel into the engine of his aeroplane. By 1910 very little advance had been made on the fuelling methods used at Kitty Hawk. The fuel was still poured from cans through a funnel, and a canvas leather filter had to be used to strain all the impurities. This made fuelling a lengthy and laborious process, it took an hour to pour 100 gallons into a tank. But this was the Jazz Age—the age of the bright young things, and everything was getting faster all

the time. The new trend was the introduction of soluble fueling tanks. These were no longer impurities, it took little over a minute to deliver over 100 gallons.

'Ex Africa Semper Aliquid Novi'

These developments were, of course, limited to major air-

lines before the war. On the day of the war they were so frightened to the wits of the enemy aircraft that they all ran away. At some air stations in Africa men were recruited from the local tribes, when aircraft were shot down on the landing areas. These men, the field in local customs. During these desperate operations they were changed into a more professional air force. A story is told of a pilot who was shot down at night and was almost dead. Some natives charging towards him were open to his

RIGOROUS TRAINING FOR CANADAIR CREWS

Aircrews attend courses in U.K.

The success of any airline depends on many things, the ability of its airmen being no exception. In fact, these days it is not only a matter of having the job of flying, but also of having that equipped for the day-to-day work of a busy operation.

Conversion courses are offered at all commercial airports in the form of a "check-out" to ensure that the crew are kept up to date in the use of instruments to fly "blind". Behind the scenes they have frequent practice flying in "D" and "E" weather and in the simulator in the event of having to make an emergency landing in case of an engine failure.

Next steps lead to the D.F.C. (Diplôme de Formation des Pilotes) which is a certificate issued to the pilot after a period of six months of training. This is the first step towards the E.A.A. (East African Airways) licence which is the final step in the process.

These pilots — Captain Lawrence

Francis Davidson, a British Airways pilot, and other airmen are being prepared to take the further Canadian courses when they return to East Africa.

The pilots who were on the Canadair course in London were Messrs. W. G. A. G. and Richard Hutchinson, Captain F. Arthur.

To start with, an intensive ground training course was given, covering such subjects as aerobics, physiology, and air law.

They took the aerobics course at the Royal Air Force School of Physical Training at Farnborough, and the physiology course at the Royal Air Force School of Physical Training at Farnborough.

The training programme for E.A.A. pilots will be flying the Canadair in the near future.

FIVE MEN SEEK KENYA'S WEALTH—BY CAMEL AND AIR

PICTORIAL CROSSWORD

The week-end Feature picture consists of Pictorial Crossword for the week-end. It is found on page 11. The weekly Feature consists of Pictorial Crossword on page 11. The weekly Feature consists of Pictorial Crossword on page 11.

By John Gattan.

KENYA'S geological survey, started in 1932, has covered almost 40 per cent of the Colony's surface. Five men, with the complicated apparatus of their profession, are at present charting large areas of territory—about 1,200 square miles each—in far-flung areas.

One is on the distant north, among the acres and lava fields of the Siyoi mountains. Another is at the opposite end, on the Tanganyika border south of Malindi, stepping among the Masai grazing lands.

A third is dodging suspicious rhinos (on a voyage he has encountered two rhinos a day so far on this trip) Southly speaking, it takes about a year to cover the 1,200 square miles allotted to each geologist's mandate in the field and six months of laboratory work, analysing rock and soil samples and drawing maps.

With these men outside the colony, the whole geologist's apparatus is housed in the same general, but special, quarters. It has taken about 15 years to cover about 50 per cent of Kenya.

They were seen by the same men would have taken to the air to survey.

New helicopters, notably aerial photography have spread up to the 7th in the air, the geologist set off into the wide world of a high-altitude plateau and a mountain of porphyry. An immediate result of this is the discovery of new mineral deposits, including iron, tin, and molybdenum.

With these men outside the colony, the whole geologist's apparatus is housed in the same general, but special, quarters. It has taken about 15 years to cover about 50 per cent of Kenya.

Wonder drug produces beef for the farmer

By ALEX MUNRO

A NEW "wonder drug" has been discovered which makes beef cattle grow bigger and more quickly and same amount of feed.—It is sold in America.

Commercial farmers in North America, Canada and the West Indies have recently found that they could make for every cent of the new drug that they used.

Two methods

But they had to believe their eyes, when they went into the experimental pens, and saw treated cattle grow up to the same age as untreated cattle.

The treatment is being done in a number of places in the United States and in Canada. The treatment is being done in a number of places in the United States and in Canada.

Caution first

Some of the more cautious farmers in the United States have refused to shake hands with the new drug, but the results are a demonstration of the power of the new drug.

... 2,000 Leagues under the sea with Disney ...

HOLLYWOOD and Father Neptune combine to bring Walt Disney's CinemaScope Technicolor production **Twenty Thousand Leagues Under the Sea**, which will be shown at the Empire Cinema next week.

Starring Kirk Douglas, James Mason, Paul Lane and Peter Lorre, the film is based on the Jules Verne classic which tells of the fabulous journey of the submarine **Nautilus** which sailed round the world on the 100-day cruise. The submarine in the film is a duplicate of that described by Verne in his classic which was first published by Verne in 1870.

Complete by Vladimir Vavilov, the film is a masterpiece of science and imagination. It is one of the most exciting and colorful of the new CinemaScope productions. Produced by Disney, the film is a masterpiece of science and imagination. It is one of the most exciting and colorful of the new CinemaScope productions.

Points from the Leaders GOVERNOR'S SERVICE TO KENYA AND DEVELOPMENT

EXTRACTS from the speech which appeared in the East African Standard during the opening session of the Council on Friday.

The Governor of Kenya has said that he is deeply indebted to the Government for the services rendered by the Kenya Council on Friday.

When Sir Evelyn Baring opened his speech he expressed his appreciation of the Government's policy in Kenya. He said that he had been surprised to find that the Government had taken such a far-reaching policy in Kenya, particularly in the matter of the development of the country.

In Your Garden...

AFTER seeing the seeds will be "breaking out" the seedlings into other pots and larger spacing so that the plants before being put out into the garden.

The usual spacing in the garden on the first day after sowing is 18 inches between rows and 6 inches between plants. This is a good spacing for most plants.

Reduce shade
The amount of shade should be reduced gradually so that the plants can get used to the sun. This is done by gradually opening the "net" or covering the plants.

Hold by leaves

When one is about to put the plants out, it is best to hold them by the leaves. This is because the plants are so tender that they can be broken if held by the stems.

Always hold the plants by the leaves and not by the stems. This is because the plants are so tender that they can be broken if held by the stems.

Japan 'bats' behind the times

JAPAN leads the table in the baseball world—in the opinion of some. But some of the recent reported outbursts from her top players and officials suggest that she is rather behind the times in her outlook on the sport.

ANOTHER POINT

The fact that most sportsmen in Japan are not only interested in the fact that they are leading the world in the number of players, but also in the fact that they are leading the world in the number of spectators, is a point that is worth noting.

That was the hubbub of the baseball world in Japan, and the fact that the Japanese are not only interested in the fact that they are leading the world in the number of players, but also in the fact that they are leading the world in the number of spectators, is a point that is worth noting.

As a whole, however, it is not surprising that the Japanese are not only interested in the fact that they are leading the world in the number of players, but also in the fact that they are leading the world in the number of spectators, is a point that is worth noting.

The new Nairobi Airport is being built to provide maximum comfort for passengers. The airport will have modern facilities and will be one of the best airports in East Africa.

Pool attention

The Kenya Labour Party is focusing its attention on the needs of the African people of Kenya. The party is committed to the welfare of the African people and is working to improve their living conditions.

'STOP TALKING OF INSECURITY' Commissioner's warning

The Commissioner of Police has issued a warning to the public to stop talking about insecurity in Kenya. He claims that there is no real threat to the security of the country and that the public should not be misled by rumors.

School dental inspections suggested

The Kenya Labour Party has suggested that the government should fund dental inspections for school children. This would help to detect and treat dental problems early and would improve the overall health of the children.

Support given by Medical Officer

A Medical Officer has given his support to the Kenya Labour Party's proposal for dental inspections for school children. He believes that such inspections would be of great benefit to the children.

Save the money

The Kenya Labour Party is urging the public to save money. The party claims that the government is spending too much on unnecessary projects and that the public should demand more value for their money.

Challenge ahead

The Kenya Labour Party is facing a challenge ahead of the upcoming elections. The party must win the support of the voters and must present a clear and convincing program.

Right approach

The Kenya Labour Party is taking the right approach in its campaign for the upcoming elections. The party is focusing on the needs of the African people and is offering a clear and practical program.

COURT TOLD OF 510 CAR SALE TO MANAGER

The Kenya Labour Party has taken legal action against a manager who sold 510 cars without the necessary authority. The party claims that the manager's actions were illegal and that the cars should be returned.

SWEET AND LOVELY

The Kenya Labour Party is described as 'sweet and lovely' by its supporters. The party is seen as a caring and responsible organization that is committed to the welfare of the African people.

A happy child, symbolizing the future of Kenya.

NOTICE OF GENERAL AVERAGE
 m.v. DEFENDER

Consignees of cargo loaded in the above vessel at Glasgow and Kirkcaldy are hereby notified that a General Average has been declared following the grounding of the m.v. DEFENDER on the Revoletment in the River Mersey on 20th January, 1951. To save expense and delay, all cargo loaded on m.v. DEFENDER at the above named ports was transhipped at Liverpool into the m.v. ARBITRATOR.

Delivery of cargo ex the m.v. ARBITRATOR will be granted against production of the original DEFENDER Bills of Lading.

Before release of these Bills of Lading, consignees must sign a Lloyd's Average Bond and deposit 5 per cent of the arrived value of their cargo in cash. Statement of Value forms may be obtained from their Agents.

Consignees are reminded that the Lloyd's Average Bond may only be signed by persons holding their firm's Power of Attorney. Chartered and Forwarding Agents should obtain Power of Attorney authorisation forms from the Agents.

ADVERTISERS' ANNOUNCEMENT

At the last European election the voters were asked to exercise judgment on one of three policies in respect of the constitutional issue:—

- (a) COMPLETE ACCEPTANCE OF THE LYTTLETON PLAN'S MULTI-RACIAL PROPOSALS;
- (b) ACCEPTANCE OF THE PLAN IN PRINCIPLE BUT WITH CERTAIN MODIFICATIONS—THIS WAS THE POLICY OF THE GROUP OF INDEPENDENTS UNDER THE LEADERSHIP OF GROUP CAPTAIN BRIGGS WHICH EMPHASISED THE IMPORTANCE OF LEADERSHIP;
- (c) COMPLETE REJECTION OF THE LYTTLETON PROPOSALS.

The verdict of the electorate

THE VERDICT OF THE ELECTORATE WAS ONE OF CONFIDENCE IN THE BRIGGS GROUP'S ABILITY TO FORM AN EFFECTIVE OPPOSITION IN LEGISLATIVE COUNCIL, THEREBY ENSURING THAT NO MINISTER WOULD BE APPOINTED EXCEPT ON THE BASIS OF PROVED MERIT, ABILITY AND LOYALTY. HOWEVER, THE MUCH-VAUNTED TEST OF PROVED MERIT, ABILITY AND LOYALTY WAS SOON ABANDONED.

Only opportunity

ANY OPPORTUNITY TO IMPLEMENT THEIR POLICY WAS LOST WHEN THE CROSSING OF THE FLOOR BY GROUP CAPTAIN BRIGGS DEPRIVED THE EFFECTIVE OPPOSITION GROUP OF ALL LEADERSHIP.

Leadership?

THE COMPLETE ABSENCE OF EUROPEAN LEADERSHIP HAS BECOME PAINFULLY MANIFEST IN THE SITUATION FOLLOWING THE AFRICAN ELECTIONS.

THE AFRICAN ELECTIONS

A statement by The Reform Party

Our challenge

WE CHALLENGE THE EUROPEAN ELECTED MEMBERS, AND PARTICULARLY THOSE OF THE BRIGGS GROUP, TO STATE WHY NO STEPS WERE TAKEN TO CONTACT THE NEWLY ELECTED AFRICAN MEMBERS BEFORE THEY ISSUED THEIR MANIFESTO. THIS IS A CONTINUATION OF PAST POLICY IN FAILING TO MEET AND ASCERTAIN THE AFRICAN VIEWPOINT.

THE BRIGGS GROUP IN THEIR ELECTION MANIFESTO STATED: "WE QUESTION WHETHER ANY SUCH THING AS 'AFRICAN NATIONALISM' EXISTS IN KENYA..."

ARE THEY STILL OF THIS OPINION?

The African challenge

THE AFRICAN ELECTED MEMBERS HAVE ISSUED A STATEMENT OF POLICY REJECTING THE LYTTLETON PLAN IN ITS ENTIRETY AND EXTOLLING AFRICAN NATIONALISM. WHY WAS NOT THIS CHALLENGE ACCEPTED BY THE ELECTED MEMBERS IN THEIR STATEMENT AND WHY DID THEY NOT TAKE THE INITIATIVE BEFORE THE ISSUE OF THE AFRICAN MANIFESTO? WAS NOT THE INITIATIVE LOST WHEN THE GROUP OPPOSITION WAS RENDERED LEADERLESS?

"So let it be with Caesar"

SINCE ALL MEMBERS OF THE GROUP ENDORSED THE ACCEPTANCE OF MINISTERIAL APPOINTMENT BY THEIR LEADER, DESPITE THEIR PRE-ELECTION PLEDGES, AND IN VIEW OF THEIR TOTAL FAILURE TO ASSESS AFRICAN OPINION, HONOUR DEMANDS THAT THEY RESIGN AND GIVE THE EUROPEAN ELECTORATE AN IMMEDIATE OPPORTUNITY OF RETURNING TO LEGISLATIVE COUNCIL REPRESENTATIVES WHO ARE DEDICATED TO THE MAINTENANCE OF EUROPEAN LEADERSHIP AS BEING IN THE BEST INTERESTS OF KENYA.

"The price of liberty is eternal vigilance"
