KEEPING PACE WITH EXPANSION

Overlooking the broad
main highway which
bring visitors from
Nairobi's railway station
into the rapidly expanding
city centre, the Standard
Bank of South Africa's new
Government Road branch
is well situated.

Its attractive exterior of
dark and light granite
terrazzo, with multi-
panel inset, is set off to
advantage by the gleaming
doors of polished alumina-
um. Foyers open on to
Government Road, the
Victoria Street, and
separate entrances to the
bank hall and upper floor,
which are both served by
public lifts. Telephone
booths have been installed
in the main foyer.

The administrative
headquarters of the bank
occupy the top floors, with
the new branch bank on
the ground floor.

Our Standard...

OUR STANDARD IS...

Efficiency combined with a friendly
personal service in all matters, large
or small.

The interior of our new Government
Road premises, the most recent addition
to our list of over 750 branches in Africa,
has been designed to enable the whole
range of banking facilities to be extended
to you speedily and in comfortable and
attractive surroundings.

THE STANDARD BANK OF SOUTH AFRICA LIMITED

INCORPORATED IN THE UNITED KINGDOM

Bank marks 47 years' service in East Africa

NEW BRANCH OPENED

Only three years short of its golden jubilee of banking service in East Africa, the Standard Bank of South Africa, Ltd. marked its progress by the laying of the stone for the new building in Nairobi on Monday of a new £170,000 building in the city. The new building will serve as a branch office for the permanent headquarters of the administrative staff.

The new branch, one of 42 already operating or being opened by the company in Kenya, Uganda and Tanganyika, is the company's first in the East African continent. It is the first bank to be built in Nairobi since the first bank at Kilimanjaro in 1910. The new building is situated in the office in Sallee Street but its plans to start land plus with expanding business and accommodation was 42 1/2 years ago.

Now the staff say every inch of the permanent home in Nairobi on the second and third floors of the new Government Road branch. The ground floor contains the branch banking hall, the cashier's office, the manager's office and the staff quarters.

ROOM TRANSFER

The new branch of the Standard Bank of South Africa is to be built on the site of the old Government House, 151, Government Avenue. It is a 100,000 sq ft building on the present site of the old Government House, which was built in 1910. The building is to be built on the site of the old Government House, which was built in 1910. The building is to be built on the site of the old Government House, which was built in 1910.

The main banking hall has "acoustic" partitions which provide more privacy for clients and more open space without overcrowding. In the top picture, another view of the hall. The ceiling and walls are covered with acoustic tiles to reduce noise to a minimum.

CHANGES IN THE ASIAN SYSTEM OF EDUCATION

Uasin Gishu progress

PROPOSALS for changing the education for African children in the Uasin Gishu have been approved by the governing body of the Uasin Gishu Secondary School, Mr. S. V. N. address by said that after the Standard VII pupils, at the end of the year, a new educational system would be introduced.

The proposal is to provide the students in the secondary schools with a broad-based education which will be completed in a secondary school and a further year of general education for a further two years. This would make a total of four years of secondary education for the students in the Uasin Gishu area.

The proposal is to provide the students in the secondary schools with a broad-based education which will be completed in a secondary school and a further year of general education for a further two years. This would make a total of four years of secondary education for the students in the Uasin Gishu area.

Sewerage scheme for Molo area

AGREEMENT to proceed with the first stage of a £120,000 sewerage scheme for Molo and the surrounding area has been reached by the Molo Urban Water Council.

The sewerage scheme will be completed in a number of stages. The first stage will be to provide sewerage for the town of Molo and the surrounding area.

Plans for road improvements sent to authorities

COUNCIL TO PUT ROAD POSITION

COMPLAINTS about the road conditions in the Nakuru South District and suggestions for improving them are to be discussed at a public meeting to be held at 8 p.m. on the 15th of the month.

The meeting is being organized by the Nakuru District Council. It is expected that the meeting will result in a number of improvements to the roads in the district.

NO CHANGE LIKELY IN RATES

Njoro forecast

FORECAST that there would be no change in Njoro rates during the coming year was made by the County Treasurer, Mr. L. M. M. at a meeting of the County Council on Wednesday.

Mr. M. stated that the rates for the coming year would be the same as for the current year. He said that this was due to the fact that the County Council had no other sources of income.

120-mile walk by four Seoks

Four members of the Nakuru Seok club have undertaken a 120-mile walk in the Nakuru area. The walk was completed in four days.

The members of the club who undertook the walk were Mr. A. M. M., Mr. B. M. M., Mr. C. M. M., and Mr. D. M. M. They started the walk on the 1st of the month and completed it on the 5th.

Menengai Gr. to study in England

Two members of the Menengai Gr. have been selected to study in England. They are Mr. A. M. M. and Mr. B. M. M.

The students will be studying at the University of London. They will be studying for a degree in the field of education.

Man killed while talking to police

A man was killed while talking to police. The man was shot by a police officer. The police officer was acting in self-defense.

The man was shot in the chest. He died shortly after he was shot. The police officer was charged with the murder of the man.

Give them a Flying Start with Finonem

Finonem is a powerful stimulant and energizer. It is used to improve the performance of athletes and workers. It is also used to improve the performance of students.

Finonem is available in various forms, including tablets and capsules. It is also available in liquid form.

THE WEEK'S RAINFALL

The amount of rain that fell in the Nakuru area during the week was 1.2 inches. This is a significant amount of rain for the area.

The rain was recorded at the Nakuru weather station. The rain was recorded from the 1st of the month to the 7th.

CATTLE RUSTLERS ON RUN AFTER AMBUSH SHOOTING

Nakuru police are searching for cattle rustlers who were involved in an ambush shooting. The rustlers were shot by police officers.

The rustlers were shot in the Nakuru area. The police officers were acting in self-defense. The rustlers were charged with the murder of the police officers.

Fire stops radio

A fire broke out at a radio station in Nakuru. The fire was caused by a short circuit. The fire was extinguished by the fire department.

The radio station was damaged by the fire. The fire department was called to the station on the 1st of the month.

WHITE MAN'S MAGIC' GAIN STRENGTH IN SUK COUNTRY

HENRY HELBER, who has worked in Suk country, writes on the newly proposed by Kenya Government officers a white revolution in the tribe and also on the old system of work which they have to contend.

FEW weeks ago, a car driven by a white African and containing Europeans was brought to a halt on a precipitous mountain pass in wild Suk country by the body of a freshly skinned goat which was lying across the track.

The driver stopped, and in a few volleys told his passengers that this was a case, not only on them, but on all Europeans who were trying to bring their way of life to that primitive corner of Africa. The goat was dragged by its leg to the side of the road, and the party drove on. It was just another illustration of the immensity of the Government's task in the district.

In recent months the Government has stepped up its campaign to bring enlightenment to the backward people who live between the European Settlement and the Ugandan border and the desert.

The campaign is necessary. Government used strong measures to fight out a white revolution called that in 1908. The Government had started thousands of settlements.

Which doctors running the movement, treated, covered health and fertility. They held mass meetings at which forms were filled and hymns of praise sung. The white Government weep some for hours.

ADMIT ALLEGIANCE

Hundreds were arrested and 100,000 of the movement had been driven nearly extinct.

They, 200,000 in total, are imprisoned, at Kenyan, and the white people will be sheltered under the wings of the Government, which are the root of the trouble, are taking the option of a hand in hand rehabilitation of the people.

Psychology of the working class. The Suk really admit their allegiance to a subordinate movement, and wishes to attending

Above, the Roman Catholic Church of Orinduik, another extension to a new and developing town. Top, Chief Mbarika at a "Barot" attended by the Governor at Mbitanga. Extreme right, Suk women wait for a community development officer to lecture them on husbandry and hygiene.

Women's clubs under way

men, and wishes to attending its meetings, because they are not active in the movement. To convince them of the necessity for progress and to get some of their vital energy and experience, the white ladies must make a practical approach. So, a shower of benefits of civilization is beginning to fall on the unhappy Suk.

Science, medicine and modern agricultural techniques are being brought into the latter, the men are being 'got at' through their womenfolk and children.

One of the first problems to be tackled in that of health which is in an appalling state from the tops of the 10,000-ft mountains down to the desert lands.

It is estimated that as per cent of Suk children die in infancy. Tuberculosis is rife over hundreds of miles over the most children die in such little

FEATURING YOUTH

STEPS in Kenya to solve the language problem among African youth will be subject of an illustrated article by **HEIDERS HAINS** in the Feature Section next week.

There will be also a third article in our sixteenth Number (Illustration in the Kitchen). In it, **FLORA MORRIS** will take the reader into the most kitchen in Nairobi.

GAY PLANS IN GOOD COOKS—A HAPPY HOME

FLORA HOPKINS contributes the second article in our series on "The kitchen as the kitchen" in the "work room" and the "happy home".

The kitchen is the most important room in the home. It is the place where the most important and harmonious business of the day is done.

A good cook who cooks well under any circumstances, but a happy cook who cooks in the home and impresses her prevailing mood on the rest of the family.

An adequately equipped and fully decorated kitchen can be the subject of admiration for creating a happy home.

With rising food and household expenses, it is essential to have a kitchen that is both efficient and economical.

Many of us are still held back by the idea of a kitchen that is only a kitchen, and not a part of the home.

Why should we have a kitchen that is only a kitchen, and not a part of the home? Why should we have a kitchen that is only a kitchen, and not a part of the home?

Why should we have a kitchen that is only a kitchen, and not a part of the home? Why should we have a kitchen that is only a kitchen, and not a part of the home?

Why should we have a kitchen that is only a kitchen, and not a part of the home? Why should we have a kitchen that is only a kitchen, and not a part of the home?

KLINGDECOR 'the perfect plastic surface'

In sheets of 9' x 4'
She. 114/1
and in handy
sizes of
4' 6" x 3'
3' 6" x 3'
or 3' x 5/2
per sq ft.

No other plastic surfacing stands up so well to really high temperatures (well above the boiling point of water) — yet KLINGDECOR actually costs less! And every sheet is cigarette-proof — at no extra cost.

Attractive ideas for curtaining the most awkward windows

(Continued from Page 18)

and especially roller-blinds, are to be chosen. The latter are especially useful in the case of windows which are not covered by linings, but have been in constant use for many years, and are often of a shape which makes them difficult to fit.

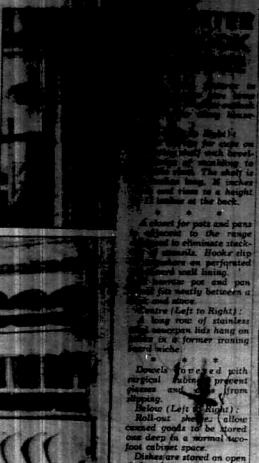

One particularly attractive design that covers any possible variety of windows is the Venetian blind. These are made of a number of horizontal slats which are held together by a central cord, and can be raised or lowered by pulling on the cord. They are especially useful in the case of windows which are not covered by linings, and are often of a shape which makes them difficult to fit.

VITAL COLOUR
A very small, neat and simple design in a four-colour ink is used for the most brilliant and lasting results. The ink is made of a special material and is guaranteed to last for many years without fading or becoming illegible.

PELMEX MINT
A transparent, lacy design looks very pretty with a fringed trim. It is made of a synthetic material and is guaranteed to last for many years without fading or becoming illegible.

OLD FAVOURITES
Once we have decided how much we can spend on our new decoration or renovation we can easily add style and class with a few simple touches.

FORMICA
FORMICA is a laminated plastic which is the latest modern surfacing material for tables, furniture, shelves, etc. It is made in over 50 colours and patterns to harmonize with any colour scheme.

A revolution in cleaning -

its stack - but you're mobile

Hoover

Hoover has made one of the most important developments in the history of the vacuum cleaner. The revolutionary Hoover D'Ponax is a portable vacuum cleaner which can be used in any room. It is easy to use and is guaranteed to last for many years.

There's a wide range of super Hoover tools in a handy carrying case. They'll keep your house bright and clean, making rugs, fabrics and all your furnishings last longer and look better.

THE CAR & GENERAL EQUIPMENT CO. LTD.
NO. 102, VOMBILA KAMPALA, DUBLIN SALAM

When your feet CAN'T STAND ANY MORE

Radex Millions of feet every day suffer from pain and soreness. Radex relieves foot pain, even from corns and blisters. Radex is a powerful disinfectant and antiseptic. It is guaranteed to last for many years.

Radex
In tank packets, four of them and ten.

Not much fun, washing up... is it?

It's the nuisance that makes it so. It's when you get the awkward corners to soap suds and grease - and no time or energy to hold garnish either.

STAINLESS STEEL SINK
It's something that a difference is made when you have in stock a comprehensive range, with stainless and black steel, from 23 in. to 27 in. in length.

Colourful

ELECTRICAL APPLIANCES MAKE KITCHENS GAY

Modern trends in furniture and interior decoration have laid important emphasis on the subtle use of lighting and colour in the home. The kitchen, being naturally the hub of any home, calls for special attention. Whether your present colour scheme is, or should you be thinking of repainting, it is now possible to pick from a range of delightful colours. Refrigerators, stoves and in fact any electrical appliance to match or contrast with your scheme at home. Other fixtures such as electric light fittings, have also been designed in attractive shapes and in shades to blend in with the modern treatment.

Heads with rollers provide additional curl, wave in, Poodle—just plug in and switch on in any room you like.

Lamps, some designs, are available in all the colours. Differently coloured shades give scope of choice.

In the kitchen pictured above all the electrical equipment is available in a variety of soft pastel shades—for instance, the refrigerator is available in either beige, cream, blue, grey or green. Taken at random and illustrated below are a few of the time-saving appliances which at the flick of a switch will give you the service you've always dreamed about. Each model available in a choice of colours to suit your kitchen scheme.

The electric food-churn does everything—grinds, mixes, beats, minces, mixes, all attachments are optional and can be bought separately.

Available in 3 and 5 pint capacities boiling water in 3 1/2 minutes. At this rate one pint of water can be boiled in two minutes.

Electric Irons are indispensable. The "bulbs" iron has easy temperature control. The toaster can toast two slices simultaneously in only two minutes.

**THE EAST AFRICAN
POWER & LIGHTING CO. LTD.**

SAVING LABOUR
When a student is asked as a master-workshop it will look so well-versed that we will be glad to provide it use and have at least a second month there.

(This practice is far less widespread in most Africa than it has become in England, where the percentage of events for lunch and carry is an outgrowth of the advancement but how long we have to wait before a similar situation applies. See 7.

The demand for small houses is increasing and the erection of simple, compact houses, in its early stages, saving of labour.

The trend follows the same path. The logical conclusion is to cut out all that surplus, the distance between kitchen and dining room is unaccommodated and the number is to incorporate the two.

We might make a modest start with breakfast. In its simplest form, a plastic-topped table with light, stool will suffice, or a "counter" against the wall.

BREAKFAST 'END'
A more clearly defined breakfast "end" or room can have a definite line of demarcation from the kitchen, which might be several forms.

Introduce a change in the floor colour, or have a light-bulb away from the working space, a frame for climbing plants, and a lamp to illuminate the simple and novel dining, so that dirty pots and pans from the previous course are kept out of sight.

With only a little elaboration, the breakfast end, or have a light-bulb away from the working space, a frame for climbing plants, and a lamp to illuminate the simple and novel dining, so that dirty pots and pans from the previous course are kept out of sight.

SCREEN FURNITURE
Dining chairs made of steam-treated wood on a steel frame-work and a plastic-topped table suit this purpose admirably and furniture of this kind is available in Nairobi at the present time.

A more homely atmosphere, reminiscent of the farmhouse and Victorian parlour might be achieved by displaying a wooden dresser, arranged with bright glass and set out across the door, to form a screen.

A gate-legged table (if you are sufficiently fortunate to have one in your possession) and Windsor chairs, with leather or cotton-covered cushions, are pleasing in their use of space.

Gay curtains with a filled bobbin would add contrast and cheer to the dining table.

Wash-up and washing-up are separated by a door. An oak window-sill, the effect and the few rich Oriental rugs on the grey and black terrazzo floor spell luxury.

**SIMPLEST SCHEME
MOST SUCCESSFUL**

Large dining grange (top) saves energy and space. A large dining grange built back a corner of a small kitchen in the two pictures above. In moments make the kitchen found a place for essential roomness. A large dining grange conceals a free space.

SPELLING LUXURY
The clear surfaces repeat the black, which is found at the opposite end of the room by a plastic-topped table with yellow steel legs. Black leather-upholstered seats match; they take up little room and are light to move.

The sink and washing-up organ is separated by a door. An oak window-sill, the effect and the few rich Oriental rugs on the grey and black terrazzo floor spell luxury.

THE MODERN KITCHEN DEMANDS...

FISHLOW SINKS

FISHLOW sinks... are hygienic and easy to keep clean.

The multi-faceted draining-board on these new-style Fishlow sinks ensures better draining, unwarped sound decking, and can be used effectively as a scrubbing board.

Give me WISDOM for long wear!

When women say "Wisdom" when buying a toothbrush. They choose it for its correct shape, which ensures thorough cleaning, and for its well-known resistance to really hard wear.

The strong, springy tufts of the "Wisdom" toothbrush retain their shape and resilience for an exceptionally long time, no matter how hard and often you brush your teeth. That means long-lasting protection for teeth and gums — an important contribution to your health and good looks.

Look for "Wisdom" in its hygienic dust-proof container. It is stocked by good stores everywhere.

RAPID INDUSTRIAL AT THIKA

Character of town changing

Steady development of Thika since the Ukuba Urban Council came into being about four years ago, the town has grown in a remarkable fashion. From a tiny village of a few hundred people, it is rapidly developing into a busy well-served industrial town.

With an ample water supply, modern electricity, abundant labour, and cheap industrial sites, it is now in a position to play an important role in the industrialisation of the country.

All plots available for industrial use are well-served by water, electricity, gas and sewerage. The plots are surveyed in a very short time.

Land for Europeans has been set aside in the industrial zone. The provision of plots is rapid and the cost is low.

Industrial development is controlled by the East African Industrial Corporation which has set up a special fund to assist small-scale industry.

Recently for example a small coffee firm was allowed

CONCERN OVER TANGA WATER

The Medical Officer of Health, Tanga, recently expressed the Town Council's concern over the water supply.

The Tanga Health Committee of the Tanganyika Medical Officer of Health, in a letter to the Council, expressed the concern over the water supply because of the outbreak of typhoid.

It was stated that while the Council had no control over the water supply, it was a public health authority's duty to advise the Government to take steps to improve the water supply.

The Council has decided to investigate the water supply situation and to report back to the Council.

MISUMU TRADERS CONFIDENT OF BRIGHT FUTURE

Plans to attract industry

DENYING the statements in the valuation chart that Misumu was declining in importance, business and town officials have stated that the town's prospects are bright. They said steady building progress has been observed and residential areas are being developed. They also said that the town's population has risen to 10,000 and that the town's appearance and attractions are being improved.

As part of a five-year plan, the town's appearance and attractions are being improved. A new main road, 100 feet wide, is being built along the new lake.

Tarnac roads
Construction is up to advance and the road is being completed by next June. Plans for a new road from the town to the coast are also being approved by the town council.

During the next 10 months another six miles of main roads in residential areas will be completed. The town council has also approved a plan to improve the town's appearance and attractions.

WARNING ON REDUCED U.S. AID

The U.S. House of Representatives has passed a compromise bill authorizing about \$1,200,000,000 in foreign aid for the coming year.

The bill was passed by a vote of 219 to 197. It is the lowest level of aid since 1954. The bill also contains provisions for the reduction of aid to Cuba and the Soviet Union.

The bill also contains provisions for the reduction of aid to Cuba and the Soviet Union. It also contains provisions for the reduction of aid to Cuba and the Soviet Union.

MORE REBELS IN RED CHINA

Three Chinese counter-revolutionary parties have been uncovered in Anhui Province, East China, according to the Chinese government.

The parties are the 'Three Buoys' party, the 'Three Buoys' party, and the 'Three Buoys' party. They are active in the province of Anhui.

The parties are the 'Three Buoys' party, the 'Three Buoys' party, and the 'Three Buoys' party. They are active in the province of Anhui.

The new prospectors of the Lake district are expected to be quite steady and as the mining industry in the African area more wealth would flow into Misumu. In the Nyota Province alone there were some 100,000 acres of a total of 1,000,000 acres of the whole of the Colony. They constituted a considerable proportion of the country's resources.

The town's prospects are bright and the town's appearance and attractions are being improved. A new main road, 100 feet wide, is being built along the new lake.

Kisumu has no labour or water problems and its industry could be expanded to meet the town's power deficiency could be met by linking up with the Owen Falls hydro-electric plant. Through the substitution of heavy industrial development in the area, the town's power requirements would be met.

Need to find fresh markets stressed

NEW markets should be conscientiously sought for Kenya produce as there were distinct signs of over-crowding in a limited market, the chairman of Eldoret Chamber of Commerce and Industry, Mr. L. F. Leonard, told the chamber's annual meeting.

Government talks offer

Mr. Leonard said that in his opinion the Government should be more forthcoming in its offer to buy Kenya produce.

PROBLEM FOR MODERN YOUTH

Kenya's youth are being trained to fit Kenya Government's efforts to develop agriculture, commerce, industry. The pattern are by ERICSON

As the Kenya campaign has been adapted to meet modern requirements by a new youth club movement in Kenya, a movement directed by the Government to combat the problem of ill-health and under-education of the youth in the light of their environment for which they are not adapted.

For their health the youth clubs in the Mathira Division of the Colony of Kenya have taken the Kilimangaro special Ignita Cia. Run which loosely translates "modern civilization".

Many young men in the history were ruled by ritual and ceremony and the singular of health, about the place in which young men and women were advised and encouraged to fit their life. Today, the old ritual is gone and the advice has been altered to suit changing conditions.

Energy and enthusiasm have been expended in order to bring turned into practical channels and most important—managerial difficulties are being solved.

In Kenya, the younger generation was aggravated by the collapse of the Empire and the economic conditions which arose from it.

The Government noticed that there was a significant increase among some of the Kenyan youth (the 20-30 age group) who were being recruited in the Mau Mau uprising towards "agony" and "hunger".

The youth clubs were started last October. Their aim is to help young people to fit into rural conditions through education and training in agriculture and industry.

The Government chose for the experiment Mathira, a division which had been deeply affected with Mau Mau, the home of the "Mau Mau" and "Mau Mau" and "Mau Mau".

Now there are 17 youth clubs in the Mathira Division and 32 in the district. By the end of the year there will be 44. The movement is expected to spread to other districts.

LAND ALLOCATED

It was realized from the beginning that the scheme should be a voluntary effort on the part of the people rather than a compulsory imposition by the Government.

In the Mathira Division, in co-operation of the clan elders was organized. The Government allocated the land for the clubs, giving each about five acres.

DOMESTIC SERVANTS

There have been 10 years of following the pattern of a century of every day. The pattern in East Africa has been the pattern of a century of every day. The pattern in East Africa has been the pattern of a century of every day.

A path of leisure... where, the boys enjoy a game of volleyball while, top right, the youth are being trained in modern agriculture. Top left, a youth club in the "Mau Mau" area. Extreme right, a Government, community center, Mr. P. O. Shaw, talks to members of Kilimangaro Youth Club.

BUYING A TRACTOR?
Then ask Nuffield owners
about THE THINGS THAT MATTER

POWER with ECONOMY

M.C. 34 - LITRE DIESEL ENGINE - 45 B.H.P.

Instantaneous Starting - Easily Aligned Belt Pulley - Hydraulic Lift with Mechanical Lock - Two Hydraulic Tappings with Independent Controls - Long Axle Shafts and Sliding Hubs - Complete Driving Ease and Safety with Fingertip Control.

- POWER**—Drawbar H.P. 41.6 and maximum sustained pull of 5,800 lbs. will ensure adequate power for all farm work at any altitude.
- ECONOMY**—The B.M.C. Diesel Tractor was the most economical at both ploughing and hauling in the Finnish work efficiency trials and is indeed the most economical anywhere.
- STRENGTH**—It's tough! Heavy main frame and rear axle casing to withstand shocks and stresses imposed during the severest working conditions.
- LOW COST PER HORSE POWER**—The Nuffield is the cheapest Tractor per h.p. despite generous standard equipment, including hand and steering brakes, hour meter, number plates, twin batteries, swinging drawbar and 14 x 30 tyres.
- SIMPLIFIED MAINTENANCE**—Years of long service will prove the advantage of unit construction.
 - Completely accessible B.M.C. Diesel Engine with wet cylinder liners, pistons and connecting rods which can be removed through the top of the cylinder block.
 - Clutch can be dismantled without splitting the Tractor or disturbing engine or gear box.
 - Final Drive Gears housed in separate unit from gear box for accessibility. Nuffield features which mean cheaper maintenance, less idle time and longer life.

Poley Bear Spotty Dog lost in a wood

by ROBINA WRIGHT

Poley and Spotty had spent a happy afternoon in the woods. Now it was getting late and they must now be home. They were looking for the straggling trees. When they came to the straggling trees, they were surprised to see a little boy alone, who said he had a rabbit. They followed him to a hole in the ground. They found a rabbit and they were very happy. They took the rabbit home and they were very happy.

"They're still looking for him," said the boy. "I'll show you the way." They followed him to a hole in the ground. They found a rabbit and they were very happy. They took the rabbit home and they were very happy.

The next person to pass was a woman who had a dog. She was looking for the dog. They followed her to a hole in the ground. They found a dog and they were very happy. They took the dog home and they were very happy.

"Thank you," said the woman. "I'll show you the way." They followed her to a hole in the ground. They found a dog and they were very happy. They took the dog home and they were very happy.

Poley grinned. He was hungry, but he didn't like sitting in the car. Suddenly, he cried out "Light!" I can see lights tonight. It was a police lorry. Spotty trotted in front of it. The car got out, frightening Spotty. He was very angry. He was very angry.

COMPETITION WINNERS

The four prize-winners of the 1954-55 Fishing Competition of August 5 are: 1. Dorian Gordon, P.O. Box 247, Zomba; 2. D. C. Murgess, P.O. Box 247, Zomba; 3. Herrietia Murgess, P.O. Box 247, Zomba; 4. Anne Cooper, P.O. Box 337, Nairobi. Book orders will be sent to the winners.

Just laughed

"If wish you were big like my father," Wendy would wobble at him. "I'm not strong like you," pouted up Linda. "The water right is I am," Frankie would yap indignantly. "I make two of you of you and the puppets just laughed at her.

Caught in hole

The puppets were chasing Wendy when suddenly she caught her paw in a rabbit hole. She tried to pull it out, but she was stuck. She was stuck. She was stuck. She was stuck.

MINISTRY OF WORKS Central Director (South)

The Board reserves the right to reject any or all tenders to be submitted by any or all tenderers. No tender may not necessarily be accepted. T. J. LANGRISH, Chairman.

LITTLE FRANKIE SPANIEL SHOWS HIS COURAGE

By ANN PERRY

WENDY sat back in the grass and chewed her family's sixth grade. She had good friends to be proud of. Her five bouncing spaniel puppies, two black like her mother and three golden like her father. They were following each other round the yard, led by Joey, Liza and — she had not thought of a name for the last golden puppy.

There were five more to be named. Frankie was a sudden disappointment to her. He was a small ball of black fur and being smaller than

"Go and fetch the cats, Frankie," he heard the mother say. "Frankie can manage them," said Benny, the father. He walked over to Wendy. "You're just a little bit of a baby," he said and slipped out of the hole. Then, he helped her back into the house to her family.

Exhausted cats They were all busy fanning themselves. Frankie was the light of triumph in his eyes.

He had a drink of water and then he curled up in his basket and went to sleep.

Outside, the puppets could see how exhausted Frankie was. They were very sorry for him and they were very sorry for him.

They were very sorry for him and they were very sorry for him. They were very sorry for him and they were very sorry for him.

TUNING-IN TIME

The Great Rift

MANY of you, reading this page, will be living in the Rift Valley. It is a very big valley. It is a very big valley. It is a very big valley.

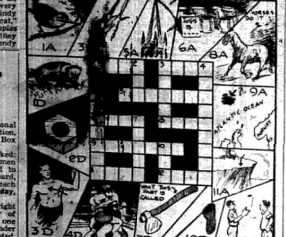

God's Plan was slowly working itself out. His own people had taken over the valley. They were very happy. They were very happy.

It would be spilling the story he told her. He told her that the valley was very big. It was very big. It was very big.

Your choice

One thing is certain — whether you live in Nakuru or Kericho, you've got to choose a good name for your family and to the whole world.

Humorous slant given to 'game of diplomacy'

There are so many people awaiting attention that it is the only thing to do is to make the briefest comment on them. Generally speaking, however, I would say it is not only to practice on space but to begin with an accomplished first. The World's Game, by Mr. H. H. Thompson, which is worth a mention, is to be published by the publisher of the "World's Game," The Little Review, 100 West 42nd Street, New York 18, N. Y.

UNDER
The "Game of Diplomacy" is a new book by H. H. Thompson, published by the Little Review, 100 West 42nd Street, New York 18, N. Y. It is a humorous and satirical work that deals with the "game of diplomacy" in a light-hearted manner. The book is written in a style that is both entertaining and informative, and it is sure to appeal to a wide range of readers.

Modern surgery
Medical novels have had a boom lately and Dr. Grant Rogers' "The Game of Diplomacy" is no exception. The book is a humorous and satirical work that deals with the "game of diplomacy" in a light-hearted manner. The book is written in a style that is both entertaining and informative, and it is sure to appeal to a wide range of readers.

REVIEW
The author, obviously, has all the necessary qualifications for the job. He is a humorist and a writer of considerable talent. His work is both entertaining and informative, and it is sure to appeal to a wide range of readers.

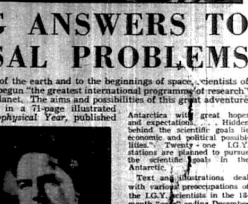

SEEKING ANSWERS TO UNIVERSAL PROBLEMS
REACHING out to the ends of the earth and to the beginnings of space, scientists of more than 50 nations have begun the greatest international program of research for a better knowledge of the planet. The aims and possibilities of this great adventure are told in layman's language in a 7-page illustrated booklet, "The International Geographical Year," published by the United Nations Educational, Scientific and Cultural Organization.

Earth satellites
It is explained how science is being used to explore the possibilities of the United States' plan to project a number of satellites approximately 50 miles above the earth's surface. The satellites will weigh 10 kilograms into orbit at altitudes ranging from 25 to 100 kilometers. They will circle the earth in elliptical paths at 24,000 kilometers per hour.

Ho-ho-ho flower
Being the flower of China Coast at the time of the Peking Expedition, the ho-ho-ho flower is said to be the most beautiful of all flowers. It is said to be the most beautiful of all flowers, and it is sure to appeal to a wide range of readers.

DO YOU KNOW WHAT'S ON YOUR ROOF?
Many homeowners have their roofs painted without troubling to specify what kind of roof protection is to be used. Practical men use Laykold. Laykold gives you a heavy-duty roof coating that forms a tough skin all over. No roof made of bitumen is specially for the job, it protects iron-roof from rust, ensures you a water-tight roof, and protects for a long, long time.

Old kitchens given new life with electricity

Like Magic

Inexpensive renovation

(Continued from Page 17)

and some within the average range have had her old kitchen renovated and has shown how much can be done with comparatively little outlay.

The main improvement she has introduced consists of a grey terrazzo floor and her laminated plastic tops on her cupboards.

She has found some matching wall above it drawn off all the cooking smelt and she has sufficient light falling on to it either from a small window or from the extra electric light on the ceiling immediately above.

Mrs. Quick is a keen gadget collector. All her gadgets are in regular use and she has chosen them with care.

Most of her collection consists of inexpensive items, and most of them were bought in Nairobi.

A board for making ravioli, for example, is a million-dollar item in no more time than it takes to cook and two dozens of pasta.

GLASS PLASTIC

What might be mistaken for a large oval hand-drawn machine is a device for rolling out strips of mastic to various thicknesses.

What I mistook for a small egg whisk turned out to be an egg yolk separator and another little gadget cuts off the tops of loaf bread.

The usual hand-operated and tomato cutter she uses and a chopper and a grater and shredder that were very useful on the same principle as the hand baby food crusher that is so popular.

Mrs. Quick refers to the attachment she could have for her electric mixer, since she feels that over-centralization of every gadget causes her machine to defeat its own purpose of getting the work done in the shortest possible time.

One plastic curtain in the two windows maintains the brightness and the light and grey drapes and on two sides and partner, growing where they are most wanted.

For a cook with no mechanical aptitude I thought a wall cupboard and an oven with a glass door made a very good start, and the room certainly has the appearance of being a little more white-washed.

CHOICE OF BRILLIANT OR SOFT LIGHTING

contingent with good and that she really would like the laminated plastic top on the cupboards and the blue chosen since it is a more time than it takes to cook and two dozens of pasta.

As Mrs. Quick's renovation plan she mentioned that she had made her appearance in present circumstances, asking for any great improvements.

FROM 1920 . . .

The terrazzo floor, the fitted cupboard running round each wall, and the collapsible table and chairs, from one wall into the centre of the room - all typical of the 1920's.

Either of the two strip lights is switched in the evening, so that there is a choice between a brilliant glare and a softer glow.

In the daytime, Mrs. Baker rolls out her pastry on a table in front of the window where she says the lovely view of the valley before her is all the encouragement she needs.

What Mrs. Baker Babo did a day or two later, we were dis-

MANY GADGETS

This laundry tub built out from under a window.

A long marble slab with a rubber mat under it, and a perforated mat to keep the hot floor from getting too hot.

How new refrigerators in table-top and this is covered with laminated plastic, so that the flat top provides an excellent rod plastic table top.

Her electric rocker is her most extravagant item of equipment, and, like Mrs. Carden's, it is a form of the most up-to-date.

More and more people are beginning to realise that the time and labour spent in a kitchen can be greatly reduced with introduction of electricity. Electricity, which offers unbeatable "hick of the switch" service sweeps aside old fashioned and time consuming methods and does the same work effortlessly, with far less attention. You'll marvel at the change in your kitchen once you've installed electricity and you'll truly wonder how you ever did without it.

Take a good look at the kitchen above and see for yourself what electricity can do for you and your kitchen. It cooks the meal, washes the clothes, polishes the floor and in fact does everything. All the hard, back-aching jobs eliminated, making the modern kitchen a pleasure to work in.

In the kitchen illustrated above, correct lighting plays an important part. Strategically placed and well balanced lighting is essential in every kitchen. Electric equipment like the stove and refrigerator are practically indispensable. The washing machine which is so easy to handle does the weekly chore in half the time and with better results too. Yes, there's so much electricity that it can help you make your house just a home. Give your kitchen a new lease of life—in all electricity.

Relaxing in the kitchen with a homely and friendly atmosphere

BY HAZEL MEYRICK
 HOW do you rate your kitchen? It is a clean, anti-epidemic-looking kitchen a homely and friendly room where guests tend to congregate, or a hopeless jumble of "To do's" and "To do's" which are never planned—just put down.

Most of us are starting from a bad kitchen. It is a clean, anti-epidemic-looking kitchen a homely and friendly room where guests tend to congregate, or a hopeless jumble of "To do's" and "To do's" which are never planned—just put down.

The chief culprit in the kitchen is the lack of space. It is a clean, anti-epidemic-looking kitchen a homely and friendly room where guests tend to congregate, or a hopeless jumble of "To do's" and "To do's" which are never planned—just put down.

One of the most common mistakes is the lack of space. It is a clean, anti-epidemic-looking kitchen a homely and friendly room where guests tend to congregate, or a hopeless jumble of "To do's" and "To do's" which are never planned—just put down.

Another common mistake is the lack of space. It is a clean, anti-epidemic-looking kitchen a homely and friendly room where guests tend to congregate, or a hopeless jumble of "To do's" and "To do's" which are never planned—just put down.

MALAYA

MATAI TO SEND MORE WEAPONS TO GET AID \$250,000 for college

NEW ZEALAND is to grant Malaya, which has been underpinned for the past few years, a grant of \$250,000 for college aid.

The grant was announced in Kuala Lumpur yesterday by the New Zealand Minister for External Affairs, Mr. Thomas Mackintosh.

Mr. Mackintosh said that the money might be devoted to establishing an agriculture college at the University of Malaya.

The Duke and Duchess of Gloucester, with their own Prince Philip, are expected to visit Malaya in a British air force plane in the near future. The Queen, who will visit Malaya in the near future, will be accompanied by the Duke and Duchess of Gloucester.

120 States expected to send experts

The largest collection of guided weapons ever assembled for display will be on view next week at the Society of British Aircraft Constructors' annual show at Farnborough. Only one of the 14 missiles to be seen — the "Pete" — has been publicly displayed before. Visitors to the show will also see by aircraft capable of speeds up to about 1,500 m.p.h.

By Government order — mainly for safety reasons — none of the planes will be permitted to fly faster than the speed of sound, which is 760 m.p.h. at sea level.

Mr. Edward Dwyer, director of the Society of British Aircraft Constructors, said yesterday that this ruling was "a disappointment". Exhibitors of most types of aircraft had asked permission to fly at speeds faster than that of sound.

It is estimated that 120 States will be represented at the show, the largest show-window of the British industry. The biggest contingents will be from France, the United States and West Germany. A Nato delegation with 30 States, Russia and East European Communist countries attend. Yugoslavia is expected to be represented.

Unexpected traveller on board... Kenya political forum planned

THERE WAS AN EXTRA passenger on board the air-country train from Mombasa where it arrived in Nairobi yesterday.

At 4:04 a.m. as the train was travelling between Kilua and Kiunga station, Mrs. Swirathwa Nambuthi Patel, of Mombasa, gave birth to a son.

The first news of the event came from the hotel chambermaid of the adjoining hotel, who was called by the name of Mrs. E. E. Swirathwa.

The father of the child is a member of the Kenya Convention of Associations. The child is named as Mr. Peter Swirathwa.

Members in response to suggestions from foreign press associations, it has been announced, will be invited to attend the Kenya Convention of Associations in Nairobi in October.

The conference is to be held in Nairobi in October. Members in response to suggestions from foreign press associations, it has been announced, will be invited to attend the Kenya Convention of Associations in Nairobi in October.

WEST PUTS NEW ARMS PROPOSALS

Banning of nuclear weapons

A BAN on the use of nuclear weapons except for individual or collective self-defence was one of the chief proposals in the Western Europe disarmament plan, which was tabled at the London disarmament talks last night.

The plan also called for a ban on the use of nuclear weapons in the Middle East, and for the reduction of the burden of military expenditure.

The Soviet Union rejected the West's proposal for a ban on the use of nuclear weapons in the Middle East, but agreed to table the plan forward at the talks ten days ago.

Diplomats in Paris were greatly surprised at the Soviet attitude. They felt there was little chance of agreement until the Soviet Union had agreed to table the plan forward at the talks ten days ago.

Czech jailed as UK 'spy'

A Czechoslovak Robert Neufuss was jailed for 18 months for espionage in the United Kingdom.

Neufuss was arrested in London last year after being found with a large quantity of secret documents relating to the Czechoslovak Government.

He was charged with passing on information to the United Kingdom about the Czechoslovak Government's plans for the future.

Neufuss was found guilty of espionage and sentenced to 18 months in prison.

Sir John Hunt leads rescue in Alps

THREE MARRONED ON PEAK

SIR JOHN HUNT, leader of the first Victoria Mount Everest expedition, rescued three men who were marooned overnight in a blizzard on the 19,800-ft. Alpha peak in the Himalayas.

Sir John, who is president of the British Alpine Club, headed a rescue party of eight men.

The marooned climbers were two British and one American. They had been trapped in a blizzard for several days.

Sir John's party found them on the Alpha peak, which is a subsidiary peak of the main mountain.

Queen to award honours in U.S.

The Queen will hold an audience in Washington to award honours to American citizens who have made significant contributions to the United States.

The honours will be awarded to a number of individuals in various fields, including science, literature, and public service.

The ceremony will take place at the White House in Washington, D.C.

U.S. TANKS GOING TO JORDAN

Display of arms for security

AMERICA has agreed to send Patton tanks to Jordan. It was learned in Washington yesterday.

The shipment will be forwarded under the new military aid programme for Jordan established last year.

State Department officials said the United States and Jordan are anxious to see a "solidification" of the Jordanian army.

The tanks will be used for security purposes in Jordan. The United States is providing the tanks as a gesture of goodwill.

Hunt for Suddese raiders

British troops are hunting for Suddese raiders in the Sudan.

The raiders have been active in the region, attacking British convoys and settlements.

The British Government has sent a large force of troops to the Sudan to deal with the raiders.

The raiders are believed to be members of the Sudanese National Army.

DOUBTS ON SURPLUS

Postal revenue

There are doubts about the government's surplus, particularly regarding postal revenue.

The government has announced a surplus for the current year, but some analysts are skeptical.

They point to a decline in postal revenue as a major concern.

The government is expected to release more details about the surplus in the coming months.

300,000 at the dykes

More than 300,000 people are gathered at the dykes in the Netherlands.

The gathering is a protest against the government's policy on the dykes.

The protesters are demanding that the government take more action to protect the dykes.

The gathering is expected to last for several days.

Dr. Jagan back in office

Dr. Jagan has returned to office as the Prime Minister of Guyana.

He was elected in a landslide victory in the recent general election.

Dr. Jagan has promised to continue the policies of his predecessor.

He is expected to take office in the near future.

W. Pakistan Governor

The Governor of West Pakistan has announced a number of appointments.

The appointments include several new members to the provincial assembly.

The Governor has also announced a number of new government projects.

The appointments are expected to take effect in the coming weeks.

INDIVIDUALS IN APPROACH TO FITTINGS

ROBINA VISCONTI contributes the fourth in her eight-part series on the "Revolution in the Kitchen" — the use of electrical fittings and appliances — concentrating on refrigerators, and mixers.

IMPORTANT in the planning and layout of your kitchen is the choice of the appliances which you bring into it. Make a skillful contribution to the ease and convenience of all your kitchen operations.

Even if you cannot alter the shape of the room, the position of the wall or the individual household, can make the kitchen your personal workroom by choosing appliances which suit your

storage of frozen household goods.

There is no need, however, for a kitchen to have a permanent humming in the background. The most successful kitchen should accept the noise of the refrigerator and mixer as a part of its normal routine.

There is also no need for a kitchen to be a noisy workshop. The most successful kitchen should accept the noise of the refrigerator and mixer as a part of its normal routine.

A waste bin with a pleasant pattern.

particular needs and preferences.

In your role as housewife you have chosen to bring the time to shop intelligently. You are looking for a fresh, both of the kitchen, and of the refrigerator, and of the mixer, and of the storage bin.

Although in building a kitchen you have chosen to bring the time to shop intelligently. You are looking for a fresh, both of the kitchen, and of the refrigerator, and of the mixer, and of the storage bin.

At the time you make your choice you are also making your choice of a refrigerator.

There are three types of refrigerator: the upright, the chest, and the built-in.

Each has its own advantages and disadvantages. The upright is the most common, and the most convenient.

The chest is the most spacious, and the most convenient for the kitchen. The built-in is the most attractive, and the most convenient for the kitchen.

The upright is the most common, and the most convenient. The chest is the most spacious, and the most convenient for the kitchen. The built-in is the most attractive, and the most convenient for the kitchen.

The upright is the most common, and the most convenient. The chest is the most spacious, and the most convenient for the kitchen. The built-in is the most attractive, and the most convenient for the kitchen.

Modern mixing machine really is a cook's best friend...

JUST could not be without my electric mixer. It is the typical remark of any proud owner and it can be so expensively. If you have not got one, "father a luxury", you might like to consider your own. Perhaps one thing is certain, whether it cuts your footwork depends on what you put into it, but, apart from saving a lot of time and trouble, it can increase your standard of living beyond all recognition.

Christmas time when the price of goods almost is double that of the whole mass and one of the most effective it was when she dropped it in a whole unseasonal way. I look back at it with a smile, because it produced a smooth home to produce a smooth home.

Extra attachments, cover practically all branches of food preparation and their names are self-explanatory: the juicer, the peeler, slicer and shredder, the chander and slicer, the grater, the mixer and the mixer.

To sum up, if you can buy an electric mixer, buy one and you will never regret it. It takes all the drudgery out of cooking and makes it possible for you to produce the most excellent dishes with the minimum of effort.

It will suit practically everything but clean the stove and put the cat off. If the budget does not run to a purchase of the larger mixer think carefully before investing in a small hand mixer which is very expensive in comparison and lacks one of the prime advantages of the larger machine — the benefit of being able to mix a cake and do another job at the same time.

Butter, mixed in the liquidizer, which can be bought in quarters and lacks one of the prime advantages of the larger machine — the benefit of being able to mix a cake and do another job at the same time.

Butter, mixed in the liquidizer, which can be bought in quarters and lacks one of the prime advantages of the larger machine — the benefit of being able to mix a cake and do another job at the same time.

Glass doors prevent that 'sinking feeling'

(Continued from Page 19)

the best to keep them out of the refrigerator, a modern small gas unit is not only a convenience but also a safety feature. Washing the inside of the cabinet with a solution of bicarbonate of soda sometimes helps, but it is not as good as the best method is to empty everything out and have a handful of charcoal in the refrigerator for some hours.

PRICE POINT

All but the very small refrigerators are fitted with locking handles, an important feature in this country. The three-year guarantee period refers to the electrical refrigerating unit, and generally other parts of the refrigerator are guaranteed for 12 months only.

Natural fish is usually white, but there is some 'yellow' inside the refrigerator if you use a lead-glass door. The yellow color, red and fresh looking, while the glass is white, while the glass is white, many of the newer models in Nairobi in such a wide range of makes, sizes, designs and prices that a prospective pur-

The glass panels in this cooler prevent an ageing problem for the housewife.

chaser could spend day looking round and making comparisons. And talking of comparisons, it would not be surprising if some manufacturers are quietly double the published price in the United Kingdom?

This comparison is plain to anyone who notes the prices of certain numbered makes of cooler in the British magazines and the corresponding figures in the United Kingdom. The comparison is plain to anyone who notes the prices of certain numbered makes of cooler in the British magazines and the corresponding figures in the United Kingdom.

which you can pay up to £130. Between these extremes are a number of models in two- and three-plate sizes. The price for a cooker to suit the average family can be from £30 to £70. Many have an inner glass door fitted to the oven, although on very few of the models, sure it is a standard extra and only you can decide whether the cost doubled convenience is worth the extra 50/- on the price of your cooker.

If, like me, you are not one of those very astounded cooks with unshakable faith in a cooker's heat lines and temperature gauges, this glass door is worth your money. It is a sure way to keep your oven at the right temperature without any risk of your catching a cold or other ailment. There is more variety in cooker colors now and many are finished in the new 'modern' colors, a kind of sandy beige.

MANY COLOURS

The normal width of the hot-top top of an electric cooker is 21", but some are now being made only 18" wide to fit in the smaller modern kitchen. Oven sizes vary a great deal and I would advise anyone going out to buy a cooker to measure up, for comparison, the size of the oven in a model they have used or know well.

The gas-fitted gas models come with steel, but they come in little under one color than in an oven top has used. The larger capacity models of 21" capacity seem to be the weight of the top of an electric cooker is 21", but some are now being made only 18" wide to fit in the smaller modern kitchen.

WIDE RANGE

The wide range of models in the United Kingdom is a reflection of the fact that the rate of population growth in the United Kingdom is one of the highest in the world. The wide range of models in the United Kingdom is a reflection of the fact that the rate of population growth in the United Kingdom is one of the highest in the world.

IT HOLDS SO MUCH...

...that's one reason why the Electrolux refrigerator is ideal for the larger household. It's available in both 18 and 21 cubic foot models, and it's available in both 18 and 21 cubic foot models, and it's available in both 18 and 21 cubic foot models.

Points from the leaders

THE YOUNG AFRICAN PUBLIC HEALTH AND CARELESS RAPTURE

THE more important points than those of the East African continent during the past week are given below:

Bridging a gap

THE more important points than those of the East African continent during the past week are given below:

In the vortex

YUGANDA, AFRICA'S 17th country to gain independence, was still in the vortex of the transition period.

Before the Nairobi discussion took place, the President had been excluded, and must therefore rely on the official minutes for the accuracy of what went on after the fact. The record was approved as accurate in the House of Representatives before the copies were circulated.

Careless rapture

WHILE the general atmosphere of the general assembly was one of carelessness, the minutes of the Nairobi discussion were a study in soberness.

There is a double standard in the charge. It is not possible to have a good health service, possibly of health services, possibly of health services, possibly of health services.

What the patient has a right to expect is that the general assembly should be a study in soberness.

It is not possible to have a good health service, possibly of health services, possibly of health services.

Careless rapture

WHILE the general atmosphere of the general assembly was one of carelessness, the minutes of the Nairobi discussion were a study in soberness.

Thousands of miles...

...in a thick cloud of dust

A Vanguard Estate Car was driven by Lt-Col. W. Methys in the 1954 Geneva-Bonney Rally—2,300 miles of really tough going. Road was "rivers" and... continuously corrugated and sometimes extremely bumpy... innumerable crossings of river beds. "Thousands of miles in a thick cloud of dust." That was how the driver described it.

It did not affect the Vanguard Estate Car, Lt-Col. Methys writes: "The Standard Vanguard Estate Car finished as brilliantly as it had behaved throughout... the body is almost as new and still perfectly silent."
