

MAN IN A GLASS TOWER ENSURES THE HAPPY LANDING

JOHN HATTEN introduces the reader to the "man in the glass tower" who guides the great airflows into Nairobi and ensures the "happy landings".

The clouds were dense to 1,000 feet at Nairobi's Eastleigh Airport, but the seven jet fighters were almost ready to leave.

A Dakota was ordered to land at Nairobi West speaker was a police pilot for a landing.

Fifteen minutes' flying time away was a BOAC Argosy, Nairobi-bound for Katiba.

Responsibility for the safe landings and take-off of all these aircraft rested on one man, Mr. Peter Pounds, who is a bomber crew, sitting on the third floor of the Control Tower, 30 feet above the ground.

The situation during his work was typical of that on most days at Eastleigh, where an average of 25 air movements take place.

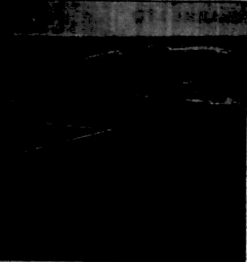

Mr. Pounds, like three other air traffic control officers who share the tower control tower duties, works for the East African Directorate of Civil Aviation, a High Commission service, and at Nairobi, looks after the safety of all aircraft, civil and military, within a definite radius of his post.

Low cloud, especially at this time of year, is just one of the day's worries, where spill-over landing and take-off are essential, combined with a clear brain and a good head for mathematics.

ERRORS FATAL

The air traffic control officer, on his own, not much more than those of a bank clerk, have an international certificate issued by the International Commission for Air Navigation, and a high standard of accuracy in their physical and mental faculties, which is essential for an air traffic control officer.

In their hands several lives may rest, and the safety of the lives of others, at once and

A GARDEN CITY...

"Nairobi: A Garden City" will be the theme of an illustrated article by FLORA WORTHAN in the Features Section next week.

It will deal with past and present attempts to make Nairobi a garden city, and will include plans for the future.

"The Sixth Victim of the 'Kibororo' Virus" will deal with the Kibororo virus which has been spreading in the Kibororo district.

MASTER PLAY

He studied the half-hourly forecast sent from the Central Forecast Office of the East African Meteorological Department, another High Commission service, which have been gradually improving conditions from cloud down to 1,000 feet. It had lifted to 1,500 feet by 11 a.m. and took visibility and barometric pressure to help him gauge the aircraft in and out of this window in the air.

The Mount Kenya had come into view in the south-east of the cloud cover.

COACH CLASS AIR SERVICE BETWEEN AFRICA AND U.K.

Fly with pleasure and nightstop leisure

Fly Safari!

Safari is not only the cheapest air service to the U.K., but it also offers by far the most comfort, interest, and enjoyment.

Safari, you see, is above all luxury and comfortable. It takes three days (only not too many hours at a time in the air), and it gives you two nightstops in places which other people pay small fortunes to visit. You do it in style, too—eating and sleeping in leading hotels with nothing extra to pay. You have time to go sight-seeing and exploring, time for a "good night out" if you feel like it, time to make friends with your fellow passengers and the crew.

And that is another important point: important especially to parents taking young children or sending them—the crew stays the same throughout the trip, and Safari crews are something special. Ask anyone who has already flown by Safari and you'll learn exactly why people say there's no friendlier airline.

ASTHMA ATTACK? For relief in 10 MINUTES - take EPHAZONE

Don't another day struggle with asthma, don't another day breathe with difficulty, don't another day suffer from the distress of an asthmatic attack.

When the dreadful onslaught of asthma descends you naturally want to take the quickest, simplest, most effective action to obtain relief. Just swallow one Ephazone tablet. In 10 minutes Ephazone starts acting to minimize the attack at once.

Ephazone acts four ways—softens the chest, relaxes the bronchial muscles, reduces congestion, reduces mucus secretion. No irritation of the lining is necessary. Ephazone causes less heart or digestion. In the contrary, a course of Ephazone improves your sleep, appetite and general health. Ephazone is also effective against Bronchitis and Bronchial Catarrh. Keep it handy always.

Prevent your asthmatic attacks of the night, and minimize the danger of an asthmatic attack.

'THE RAINS' AGAIN BUT WITH A MODERN SETTING

A CINEMASCOPE and colour production, which took two months to film in Hollywood and 7,000 miles away in India. The Rains of Heaven comes to the Capital Cinema next week. The story, based on Louis Bromfield's Pulitzer Prize winning novel 'The Rains Came', is not however a remake of the successful version filmed in 1939. The new production, scripted by Merle Miller, author of 'Honey West' and 'The Sure Thing', is set in modern India, with the original Bromfield characters against the background and problems of the current time.

The new version has kept given an all-star cast. With Lana Turner appearing in the role of Lady Marina Ekshara, Richard Burton as the Englishman, Indian Dr. Shiffa, the doctor, and the American missionary, Fred MacMurray is an American. The film also features the wife of Fern, daughter of an American missionary, and Michael Dennis in the role of the young girl. The story of a young girl's love and the story of a young girl's love and the story of a young girl's love.

KENYA HEALTH SERVICES HINDERED BY LACK OF DOCTORS Groundwork well done

KENYA'S Director of Medical Services, Dr. A. J. Walker, said that for 5,000 people there was only one doctor. He had been able to establish a primary care system in Kenya only to be compared with what was being done in other countries of West Africa to see what a good job had been done by the medical services in the Colony. Dr. Walker was speaking at the annual meeting of the British Medical Association (B.M.A.) at Mombasa on Wednesday.

People here lack the primary care which is granted, what was the medical service that was set up. The present system is a result of the fact that the Government has not been able to attract enough doctors to Kenya. All the 100 doctors who were recruited in 1948 are now leaving. The Government has to pay a high salary to attract them, but they are not staying. The Government has to pay a high salary to attract them, but they are not staying. Ruined crops a setback to tomato industry

A heavy frost in the Kenya tomato-growing industry, which has been a major export, has caused a setback. The frost has ruined a large portion of the crops, leading to a significant loss of income for the growers. The industry is now facing a difficult situation as it tries to recover from the damage.

Italian imports
The Italian government has announced that it will increase its imports of tomatoes from Kenya. This is a positive development for the industry, as it provides a new market for the growers. The Italian government has expressed its interest in the high quality of Kenyan tomatoes.

P. Deul was Trans N golf champion

The Trans-National championship was won by P. Deul on August 22nd when he defeated K. Kibwe in a final which was played in the most perfect conditions and which had reached long hours of arduous play by the end of the day.

Deul, who is a member of the Nairobi Golf Club, was the only player to have won the title in the past five years. He had previously won the title in 1947, 1948, 1949 and 1950. He was defeated in 1951 by K. Kibwe, who was the runner-up.

Deul's victory was a surprise to many of his fellow players, as he had not been in the best of form recently. He had lost several matches in the past few weeks.

NYERI UNEXPECTEDLY DEFEAT K.G.S. TEAM

Shortage of low handicap players

LAST week's Nyeri entertained members of the K.G.S. when a match over two days was played. There were seven couples in each side and 18 holes, four balls, were played on the Saturday afternoon and the Sunday morning.

The course was in fine shape and Nyeri had an unexpected win of 10 matches in 14 days. Many members of the K.G.S. congratulated the Nyeri captain, Mr. L. Adams, on the state of the course.

It was a most enjoyable week which finished with a lunch at Nyeri Club. The Nyeri team is strong on low handicap players, but it has many players of between 10 and 14 handicaps who are good fighters in such play.

Tables turned

It was definitely a surprise on the Saturday afternoon when Nyeri returned a win of 10 matches in 14 days. Many members of the K.G.S. congratulated the Nyeri captain, Mr. L. Adams, on the state of the course.

West Kenya well beaten in Rugby match at Nakuru

By beating a West Kenya XV at Nakuru on Wednesday evening by 29 points to a goal, a penalty goal and four tries to three (4 try), Salisbury R.F.C. provided an attractive, open display. The first half contained few and less slippery they would probably have won by a considerable margin against a side that, for the most part, had little in the way of constructive play to offer.

It was very evident that Salisbury were confident of their first victory and had become accustomed to playing in a rain-soaked field. The rain was fresher at the end of a training session.

Before noon the game began with Kenya well beaten by the inability of Salisbury, Kenya.

REGISTRATION
D.V.A. LIC

MUCH regret that the Government has contributed to the registration of the D.V.A. Lic. by Mr. V. G. Matthews.

It is a pity to have to look at the Government's attitude towards the Kenya Institute at Nairobi, which is a body which would be able to handle the work of the Institute in a more efficient manner than the Government's own staff.

Nevertheless, I must respect the Government's decision. I am sure that the Government will be able to handle the work of the Institute in a more efficient manner than the Government's own staff.

Whichever way you look there's something for YOU in SUPERSHELL with I.C.A.

If you have a modern car its performance will be improved greatly by using Supershell with I.C.A.—knock-free power at every stage of running plus the extra engine smoothness which I.C.A. gives. Consequently more efficient use of fuel will offset the higher price as you will get noticeably more miles per gallon.

Even if your motor car is an older model you will benefit by the revitalizing effect of Supershell with I.C.A. on your engine, and though the economy will not be so great as on a new model it will still be there.

Hygienic tea meat factory for the consumer

THE Airtel Meat plant of the Kenya Meat Commission, which began operation in 1956, incorporates the most recent advances in meat production and hygiene.

As an abstracter of wall-to-wall construction, the Airtel Meat plant is a model of hygiene. The air is filtered through a series of high efficiency filters, and the meat is processed in a completely hygienic environment.

The production of the abstracter is based on the latest system. Only the animal has entered the abstracter and the rest of the process is carried out in a completely hygienic environment.

Every care

From the moment the animal enters the factory premises it becomes the object of constant care, requiring careful investigation before any part of the carcass is processed.

The "meat" is labeled accordingly and then subjected to a careful clinical examination with microscopical facilities and at temperature treatment.

Another source of heating meat is the animal which is transported through transport to Airtel, due to the security of airline industry and veterinary services.

Two aspects of the "Garden City" scheme, the first being the improvement of the yield of the soil, and the second being the improvement of the yield of the plant.

IMPROVING YIELD OF THE SOIL

THE FERTILITY OF THE SOIL is the key to the success of any agricultural enterprise. The yield of the soil can be improved by the use of fertilizers.

These concentrated fertilizers contain all the essential nutrients for the growth of the plant. They are easy to apply and give a quick response.

These concentrated fertilizers contain all the essential nutrients for the growth of the plant. They are easy to apply and give a quick response.

QUIET REFUGE

Experimental work in the existing City Park has shown that grass planted into the soil through a thin layer of gravel will produce an excellent weather car park that does not suffer rapid deterioration.

Exploits of the wild

By Derek Coakley

A BOOK which captures completely the spirit of the wild, *Frontiers of Africa*, takes the reader from one hair-raising experience to another. The author, J. A. Hunter, whose previous exploits have been recorded in *Frontiers of Africa*, has produced the story of a year's adventures with a minimum of adventure as he has been gripped by the early hours.

The book which you will read and which will give you a sense of the wild and the excitement of the hunt, is a book which is a must for every man who is interested in the life of the wild. Not much fun, washing up
... is it?

But you'll appreciate how much easier it is when you get a STAINLESS STEEL SINK.

No awkward corners to hold dirt and grease - and no straining or shoving to break away either.

It's unnecessary what a difference a STAINLESS STEEL SINK makes.

We have in stock a comprehensive range, with single and double bowls, from 22 to 32 7/8 in. in length.

TURN AWAY FROM THOSE OLD TASKS

ROMBERA WIFE contributes the main part of the household work in the kitchen, and she has a lot of work to do that for cooking.

WE think of the kitchen primarily as a place where food is prepared and cooked, and where the refuse and debris is disposed of. But in most homes the kitchen is also the place where the family clothes and linen are washed and it is in the place where numerous small, vexatious jobs are polished.

Each operation covers a great part of the day, and the woman who is responsible for the work is bound to be very busy in her last of equipment they would like to have.

Many machines of all types have come to the market since the first of the year, and the first of the year was imported in 1931.

Like cookers, these machines are in the category of the "new" and "old". You can get a machine to take a dish and wash it, or a machine to wash a dish and a glass, or a machine to wash a glass and a cup, or a machine to wash a cup and a saucer. They are all made for another purpose, and they are all made for another purpose.

FLOODS NOT NEEDED
All the modern washing machines are fitted with a control which is so simple that it is possible for a child to use them. Some of the machines are fitted with a control which is so simple that it is possible for a child to use them.

DOUBLE DUTY
It was an electric boiler in Britain and with a home-made wooden rack in the bottom it did double duty as a sterilizer for fruit and vegetables.

The motor is a simple one, and it is so simple that it is possible for a child to use them. Some of the machines are fitted with a control which is so simple that it is possible for a child to use them.

One of the latest machines, a laundry mangle, is a machine which is used for pressing clothes. It is a machine which is used for pressing clothes. It is a machine which is used for pressing clothes.

METAL BASKET
This is the most useful machine at present being imported in Kenya. It is a machine which is used for washing clothes. It is a machine which is used for washing clothes.

with less effort than when using the normal dry iron. The clean iron has a famous household firm since 1877. The same maker has a new pattern which is not intended for large carpet areas but is particularly suitable for flat ironing in the home. This can be set on any table and it can be used in any room.

A general view of the "operating theater" of a modern household. Below the table of the housewife are the latest and most modern for getting a clean home.

Women's group

Women's group in ad of kitchen

FROM A "HOUSEWIFE'S" perspective... ONE of the signs of the changing times is the space now devoted by recent newspapers to articles in *The Economist* magazine to spend a considerably larger sum of money on equipping the kitchen than in ornamenting the sitting room. In *The Times*, *Illustrated*, and *The Worker*, there are articles and columns devoted to the kitchen, and it is not unusual to find a woman who has been in the kitchen for years, but who has never before seen a modern kitchen, or who has never seen a modern kitchen, or who has never seen a modern kitchen, or who has never seen a modern kitchen...

Working woman. The kitchen and the woman are the main theme of the advertisement. She is shown in a modern kitchen, looking towards the camera. The kitchen is equipped with modern appliances and fixtures.

Time comparison

In a newly well designed kitchen it is not surprising to find that the same work, without being too tired, can be done in half the time. In a badly designed modern kitchen it takes two and a half hours. There is no difference in the amount of work to be done, but the difference is in the way it is done. The time comparison is a very real one. It is not only the time taken to do the work, but the time taken to get the work done. The time comparison is a very real one. It is not only the time taken to do the work, but the time taken to get the work done.

Easy access

This sink will appeal to the housewife, but the following features, in addition to the easy access, are of great importance. The kitchen should be easily accessible not only to the housewife, but also to the family. The front door, and the bottom window, without having to go through the living room, should be easily accessible. The kitchen should be easily accessible to the family. Choice of six

Before deciding the inside of the kitchen, one must decide what kind of kitchen is wanted. A recent one of latest fashion is a kitchen with six different types of material. The kitchen is a central point to full living-room kitchen open to English farm house. Two of these

Many married people believe that, if they do the utmost to make a wife of their present wife, she will eventually pay them back in kind. This is often true, but not always, when the wife is a wife of Letters of Administration. As a letter-writer, often a newly set-up woman, it is only common prudence to make a will, which you use of course about as any time. The important task of executor, you cannot do better than appoint Barclays Bank D.C.O. as your Trustee. Barclays Bank has had many years' experience in this type of work: it will act as overseer and administrator, and they take a very real and sympathetic interest in the cases entrusted to them. STARK'S GIANTS KHS MIND

MOTOR - A.K. Starting with the Motor which recently won the Motor Grand Prix and finished for the first time in the world's greatest motor racing was won handily in time with a 2:14.8. On October 10, he will be on his way to the altar.

The girl who made him think of the altar was the beautiful Katherine Mansfield, a Canadian lawyer's daughter, who flew from her native Canada to be with him in the States.

The date and venue for the wedding are still to be settled, but it is already clear that it will be one of the biggest London weddings of the year. There will be about 500 guests.

The honeymoon will be spent in the States, where the couple are having built a small home, plus a motor car, on Long Island.

Meanwhile Miss Mansfield is working as a holiday relief at a London office led by her father, and his father.

Cricketer engaged

Another girl engaged to a famous sportsman is Lennox Harvey, a cricketer at Guy's Hospital, London. But she will not be with him for a year or so.

Harold de laun, Crick. The cricketer over whom Crick at Guy's Hospital was engaged to Lennox Harvey.

After a holiday in the South of France, the cricketer will be in the South Africa field month in the next few days.

She met Crick four years ago when, at 17, he was the youngest member to visit England with a Test team. They were partners of a Northamptonshire Cricket Club since.

Plan for your substitutes could make matches all-important

By DENICK JOHN

It is essential to have a plan for your substitutes in case of an emergency. This is especially true in the case of a game which is being played in a hot and humid climate.

The first thing to do is to have a list of substitutes ready. This list should include the names of all the players who are capable of playing in any position.

It is also important to have a plan for the substitutes. This plan should include the names of the players who are to be substituted in case of an emergency.

The substitutes should be kept in a cool and shaded area. This will help to keep them fit and ready for action.

I favour a separate ruling for goalkeepers from it is such a specialist position. In the last two F.A. Cup Finals we have seen the effect of injury to goalkeepers.

What is the best answer? I favour a compromise plan, with provisions for injured players only.

My suggestion: that substitute to be allowed for goalkeepers only in a match that other players may be replaced by a substitute, but only after a 15-minute period, of 15 minutes.

This would be a good idea. It would allow the manager to have a plan for the substitutes in case of an emergency.

A VERY few night-fallers to dance a large number of guests from attending the opening of the Green Door Club, at the invitation of the management. The Club's "patrons" Mrs. M. C. C. and Mrs. V. P. arrived with her husband and a small party. Guests had the pleasure of dining at the restaurant bar at one end of the premises, and the tables overlooking the dance floor at the other end of the premises.

The first night of the new club was a success. The band was seated. Attraction's public relations staff also set a soft glow over the dance room and enhanced the atmosphere of the many becoming guests who were the first to arrive.

The Green Door opens at 11:30 p.m. on Wednesdays, Fridays and Saturdays. The management is pleased to announce that the club will be open on a daily basis from 11:30 p.m. onwards.

There was a special purpose behind the garters, and the members of the Upper Kabete branch of the East African Women's League last week when Mrs. Colin Owens, the D.V.P., announced the winners of the garter-making competition.

The purpose was to raise funds for the Veterinary Laboratory Society and West House and also to help the members of the branch had decided to set up a fund for the purchase of a new building for the society.

It is for this very reason that millions of copies of the "Aspro" garters were made, and the members of the branch had decided to set up a fund for the purchase of a new building for the society.

£40,000,000 FILM PROGRAMME
 Nairobi and distributed the taste for cinematograph entertainment. The appetite would naturally have been whetted on Midday morning when a selected audience was invited to see a CinemaScope Special, The Day After Tomorrow, which introduced the mammoth programme of 23th Century-Fox's films for a 12-month period.

As a part of the major attraction in this period, the largest array of motion pictures from one company in almost 30 years was introduced in The Big Show by Sylvia P. Shaw, president of the corporation, and Buddy Adler, the executive producer.

THE first Hunt Ball sponsored by the Nairobi Sports Club and given in collaboration with the Westwood Ball Club and more than 200 people were present.

The Hunt Ball, C.S. G. Taylor and Mrs. D. C. S. Taylor were accompanied by Mrs. Taylor and Mrs. Fisher, the latter wearing a beautiful gown of the season.

MANTON'S 50th ANNIVERSARY BALL, given at the Grand Hotel, Nairobi, on the 21st inst., was a most successful affair. The wife of Mr. W. J. Cox, who was in charge of the ball, was Mrs. Cox, who was in charge of the ball.

BRITISH COMEDY WITH A TANG OF THE SEA

A BRITISH comedy with a national flavor, "True as a Whistle," comes to the Theatre Royal, Nairobi, next week.

The film sets out to prove, in a not too serious manner, that the restoring tradition that based ocean routes across the world and made immortal such names as Prometheus, Drake and Raleigh has not perished.

The tradition lives on apparently in the veins of a plucky manufacturer of refined Particulate wool, who here completely ignores the fact that his product is made in India.

The film shows how Nelson sets that nautical instructions are not the enslavement of a young girl expects on her honeymoon.

Audience to select ending of naval drama

PICTURE review audiences will decide the ending of "The Sun Also Rises," Twentieth Century-Fox announced this week. Producer-director Lewis Allen, having directed "The Sun Also Rises," will direct "The Sun Also Rises," which is being directed by Lewis Allen.

HARLEQUIN FRUIT FLAN

Delicious fruit and nut... with morning Andrews

with morning Andrews

Every morning's a good morning when you feel fit and healthy. If you don't, then your system probably needs the help of morning Andrews. Just do this—

- Get out your tin of Andrews.
- Put one or two teaspoons into water and stir readily.
- Drink it as it effervesces.

Andrews cleanses the entire system—breaks the mucus and stagnates, settles the stomach and tones up the liver. Ladies, Andrews gently cleans out wastes and promotes healthy inner cleanliness. Here one teaspoonful corrects the most young people.

ANDREWS' FRUIT FLAN

...WITH INNER CLEANLINESS!

HOSE SHORT-NOTICE THE UNEXPECTED

FLORIDA INDIAN sometimes say "Whooah! Ho!" to the unexpected. It is the same with you.

Do come home and have supper with the crowd without a thought when they come in. You're thinking of the extra little. Of course, it's well. If you really haven't a thing in the house, usually an emergency prove that you have a few more respectable quarters or a kitchenette to be sure for a while the better.

Generally, however, there are not many of them. But you can be sure that you will be able to get a few more respectable quarters or a kitchenette to be sure for a while the better.

Profited with some things and followed a list by these and blouse or from food, there is no need to get a few more respectable quarters or a kitchenette to be sure for a while the better.

Apple Slice

If you are cooked with a general sauce, an electric range will be a good idea. You may prefer to try on the simple meal, but you will have an ample supply of food to be sure for a while the better.

A QUICK MEAL? Then start off right with TEX TON SOUPS 'SWISS-TOO GOOD TO MISS'

Success in the kitchen is an important commodity. It means, not only the word success, which may mean a lot of money, but also the word success, which may mean a lot of money, but also the word success, which may mean a lot of money...

Removes stains
When you wash starch add a splash of milk to the water which will prevent the color sticking to the fabric. For greasy stains wash with hand-spreaders and rub with salt water and soap while still very damp.

CATTLE MEASLES LAMP POSTS FOR

THREE of the leaders which appeared in the East African Standard during the past week are given below in up-country readers.

Measly meat

SOME very queer claims have been put forward by the Government which the gift of a measles vaccine delivered one morning last week by a resident of the East African Standard. The Kenya Meat Commission was going to do about 100,000 doses of measles vaccine in cattle glue out of the annual report on the Cattle Veterinary Service. So much attention has been directed to such a dangerous subject that the Government of the health of the country is especially the Africans whose raising of live-stock is their main business. The cycle of measles and influenza is not even widely known in our public opinion. The trouble into Kenya's industry is not so much enough in terms of cash loss, when 40 per cent of the stock on European farms and 60 per cent on African farms, the effects are more ominous. The Government has spent a great deal of money on the maintenance of the health of the stock, but the Government has not been able to prevent measles in cattle for several years. The Minister of the Interior has been authorized to prevent him re-entering the country after his visit to the States.

It is common knowledge that he appeared for the people of Kenya in London. The Minister of the Interior has been authorized to prevent him re-entering the country after his visit to the States.

Rule of law

MORE, perhaps, than any other body she, the Executive Council, has been the action taken against the Government. The Minister of the Interior has been authorized to prevent him re-entering the country after his visit to the States.

U.K. A KEY TO SUCCESS

in the farming community of Kenya, the Royal Show is the only exhibition of the kind in Africa. It will be held in London.

It is the Royal Show that offers the farmer an opportunity to see the changes made here in the last few years.

PROGRESS REPORTED FROM AFRICAN AREAS UNDER THE SWYNNERTON PLAN

HERE and there at the Royal Show will be seen something of African agriculture. The African farmer today, whether he runs a model farm by the area of high rainfall or a small one in the drier areas, is making steady progress. This is the result of the Swynnerton Plan, a policy of agricultural development which has been in force since 1954. It is the result of the Swynnerton Plan, a policy of agricultural development which has been in force since 1954.

MAJOR INVESTMENT IN AFRICAN AREAS UNDER THE SWYNNERTON PLAN

The major investment in African areas under the Swynnerton Plan is in the form of agricultural extension services. This is done through the Agricultural Extension Officers who are sent to the areas to advise the farmers on the best methods of cultivation and the use of modern agricultural machinery. The investment is also in the form of agricultural extension services. A message from the President of the R.A.S.K.

Mr. BRUCE MCKERIE, the President of the Royal Agricultural Society of Kenya, comments in this article on the significance of the Royal Show and the progress of development in Kenya.

"I am much honoured by the invitation to write a message to the readers of the R.A.S.K. Supplement.

Let me start by saying that I am probably the first President not to see this year's Show in Kenya and better than ever."

However, let me say a few words by saying that I think that it will be as good or even better than any other I have ever seen. I refer particularly to the agricultural exhibits.

Most of the exhibits from last year's Show have been placed back into Mitchell Park, as visitors will see. This is a very good idea, as it allows the public to see the progress of the Show's development. The exhibits are well displayed and the staff are very helpful. The Show is a very good example of the progress of development in Kenya.

Another feature of this year's Show is that the section of agricultural exhibits is very large. This is a very good sign, as it shows that the farmers are making progress. The exhibits are well displayed and the staff are very helpful. The Show is a very good example of the progress of development in Kenya.

BUY AN EXCITING NEW VAUXHALL!

Never before has a motor manufacturer been able to present such high performance cars at such economical prices. You will be amazed at the design and craftsmanship of these cars. Admire the roominess and finish, together with the remarkable road-holding qualities. Important new and exciting mechanical specifications have been incorporated into the engines, which makes General Motors' Vauxhall one of the finest, rugged automobiles on any road.

All cars are designed to cope with the entire family's luggage; what a joy to be able to sit in absolute comfort.

Livelier, cheaper to run, more comfortable and better looking, that sums up the 1957 Vauxhall CRESTA. For quick getaways and high cruising speeds you will want a CRESTA. The Vauxhall VELOX model is a practical motor-car you will find it a smooth and responsive car to handle - its fuel economy is remarkable.

Setting the style for years ahead, the Victor is a delightful car to drive, easy to park, and has outstanding petrol economy. It is an all-round vision, its roominess and sleek design. It's an amazing high-performance car which you won't want to miss.

FOR A POWERFUL, STURDY TRUCK... BUY A BEDFORD!

This impressive array of powerful and sturdy models is a more worthy successor to the proved and reliable "TA" range of previous years. Basically the same formidable size and matchless construction, the improvements make these Bedford's trucks of the year.
