Dialling 'more'
 A private telephone subscriber, who will have to pay double the present rate for long distance calls, says he will dial a long distance number every five cents from Nairobi to Kampala, Dar es Salaam and Mombasa up to 1000.

These are examples of the higher charges which the East Africa announced by the Postmaster-General on April 12, the result of the new structure cast in shadow last week because M.A.C. is to have a new tariff on December 1, was full of force. Despite his warning, both the private subscriber and the business interests.

When the current rates were laid down it was accepted that telephone service independent of the post office would have been introduced, and that the telephone service would have been subsidised out of the Government's pocket. It is estimated that the Government would have been self-supporting by the time the telephone service was introduced, and that the Government would have been subsidising it for the first 1000 miles. It is also estimated that the Government would have been subsidising it for the first 1000 miles.

LOOK OUT for your figure! Watch those waisting waists and skirts. Show off in Britain this year will be built round a sheath in a straight, tubular pose of fabric—plain!
The fashions for summer are being set in America, where the fashion long patronized by Paris, or the Bahamas is the sweeping, comfortable, slender and those same fashion-conscious women think they are not very well-looked after and pay for the designer's note that of last year's. You can travel in a sheath and, of course, if you're content, with a heavy blouse or coat, hand-knit cardigan, jersey jacket, also what is not intended to give the effect of a sheath. If you have the fishermen's mark, add the make-up for variety. Add the make-up for variety to some other "no-color" tippet. The hair, curled or straight. 75,000 men for 1960

A TOTAL of 150,000 young men are expected to be called up by the Colonial Office to help to put down the Mau Mau rebellion in Kenya. A Paris report said it was expected that the British Government would call up 75,000 reservists in 1960 to meet the need for troops to meet the Mau Mau rebellion in Kenya. The British Minister for Africa, Mr. Robert Gordon-Lindsay, said today.

5,724 dead

The men affected would be assembled within the next three weeks and drafted to Algeria with a delay of only three days. The men are to be trained in the French fighting battalions. The security forces were alerted in the past 100 miles and the Mau Mau troops were killed, had their arms and equipment destroyed. Official figures listed in Paris in the past 10 months show that 5,724 Mau Mau fighters had been killed. House approves Bill to reduce 'smog', COMBATING GRIT AND DUST

A BILL to reduce the pollution of air in London and other large cities in Britain has been passed by the House of Commons. It is the result of the outcry after the smog of December, 1952, which killed 4,000 people during a four-day period. The Bill bans the emission of dark, sooty dust from factories, and the use of certain stoves, subject to certain exceptions.

It orders the installation of grit and dust from all industrial plants to be reduced as much as possible. All factories are to be fitted with the latest smokeless stoves. The Bill also orders that certain specified exemptions. It will be an offence to emit smoke of any kind.

'Escape clause'
The Government has provided an 'escape clause' in the Bill which allows a factory to be exempted from the provisions of the Bill if it is not practicable to bring it into compliance. The Bill also provides that the Government may make such regulations as it may think fit for the purpose of giving effect to the provisions of the Bill. Overheard at the Royal Bar

R.R.F. Well, what's your impression of Star?

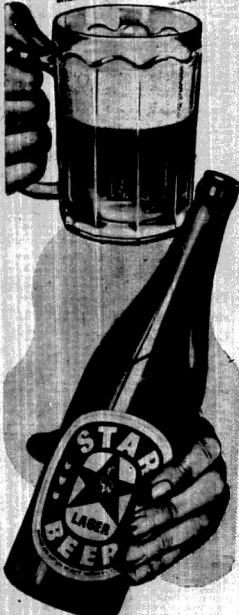

M.E.H. I like it. Of course, it's a little early to tell. Everything that's new is good for a while but trying new is worth trying.

R.R.F. Oh, it'd go a lot further than that. I like the Club, we've had quite a beer to suit everyone we found it at of trouble lately - trying to find a beer to suit everyone - anyway.

M.E.H. And now you think you're a trial? I think you're a Committee to order a dozen cases of STAR for a trial run. I think it'll go down well.

R.R.F. In more ways than one. "Some that you're already had. How about another."

M.E.H. Don't mind if I do. . . .

MISS KELLY WILL SEE WEDDING GIFTS TODAY

Three palace rooms claimed

THREE rooms in Monaco's Royal Palace, claimed for a wedding gift, will be unlocked by Prince Rainier today when Miss Grace Kelly arrives in Geneva to board the liner Constitution. Her arrival will be the signal for the announcement of the wedding arrangements, which have so far been kept secret.

And for the wedding gifts to go on show.

The prince has had a gold and silver frame in which a portrait of his bride and groom worked. The picture frame is to be the gift of Americans in Monaco, and was presented by the young of every American in the photograph of the prince and his bride and his bride to a church guard.

Present from Queen

The prince has sent a present to Prince Rainier and Princess Grace for their wedding. The present is a Balthus painting of the prince and princess, which was presented yesterday. He did not disclose what the present was, but it is believed to be a painting of the prince and princess.

DRIVERS WARNED TO TAKE CARE

Due to heavy rain, drivers are warned to take particular care during the night. The roads are very slippery and drivers are advised to take extra precautions.

LAST CHANCE FOR VILLA TO ESCAPE RELEGATION

Nondescripts discover a goal kicker

A FEATHE of the recent victory over Mchukwa by ten goals, a penalty goal and two tries (90 points) to a penalty goal (10 points) was the excellent kicking of Pullen.

He scored four of the 12 tries, and kicked 100 per cent of the 10 penalties. In addition to the ultimate try, he also scored from free kicks. Villa's last Nondescript goal was a penalty goal, which added a further 20 points to the team total to win the match.

Although Pullen had scored the winning try, it was the penalty goal which was the key to the victory. Villa's last Nondescript goal was a penalty goal, which added a further 20 points to the team total to win the match.

South African racial policy 'ruthless' STAND BY CHURCH URGED

FATHER TREVOR HUBBARD, the Anglican priest and outspoken opponent of the racial segregation policy, said in London on his arrival from Africa that he was 'shocked' by the South African Government. He held reports at a television Press conference: 'I do not want them to walk out, I would like it to happen before this.'

Questioned as to his attitude towards the Government's racial policies, the former Johannesburg missionary said: 'I believe it is most necessary that the present Government in South Africa should be dissolved and the British to take over the position of Prime Minister of the Republic of South Africa.'

Greater hardship He said that South Africa's racial policies had been consistent for a long time. But since the present Government had come into power, it had applied them with more ruthlessness and with much greater hardship to the African people.

'This immensely powerful and ruthless pressure from the Government could result in the starvation of a large number of the people, the white as well as the black, the latter in particular. I believe it is most necessary that the present Government in South Africa should be dissolved and the British to take over the position of Prime Minister of the Republic of South Africa.'

He added: 'South Africa is a sovereign, independent country and should have a responsible Government. I believe it is most necessary that the present Government in South Africa should be dissolved and the British to take over the position of Prime Minister of the Republic of South Africa.'

Atomic research 'It is the only country in Africa which has developed atomic research. I believe it is most necessary that the present Government in South Africa should be dissolved and the British to take over the position of Prime Minister of the Republic of South Africa.'

Letters to the Editor COUNCIL REPLEAS TO CRITIC OF SQUARE SERVICES

THE letter from Mr. O'Connell refers to a meeting in which Mayor's Parkin at which there was an "unpleasant assurance" that sufficient of Government funds to serve the business (Cargos House) would be forthcoming. It is completely incorrect to say that such an assurance was given.

European leadership AS a shareholder of the continental and general policies of European political parties in this country, I do not see how Mr. O'Connell's criticism can be sustained.

Whether we like it or not, it is a fact that the African people are not yet ready to take any responsibility for their own government.

MINISTER ON REPUBLIC South African Minister of Defence, Mr. J. G. Strijdom, Cape Town last night that it is his intention to visit the United Kingdom before his arrival in South Africa.

He added: 'South Africa is a sovereign, independent country and should have a responsible Government. I believe it is most necessary that the present Government in South Africa should be dissolved and the British to take over the position of Prime Minister of the Republic of South Africa.'

Atomic research 'It is the only country in Africa which has developed atomic research. I believe it is most necessary that the present Government in South Africa should be dissolved and the British to take over the position of Prime Minister of the Republic of South Africa.'

means of achieving this unless the government is based on prevention and abolition of the federal Government. I believe it is most necessary that the present Government in South Africa should be dissolved and the British to take over the position of Prime Minister of the Republic of South Africa.'

What of those who are likely to remain without their jobs, even after repairs have been effected on Mauritius or Cista?
European and Asian have asked frequently by increasing numbers, but only the Government should be responsible for their respective communities. I believe it is most necessary that the present Government in South Africa should be dissolved and the British to take over the position of Prime Minister of the Republic of South Africa.'

Cost of rice WEN I read of a rice paddy in the Province of the Province, I was glad to see that the Government was taking steps to reduce the price of rice. I believe it is most necessary that the present Government in South Africa should be dissolved and the British to take over the position of Prime Minister of the Republic of South Africa.'

I believe it is most necessary that the present Government in South Africa should be dissolved and the British to take over the position of Prime Minister of the Republic of South Africa.'

African housing THE Government's housing programme is a most commendable one. I believe it is most necessary that the present Government in South Africa should be dissolved and the British to take over the position of Prime Minister of the Republic of South Africa.'

MAKEREMER STUDIES EXTENSION LIKELY

Extra-mural appointment

By DIANA NIELSON
The extension of the extra-mural work of Makerem College within East Africa is foreseen by the appointment of Mr. I. J. Colman as director of the Department of Extra-Mural Studies at the College. So far the work of this department has been confined to Uganda, where steady progress has been made over the past two years. It is already planned to extend the extra-mural work to the Nyanza Province of Kenya, and it has been made a grant to establish an extra-mural tutor there. Mr. Colman is the first director of the extra-mural department, and he will be assisted by Mr. W. A. Harris, its first tutor, and Miss Laker-Brown, who was appointed last year to enable extra-mural work to be extended within the Makerem College in Kampala. Mr. Harris is working hard on the extension of the extra-mural work to other territories. It was stated at the college.

Picture Embroidery Offers Great Possibilities

By DIANA NIELSON
Picture embroidery is one of the most fascinating forms of work, offering great possibilities for the decorator at home. Any stitches can be used for this type of embroidery, but it is not necessary to know a large variety. In fact, the most famous piece of pictorial embroidery is the Bayeux Tapestry, which is 211 ft. long but nevertheless is made up of only three kinds of stitches.

Seasons of the year are a constant source of inspiration for the artist. The artist may be inspired by a scene or a feeling, or by a particular object. The artist may also be inspired by a particular scene or a feeling, or by a particular object.

COTTON SHOW GOES ON TOUR IN FRANCE

With the arrival of spring, two travelling shows take to the road. One is the Marcel Boussac all-cotton fashion show in France, featuring fabrics woven in one of M. Boussac's 36 cotton mills scattered throughout the country. The second series of presentations, scheduled to tour 118 cities between now and June 9, is destined to show the public that France, as well as the United States and other countries, can turn out good men's produced clothes at popular prices.

The new collection comprises 140 models, designed by 10 different French designers. These models feature light-colored fabrics, high-waisted jackets, and long-sleeved shirts. The collection is a departure from the traditional dark colors of the winter season.

APARTHEID 'ECONOMIC SUICIDE' British defence of Union critic.

THE Daily Telegraph main- tained yesterday that Father Trevor Huddleston, the Anglican priest who is now in London, almost certainly represents the prevailing temper of British opinion in his fight against apartheid in South Africa.

The newspaper was commending the programme of Huddleston by Mr. Eric Lamer, the South African External Affairs Minister. The editorial pointed out as a disconcerting feature to the economic and political life of South Africa.

Less temper Mr. Lamer said that the South African Government of Mr. Lamer would have been attacked by Father Huddleston with less temper and more force.

How much attention Mr. Lamer's aunt about the being, conditions of a white man, East End and in our ports?

On their position, even though it is not ours, we are entitled to hold views. Mr. Lamer has, in effect, been setting us to mind our own business.

Policy failure To many of us this has always been considered a kind of economic suicide.

Progress in Africa impresses trusteeship office Hamlet swept away by tornado

THE growth in all the territories has made a big impression on an Under-Secretary of the United Nations Trusteeship Council, Mr. B. A. Cohen, who visited Tanganyika last week. He said that the growth was proceeding at a tempo which most people, not directly connected with the territories, did not realize.

Mr. Cohen said that anyone who was a friend of humanity must welcome the progressive trends in the lives of African territories. "The something which will be of service to mankind as a whole."

The increasing trend of progress was due to the fact that more and more people were directly participating in the economic and political life of the countries of Africa.

Mr. Cohen said that anyone who was a friend of humanity must welcome the progressive trends in the lives of African territories. "The something which will be of service to mankind as a whole."
